## MEMBERS OF THE PUBLIC CAN ADDRESS COUNCIL IN THE FOLLOWING WAYS

Council generally meets every second and fourth Tuesday of the month at 7.00 pm in the Council Chambers.

### Addressing the Council on Business Paper matters

If there is a matter on the agenda you would like to discuss or address, you can contact Council prior to the Ordinary Meeting of Council and request permission to address Council in relation to the matter. Notice of this must be given by 12.00 noon of the day of the meeting. Any requests for detailed information regarding an item on the Council Business Paper must be submitted by 12.00 noon of the day of the meeting.

### Notice of Motion via Councillor

You are able to lobby a Councillor to raise a Notice of Motion to have a matter considered by the Council at a future meeting.

### Petition

A petition can be presented to the Council through a Councillor. If you would like to present a petition to an Ordinary Meeting of Council, please contact one of the Councillors to arrange.

### Customer Request Management system

The Customer Request Management system (CRM) manages the processing of customer requests. Customer requests can be then easily responded to, allocated to responsible officers and checked. The system will automatically escalate requests that have not been actioned. To log a request, please contact Council's Customer Service Team on 02 6962 8100.

### Direct correspondence to the General Manager

You can write directly to the General Manager about your issue or concern via letter or email. You can contact the General Manager at [admin@griffith.nsw.gov.au](mailto:admin@griffith.nsw.gov.au) or to: The General Manager, PO Box 485 Griffith NSW 2680.

---

**ORDINARY MEETING OF GRIFFITH CITY COUNCIL  
TO BE HELD IN GRIFFITH CITY COUNCIL CHAMBERS ON  
TUESDAY, 25 JUNE 2019 AT 7:00 PM**

---

### MEETING NOTICE

Notice is hereby given that an Ordinary Meeting of Council will be held in the Griffith City Council Chambers, 1 Benerembah Street, GRIFFITH NSW 2680 on **Tuesday, 25 June 2019**.

Persons in the gallery are advised that the proceedings of the meeting will be recorded for the purpose of ensuring the accuracy of the Minutes.

Griffith City Council now supplies broadcast and on-demand audio of Ordinary Meetings of Council which may be broadcast via local media and an audio version of the Council Meeting is available on the Council website which can be listened to on a mobile device or PC.

Persons attending a Council meeting consent to the possibility that their voice may be broadcast to the public. Audio of Council Meetings cannot be copied, recorded, reproduced, reused or transmitted without the prior written consent of the General Manager.

Under the Local Government Act 1993, no other recording is permitted without the authority of the Council or Committee. Recording includes a video camera and any electronic device capable of recording speech.

Members of the public may address Council in relation to the items listed in this Agenda by contacting Council on (02) 6962 8100 by 12.00 noon on the day of the meeting.

The agenda for the meeting is:

- 1 Council Prayer and Acknowledgment of Country
- 2 Apologies and Requests for Leave of Absence
- 3 Confirmation of Minutes
- 4 Business Arising
- 5 Declarations of Interest
- 6 Presentations
- 7 Mayoral Minutes
- 8 General Manager's Report

Councillor Christine Stead attended the 23rd Shaheedi Tournament held over the long weekend and was asked on behalf of the Sikh Community and organisers to present Council with a plaque in appreciation of the support and sponsorship.

## **7 MAYORAL MINUTES**

Nil.

## **8 GENERAL MANAGER'S REPORT**

### **CL01 ADOPTION OF DELIVERY PROGRAM 2017/18 - 2020/21 INCORPORATING THE OPERATIONAL PLAN (BUDGET) 2019/20 AND THE LONG TERM FINANCIAL PLAN**

19/183

**RESOLVED** on the motion of Councillors Dino Zappacosta and Mike Neville that Council adopt the Delivery Program 2017/18–2020/21 incorporating the Operational Plan (Budget) 2019/20 and the Long Term Financial Plan, including approved amendments from submissions listed in Attachment (c) to the report and that membership to the Griffith Business Chamber (GBC) be suspended until such time that Council and GBC executive meet to discuss GBC's submission.

### **CL02 MAKING OF RATES AND CHARGES FOR THE PERIOD 1 JULY 2019 TO 30 JUNE 2020**

19/184

**RESOLVED** on the motion of Councillors Mike Neville and Glen Andreazza that:

- (a) Levying of Ordinary Rates and Charges for 2019/2020 Ordinary Rates.
- (i) That Council, having adopted its Operational Plan for the year commencing 1 July 2019 and after giving public notice in accordance with Section 532 of the Local Government Act, 1993 of its draft Operational Plan for the year commencing 1 July 2019 and after considering submissions concerning that Plan in accordance with Section 494 of the Local Government Act, 1993 hereby resolve to make and levy an Ordinary Rate consisting of a base amount percentage (minimum charge) and also an ad valorem rate for the residential, farmland and business categories of all rateable land in the Local Government Area as per the following differential rating mix per category:
- Residential - 35% base amount / 65% ad valorem amount levied
  - Business - 15% base amount / 85% ad valorem amount levied
  - Farmland - 14% base amount / 86% ad valorem amount levied
  - Farmland - Irrigable Intensive - 27% base amount / 73% ad valorem amount levied
- (ii) The percentage and dollar value of the base amount payable by the making

and levying of an ordinary rate for the residential, farmland and business categories is calculated to produce the following minimum base amounts of the total ordinary rate levy:

- Residential - 35% base amount / \$377.00 per rateable assessment
- Business - 15% base amount / \$415.00 per rateable assessment
- Farmland - 14% base amount / \$397.00 per rateable assessment
- Farmland - Irrigable Intensive - 27% base amount / \$1,028.00 per rateable assessment

(iii) An ad valorem amount for the various rating categories, including residential, farmland and business categories for all rateable land within the City for an ordinary rate commencing 1 July 2019 according to the following amounts:

- Residential (65% ad valorem rate) resulting in a dollar value of zero point zero zero six eight five zero (\$0.006850) cents in the dollar applied to the land value for all rateable lands within the residential category in the City based upon the land value at a base valuation date of 1 July 2016.
- Business (85% ad valorem rate) resulting in a dollar value of zero point zero zero nine one two two (\$0.009122) cents in the dollar applied to the land value for all rateable lands within the residential category in the City based upon the land value at a base valuation date of 1 July 2016.
- Farmland (86% ad valorem rate) resulting in a dollar value of zero point zero zero eight one one seven (\$0.008117) cents in the dollar applied to the land value for all rateable lands within the farmland category in the City based upon the land value at a base valuation date of 1 July 2016.
- Farmland - Irrigable Intensive (73% ad valorem rate) resulting in a dollar value of zero point zero zero nine two five six (\$0.009256) cents in the dollar applied to the land value for all rateable lands within the farmland (irrigable intensive) category in the City based upon the land value at a base valuation date of 1 July 2016.

(b) That Council, having adopted its Operational Plan for the year commencing 1 July 2019 and after giving public notice in accordance with Section 496(A) of the Local Government Act, 1993 and after considering submissions concerning that Plan, hereby resolve to make and levy a charge of \$25 per residential and business assessment and \$12.50 per residential Strata title assessment and \$5 per business Strata assessment in the urban area for the provision of Urban Stormwater Management Services.

(c) Waste Management Charges for 2019/2020.

(i) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 496 of the Local Government Act, 1993, a charge of three hundred and eleven dollars (\$311.00) for the provision of

domestic waste management services for each residence for which the service is available within the City and surrounding villages. Such charge to provide for the removal on a once per week basis of waste contained in one 240 litre mobile garbage bin from each separate occupancy, whether rateable or not.

- (ii) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 496 of the Local Government Act, 1993, a domestic waste service charge in respect of vacant residential land an annual charge of forty dollars (\$40.00) per assessment.
- (iii) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 496 of the Local Government Act, 1993, a charge of one hundred dollars (\$100.00) for the provision of domestic waste recycling collection services for each residence for which the service is available within the City and surrounding villages. Such charge to provide for the removal on a once per fortnight basis of recyclable waste contained in one 240 litre mobile garbage bin from each separate occupancy, whether rateable or not. For any new assessments for the service, the charge will only become effective upon the commencement of the service and will be charged on a pro-rata basis.
- (iv) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 501 of the Local Government Act, 1993, a charge of five hundred and forty eight dollars (\$548.00) per requested service for the year commencing 1 July 2019 for the provision of waste management services for each non-residential property for which the service is utilised within the City. Such a charge to provide the removal as requested on a once per week basis of waste contained in one 240 litre mobile garbage bin from each separate occupancy, whether rateable or not.
- (v) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 501 of the Local Government Act, 1993, a charge of one thousand three hundred and ninety seven dollars (\$1,397.00) per requested service for the year commencing 1 July 2019 for the provision of waste management services for each non-residential property for which the service is utilised within the City. Such charge to provide for the removal as requested on a once per week basis of garbage contained in a 660 litre mobile garbage bin from each occupancy, whether rateable or not.
- (vi) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 501 of the Local Government Act, 1993, a charge of two thousand three hundred and twelve dollars (\$2,312.00) per requested service for the year commencing 1 July 2019 for the provision of waste management services for each non-residential property for which the service is utilised within the City. Such charge to provide for the removal as requested on a once per week basis of garbage contained in an 1,100 litre mobile garbage bin from each occupancy, whether rateable or not.
- (vii) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and

levy, in accordance with Section 501 of the Local Government Act, 1993, a charge of two hundred dollars (\$200.00) for the provision of industrial/commercial waste recycling collection services for each requested service for which the service is available within the City and surrounding villages. Such charge to provide for the removal on a once per fortnight basis of recyclable waste contained in two 240 litre mobile garbage bin. For any new assessments for the service, the charge will only become effective upon the commencement of the service and will be charged on a pro-rata basis.

(d) Sewerage Rates and Charges for 2019/2020.

- (i) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 501 of the Local Government Act, 1993, a residential sewerage charge in respect of residential land an annual charge of eight hundred and fifty two dollars (\$852.00) per tenement.
- (ii) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, in accordance with Section 501 of the Local Government Act, 1993, a residential sewerage charge in respect of non-connected residential land within 75 metres of service, an annual charge of six hundred and sixty nine dollars (\$669.00) per assessment.
- (iii) That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy, the following charges in relation to non-residential properties, in accordance with Section 535 of the Local Government Act, 1993.

Sewerage charges for non-residential properties for the 2019/2020 year will be based on:

- Water Consumption (C)
- Sewer Discharge Factor (SDF)
- Annual Access Charge (AC)
- Sewerage Treatment Charge (STC)
- Trade Waste Administration Charge (if applicable) (TWAC)
- Trade Waste Usage Charge (if applicable) (TWUC)
- Trade Waste Discharge Factor (if applicable) (TWDF)

An annual sewer charge of eight hundred and fifty two dollars (\$852.00) for all chargeable properties connected to the Griffith City sewer system that has no water meter connection and has an estimated annual usage of less than five hundred kilolitres per annum (<500 kL). No consumption is chargeable. (CBD Area - Low).

An annual sewer charge of one thousand nine hundred and sixty five dollars (\$1,965.00) for all chargeable properties connected to the Griffith City sewer system that has no water meter connection and has an estimated annual

usage of greater than five hundred kilolitres but less than eleven hundred kilolitres per annum (>500 to <1,100 kL). No consumption is chargeable. (CBD Area - Medium).

An annual sewer charge of three thousand four hundred and twenty six dollars (\$3,426.00) for all chargeable properties connected to the Griffith City sewer system that has no water meter connection and has an estimated annual usage of greater than eleven hundred kilolitres per annum (>1,100 kL). No consumption is chargeable. (CBD Area - High).

An annual sewer charge of four hundred and seventy four dollars (\$474.00) for all non-residential properties not connected to the Griffith City sewer system that are within 75 metres of a water meter connection. No consumption is chargeable.

(iv) Access Charges (based on meter size):

An annual sewer access charge of four hundred and seventy four dollars (\$474.00) for all land rateable to the Griffith or Yenda water supply that has a 20mm connection.

An annual sewer access charge of six hundred and thirty six dollars (\$636.00) for all land rateable to the Griffith or Yenda water supply that has a 25mm connection.

An annual sewer access charge of one thousand and thirty five dollars (\$1,035.00) for all land rateable to the Griffith or Yenda water supply that has a 32mm connection.

An annual sewer access charge of one thousand five hundred and ninety nine dollars (\$1,599.00) for all land rateable to the Griffith or Yenda water supply that has a 40mm connection.

An annual sewer access charge of two thousand four hundred and seventy two dollars (\$2,472.00) for all land rateable to the Griffith or Yenda water supply that has a 50mm connection.

An annual sewer access charge of six thousand three hundred and three dollars (\$6,303.00) for all land rateable to the Griffith or Yenda water supply that has an 80mm connection.

An annual sewer access charge of nine thousand eight hundred and forty three dollars (\$9,843.00) for all land rateable to the Griffith or Yenda water supply that has a 100mm connection.

An annual sewer access charge of twenty two thousand and eighty three dollars (\$22,083.00) for all land rateable to the Griffith or Yenda water supply that has a 150mm or 200mm connection.

A sewerage treatment charge of one dollar and sixty five cents (\$1.65) per kilolitre.

(v) Annual Trade Waste Administration Charge:

An annual trade waste administration charge of one hundred and five dollars (\$105.00) for Category One properties.

An annual trade waste administration charge of one hundred and ninety eight dollars (\$198.00) for Category Two properties.

An annual trade waste administration charge of five hundred and sixteen dollars (\$516.00) for Category Three properties.

A trade waste treatment charge of one dollar and thirty six cents (\$1.36) per kilolitre.

(e) Water Charges 2019/2020.

That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020 it hereby resolves to make and levy the following charges, in accordance with section 535 of the Local Government Act 1993:

(i) Access Charges:

An annual water access charge of one hundred and thirty eight dollars (\$138.00) for all land rateable to the Griffith or Yenda water supply that has a 20mm connection.

An annual water access charge of two hundred and sixteen dollars (\$216.00) for all land rateable to the Griffith or Yenda water supply that has a 25mm connection.

An annual water access charge of three hundred and forty eight dollars (\$348.00) for all land rateable to the Griffith or Yenda water supply that has a 32mm connection.

An annual water access charge of five hundred and forty six dollars (\$546.00) for all land rateable to the Griffith or Yenda water supply that has a 40mm connection.

An annual water access charge of eight hundred and fifty two dollars (\$852.00) for all land rateable to the Griffith or Yenda water supply that has a 50mm connection.

An annual water access charge of two thousand one hundred and seventy five dollars (\$2,175.00) for all land rateable to the Griffith or Yenda water supply that has an 80mm connection.

An annual water access charge of three thousand three hundred and ninety nine dollars (\$3,399.00) for all land rateable to the Griffith or Yenda water supply that has a 100mm connection.

An annual water access charge of seven thousand six hundred and fifty dollars (\$7,650.00) for all land rateable to the Griffith or Yenda water supply that has either a 150mm or 200mm connection.

An annual water access charge of two hundred and sixteen dollars (\$216.00) for all land rateable to the Yenda water supply that has a dual connection (one raw meter and one potable meter regardless of meter size).

An annual water access charge of one hundred and thirty eight dollars (\$138.00) for all land rateable to the Griffith or Yenda water supply that is

within 225 meters of a water main and can be connected to that supply but is not connected. No consumption is chargeable.

An annual water access charge of two hundred and seventy six dollars (\$276.00) for all land rateable to the Griffith or Yenda water supply that is part of a neighbourhood or strata title development which has a shared meter. No consumption is chargeable.

An annual water access charge of four hundred and eighty six dollars (\$486.00) for all land rateable to the Griffith water supply that has a connection but is unmetered and has an estimated daily usage of less than one kilolitre per day (<1 kL), these being CBD (C1) properties. No consumption is chargeable.

An annual water access charge of nine hundred and nine dollars (\$909.00) for all land rateable to the Griffith water supply that has a connection but is unmetered and has an estimated daily usage of more than one kilolitre but less than six kilolitres per day (>1 - <6 kL), these being CBD (C2) properties. No consumption is chargeable.

An annual water access charge of two thousand nine hundred and seven dollars (\$2,907.00) for all land rateable to the Griffith water supply that has a connection but is unmetered and has an estimated daily usage of more than six kilolitres per day (>6 kL), these being CBD (C3) properties. No consumption is chargeable.

(ii) Consumption Charges:

A water supply consumption charge of seventy two cents (\$0.72) per kilolitre for all potable water supplied per rateable connection to the Griffith or Yenda water supply up to a maximum of two hundred kilolitres (200 kL).

A water supply consumption charge of seventy two cents (\$0.72) per kilolitre for all potable water supplied per rateable connection to crisis accommodation centres as determined by council.

A water supply consumption charge of one dollar and forty three cents (\$1.43) per kilolitre for all potable water supplied per rateable connection to the Griffith or Yenda water supply in excess of two hundred kilolitres (200 kL).

A water supply consumption charge of thirty seven cents (\$0.37) per kilolitre for all raw water supplied per rateable connection to the Griffith or Yenda water supply.

A water supply consumption charge of two dollars and fifty cents (\$2.50) per kilolitre for all potable water supplied from designated standpipes at Griffith and Yenda.

A water supply consumption charge of ninety cents (\$0.90) per kilolitre for all non-potable water supplied from designated standpipes at Griffith and Yenda. The rebate for an additional one hundred (100) kilolitres of free water for publicly accessible nature strips or reserves will be available for the 2019/2020 financial year.

(iii) Backflow Charges:

An annual backflow prevention testing charge of one hundred and forty four dollars (\$144.00) per medium or high risk testable backflow prevention device.

An annual backflow prevention rental charge of thirty six dollars (\$36.00) per rateable connection to the Griffith or Yenda water supply that has a testable 20mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of thirty nine dollars (\$39.00) per rateable connection to the Griffith or Yenda water supply that has a testable 25mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of fifty one dollars (\$51.00) per rateable connection to the Griffith or Yenda water supply that has a testable 32mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of fifty four dollars (\$54.00) per rateable connection to the Griffith or Yenda water supply that has a testable 40mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of sixty dollars (\$60.00) per rateable connection to the Griffith or Yenda water supply that has a testable 50mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of one hundred and ninety two dollars (\$192.00) per rateable connection to the Griffith or Yenda water supply that has a testable 80mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of two hundred and thirty seven dollars (\$237.00) per rateable connection to the Griffith or Yenda water supply that has a testable 100mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of three hundred and sixty six dollars (\$366.00) per rateable connection to the Griffith or Yenda water supply that has a testable 150mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of six hundred and three dollars (\$603.00) per rateable connection to the Griffith or Yenda water supply that has a testable 200mm medium-risk backflow prevention device.

An annual backflow prevention rental charge of forty five dollars (\$45.00) per rateable connection to the Griffith or Yenda water supply that has a testable 20mm high-risk backflow prevention device.

An annual backflow prevention rental charge of fifty seven dollars (\$57.00) per rateable connection to the Griffith or Yenda water supply that has a testable 25mm high-risk backflow prevention device.

An annual backflow prevention rental charge of sixty nine dollars (\$69.00) per rateable connection to the Griffith or Yenda water supply that has a testable 32mm high-risk backflow prevention device.

An annual backflow prevention rental charge of seventy five dollars (\$75.00) per rateable connection to the Griffith or Yenda water supply that has a testable 40mm high-risk backflow prevention device.

An annual backflow prevention rental charge of eighty one dollars (\$81.00) per rateable connection to the Griffith or Yenda water supply that has a testable 50mm high-risk backflow prevention device.

An annual backflow prevention rental charge of two hundred and twenty eight dollars (\$228.00) per rateable connection to the Griffith or Yenda water supply that has a testable 80mm high-risk backflow prevention device.

An annual backflow prevention rental charge of three hundred dollars (\$300.00) per rateable connection to the Griffith or Yenda water supply that has a testable 100mm high-risk backflow prevention device.

An annual backflow prevention rental charge of four hundred and eighty dollars (\$480.00) per rateable connection to the Griffith or Yenda water supply that has a testable 150mm high-risk backflow prevention device.

An annual backflow prevention rental charge of nine hundred and thirty dollars (\$930.00) per rateable connection to the Griffith or Yenda water supply that has a testable 200mm high-risk backflow prevention device.

(f) Interest on Overdue Rates for 2019/2020.

That whereas the Council has adopted the Operational Plan for the period commencing 1 July 2019 to 30 June 2020, it is determined that in pursuance of Section 566 of the Local Government Act, 1993 the interest rate for overdue rates and charges will be 7.5% as advised by the Office of Local Government.

**CL03 TRANSFER OF LICENCE AGREEMENTS FROM BRIAN AND PAMELA YOUNG AND THE OWNERS STRATA PLAN 79997 TO MATTHEW AND LYNNETTE KENNY AT 124-126 WAKADEN STREET, GRIFFITH**

19/185

**RESOLVED** on the motion of Councillors Simon Croce and Doug Curran that:

- (a) Council approve the transfer of the licence agreement for 22 car parking spaces adjoining 124-126 Wakaden Street, Griffith, (CP/SP79997) from The Owners Strata Plan 79997 to Matthew John Kenny and Lynnette Kenny from 8 May 2019.
- (b) Council approve the transfer of the licence agreement for 15 car parking spaces adjoining 124-126 Wakaden Street, Griffith, (1/SP79997 & 2/SP79997) from Brian James Young and Pamela Anne Young to Matthew John Kenny and Lynnette Kenny from 8 May 2019.
- (c) Matthew John Kenny and Lynnette Kenny pay all applicable costs and charges associated with the transfer of the licence agreements together with Council's Administration Fee, currently \$401.
- (d) The licence fees be charged in accordance with Council's adopted Revenue Policy, currently \$53 per space p.a. for the 2018/2019 financial year, in addition to rates and charges.
- (e) Council authorise the Mayor and General Manager to execute the transfer document on behalf of Council under the Common Seal if required.

#### **CL04 GRIFFITH REGIONAL SPORTS PRECINCT PROJECT**

19/186

**RESOLVED** on the motion of Councillors Dino Zappacosta and Mike Neville that:

- (a) That Council endorse the existing Proposed Plan Stage 1 for the Griffith Regional Aquatic Leisure Centre (GRALC) Development for the construction of a 50M Pool, amenities facilities, new plant room and associated landscaping to meet the requirements of the Griffith Regional Sports Precinct Project and associated funding agreements.
- (b) That Council endorse in principle the Future Aspirational Master Plan for the Griffith Regional Aquatic Leisure Centre.
- (c) That Council staff commence preliminary consultation with key stakeholders to assist in informing the detailed design requirements for the Project including the redevelopment of Westend Oval and GRALC Stage 1.

#### **9 INFORMATION REPORTS**

Nil.

#### **10 ADOPTION OF COMMITTEE MINUTES**

##### **MINUTES OF THE COMMUNITIES COMMITTEE MEETING HELD ON 21 MAY 2019**

19/187

**RESOLVED** on the motion of Councillors Deb Longhurst and Eddy Mardon that the recommendations as detailed in the Minutes of the Communities Committee meeting held on 21 May 2019 be adopted.

#### **11 BUSINESS WITH NOTICE – RESCISSION MOTIONS**

Nil.

#### **12 BUSINESS WITH NOTICE – OTHER MOTIONS**

Nil.

#### **13 COUNCILLOR QUESTION TIME**

Councillor Neville asked the following question:

**Given the timeframe since the recent federal election, is it appropriate that candidate corflute signage still stand on local and state government road reserves in this LGA?**

The General Manager, Mr Brett Stonestreet advised that it would not be appropriate for signage to remain and letters will be written to the candidates to request the removal.

Councillor Curran asked the following question:

**Mr Mayor, with today's announcement by the Premier in Coolamon for \$355M for drought relief and infrastructure investment for shovel ready projects, will Council consider applying for funds to help our community, such as possibly airport upgrades or funding for the CBD enhancement project?**

The General Manager, Mr Brett Stonestreet advised that Council would investigate and explore options for funding.

#### **14 OUTSTANDING ACTION REPORT**

19/188

**RESOLVED** on the motion of Councillors Mike Neville and Doug Curran that the report be noted.

#### **15 MATTERS TO BE DEALT WITH BY CLOSED COUNCIL**

In accordance with the Local Government Act 1993 and the Local Government (General) Regulation 2005, in the opinion of the General Manager, the following business is of a kind as referred to in Section 10A(2) of the Act, and should be dealt with in a part of the meeting closed to the media and public.

Set out below is Section 10A(2) of the Local Government Act 1993 in relation to matters which can be dealt with in the closed part of a meeting.

The matters and information are the following:

- (a) personnel matters concerning particular individuals (other than councillors)
- (b) the personal hardship of any resident or ratepayer
- (c) information that would, if disclosed, confer a commercial advantage on a person with whom the council is conducting (or proposes to conduct) business
- (d) commercial information of a confidential nature that would, if disclosed:
  - (i) prejudice the commercial position of the person who supplied it, or
  - (ii) confer a commercial advantage on a competitor of the council, or
  - (iii) reveal a trade secret
- (e) information that would, if disclosed, prejudice the maintenance of law
- (f) matters affecting the security of the council, councillors, council staff or council property
- (g) advice concerning litigation, or advice that would otherwise be privileged from production in legal proceedings on the grounds of legal professional privilege
- (h) information concerning the nature and location of a place or an item of Aboriginal significance on community land.
- (i) alleged contraventions of any code of conduct requirements applicable under section 440 of the Local Government Act 1993.

19/189

**RESOLVED** on the motion of Councillors Christine Stead and Glen Andreazza that:

- (a) Council resolve to go into closed council to consider business identified.
- (b) Pursuant to section 10A(1)-(3) of the Local Government Act 1993, the media and public be excluded from the meeting on the basis that the business to be considered

is classified confidential under the provision of section [10A(2)] as outlined above.

- (c) The correspondence and reports relevant to the subject business be withheld from access to the media and public as required by section 11(2) of the Local Government Act 1993.

Council resolved that members of the press and public be excluded from the meeting during consideration of the items listed below, and that discussion of the report in open Council would be contrary to the public interest.

**CC01 TENDER 17-18/19 CONSTRUCTION OF STORMWATER DRAINAGE & DETENTION BASINS**

Reason: Commercial Advantage 10A(2)(d)

**CCMM01 ALGWA NSW CONFERENCE - FORBES 29 JUNE 2019**

Reason: Security of Council 10A(2)(f)

**CCMM02 ADVICE RECEIVED FROM OFFICE OF LOCAL GOVERNMENT**

Reason: Personnel Matters 10A(2)(a)

Council closed its meeting at 7.33PM. The public and media left the Chamber.

**REVERSION TO OPEN COUNCIL**

19/190

**RESOLVED** on the motion of Councillors Christine Stead and Dino Zappacosta that open Council be resumed.

Open Council resumed at 7.51PM.

Upon resuming open Council the Mayor reported that the following resolutions had been made in Closed Council:

**MATTERS DEALT WITH IN CLOSED COUNCIL**

Councillor Rina Mercuri left the meeting at 7.32PM.

**CCMM01 ALGWA NSW CONFERENCE - FORBES 29 JUNE 2019**

19/191

**RESOLVED** on the motion of Councillors Doug Curran and Brian Simpson that Council approve Councillor Rina Mercuri to attend the ALGWA Executive Meeting in Forbes 28-30 June 2019.

Councillor Rina Mercuri returned to the meeting at 7.43PM. Brett Stonestreet and Shireen Donaldson left the meeting at 7.43PM.

**CCMM02 ADVICE RECEIVED FROM OFFICE OF LOCAL GOVERNMENT**

19/192

**RESOLVED** on the motion of Councillors Mike Neville and Rina Mercuri that Council engage Lonergan Research to undertake a Staff Survey during 2019.

Brett Stonestreet and Shireen Donaldson returned to the meeting at 7.46PM. Councillor Glen Andreazza left the meeting at 7.45PM.

**CC01 TENDER 17-18/19 CONSTRUCTION OF STORMWATER DRAINAGE & DETENTION BASINS**

19/193

**RESOLVED** on the motion of Councillors Simon Croce and Deb Longhurst that:

- (a) Griffith City Council accepts the revised tender submitted on 24 May 2019 by Hynash Constructions Pty Ltd for Tender 17-18/19 Construction of Stormwater Drainage & Detention Basins.
- (b) That Council endorse an additional \$140,000 to Job No 05546.0224 Detention Basin Works - Collina Farm 9 to allow the full scope of the Project to be delivered.

Councillor Glen Andreazza returned at 7.49PM.

There being no further business the meeting terminated at 7.53PM.

Confirmed: .....

### SUMMARY

Amendments made to the Local Government Act 1993 (LGA) in August 2016 by the Local Government Amendment (Governance and Planning) Act 2016 (Phase 1 amendments) provide for a model code of meeting practice (Model Meeting Code) to be prescribed by the Regulation.

Following an extensive consultation process, a Model Meeting Code has been prescribed under the Local Government (General) Regulation 2005 (the Regulation) and the existing meetings provisions of the Regulation have been repealed.

The new Model Meeting Code including proposed non-mandatory options and supplementary provisions was presented to the Council Meeting held 23 April 2019 with the following being resolved:

*RESOLVED on the motion of Councillors Dino Zappacosta and Simon Croce that:*

- (a) Council endorse the draft Model Code of Meeting Practice as attached to this report including highlighted options and supplementary provisions.*
- (b) The draft Model Code of Meeting Practice be placed on public exhibition 28 days and provide members of the community at least 42 days in which to comment on the draft Code.*
- (c) If any submissions are received, a further report be prepared for Council.*
- (d) If no submissions are received, the draft Model Code of Meeting Practice policy be considered as adopted by Council as at the date of the conclusion of the advertised exhibition period.*

An exhibition period was advertised from Friday 26 April 2019 to Friday 14 June 2019 with only one internal submission and no external submissions received.

The following staff submission is to be included in the Supplementary Provisions of the policy:

**Non-members entitled to attend Committee Meetings (i.e. other than Committees of the Whole)**

Members of the public who are not members of a Committee are entitled to attend Committee meetings as observers, only if the Committee permits. Attendance is by invitation from the Committee. Such persons are not entitled to move or second a motion, vote at the meeting, address the meeting and/or table documents unless otherwise determined by the Chairperson. (Addresses are limited to a maximum of 3 minutes).

## **RECOMMENDATION**

**Council adopt the draft Model Code of Meeting Practice including supplementary provisions as attached to this report.**

## **REPORT**

The new Model Meeting Code contains mandatory provisions that reflect the existing meetings provisions of the Act and update and enhance the meetings provisions previously prescribed under the Regulation to reflect contemporary meetings practice by councils.

It also contains non-mandatory provisions that cover areas of meetings practice that are common to most councils but where there may be a need for some variation in practice between councils based on local circumstances. The non-mandatory provisions also operate to set a benchmark based on what the Office Local Government sees as being best practice for the relevant area of practice.

Councils are required to adopt a Code of Meeting Practice that incorporates the mandatory provisions of the Model Meeting Code prescribed by the Regulation. Council's adopted Meeting Code must not contain provisions that are inconsistent with the mandatory provisions.

Council's adopted Meeting Code may also incorporate the non-mandatory provisions of the Model Meeting Code and any other supplementary provisions adopted by Council.

The draft Meeting Code of Practice including Supplementary Provisions is provided in Attachment (a) for adoption by Council.

## **OPTIONS**

### **OPTION 1**

As per the recommendation in this report:

Council adopt the draft Model Code of Meeting Practice including supplementary provisions as attached to this report.

### **OPTION 2**

Any other resolution of Council noting that Council's adopted Meeting Code must not contain provisions that are inconsistent with the mandatory provisions.

## **POLICY IMPLICATIONS**

The Model Code of Meeting Practice will replace Council's current Code of Meeting Practice Policy (GOV-CP-413).

## **FINANCIAL IMPLICATIONS**

Not applicable.

## **LEGAL/STATUTORY IMPLICATIONS**

Councils are required to adopt a Code of Meeting Practice that incorporates the mandatory provisions of the Model Meeting Code prescribed by the Regulation.

Until Council adopts a new a Code of Meeting Practice its existing Code of Meeting Practice will remain in force up until six months from the date on which the new Model Meeting Code was prescribed, (14 December 2018 – 14 June 2019). If Council fails to adopt a new a Code of Meeting Practice within this period, under transitional provisions contained in the Regulation and the LGA, any provision of Council's adopted meeting code that is inconsistent with a mandatory provision of the Model Meeting Code prescribed under the Regulation will automatically cease to have any effect to the extent that it is inconsistent with the mandatory provision of the Model Meeting Code.

### **ENVIRONMENTAL IMPLICATIONS**

Nil.

### **COMMUNITY IMPLICATIONS**

Members of the public have had the opportunity to provide submissions for consideration in relation to this policy during the public exhibition period.

### **LINK TO STRATEGIC PLAN**

### **SUMMARY**

Disclosures by Councillors and Designated Persons Returns for a recently recruited Compliance Officer is to be tabled at the meeting.

### **RECOMMENDATION**

**Disclosures by Councillors and Designated Persons Return for Council's Compliance Officer be noted.**

### **REPORT**

The Disclosures by Councillors and Designated Persons Returns for a recently recruited Compliance Officer is to be tabled at the meeting.

### **OPTIONS**

Councillors and designated staff are to comply with the requirements of the Model Code of Conduct in relation to disclosures of interest.

### **POLICY IMPLICATIONS**

Council's Code of Conduct Policy Part 4 Conflict of Interests.

### **FINANCIAL IMPLICATIONS**

Not applicable.

### **LEGAL/STATUTORY IMPLICATIONS**

The Model Code of Conduct for Local Councils in NSW - Disclosure of interests in written returns states:

- 4.21 A councillor or designated person must make and lodge with the general manager a return in the form set out in Schedule 2 to this Code, disclosing the councillor's or designated person's interests as specified in Schedule 1 to this Code within 3 months after:
- (a) becoming a councillor or designated person, and
  - (b) 30 June of each year, and

- (c) the councillor or designated person becoming aware of an interest they are required to disclose under schedule 1 that has not been previously disclosed in a return lodged under paragraphs (a) or (b).
- 4.22 A person need not make and lodge a return under clause 4.21, paragraphs (a) and (b) if:
  - (a) they made and lodged a return under that clause in the preceding three (3) months, or
  - (b) they have ceased to be a councillor or designated person in the preceding three (3) months.
- 4.23 A person must not make and lodge a return that the person knows or ought reasonably to know is false or misleading in a material particular.
- 4.24 The general manager must keep a register of returns required to be made and lodged with the general manager.
- 4.25 Returns required to be lodged with the general manager under clause 4.21(a) and (b) must be tabled at the first meeting of the council after the last day the return is required to be lodged.
- 4.26 Returns required to be lodged with the general manager under clause 4.21(c) must be tabled at the next council meeting after the return is lodged.
- 4.27 Information contained in returns made and lodged under clause 4.21 is to be made publicly available in accordance with the requirements of the Government Information (Public Access) Act 2009, the Government Information (Public Access) Regulation 2009 and any guidelines issued by the Information Commissioner.

**CLAUSE CL03****TITLE Rose Garden Update Report****FROM Shireen Donaldson, Director Economic & Organisational Development****TRIM REF 19/43792**

---

**SUMMARY**

Council approved the establishment of a Rose Garden Working Group at the Ordinary Meeting of 12 June 2018 to plan and design a Rose Garden on the Crown Reserve locally known as the “Exies Bowling Green” on Jondaryan Avenue.

Council originally approved a budget of \$124,000 at the Ordinary Meeting 27 March 2018 for this project based on an estimate of the establishment of garden beds planted with rose bushes, irrigation and rudimentary pathways with no significant infrastructure.

A draft concept plan has been prepared for Council (Attachment (a)). The draft concept plan has evolved significantly from the original envisaged rose garden and incorporates lawn areas for public use, shaded reflection areas, consideration of Wiradjuri heritage and accessibility from Jondaryan Avenue, the Visitors Centre and the carpark located at the Visitors Centre.

Detailed costings have not yet been sought as the plan is not finalised, however initial estimates assume the presented plan will cost in the vicinity of \$500-700k, depending on what final options are selected for the Garden.

Community consultation of the proposed design is also required and any variations to the draft plan following consultation will need to be incorporated into the existing design.

A significant variance to the original budget has not been allowed for in the 2019/20 Budget. To enable the draft concept (or a variation thereof following community consultation) it is suggested the following funding model of \$600,000 be considered by Council:

|           |                                                                                                                           |
|-----------|---------------------------------------------------------------------------------------------------------------------------|
| \$100,000 | Remainder of original 2019/20 Budget, less project design and quantity costing fees                                       |
| \$200,000 | Portion of the Notional Global Budget allocated to Central Business District (CBD) reallocated to the Rose Garden project |
| \$300,000 | Grant funding – yet to be identified or applied for                                                                       |

## **RECOMMENDATION**

- (a) **Council endorse, in principle, the Rose Garden draft concept design as prepared by CPS**
- (b) **Council require the Rose Garden Working Group to prepare a draft concept design for a Rose Garden with a scope of works with an approximate costing of \$300k and submit to Council for consideration**
- (c) **Council adopt, in principle, the funding model as described in this report**
- (d) **The Rose Garden project be further considered in the 2020/21 Draft Budget.**

## **REPORT**

Once established, the Working Group (comprising of local community members with a specific interest in garden design) met regularly and in the process of planning this open space, appointed CPS Landscape Designs to create a public space that complemented the surrounding CBD and also met a list of requirements the Working Group felt necessary to make an aesthetic garden attractive to both locals of, and visitors to, Griffith.

The Working Group has spent significant time with plant selections; ensuring tree varieties for the garden will be practical, attractive throughout the year and with consideration to root spread.

Minutes of the Working Group are presented regularly to the Business Development and Major Projects Committee and then to Council. The draft concept has been presented to Councillors at a Workshop, and to some Council Committees (CBD Working Group, Disability Inclusion and Access Committee and Business Development & Major Projects Committee).

To enable the construction of the new design, funding will need to be sourced from additional sources. Grant funding is the first option, however, an appropriate grant will need to be sourced, applied for and ultimately be successful.

As the project is located within the CBD, it is conceivable the global budget allocated for the rejuvenation of the CBD be accessed to supplement the construction of the garden.

A staging process for the project can also be applied, however this may add to the overall cost of the project.

Community consultation may also reveal changes are required to the draft concept and this may impact the final concept.

## **OPTIONS**

### **OPTION 1**

As per the recommendation.

### **OPTION 2**

Council require the Rose Garden Working Group to prepare a draft concept design for a Rose Garden with a scope of works with an approximate costing of \$300k, and that plan together with the current draft concept, be submitted to Council for consideration.

### **POLICY IMPLICATIONS**

Nil.

### **FINANCIAL IMPLICATIONS**

The proposed design varies significantly from the original concept considered by Council. To construct the new design, additional funding sources will be required as per the Table presented. Council will need to reconsider the financial sources as part of the 2020/21 Draft Budget.

### **LEGAL/STATUTORY IMPLICATIONS**

Nil.

### **ENVIRONMENTAL IMPLICATIONS**

Nil.

### **COMMUNITY IMPLICATIONS**

The community will have input into the draft concept designs.

### **LINK TO STRATEGIC PLAN**

This item links to Council's Strategic Plan item 5.3 Plan for and provide sporting and recreational facilities to encourage an active lifestyle and wellbeing.

**TITLE**        **Review of Information Guide - June 2019**

**FROM**        **Leanne Austin, Governance Manager**

**TRIM REF**    **19/44201**

---

### **SUMMARY**

Under the Government Information (Public Access) Act 2009 (GIPA Act) and the Government Information (Public Access) Regulation 2018 (GIPA Regulation), all NSW agencies (including councils) are required to make a range of open access information publicly available unless there is an overriding public interest against doing so.

Section 21 of the GIPA Act states that an agency must review its agency information guide and adopt a new agency information guide at intervals of not more than 12 months. Council introduced and adopted its initial Information Guide on 13 July 2010 and has conducted regular reviews to ensure the document remains current. The purpose of this report is to review Council's current Information Guide as per the requirement of the GIPA Act.

### **RECOMMENDATION**

**Council endorse the revised Agency Information Guide as attached to this report.**

### **REPORT**

The *Government Information (Public Access) Act 2009* (GIPA Act) replaced the Freedom of Information (FOI) laws and became operative from 1 July 2010. Under the Government Information (Public Access) Act 2009 (GIPA Act) and the Government Information (Public Access) Regulation 2018 (GIPA Regulation), all NSW agencies (including councils) are required to make a range of open access information publicly available unless there is an overriding public interest against doing so.

The mandatory public release of open access information under the GIPA Act promotes consistent and transparent information sharing practices across NSW agencies. It provides members of the public with an immediate right of access to important government information.

Section 21 of the *GIPA Act* requires agencies to develop and adopt an Information Guide within six months of the commencement of the *GIPA Act* followed by annual reviews and adoption of its amended Information Guide.

Council's Information Guide describes Council's structure, functions, how those functions affect the public, the type of information held and how it is made publicly available.

The Information Guide aims to make it easier for people to identify and locate information held by Council and know whether the information can be obtained on the website, upon request or under a formal access application.

A review of Council's Information Guide has been carried out taking into consideration feedback from Council Officers and the Office of the Information & Privacy Commission NSW.

### **OPTIONS**

Council is required under Section 21 of the GIPA Act to review the Information Guide on an annual basis. Consequently, there is no alternative option for Council to resolve other than the recommendation.

### **POLICY IMPLICATIONS**

The Information Guide is a public document (available on Council's website).

### **FINANCIAL IMPLICATIONS**

Not applicable.

### **LEGAL/STATUTORY IMPLICATIONS**

It is a statutory requirement that Council comply with the requirements of the *Government Information (Public Access) Act 2009*.

#### **20 Agencies must have agency information guide**

- (1) *An agency (other than a Minister) must have a guide (its **agency information guide**) that:*
  - (a) *describes the structure and functions of the agency, and*
  - (b) *describes the ways in which the functions (including, in particular, the decision-making functions) of the agency affect members of the public, and*
  - (c) *specifies any arrangements that exist to enable members of the public to participate in the formulation of the agency's policy and the exercise of the agency's functions, and*
  - (d) *identifies the various kinds of government information held by the agency, and*
  - (e) *identifies the kinds of government information held by the agency that the agency makes (or will make) publicly available, and*
  - (f) *specifies the manner in which the agency makes (or will make) government information publicly available, and*
  - (g) *identifies the kinds of information that are (or will be) made publicly available free of charge and those kinds for which a charge is (or will be) imposed.*
- (2) *An agency must make government information publicly available as provided by its agency information guide.*
- (3) *The Chief Executive of the Office of Local Government may, in consultation with the Information Commissioner, adopt mandatory provisions for inclusion in the agency information guide of local authorities. The agency information guide of a local authority must include any such mandatory provision unless the Chief Executive otherwise approves in a particular case.*

## **21 Adoption and review of agency information guide**

*An agency must adopt its first agency information guide within 6 months after the commencement of this section and must review its agency information guide and adopt a new agency information guide at intervals of not more than 12 months. An agency may update and amend its agency information guide at any time.*

### **ENVIRONMENTAL IMPLICATIONS**

Not applicable.

### **COMMUNITY IMPLICATIONS**

The community expects Council to be open, transparent and accountable and to proactively make available and release information.

### **LINK TO STRATEGIC PLAN**

This item links to Council's Strategic Plan item 1.1 Provide clear and transparent communication to the community.

---

### SUMMARY

Council resolved at the Ordinary Meeting of 12 March 2019 that:

- (a) *Council endorse the reformation of the Christmas Working Group.*
- (b) *Council call for expressions of interest from the community to join the Working Group.*
- (c) *The Working Group advise Council on possible programme of activities for the Christmas Festive Season.*
- (d) *\$30,000 be included in the 2019/20 budget estimate discussions.*

Since the Christmas Working Group was established, members have been in the process of determining festive lighting options for Banna Avenue that will be able to be used to enliven Banna Avenue not only during Christmas but at other times (SpringFest, Easter, Sikh Games, designated special event "Weeks" of the year as well as night outdoor dining).

The Working Group has developed, with the assistance of Council Urban Design staff, a Masterplan of proposed festive lighting for Banna Avenue and Memorial Gardens (Attachment a). The Masterplan identifies where existing power supply is located along Banna Avenue, a long term vision (2030) for festive lighting in Banna Avenue and a short term (2019 deliverable) plan.

At the present time, the Working Group has not made any final selections and are working on a list of options that will be able to be delivered in the short term.

Initial costings sought by Council of festive lighting options indicate any options will quickly exceed the allocated budget of \$30,000.

To bolster the budgeted amount of \$30,000 for the Christmas program, a grant submission has been lodged by community member and Christmas Working Group member, Mrs Kay Borland, to the My Community Project grant program. The project lodged by Mrs Borland is entitled "Bright Lights on Banna" and speaks to the numerous community requests for festive lighting in Banna Avenue. The grant proposal requests a grant amount of \$70,000 to be added to the allocated budget to give \$100,000 for the purpose of installing festive lighting in Banna Avenue.

Successful applicants to this grant program will be announced in September 2019, and there is no certainty the application process will be successful.

To increase access to festive lighting options for Banna Avenue, the Christmas Working Group are requesting Council permission to seek sponsorship from the local business community and local community to add to the pool of funds available. The sponsorship

prospectus would invite participants to fund a portion of the proposed masterplan. Their support can be directed into a specific component such as a particular tree, or a particular installation of choice or it may contribute to the project in whole.

Recognition of sponsorship is able to be provided in print, social media and through the Banna Avenue broadcast system during festive periods.

## **RECOMMENDATION**

**Council grant approval to the Christmas Working Group to seek additional funds for festive lighting in Banna Avenue via sponsorship by local business or individuals.**

## **REPORT**

The My Community Project is a NSW wide grant. If the project concept submitted by Mrs Borland is deemed eligible by the State Government, Bright Lights on Banna will line up alongside other nominated projects in the NSW electorate of Murray, to be voted on by members of the community in the Murray electorate. At the end of the voting period, the NSW Government will determine the successful recipients of the My Community Grants and to what value.

Mrs Borland has not been yet notified if the project has been approved for the voting process. The timeline is:

Public vote on eligible projects      15 July – 15 August 2019

Successful projects announced      September 2019

The Working Group acknowledge that funding for the festive lighting in Banna Avenue could be, if the grant is successful, up to \$100,000. If the grant is unsuccessful, the budget would be limited to \$30,000. Sponsorship by local business and individuals could be a viable means of supplementing the funding available to produce a spectacular festive light installation in Banna Avenue in either scenario.

## **OPTIONS**

### **OPTION 1**

As per recommendation.

### **OPTION 2**

Council choose not to seek additional sponsorship for the Bright Lights on Banna Project.

## **POLICY IMPLICATIONS**

Nil.

## **FINANCIAL IMPLICATIONS**

The budget will be limited to \$30,000 if funding applications and sponsorship are unsuccessful.

### **LEGAL/STATUTORY IMPLICATIONS**

Nil.

### **ENVIRONMENTAL IMPLICATIONS**

Nil.

### **COMMUNITY IMPLICATIONS**

The community has expressed disappointment as to the lack of festive lighting in Banna Avenue during the Christmas period.

### **LINK TO STRATEGIC PLAN**

This item links to Council's Strategic Plan item 4.3 Promote and celebrate our social and cultural diversity.

---

### **SUMMARY**

Advice received on 24 May 2019 does not support the enforceability of volumetric water contributions under the Environmental Planning and Assessment Act 1979.

The Water - Volumetric Contribution Policy was adopted by Council at the Ordinary Meeting of Council held on 12 July 1994 after discussion and correspondence with various stakeholders including the then NSW Government Water Resources.

The policy's intent is to ensure all new developments contribute a fair and reasonable amount to Council's bulk water allocation.

In July 1994 Council was advised that its fixed water allocation was 14,700 megalitres. This allocation has not changed since.

The volumetric water contribution is attained via a development approval condition of consent.

### **RECOMMENDATION**

**That Council:**

- (a) Revoke the Volumetric Water Contribution Policy effective from 24 May 2019**
- (b) Prepare a report showing the detail of volume of water contributions made to Council since the introduction of the Volumetric Water Contribution Policy.**

### **REPORT**

The draft 'Water – Volumetric Contribution Policy' was adopted by Council at the Ordinary meeting of Council held on 12 July 1994. The volume of water contribution imposed by Council has changed over time. A development consent condition requires a water allocation contribution in money or in kind.

The policy's intent has been to ensure all new developments contribute a fair and reasonable amount to Council's bulk water allocation see attachment (b) original policy, and attachment (c) current policy.

It should be noted that the current policy document revision dates prior to 10 August 1999 cannot be verified accurately however, the important Council resolution dates are:

- 12 July 1994 – Policy adopted

- 22 November 1994 – Report to Council to amend the Policy to reduce volumetric water contribution back to the normal urban residential amount (1.5ML) if the raw water is separately provided to the allotment. Council adopted the recommendation but the Policy was not amended.
- 10 August 1999 – Report to Council to amend the Policy to reflect the adopted amendment on 22 November 1994. Council adopted the amendment.

Records indicate that the conditioning of water contributions to be applied is recommended by the NSW Department of Water Resources. - Attachment (d).

The legal advice provides commentary, based on case law, on the likelihood of the providers' of volumetric water contributions successfully claiming reimbursement or compensation for water contributed to Council as nebulous. However it would be prudent for Council to research contributions made since the introduction of the policy.

### **OPTIONS**

#### **OPTION 1**

As stated in the recommendation.

#### **OPTION 2**

Any other resolution by Council.

### **POLICY IMPLICATIONS**

Revoking the Water – Volumetric Contribution Policy will cease the imposition of water contributions on development from 24 May 2019.

### **FINANCIAL IMPLICATIONS**

Based on research and outcomes of any legal challenge Council may be liable for the relocation of water allocation back to contributors.

### **LEGAL/STATUTORY IMPLICATIONS**

Council may be subject to claims for reimbursement or compensation for water contributions imposed through development conditions of consent. However, based on legal advice provided, the likelihood of the providers' of volumetric water contributions successfully claiming reimbursement or compensation for water contributed to Council is uncertain.

Council would be liable for reimbursement or compensation for water contributions imposed through development conditions of consent since date of the legal advice received 24 May 2019.

### **ENVIRONMENTAL IMPLICATIONS**

Nil.

### **COMMUNITY IMPLICATIONS**

The potential for adequate water supply to meet the future growth of the Griffith region.

### **LINK TO STRATEGIC PLAN**

This item links to Council's Strategic Plan item 3.1 Undertake Council activities within a clear framework of strategic planning, policies, procedures and service standards.

12 JULY 1994**C3 - DRAFT POLICY - VOLUMETRIC WATER ALLOCATION****F. 1102 (DWT:JSP:SM)****A PROPOSAL TO THE DWR**

- \* Council at its meeting of 24 May 1994 resolved:

"That Council authorise a meeting with Murrumbidgee Irrigation to discuss its recent advice to Council of Council's water allocation with a view to obtaining additional information for Council's further consideration".

- \* At a subsequent meeting with representation from both Murrumbidgee Irrigation (Cedric Hoare) and Water Resources (Geoff Fishburn and Martin Sweeney) the following matters were discussed:

- i) **Permanent water allocation**

Water Resources would be prepared to consider a submission from Council as to what Council considers to be a reasonable allocation.

Attached is a schedule of those areas which would not have been included in the original assessment with appropriate allocations based on the draft policy (see later in this report).

- ii) **Allocations for future development**

It was acknowledged that Council would need to add to its allocation in accordance with the water requirements of future developments. The most appropriate way is by use of its planning powers. To meet an imposed condition an applicant would secure a letter from Murrumbidgee Irrigation stating that a water allocation had been provided at the predetermined rate. (see draft policy).

To assist in this process it was suggested that before water allocations were sold or transferred within an area to be defined (the area most likely for urban development) that the consent of the Council be obtained.

- iii) **Cost of water**

Council was advised that the Board would be making recommendations in the very near future in respect to entitlement fees etc. A letter objecting to any increases in the cost of water was forwarded.

- iv) **Water measurement**

Rather than the installation of costly meters, it was proposed that a formula be determined based on throughput of the Filtration plant, evaporation and other factors. Council's Engineering Department have prepared a proposal for consideration.

---

General Manager's Reports to Ordinary Meeting to Council

KDB

21

12 JULY 1994v) **Water availability**

Council was advised that the allocation had a high security plus priority; that if through some misadventure the allocation was used up in less than a 12 month period, it would be possible for the Council to obtain an additional allocation as a temporary transfer and would be charged accordingly; that in the event of extended drought conditions being encountered, restrictions would be equitably shared.

The question as to whether the water would be available year-round was discussed without reaching a decision. It was submitted that Water Resources should guarantee supply year-round whereas that body is reserving the right to withdraw supply during maintenance periods. This matter requires further clarification.

**B DRAFT POLICY**

Attached is a policy for Council's consideration. The rationale of the policy is that all new developments and connections to the Griffith & Yenda water supplies will contribute an amount of water, or equivalent towards Council's bulk volumetric water allocation, as negotiated with the Department of Water Resources.

The policy covers the following categories of new developments or extensions to the existing system:

- 1 Urban - single dwelling
- 2 Urban - multiple dwelling
- 3 Rural Residential & Farm Extensions
- 4 Open space
- 5 Commercial & Industrial Developments

**C CALCULATION OF VOLUMETRIC CONTRIBUTIONS**

The rationale of how the contributions in each category has been determined is detailed below, together with the general philosophy and standards adopted.

**General Philosophy & Standards**i) **Domestic**

Public Works Depot Report No. 170 titled "Griffith Water Supply Reticulation Analysis" adopted the following demands for water in Griffith.

- 1 kl/day per tenement excluding gardens
- an average domestic garden area of 675m<sup>2</sup>. It will be assumed that 500m<sup>2</sup> of that area is fully developed.

The allowance for the garden component varies between Urban and Rural categories due to the generally larger areas maintained in a rural situation.

KDB

22

12 JULY 1994

Using Department of Agriculture figures for annual plant water use of lawns in Griffith, a figure of 20MI/ha has been adopted for garden and open space water usage. (Note: This is based on the 1991/92 year in which the Department of Agriculture measured the evapotranspiration at 19.7 MI/ha)

For multiple dwellings, the first dwelling is entitled to one full domestic allocation of 1.5 kl/day (including garden) plus for each additional dwelling an additional 1 kl/day.

The reasoning behind this proposal is that the average multiple dwellings garden area is relatively constant and independent of the number of dwellings on the site.

ii) Commercial & Industrial

For commercial and Industrial development it is proposed that each development would be required to provide, as a minimum, the domestic allowance of 1kl/day. Additional to this would be the specific requirement of the development which would need to be determined on the merits of each case at the Development Application Stage.

iii) Open Space

For land which is dedicated to open space, the Department of Agriculture figure of 20MI/annum is proposed.

**D SUMMARY OF CATEGORIES**

The following summarises the permanent allocations which would be required to be added to Council's volumetric water allocation as part of the development process or an additional extension to the cities reticulated water systems.

i) Urban - Single Dwelling

|              |   |                                     | <u>Annual</u>  |
|--------------|---|-------------------------------------|----------------|
| Domestic Use | : | 1kl/day                             | = 365 kl       |
| Garden       | : | 500 m <sup>2</sup> @ 20 MI/ha/annum | = 1000 kl      |
|              | : | + 10% allowance                     | = 135 kl       |
|              |   |                                     | <u>1500 kl</u> |

ii) Urban - Multiple Dwelling

|                                           |   |            |
|-------------------------------------------|---|------------|
| 1st Dwelling (as above)                   | = | 1500 kl    |
| Each additional dwelling (1 kl/day + 10%) | = | 400 kl add |

iii) Rural Residential & Farm Extensions

|              |   |                    |   |                |
|--------------|---|--------------------|---|----------------|
| Domestic Use | : | 1kl/day            | = | 365 kl         |
| Garden       | : | 1.5 x Urban Garden | = | 1500 kl        |
|              | : | + 10% allowance    | = | 135 kl         |
|              |   |                    |   | <u>2000 kl</u> |

KDB

23

12 JULY 1994iv) Open Space

Adopt Department of Agric. Figure = 20 MI/ha/annum

v) Commercial & Industrial

Minimum Usage : 1 kl/day + 10% = 400 kl

Plus an amount to be determined on merits of each case

**E DEVELOPER CONTRIBUTIONS - SCENARIOS**

The following difference scenarios and how Council would apply the contribution are outlined below:

i) Property with Existing Water Allocation

A developer with a property with an existing allocation could:

- surrender to Council the relevant water allocation as per the adopted policy from his existing allocation
- purchase, on the open market, the required allocation as per the adopted policy.

In both cases the contribution will be added to Council's bulk water allocation.

In the case of subdivision, as with normal headworks charges, the contribution only applies to the number of new lots created and excludes the original holding.

ii) Property with No Existing Water Allocation.

In this case the developer would be required to purchase the allocation as determined by the policy and add this to Council's bulk allocation.

It is not recommended that Council accept cash contributions in lieu of a water allocation.

As an indicator of water prices, a figure of \$100/MI is typical of the current market.

KDB

24

12 JULY 1994**DRAFT POLICY DOCUMENT**

A draft policy document (see **attachment 1**) which can be inserted into Council's Policy Register, is **attached**.

**RECOMMENDATIONS****A**

- 1 That Council negotiate the permanent water allocation for Griffith based on the attached schedule.
- 2 That the Department of Water Resources be requested to obtain the concurrence of the Council before approving the sale or transfer of water allocations in those areas zoned 1(c) Rural (Residential), 1(d) Investigation, 2(a) Residential, 2(v) Village, 3(a) Business, 4(a) Industrial under the Draft LEP adopted by Council on 26 May 1994.
- 3 That the Department of Water Resources be requested to accept a formula for the consumption of water by Local Government based on calculations prepared by Manager Water Supplies.
- 4 That the Department of Water Resources be requested to guarantee year-round availability of water.

**B**

Council adopt the Draft Policy Document as presented in this report.

KDB

### 2 Policy Objective

To require developers to make an appropriate contribution (either monetary or transfer of water allocation) so as to ensure Council maintains a satisfactory bulk water allocation for the community's use in the future.

### 3 Policy Statement

- 3.1 To ensure that all new developments contribute a fair and reasonable amount to Council's bulk water allocation, developers are required to either transfer an equivalent high security water allocation or make a monetary contribution to Council, based on the then market values, according to the following table.

| Category                                                | Annual Permanent, High Security Water Contribution |
|---------------------------------------------------------|----------------------------------------------------|
| 1. Urban Single Residential Dwelling – Detached housing | ❖ 0.40 MI                                          |
| 2. Urban Multiple Residential Dwellings                 |                                                    |
| ❖ Semi-detached / duplex                                | ❖ 0.30 MI per dwelling or unit                     |
| ❖ Flats, townhouses and terraces                        | ❖ 0.30 MI per dwelling or unit                     |
| ❖ Seniors living developments                           | ❖ 0.25 MI per dwelling or unit                     |

| Category                                                                                                                           | Annual Permanent, High Security Water Contribution                                                                                                                                                                                                                                                                                                                                              |
|------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Rural Residential & Farm Water Extension<br><br>❖ Rural residential without raw water<br><br>❖ Rural residential with raw water | ❖ 1.5 MI – per dwelling <b>**Note 1</b><br><br>❖ 0.40 MI per dwelling<br>Further to this, there may be a raw water headworks charge applicable if the applicant is proposing to connect into Council's raw water reticulation system                                                                                                                                                            |
| 4. Open Space                                                                                                                      | ❖ 20 MI/ha                                                                                                                                                                                                                                                                                                                                                                                      |
| 5. Commercial/Industrial                                                                                                           | ❖ Minimum 1.0 MI (water meter size =< 32mm)<br>Plus an amount determined on the merits of each case.<br><br>Water allocation contributions may be required at both the subdivision and development stages for commercial and industrial developments. Any extra contribution at the development stage will be calculated and based upon the estimated water demand of the business or industry. |

**Note 1: This is applicable for lot sizes up to 5,000 square metres. For lot sizes greater than 5,000 square metres contribution to be determined via the development assessment process.**

- 3.2 Council will only accept monetary contributions for up to 2.0 MI. For developments that are required to make a contribution of more than 2.0 MI, the developer will be required to make transfer of high security bulk water allocation through Murrumbidgee Irrigation or any other relevant authority.
- 3.3 In addition to the monetary contribution as above, the developer is required to pay an administration fee as per Council's Revenue Policy.

23 MAY 1994

Dear Sir

**RE: Volumetric Water Allocation - Local Government**

A Volumetric Water Allocation Scheme was introduced into the Murrumbidgee Irrigation Areas and Districts at the start of the 1983 / 84 Irrigation Season. The purpose of the Allocation Scheme is to share the water resource available between all users. The basis on which the resource is shared by users is the area assessed as irrigable on each holding while taking into account the type of crops that are irrigated i.e. large area or horticulture. Users who are not commercial irrigators, such as those landholders of residential farms, domestic and home garden users etc., have water allocations attached to their properties based on other criteria.

The scheme did not assign a volume of water for Local Government or Industrial purposes although these users have been supplied every year from 1983 / 84 onwards.

As Murrumbidgee Irrigation prepares to negotiate a Bulk Water License on behalf of its customers, to provide tangible security to their supply in the form of a definite property right, it is important that Local Government be assigned a defined permanent water allocation.

Following investigation to council's Town Water usage, Murrumbidgee Irrigation has assigned an allocation of 10620 megalitres which is equivalent to the highest usage in the last 10 years for Griffith and Yenda. The normal security water allocations for other supplies under the control of Council, in addition to the above Town water, are:

|                               |               |
|-------------------------------|---------------|
| Lake Wyangan Picnic Area      | 37 megalitres |
| Wade Park / Yenda Golf Course | 78 megalitres |
| Hanwood Recreation Reserve    | 17 megalitres |

You are advised that if additional water allocations are required for urban growth those requirements should be met by either acquiring the allocation from the rural land being developed or acquiring the allocation from other users.

Following the introduction of the Bulk Water License, all allocations will be subject to an entitlement fee.

Department of Water Resources • Banna Avenue, Griffith • P.O. Box 492 YY, Griffith NSW 2680

A normal requirement of Murrumbidgee Irrigation's operations is that measuring devices be fitted to points of supply from canals and channels for high volume users.

The Griffith City Council does not have a meter fitted to the pipe supplying the storage facility for the Griffith Supply. This means that evaporation losses, infiltration and backwash usage are all losses that you are not charged for.

Local Governments, within the supply system of the Murrumbidgee Irrigation will be required to fit meters to works of supply following the negotiation of the Bulk Water License. You will be advised when this requirement is to be met.

Yours faithfully,

District Manager  
Griffith.

**REPORT OF WATER ALLOCATION MEETING HELD ON THURSDAY 9TH JUNE 1994 IN THE COUNCIL CHAMBERS.**

---

**PRESENT:** Mr Cedric Hoare, Mr Geoff Fishburn and Mr Martin Sweeney from Water Resources and Murrumbidgee Irrigation and representing the Council is Mayor J McGann; General Manager, Mr R Behl; Director Engineering Services, Mr D Tull; Water Engineer, Mr J Chandler; and Director Environmental Services, Mr J Porter.

**1 PURPOSE OF MEETING**

To discuss the implications of a letter received from the Department of Water Resources on 24 May 1994 in respect to Volumetric Water Allocation - "Local Government".

- 2** It was agreed that the meeting should be informal and that issues be identified where possible.
- 3** Mr Cedric Hoare outlined the need for a permanent water allocation to ensure an embargo on the water to meet the needs of the City. The 10,620 megalitres referred to in the letter represented the highest usage for the last 10 years (in fact the actual time was July 90 to June 91) with 10% addition. Council was invited to submit what it considered to be a reasonable allocation together with any reasons for an increase.

The allocation related to the date of the letter and there was discussion as to whether any increase should relate to increase in population.

Areas which should be included in the allocation calculation were identified as;

- (i) Department of Housing land.
- (ii) Collina Subdivisions.
- (iii) Any subdivisions which had been lodged with Council and not determined including the Dickson Road Area and the Bennett/Dinicola Application at Hanwood.
- (iv) Farm water extensions.
- (v) Undeveloped industrial land, for instance around Whybrow Street.

It was agreed that the Director of Engineering Services should prepare calculations for Council as to what is considered an appropriate allocation taking the aforementioned into consideration.

- (vi) Mallinson Road.

-2-

- 4 Discussion then involved the matter of drought conditions. It was noted that the water is a high security plus priority and that the area has very little history of over-committing the water supplies. In the event of extraordinary conditions being encountered then it was agreed that restrictions would be equitably shared.

- \*  
5 The matter of allocations for future development was then considered. It was acknowledged that Council would have to acquire allocations from future developers but that a process should be developed so that Council can acquire these water entitlements with a minimum of problems to all parties concerned. It was agreed that the most appropriate way would be for Council to use its planning powers to ensure that the required allocation was a condition of development and that this could be added to the Councils then current requirements. To meet with such a condition a developer would have to secure a letter from Murrumbidgee Irrigation to the effect that the water allocation had been provided for at whatever the pre-determined rate would be.

A developer is able to purchase a water allocation as the Water Resources maintains a list of buyers and sellers of water allocations. This means that the allocation be purchased on the "open market".

The possibility of Council getting a cash contribution and acquiring the water allocation themselves was not favoured as the value of that allocation could vary from time-to-time on the open market.

To assist in this process it was suggested that before water allocations were sold or transferred within an area to be defined, that is the area most likely for urban development, that the consent of the Council be obtained.

- 6 The matter of what the water entitlement should be for;

- (a) Urban Dwellings
- (b) Open Space
- (c) Rural/Residential
- (d) Industrial Development

was discussed and Director of Engineering is to investigate Council's requirements in relation to these matters.

- 7 The Department of Water Resources advised that, should through some misadventure the allocation for Local Government be used up in less than a 12 month period, it would be possible for the Council to obtain an additional allocation as a temporary transfer and would be charged accordingly.

- 8 The question as to whether the water would be available year-round was discussed without reaching a decision. The Council was of the view that the Water Resources should guarantee supply year-round whereas Water Resources is reserving the right to withdraw the supply during maintenance periods although it was agreed every effort would be made to maintain supply.

-3-

- 9 The matter of the cost of the installation of separate meters for the water allocation was discussed and it was agreed that it may be possible to agreed on a formula to determine Council's water usage based on current measurement techniques.

The Director of Engineering Services is to make a submission incorporating such a formula.

- 10 The letter also referred to entitlement fees and it was advised that the Board would be making recommendations in relation to these matters in the near future. Council should make urgent representations in relation to this matter.

- 11 Department of Water Resources advised that a similar letter had been sent to Carrathool Council but at this stage Leeton Council or Northern Riverina County Council has not been advised. It was suggested that to ensure that there was a consistency of approach these matters should be discussed with all the parties involved.

JS PORTER

10-6-94

Minutes of Ordinary Meeting of Council  
Held 12th July 1994

KDB

12TH JULY 1994

2

546 C3 - Draft Policy - Volumetric Water Allocation

(F. 1102)(C/D)

RESOLVED on the motion of Councillors Churchill and Barden that:

1. Council negotiate the permanent water allocation for Griffith based on the attached schedule.
2. Before approving the sale or permanent transfer of water allocations in those areas zoned 1(c) Rural (Residential), 1(d) Investigation, 2(a) Residential, 2(v) Village, 3(a) Business, 4(a) Industrial under the Draft LEP adopted by Council on 26 May 1994 that the Department of Water Resources be requested to notify the applicant of Council's Policy on Water allocation in the event of development of the land.
3. The Department of Water Resources be requested to accept a formula for the consumption of water by Local Government based on calculations prepared by the Manager Water Supplies.
4. The Department of Water Resources be requested to guarantee year-round availability of water.
5. Council adopt the Draft Policy Document as presented in this report.

| <b>CLAUSE</b>   | <b>CL07</b>                                                                                         |
| <b>TITLE</b>    | <b>Councillor Vacancies - Communities Committee and Disability Inclusion &amp; Access Committee</b> |
| <b>FROM</b>     | <b>Shireen Donaldson, Director Economic &amp; Organisational Development</b>                        |
| <b>TRIM REF</b> | <b>19/46000</b>                                                                                     |

---

### **SUMMARY**

Two Councillor vacancies exist on the Communities Committee due to the resignation of the Councillor Committee Member and Chairperson, Cr Anne Napoli, and the Councillor Alternate Member, Cr Rina Mercuri. At the present time, Cr Deb Longhurst is the only Councillor representative on this Committee.

To maintain Councillor representation on this Committee, Council should consider appointing a Councillor Committee Member and Councillor Alternate Member. A Chairperson should also be appointed from the two Councillor Committee Members.

A Councillor vacancy also exists on the Disability Inclusion and Access Committee due to the resignation of Cr Rina Mercuri as Councillor Committee Member from this Committee. At the present time, Cr Mike Neville is the Councillor Committee Member and Chairperson, and Cr Anne Napoli is the Councillor Alternate Member for this Committee. Cr Napoli could be appointed as the replacement Councillor Committee Member or remain as the Councillor Alternate Member. For Committee Meeting administration and minute taking purposes, it should be clear which position Cr Napoli will hold.

Council should appoint a new Councillor Committee member and/or a Councillor Alternate member for the Disability Inclusion and Access Committee as required.

### **RECOMMENDATION**

- (a) Council appoint Cr [REDACTED] as the Councillor Committee Member for the Communities Committee
- (b) Council appoint Cr [REDACTED] as the Councillor Alternate for the Communities Committee
- (c) Council appoint Cr [REDACTED] as the Chairperson of the Communities Committee
- (d) Council appoint Cr [REDACTED] as the Councillor Committee Member for the Disability Inclusion and Access Committee
- (e) Council appoint Cr [REDACTED] as the Councillor Alternate for the Disability Inclusion and Access Committee

## **REPORT**

At the commencement of the 2016-20 Term of Council, Council determined that each Committee of Council will have two Councillor representatives, one of these being appointed as the Chairperson, and that there also be a Councillor Alternate to fill any Meeting Apologies by the two Councillor Committee Members.

Councillor vacancies on Committees should be filled by Council to ensure ongoing consistency and leadership for the affected Committees. Council Committees provide a valuable means of community consultation as Councillors are able to interact directly with community members on Council Committees who have a specific interest or expertise in the subject matter of the particular Committee.

Community members of Committees of Council volunteer their time to attend and participate in these Committees and should have access to Councillors to ensure community concerns are conveyed to Councillors via the Committee and then to Council as a whole via recommendations from the Committee.

Both Committees currently meet quarterly and will be dissolved within three months after the Council Election in September 2020.

## **OPTIONS**

### **OPTION 1**

As per the recommendation.

### **OPTION 2**

Council not appoint new Councillor Members to the Communities Committee or Disability Inclusion and Access Committee for the remainder of the 2016-20 Term of Council.

## **POLICY IMPLICATIONS**

Nil.

## **FINANCIAL IMPLICATIONS**

Nil.

## **LEGAL/STATUTORY IMPLICATIONS**

Nil.

## **ENVIRONMENTAL IMPLICATIONS**

Nil.

## **COMMUNITY IMPLICATIONS**

Committees of Council have community members who provide Councillors information regarding issues pertinent to the Committee they are a member of.

---

### **SUMMARY**

At the Ordinary Meeting of 9 April 2019, Council determined *that Council investigate the potential of establishing a silo art installation at Tharbogang silos, taking into consideration current ownership, usage and costing.*

A property search of the Tharbogang silo site confirmed the site is owned by GrainCorp. An internet search of GrainCorp and silo art found a webpage owned by GrainCorp (Attachment (c)) which referred to silo art. The webpage also included a Policy relating to silo art produced by GrainCorp (Attachment (b)). The main criteria addressed by the Policy indicate a GrainCorp silo for artwork must be not operational and be in a safe location.

An email was sent GrainCorp requesting information about the suitability of the Tharbogang site for a silo art installation and a possible time frame for consideration of the viability of the project so that in the meantime, sources of grant funding or sponsorship could be identified.

A response was received from GrainCorp indicating the silo program is not considering any new proposals until 2020 (Attachment (a)), this including assessing the viability of a site for silo art. A response was sent back indicating Council will make contact with GrainCorp in the first quarter of 2020 to initiate an assessment of the Tharbogang silo.

Councils who have already participated in a Silo Art installation indicate that a silo artwork would cost in the vicinity of \$50,000. Initial contact has been made with some of the artists who participated in the Banna Lane street art to ascertain their estimations of what a silo art work would cost. At this stage, as the infrastructure to be painted is not confirmed, no pricing has been received. This limitation also places a restriction on applying for grant funding as a site cannot be confirmed at this stage.

Initial enquiries as to a sponsorship opportunity can be commenced, however would only be in a preliminary format until the Tharbogang site can be confirmed by GrainCorp as a suitable site.

### **RECOMMENDATION**

**The report be noted by Council.**

### **REPORT**

Silo Art is an extremely popular installation in many regional towns across Australia and attract many visitors (including day-trippers and “grey nomads”) on the “Silo Art Trail”. It would be very beneficial for Griffith to be included on the trail as this is another valuable means of attracting visitation to Griffith. The recent Banna Lane street artwork is another drawcard for those visiting large scale artworks.

Council will resume pursuing this matter with GrainCorp in the first quarter of 2020

### **OPTIONS**

As per recommendation.

### **POLICY IMPLICATIONS**

Nil.

### **FINANCIAL IMPLICATIONS**

The production of a silo artwork could be expected to cost in the vicinity of \$50,000. At the present time, there is no budgetary provision for a silo artwork installation. Additional, supplementary funding may be sought via grant funding.

### **LEGAL/STATUTORY IMPLICATIONS**

Nil.

### **ENVIRONMENTAL IMPLICATIONS**

Visual implications for those surrounding the silo and an increase in traffic and parking around the installation site.

### **COMMUNITY IMPLICATIONS**

Silo Art is a popular installation in many regional towns and cities across Australia.

### **LINK TO STRATEGIC PLAN**

This item links to Council's Strategic Plan item 4.5 Plan for, develop and provide a suitable range of cultural and art facilities, engaging programs and diverse events.

### **CONSULTATION**

Senior Management Team.

Subject: RE: Silo Art information

---

Hi Shireen

Thanks for reaching out! Unfortunately we are not supporting any new silo art projects until next year at the earliest.

We currently have ten projects that are already fully funded and expected to be completed this year. Given the high volumes of requests for these projects over the last six months we've had to review strategy and allocated resources and as such, our capacity for these projects is at its limit. This includes being able to confirm the status and availability of sites.

We should be in a position to revisit the site status early next year and will update our website accordingly - [www.graincorpsiloart.com.au](http://www.graincorpsiloart.com.au).

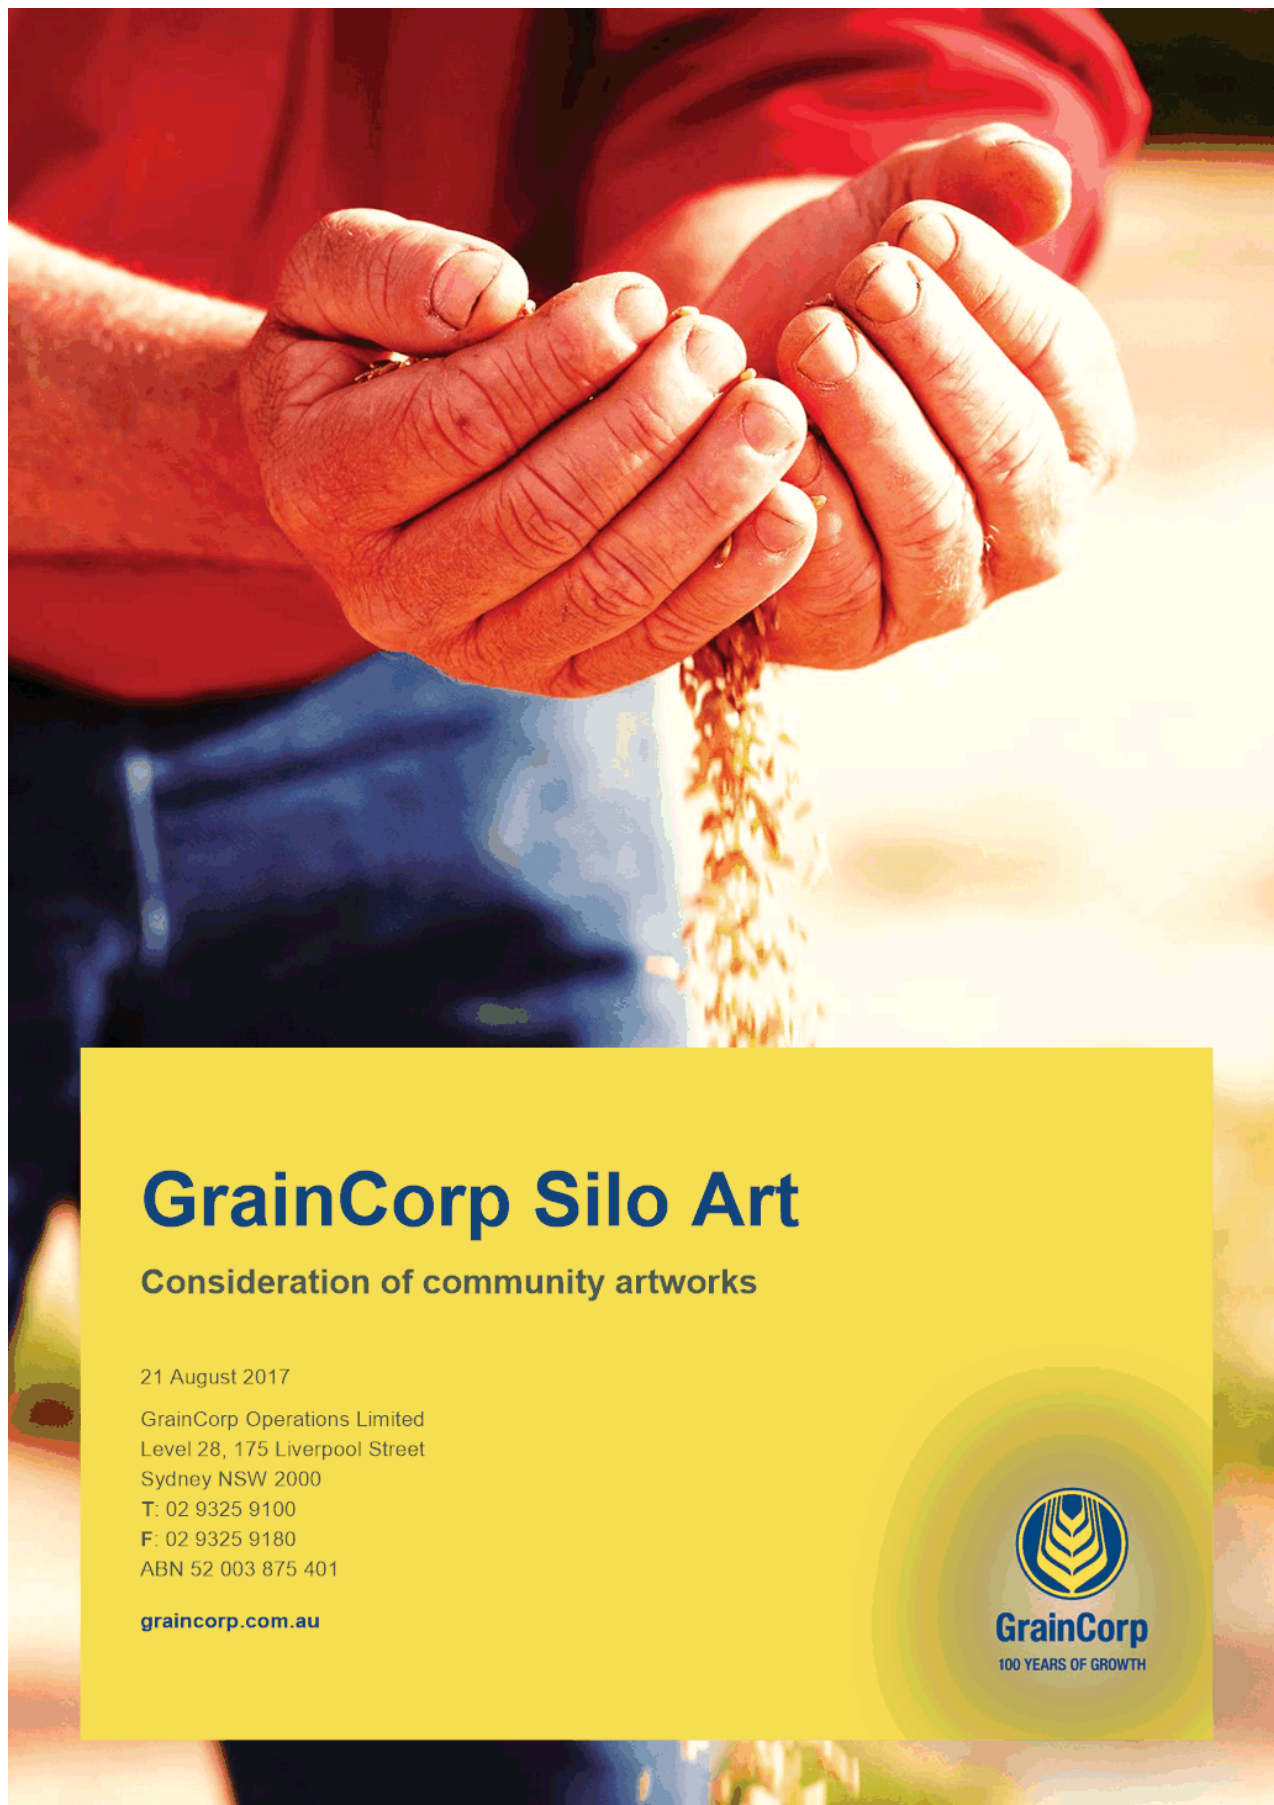

Appreciate your understanding,

## Introduction

GrainCorp is a proud and active member of the many communities around the world in which we operate. We seek to support community-led projects that contribute to the economic health, infrastructure, safety and wellbeing of our regional communities.

In addition to the work of our Community Fund<sup>1</sup> and the in-kind support of our local teams around our network, GrainCorp occasionally receives requests for public art works or other installations at its sites.

This policy has been developed to help community groups understand GrainCorp's approach to these requests and the considerations that we take into account when determining whether or not to proceed with potential projects. GrainCorp sites were generally built for receiving, storing and loading grain in large, bulk quantities.

Given they were not built with artwork in mind, we need to take a sensible, risk management approach to considering proposals. As such, there are several health and safety requirements that must be met to ensure the site is safe for those involved in the project and members of the public.

## Submitting a proposal

To be considered, any proposed project must have the demonstrated support of the local council, community group(s) and broader community. Community groups wishing to discuss a proposed project with GrainCorp must provide at a minimum:

- A detailed design concept
- Artist's name and portfolio
- Details of local government & community group support
- Details of how the project would be funded
- Proposed project timeline

## Eligible proposals

GrainCorp will consider proposals involving artwork focussed on:

- The local community and/or its history
- Farming, grain and food production
- Life in a regional area
- Safety

Artwork that is commercial in nature (including, but not limited to, advertising), or which could be considered to be a political or religious statement will not be considered. Permanent artwork will not be considered for operational sites however consideration may be given to temporary lighting installations (more information below).

GrainCorp also reserves the right to consult with relevant stakeholders about the quality and suitability of the proposal for a particular local area, prior to advising of its decision. Please note that ultimately, the decision to approve or reject a proposal remains GrainCorp's alone as the site owner.

Site access will not be provided until the final concept is approved and all relevant permits, approvals and insurances are in place. While it is unfortunately not possible to agree to every request, we are committed to working constructively with those local councils or community groups who wish to engage us with a proposal.

We will keep you updated on its progress and provide feedback to help you understand our approach.

### What we will consider

In addition to the design concept, GrainCorp will need to consider a range of additional factors as part of its consideration of an application:

- Location and orientation of silo/facility
- Exposure and road access
- Visibility from nearby roads/vantage points

#### GrainCorp Silo Art

- Local planning laws and requirements

A range of external permits and/or approvals will be required to complete a project. We will work with the community to ensure that these are in place before work commences, however these cannot be provided by GrainCorp and may come at a cost.

Relevant permits, including relevant insurance policies, may include:

- Working at height permit
- Permit to operate any machinery required (i.e. cherry picker)
- Public liability insurance
- Personal Accident Insurance

## Other considerations

**Road safety** – state road authorities such as VICRoads (Victoria), TMR (QLD) and RMS (NSW) and local councils may need to be consulted to ensure that any signage, changes to speed limits and parking access necessitated by the artwork meet their requirements.

**Ongoing maintenance** – the artwork will remain the responsibility of the commissioning local community / council. This may include occasional maintenance of the artwork which will require arrangements to be made for access to the relevant site or (if considered more appropriate by GrainCorp) the entering of a lease or licence agreement on terms acceptable to GrainCorp given the nature of the artwork and/or site. General maintenance of site assets will remain the responsibility of GrainCorp.

**Funding** – while GrainCorp will support the project and provide operational support, the funding of the project must be provided by the community. Costs may include machinery hire such as cherry pickers, insurance premiums, the upgrading of fencing/access ways, materials, travel and accommodation.

**Temporary artwork** – in some cases, temporary artwork may be projected onto GrainCorp silos. For example, GrainCorp's Newcastle silos have regularly been lit up in different colours to support community initiatives such as Breast Cancer Awareness week. These requests will be considered on a case-by-case basis.

**Safety** – the project coordinators will be responsible for ensuring safe practices for the carrying out of the works. This will require the completion and documentation of risk assessments for all tasks as well as undertakings that toxic chemicals or other noxious products will not be used.

## Next steps

If you believe your project falls within the above guidelines and would like to discuss the project in more detail, please email us at [socialmedia@graincorp.com.au](mailto:socialmedia@graincorp.com.au). We will endeavour to get back to you with an initial response within 5 business days or contact you for more information.

Thank you for considering using a GrainCorp site for your community project and we look forward to exploring your project's potential.

---

### **SUMMARY**

This report details Council's investments performance for the months of March and April 2019.

### **RECOMMENDATION**

**The report be noted by Council.**

### **REPORT**

In accordance with Section 212 of the Local Government (General) Regulation 2005, it is hereby certified that the investments detailed in the attached schedules have been made in accordance with Section 625 of the Local Government Act 1993, its Regulations and Council's current investment policy and strategy which were last amended and adopted on 13 February 2018.

Management is striving to continuously build up cash and investment returns to ensure ongoing financial stability and liquidity into the future.

### **OPTIONS**

Not Applicable.

### **POLICY IMPLICATIONS**

The actions taken comply with Council's current investment policy and strategy, and the Ministerial Order as provided by the NSW Office of Local Government.

### **FINANCIAL IMPLICATIONS**

As at the 30 April 2019, Council had received a total of \$798,783 in interest coupon payments and a further \$78,170 interest from its ordinary trading account, giving a total cash received of \$876,953 YTD.

The overall net interest income recognised (when combining both interest received and mark-to-market entries) at 30 April 2019 was \$1,450,514 against a revised YTD budget of \$1,025,065.

Council has a mix of growth and fixed income investments in the portfolio and at certain times growth assets are exposed to equity market fluctuations (volatility) and may incur valuation reductions that can impact on reported profits. These are long term assets and Council has no intention of divesting any of these assets when at cyclical lows and therefore

crystallising any losses. Invariably, these assets will regain and increase their values and they make up a valuable diversity in Council's portfolio overall.

Council is operating in an ongoing, very low interest rate environment and it is difficult to obtain higher yields on investments whilst maintaining appropriate diversification of investments. Council's investments are diversified primarily across TCorp Managed Funds, term deposits, fixed income bonds and floating rate notes which are largely determined by the restrictions in place by the Minister's Order. Council's investments are diversified, all highly rated and of high quality.

### **LEGAL/STATUTORY IMPLICATIONS**

Section 212 of the Local Government (General) Regulation 2005.

### **ENVIRONMENTAL IMPLICATIONS**

Not Applicable.

### **COMMUNITY IMPLICATIONS**

Not Applicable.

### **LINK TO STRATEGIC PLAN**

This item links to Council's Strategic Plan item C1- Provide clear and transparent communication to the local community on matters in which it is concerned.

### **CONSULTATION**

Senior Management Team

---

**CULTURAL FACILITIES COMMITTEE  
HELD IN GRIFFITH WAR MEMORIAL MUSEUM ON  
MONDAY, 27 MAY 2019 COMMENCING AT 5.30 PM**

---

**PRESENT**

Councillor Mike Neville (Chair), Patricia Clarke (Community Representative), Margaret King (Community Representative), Manjit Singh Lally (Community Representative), Elaine McBride (Community Representative), Laurence (Lou) Testoni (Community Representative), Patricia Cox (Community Representative), Denny Fachin (Community Representative Alternate)

Quorum = 3

**STAFF**

Director Business, Cultural & Financial Services, Max Turner, Director Economic & Organisational Development, Shireen Donaldson, Leisure Services Manager, Alan Anderson, Manager Griffith Regional Theatre and Art Gallery, Raina Savage, Library Manager, Shiron Kirkman, and Minute Secretary, Tanya Pattison.

**1 APOLOGIES**

**RECOMMENDED** on the motion of Patricia Clarke and Margaret King that apologies be received from Councillor Anne Napoli, Councillor Brian Simpson and Ester Hookey (Community Representative), Art Gallery Coordinator, Raymond Wholohan and Business & Administration Coordinator, Jenny O'Donnell.

**Item raised regarding apologies for previous meeting held on Monday, 25 February 2019.**

Lou Testoni, Denny Fachin and Manjit Singh Lally all noted they had not received notification of the meeting and would have advised they were apologies for the meeting.

**2 CONFIRMATION OF MINUTES**

**RECOMMENDED** on the motion of Patricia Clarke and Margaret King that the minutes of the previous meeting held on 25 February 2019, having first been circulated amongst all members, be confirmed.

**3 BUSINESS ARISING**

Nil.

#### **4 DECLARATIONS OF INTEREST**

##### **Pecuniary Interests**

There were no pecuniary interests declared.

##### **Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

##### **Less Than Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

#### **5 ITEMS OF BUSINESS**

##### **CL01 UPDATED CODE OF CONDUCT INDUCTION**

Mrs Donaldson made Committee members aware of the new Code of Conduct, informing them the document being circulated was a legislative document.

She handed out hard copies to Mrs Clarke, Mrs King, Mr Singh Lally, Mrs McBride, Mr Testoni, Mrs Cox and Mr Fachin.

Committee members were advised they should acknowledge they have read the document by signing and returning to Council.

**RECOMMENDED** on the motion of Mrs McBride and Mr Singh Lally that the:

- (a) information be received; and
- (b) Members be inducted into Council's updated Code of Conduct Policy (GOV-CP-404).

Mrs Donaldson left the meeting at 5.45pm.

##### **CL02 APRIL 2018/19 - YEAR TO DATE FINANCIAL REPORT**

Mr Turner provided an overview relating to the year to date financial performance as at 30 April 2019 for each of the cultural and sporting facilities that comprise the Cultural Facilities Committee.

A number of factors contributing to average performances were discussed including the Theatre's slow period from January to March, which is now expected to pick up with an impressive program scheduled including the community production of Legally Blonde in June.

Performance through the next quarter will continue to be monitored and it is anticipated that most facilities will record results slightly above budget for this financial year.

**RECOMMENDED** on the motion of Mrs Cox and Mr Fachin that the information be received.

**CL03 GRIFFITH REGIONAL THEATRE MANAGER'S REPORT**

Ms Savage provided an overview of recent Theatre events.

After a quiet start to the year activity stepped up in February, with a total of 67 events and just under 5,500 visitors through to the end of April.

The season kicked off with *Dusty and the Divas* – another well attended Morning Melodies. The Theatre enjoyed several sell-out season shows – *The Gruffalo* and *360 Allstars*. *Dee and Friends* was also a very successful show.

Community engagement has been a strong focus. Two youth theatre groups have re-started, with the aim to present another mainstage theatre performance by the senior troupe later in the year.

Ms Savage also reported that community partnerships have proved rewarding, with Murrumbidgee Regional Council offered workshops in jazz and musical theatre, and A Day in the Orchard festival, where the first GRASS ROOTS open mic event was held. This gave young musicians the chance to perform.

Ticket sales for the community production, *Legally Blonde*, have been very strong.

Drama Troupes started in March and are going well. The major upgrade and revitalisation works, funded by the Regional Cultural Fund, are expected to start in July.

Advertising for *Legally Blonde* was discussed, with Ms Savage congratulated on the content.

**RECOMMENDED** on the motion of Mr Singh Lally and Mrs Clarke that the Committee note this report.

**CL04 GRIFFITH CITY LIBRARY MANAGER'S REPORT**

Library Manager, Shiron Kirkman gave a detailed overview of statistics and events held at Griffith City Library from February to April 2019.

These included more than 11,100 people visiting the Library in March, up from 9,900 in February.

There has also been an increase in memberships which has been attributed to doing away with temporary membership cards. Renewals are up in terms of loans as a result of waiving overdue fines.

The rundown of programs and activities also included a progress report on the multipurpose room, the first stocktake since installing RFID technology, plans for a Book Week parade along Banna Avenue on 21 August and a Media Release issued reporting that close to 2,500 banned and inactive library members have re-visited the Griffith City Library since waiving overdue fines.

Mrs Kirkman also advised that Doug and Julie McWilliam have indicated they will be making a generous donation to the Library's local studies digitisation project; specifically for the digitisation of material relating to early pioneers.

**RECOMMENDED** on the motion of Mrs Cox and Mrs Clarke that the Committee note this report.

**CL05 GRIFFITH REGIONAL ART GALLERY REPORT 21/5/19**

Ms Savage provided a detailed overview of exhibitions and activities on behalf of Art Gallery Coordinator, Raymond Wholohan.

Since the last Cultural Facilities Committee Meeting, Griffith Regional Art Gallery (GRAG) has made solid progress on delivering its 2019 program of exhibitions and public programs. An Education Launch was held for the first time at the Gallery, with teachers invited to attend and encouraged to take advantage of the curriculum based program.

Exhibitions presented include Barbara McGrady: Always Will Be, David Griggs: Between Nature and Sin, Manggan: Gather, Gathers, Gathering. Public programs delivered include Digital photography workshop, Curatorial floor talk, Emoji workshop, Encaustic workshop, Mindi weaving workshop, Free Family Fun Day, Life Drawing, SmARTy Kids, Aerosol art workshops: to coincide with the Banna Lane Festival, Yield workshop, Woman on Fire and A Day in the Orchard.

Discussion included the recent increase in Indigenous artists featured at the Gallery and the idea of incorporating Indian themed exhibitions and shows at the Theatre to tie in with the Sikh Games held over the June long weekend.

**Action:** Ms Savage to investigate the idea further.

**RECOMMENDED** on the motion of Mrs Clarke and Mr Singh Lally that the Committee note this report.

Mr Testoni left the meeting at 6.25pm.

**CL06 MINUTES - GPPM WORKING GROUP MEETING - 26 FEBRUARY 2019**

Ms Savage tabled a late report on behalf of Business & Administration Coordinator, Jenny O'Donnell providing a Museum Visitation overview.

**RECOMMENDED** on the motion of Mrs Clarke and Mrs Cox that the information be received and the Minutes be adopted.

**CL07 LEISURE SERVICES MANAGER'S REPORT**

Leisure Services Manager, Alan Anderson provided a summary of the February-March period including the busiest month of the year for both GRALC and Westend Stadium. Both facilities expect a quieter period over the cooler months, with the facilities now planning for minor capital works to take place over this slower period.

Events held at the Stadium included state and junior basketball, school sports and general sports such as domestic basketball competitions, Juniors Aussie Hoopers, Senior, categories, played mid-week and on Sundays, senior badminton competition, Regional Athletics Carnival conducted on Westend Oval, Basketball and Netball State training sessions and Lifeball.

Major works and housekeeping tasks have been scheduled as GRALC enters the quietest period. These include the women's change rooms, which will be closed for removal of tiles in showers, reapplying of wet seal and retiling. Replacement of rusting benches.

The Program Pool will be closed for the replacement of filters and painting of mushroom in toddler's pool.

On 11 July from 9.00am – 12.00noon the Centre will be closed for staff evacuation training and practice.

Discussion took place regarding the new 50 metre outdoor pool and included viability, space and usage.

**RECOMMENDED** on the motion of Mrs Clarke and Mr Fachin that the Committee note this report.

## **6 OUTSTANDING ACTION REPORT - 27 MAY 2019**

Mr Turner informed the Committee that an updated version of the Action Report would be circulated to Committee members.

**RECOMMENDED** on the motion of Mrs Clarke and Mr Fachin that the Committee note this report.

## **7 GENERAL BUSINESS**

### **7.1 Library interview room charges**

Mrs Clarke asked if it was possible for charges to be waived or rebates provided for community groups.

Mr Turner advised the issue had been taken to Council, with the outcome to be confirmed.

## **8 NEXT MEETING**

The next meeting of the Cultural Facilities Committee is to be held on Monday, 26 August 2019 at 5.30pm at Griffith Regional Aquatic Leisure Centre.

There being no further business the meeting terminated at 7.00pm.

Confirmed: .....

CHAIRPERSON

---

**DISABILITY INCLUSION & ACCESS COMMITTEE  
HELD IN THE MURRAY ROOM, GRIFFITH ON  
TUESDAY, 28 MAY 2019 COMMENCING AT 1.04PM**

---

**PRESENT**

Councillor Mike Neville (Chair); David Jones (Community Representative); Mary Catanzariti (Community Representative); and Simone Murphy (Community Representative),

Quorum = 3

**STAFF**

Director Sustainable Development, Phil Harding; Director Economic & Organisational Development, Shireen Donaldson; Principal Planner Urban Design & Strategic Planning, Peter Badenhorst; Community Development Coordinator, Peta Dummett; Road Safety & Traffic Officer, Greg Balind; Project Planner, Nathan Beer; Technical Support Officer, Binita Shrestha; Trainee Engineer Traffic & Civil, James Tomarchio; and Minute Secretary, Kirsty McKenzie

**1 APOLOGIES**

**RECOMMENDED** on the motion of David Jones and Mary Catanzariti that apologies be received from Councillor Rina Mercuri, Councillor Anne Napoli, George Youssef, Jason Campbell and Anita Gatty.

Absent: Belinda Black

**2 CONFIRMATION OF MINUTES**

**RECOMMENDED** on the motion of David Jones and Mary Catanzariti that the Minutes of the previous meeting held on 26 February 2019, having first been circulated amongst all members, be confirmed.

**3 BUSINESS ARISING**

Nil.

**4 DECLARATIONS OF INTEREST**

**Pecuniary Interests**

There were no pecuniary interests declared.

**Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

**Less Than Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

**5 ITEMS OF BUSINESS****CL02 COMMUNITY DEVELOPMENT UPDATE**

Ms Dummett provided supplementary commentary to her written report, which included:

**Wide Angle Film Festival**

Whilst attendance was disappointing staff in collaboration with the Committee will endeavour to hold another event in 2020.

**DIAP**

The finalised DIAP report is attached to these Minutes.

**National Carers Week**

The Committee agreed to apply for the grant and use it to hold a BBQ for Carers Week in Enticknap Park, Langley Crescent.

*Mrs Donaldson arrived 1.12pm*

**RECOMMENDED** on the motion of David Jones and Simone Murphy that the Committee note the report.

**CL01 UPDATED CODE OF CONDUCT INDUCTION**

As Mrs Donaldson wasn't yet available to conduct the inductions, this Clause was postponed till after CL02.

This induction was for the benefit of Committee members only as staff and Councillors will be provided with separate training.

**RECOMMENDED** on the motion of David Jones and Mary Catanzariti that the:

- (a) Information be received;
- (b) Members be inducted into Council's updated Code of Conduct Policy (GOV-CP-404); and
- (c) The updated Code of Conduct Induction be conducted again at the next meeting to capture the members who were unable to attend this meeting.

*Mrs Donaldson left at 1.20pm*

**CL03 YAMBIL STREET UPGRADE**

Mr Badenhorst gave a verbal update of the following:

**Yambil Street Upgrade – Stage 1**

- The upgrade for Yambil Street was needed for a number reasons, other than beautification, such as: to help correct flooding issues, as well as to correct footpath levels and accessibility.
- Work commenced on Stage 1 in October 2018.
- Completion of Stage 1 has been delayed due to a number of unforeseen circumstances, such as: fuel tanks hidden under the street and Essential Energy buried infrastructure not being to specifications.
- Mr Badenhorst presented a visual representation of what is envisaged for Yambil Street once it is completed. Design aspects included: paving inlays in the footpaths with paving accents on the corners and the same tree, Water Gum (*Tristaniaopsis laurina*) tree throughout.

**Memorial Park**

- Work has commenced on Memorial Park in the main street.
- The toilet block is being completely upgraded. The outside of the toilet block is staying the same but all of the internal layout is being re-configured and replaced. A baby change table will be available in the Community room and the Committee asked if a fold down baby change table could also be included in the disabled toilet.
- Mr Badenhorst presented visual representation of the community stage which is in the process of being constructed. The stage will be 5.5m x 11m and should be completed by September 2019. The stage will include disabled access.
- A landscape architectural firm has been engaged to help with design and planning for the Memorial Park and Rose Garden projects.

**Rose Garden**

- Mr Beer presented a visual representation of what is envisaged for the Rose Garden next to the Visitor's Information Centre in Jondaryan Avenue.
- The footpaths throughout the Rose Garden are proposed to be wheelchair accessible. This will include using stabilised crushed granite to ensure compliance with accessibility standards.
- Mr Balind advised that the proposed food van parking adjacent the Visitors Centre (in the car park) is in the process of being repurposed and re-zoned for caravans and RVs.

**CL04 CARERS WEEK 2019**

This report was deal with previously under CL02 - Community Development Update (above).

## **6 OUTSTANDING ACTION REPORT**

### **RECOMMENDATION**

The report be noted.

## **7 GENERAL BUSINESS**

Phil Harding left the meeting at 2.04pm

### **7.1 Liberty Swing**

- Equipment manufacturers appear to be moving away from equipment for specific abilities (eg. the Liberty Swing) and concentrating more on equipment that suits all abilities.
- The Planning and Urban Design team conducted a survey of local users of the swing to gauge their use and to obtain any feedback. The team were pleasantly surprised at the amount of times many of the local users utilised the swing. As a Mlak key is needed to access the swing, it was suggested a sign be erected on or near the swing advising of how to obtain a key.

**RECOMMENDED** on the motion of David Jones and Mary Catanzariti that the Council erect a sign on or near the Liberty swing advising how to obtain a Mlak key to operate the swing.

### **7.2 Banna Avenue – white marking for vision impaired**

Ms Murphy asked if something could be done about the faded parallel street line marking in Banna Avenue and Council confirmed they will be repainted.

### **7.3 42 Jondaryan Avenue Crossing**

Mr Jones raised the concern of the difficulty crossing the road in Jondaryan Avenue in front of the Aboriginal Health Centre as cars are parking on it and suggested signage maybe required.

## **8 NEXT MEETING**

The next meeting of the Disability Inclusion & Access Committee is to be held on Tuesday, 27 August 2019 at 1.00 pm.

There being no further business the meeting terminated at 2.12pm.

Confirmed: .....

CHAIRPERSON

---

**GENERAL FACILITIES COMMITTEE  
HELD IN COUNCIL CHAMBERS ON  
TUESDAY, 4 JUNE 2019 COMMENCING AT 4.00 PM**

---

**PRESENT**

Councillor Doug Curran (Chair), Councillor Glen Andreazza, Eddy Mardon (Councillor - Alternate), Carolyn Kidd (Community Representative), Greg Collier (Community Representative), Ronald Anson (Community Representative) and Virginia Tropeano (Community Representative)

Quorum = 3

**STAFF**

Director Economic and Organisational Development, Shireen Donaldson, Director Utilities, Graham Gordon, Director Infrastructure & Operations, Phil King, Parks & Gardens Manager, Peter Craig, Team Leader Saleyards, Les Warren, Cemetery Team Leader, Paul Lewis, Planning & Environment Manager, Carel Potgieter and Minute Secretary, Leanne Austin

**1 APOLOGIES**

Director Sustainable Development, Phil Harding.

Absent: Denis Conroy (Community Representative), Marilyn Hams (Community Representative) and Wayne Spencer (Community Representative)

**2 CONFIRMATION OF MINUTES**

**RECOMMENDED** on the motion of Councillor Glen Andreazza and Ronald Anson that the minutes of the previous meeting held on 5 March 2019, having first been circulated amongst all members, be confirmed.

**3 BUSINESS ARISING**

Nil.

Mr Gordon entered the meeting at 4:02 pm.

**4 DECLARATIONS OF INTEREST**

**Pecuniary Interests**

There were no pecuniary interests declared.

### **Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

### **Less Than Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

## **5 ITEMS OF BUSINESS**

### **CL01 UPDATED CODE OF CONDUCT INDUCTION**

Mrs Donaldson provided an induction for Committee members in relation to Council's Code of Conduct which was adopted 12 February 2019.

Mr King entered the meeting the time being 4:05 pm.

**RECOMMENDED** on the motion of Councillor Glen Andreazza and Ronald Anson that:

- (a) the information be received;
- (b) Members be inducted into Council's updated Code of Conduct Policy (GOV-CP-404).

### **CL02 UPDATE ON FUNERAL BOOKING SYSTEM**

Mrs Donaldson provided an update on the electronic funeral booking system implementation. Council staff are working on automating the process utilising Council's calendar booking system.

**RECOMMENDED** on the motion of Councillor Glen Andreazza and Ronald Anson that the Committee note the actions on this project.

### **CL03 GRIFFITH LIVESTOCK MARKETING CENTRE**

Mr Gordon provided an update on the Griffith Livestock Marketing Centre. The truck wash tender was reported to Council recently and Council is negotiating with local contractors regarding this project. Deadline for completion is December 2019.

Mr Warren provided an update on operational and maintenance issues at the Saleyards.

Mr Anson enquired if there would be any changes to starting times depending on seasons. Mr Warren advised the starting time is now 9 am all through the year. The Saleyards have experienced exceptional sales recently and this is due to the quality of the lambs.

Concreting is to be done on the western side of the yards to upgrade the existing pens. Shade structures are being installed in every second lane as per budget allocation.

A new sheep loading ramp has been installed with another ramp being budgeted for in the next financial year.

**RECOMMENDED** on the motion of Ronald Anson and Councillor Glen Andreazza that the Committee note the information in the report and the financial position at the end of April 2019.

#### **CL04 CEMETERIES UPDATE**

Mr Craig provided an update on Cemetery issues including financial reports, lawn burials, available lawn plots and below ground vaults.

Mrs Tropeano entered the meeting the time being 4:28 pm.

**RECOMMENDED** on the motion of Greg Collier and Ronald Anson that the Committee note the Cemeteries Update report.

#### **CL05 DALTON PARK UPDATE**

Mr Craig provided an update on Dalton Park including financial reports, road maintenance and extension to the barrier shed.

Councillor Curran enquired if there were any plans to upgrade the road. Mr Craig advised there was no urgent need for upgrade at this point.

**RECOMMENDED** on the motion of Councillor Glen Andreazza and Carolyn Kidd that the Committee note the information in the report.

#### **CL06 FINANCIAL REPORTS - GRIFFITH POUND AND SENIOR CITIZENS CENTRE**

Mr Potgieter provided an overview of the Griffith Pound financials and advised that the Working Group is functioning very well. Compliance has a full staff complement now and the contract with the local vet is going well. Quotations are to be sourced for veterinary services for the next financial year. Cameras have been installed at the Pound. Sewer improvements have been completed and procedures have been improved. Quotations are being obtained for fencing for the old pound as an exercise area for dogs.

Mr Anson provided an update on the Senior Citizens Centre. The Griffith Leagues Club have offered to donate 96 chairs to the Centre. Three new blinds have been ordered. Mr Anson advised some chairs with arms are required and will be purchased using community grant funding. Old chairs will be donated/disposed of.

**RECOMMENDED** on the motion of Ronald Anson and Carolyn Kidd that the Committee note the information.

#### **CL07 MINUTES OF THE GRIFFITH POUND AND REHOMING CENTRE WORKING GROUP HELD 15 APRIL 2019**

Mrs Tropeano advised the NSW Animal Welfare League has provided \$5,000 funding for a desexing campaign. Vouchers are to be provided to people on pensions and health care cards. The Working Group is hoping for funding from Council to be able to offer this incentive to as many people as possible. The Working Group is also looking at a vaccination drive later in the year, encouraging people to vaccinate their pets.

**RECOMMENDED** on the motion of Virginia Tropeano and Ronald Anson that the information be received.

#### **CL08 MINUTES GRIFFITH POUND & REHOMING CENTRE WORKING GROUP HELD 20 MAY 2019**

The information was received.

## **CL09 MINUTES OF THE SENIOR CITIZENS CENTRE WORKING GROUP HELD ON 23 MAY 2019**

The information was received.

### **6 OUTSTANDING ACTION REPORT**

The Outstanding Action Report was discussed and updated.

An onsite meeting is to be held with stakeholders at Dalton Park to clarify fencing and drainage issues. Mrs Tropeano suggested looking at solar operated gates.

### **7 GENERAL BUSINESS**

#### **7.1 Booking of Graves**

Mr Collier asked if consideration could be given to providing less than 48 hours notice for a funeral, on a Monday. Mr King advised that the required notice is 48 hours due to operational requirements however, staff may oblige where possible. The requirements in the Management Plan should continue to reflect that 48 hours is the minimum notice required.

#### **7.2 Late Paperwork**

Mr Collier advised it is sometimes difficult to submit complete paperwork for burial applications as Doctor's Certificates often take time to obtain. Mr Collier requested that an application be able to be submitted without incurring late fees when waiting on Doctors Certificates.

Mr King advised that the paperwork should not be lodged until complete as legislation/regulations need to be complied with.

Councillor Curran suggested these issues should form part of a submission to change the Management Plan when it is placed on public exhibition.

#### **7.3 Monumental Permits/Fees**

Mr Collier wished to clarify the wording "all works" in the schedule which incur a \$232 charge. Mr King advised that this includes any type of works such as that which is done by a contractor / non Council staff.

Mr King advised that plaques are organised and ordered through Council. For any additional works to be conducted there is a single fee of \$232 for all works which may include major or minor works.

Mr Collier stated his concern with the charge of the \$232 fee and suggested there should be a minor and major fee as well as a nil fee for applying photos on plaques.

Mr Gordon left the meeting at 5:04 pm.

Mr King advised that unauthorised works is an issue in the cemetery. Funeral Directors may limit the charges incurred by combining tasks and cost sharing.

#### **7.4 Cemetery Management Plan – Embellishments - Ceramic Objects/Photos**

Mr Collier wished to clarify reference to glass ceramic objects in the Management Plan. Discussion took place as to what types of objects are allowed.

#### **7.5 Cemetery Fees & Charges**

Mr Collier stated his concerns with fees being charged to Funeral Directors.

#### **7.6 Timing of Funerals on Fridays**

Mr Collier requested that the finishing time on Fridays be considered in the Management Plan review as it is very difficult to finish on time on a Friday afternoon without incurring overtime for Cemetery staff.

#### **7.7 Lawn Section – third or subsequent internment of ashes**

Mr Collier enquired about the fees for third or subsequent internment of ashes which states “Re-Open (third or subsequent internment – ashes)”. This needs to state “Includes permit to bury only”.

#### **7.8 Storage Shed**

Mr Collier requested Funeral Directors have access to a small shed to store items. This will be taken on notice.

#### **7.9 Funeral Notices**

Mrs Tropeano advised she had viewed incorrect information on a website regarding ornaments at the Cemetery. Mrs Tropeano is to provide a link or screenshot to Council staff so this can be addressed.

### **8 NEXT MEETING**

The next meeting of the General Facilities Committee is to be held on Tuesday, 3 September 2019 at 4.00 pm.

There being no further business the meeting terminated at 5:28 pm.

Confirmed: .....

CHAIRPERSON

---

**GRIFFITH COMMUNITY CENTRE COMMITTEE  
HELD IN MURRAY ROOM, GRIFFITH ON  
THURSDAY, 30 MAY 2019 COMMENCING AT 1.30PM**

---

**PRESENT**

Councillor John Dal Broi (Chair), Councillor Deb Longhurst, Karen Snaidero (Community Representative) (via phone hook-up), Helene Webster (Community Representative)

Quorum = 4

Non-voting: Barbara Penninga

Guest: Sherene Blumer

**STAFF**

General Manager, Brett Stonestreet; and Minute Taker, Kirsty McKenzie

**1 APOLOGIES**

RECOMMENDED on the motion of Councillor Deb Longhurst and Helene Webster that apologies be received from Rina Mercuri and Lynda Lane.

Absent: Councillor Anne Napoli

**2 CONFIRMATION OF MINUTES**

RECOMMENDED on the motion of Councillor Deb Longhurst and Helene Webster that the minutes of the previous meeting held on 27 May 2019, having first been circulated amongst all members, be confirmed.

**3 BUSINESS ARISING**

Nil.

**4 DECLARATIONS OF INTEREST**

**Pecuniary Interests**

There were no pecuniary interests declared.

**Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

**Less Than Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

**5 ITEMS OF BUSINESS****CL01 GRIFFITH COMMUNITY CENTRE CONCEPT PLANS**

Plan A is for the Community Centre only and Plan B is for the Community Centre as well as the proposed future Country Universities Centre.

Sherene Blumer discussed the design aspects of both Plan A and B, which included:

- Concrete rain water tanks will be built into the earth berms to provide additional water for the gardens;
- On top of the buildings is to be native grass;
- Services for the buildings will be situated between the concrete of the buildings' roof and the false ceiling;
- The buildings will be made of reinforced concrete and double water proofed;
- Internal walls will be plaster;
- Both buildings will contain movable walls so the space can be better utilised.

**RECOMMENDED** on the motion of Councillor Deb Longhurst and Helene Webster that:

- (a) the Committee adopt Concept Plan A as presented;
- (b) the Committee adopt Concept Plan B as presented;
- (c) a Quantity Surveyor be engaged to prepare construction estimates for these Plans A and B;
- (d) the Quantity Surveyor estimates be reported to the Committee for consideration.

**CL02 SITE PLAN - PREPARATION OF PLAN OF MANAGEMENT (CROWN RESERVE)**

The Committee noted the report.

**6 GENERAL BUSINESS**

Nil.

**7 NEXT MEETING**

The next meeting of the Griffith Community Centre Committee is to be held once the Quantity Surveyor's report is available, at 1.00 pm.

There being no further business the meeting terminated at 2.15pm.

Confirmed: .....

CHAIRPERSON

---

**TRAFFIC COMMITTEE  
HELD IN THE MURRAY ROOM, GRIFFITH ON  
TUESDAY, 11 JUNE 2019 COMMENCING AT 10.30 AM**

---

**PRESENT**

Councillor Doug Curran (Chair); Greg Minehan (RMS); Bart Brighenti (Member for Murray Representative); and Brett Jameson (Police Representative)

**STAFF**

Engineering Design & Approvals Manager, Joe Rizzo; Road Safety & Traffic Officer, Greg Balind; and Minute Secretary, Kirsty McKenzie

Guest: Abby Molloy, Library People & Programs Team Leader

**1 APOLOGIES**

**RECOMMENDED** on the motion of Greg Minehan and Brett Jameson that apologies be received from Jason Hinson and James Tomarchio.

**2 CONFIRMATION OF MINUTES**

**RECOMMENDED** on the motion of Greg Minehan and Brett Jameson that the minutes of the previous meeting held on 14 May 2019, having first been circulated amongst all members, be confirmed.

**3 BUSINESS ARISING**

**CL01 Partial Closure of Banna Avenue and Jondaryan Avenue – Book Week Parade – August 2019**

**RECOMMENDED** on the motion of Greg Minehan and Brett Jameson that Partial Closure of Banna Avenue and Jondaryan Avenue – Book Week Parade – August 2019 be **RAISED FROM THE TABLE**.

Abby Molloy, from the Griffith City Library, advised the Committee of the actions taken by, or to be taken by, the Library staff for this event, which include:

- Letter drop to all affected businesses along Banna Avenue, Business Chambers and Childcare service next to the Visitor's Centre;
- Informing all local schools and parents;
- Radio advertising and this will include advising of the closed roads.

Ms Molloy also advised they had not received any negative feedback from any businesses about the proposed parade and road closures.

Mr Minehan confirmed the RMS had no issues with the event as long due process was followed, which staff confirmed.

Mr Balind advised he will submit a Road Occupancy Licence via the online RMS system.

**RECOMMENDED** on the motion of Brett Jameson and Greg Minehan that the Traffic Committee support the attached Traffic Management Plan associated with the 2019 Book Week Parade.

#### **7.1 Kidman Way Speeds**

Mr Minehan advised the RMS will undertake a review of the proposed extension of the 50km/h zone along Kidman Way, 150 metres to the south of Hanwood to facilitate inclusion of the shared path. The review is expected to take 90 days.

#### **7.5 Pioneer Park Museum Action Day Traffic Issues**

Due to the dangerous occurrence of pedestrians, including young children and parents with prams walking on the road, when attending the Pioneer Park Action Day; a Traffic Control Plan will need to be implemented for future events.

#### **7.6 Designated Parking near Fire Station**

White hatching in the parking bays is not permitted therefore the following were suggested:

- Paint the guttering red
- Stencil the Fire & Rescue symbol on the parking spots (similar idea to Disabled Parking spots)
- Stencil words on the parking spots (eg. FIRE & RESCUE ONLY).

Mr Minehan advised he will look into what may be available to use.

### **4 DECLARATIONS OF INTEREST**

#### **Pecuniary Interests**

There were no pecuniary interests declared.

#### **Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

#### **Less Than Significant Non-Pecuniary Interests**

There were no significant non-pecuniary interests declared.

## **5 ITEMS OF BUSINESS**

### **CL01 INSTALLATION OF TIMED CARAVAN AND MOTORHOME ONLY PARKING - GRIFFITH VISITOR'S CENTRE CARPARK.**

Councillor Curran advised that the Rose Garden Working Group were proposing to use the indicated area for food vans during special events. Mr Balind advised the Tourism Manager would be liaising with the Rose Garden Working Group about the food vans.

**RECOMMENDED** on the motion of Brett Jameson and Greg Minehan that the Traffic Committee recommend the installation of a 40 metre long 4 hour time limited Caravan and Motorhome Parking Only zone and associated signs/line marking on the southern side of the Visitor's Centre Carpark as per the attached design.

### **CL02 GRIFFITH'S BIGGEST LAP - TRAFFIC MANAGEMENT PLAN – 2019**

Mr Balind confirmed Mr Tomarchio's report and that there were no changes from last year. However, this year the organisers have agreed to cap registrations at 500 to try and alleviate stacking issues.

**RECOMMENDED** on the motion of Greg Minehan and Brett Jameson that the Committee support the Traffic Management Plan and associated Traffic Control Plans for Griffith's Biggest Lap 2019.

### **CL03 GRIFFITH SPRING FEST 2019 - TRAFFIC MANAGEMENT PLAN**

Mr Balind confirmed Mr Tomarchio's report. The only change from previous year's events will be some minor alterations to the staged closing of the Visitor's Centre car park for the Friday night launch party.

**RECOMMENDED** on the motion of Brett Jameson and Greg Minehan that the Traffic Committee support the Traffic Management Plans and Traffic Control Plans in relation to the annual Citrus Sculpture display and official launch.

### **CL04 OUTSTANDING ACTION REPORT - 11 JUNE 2019**

**RECOMMENDED** on the motion of Greg Minehan and Brett Jameson that the information be received.

## **6 GENERAL BUSINESS**

### **6.1 Kidman Way, Willbriggie**

A farmer along Kidman Way near Willbriggie contacted RMS and mentioned the potential conflict between vehicles turning into a farm access off the Kidman Way. Mr Balind provided the committee with a relevant sign that may be erected to provide advance warning.

*Mr Brighenti arrived 11.06am*

After discussion the Committee decided staff would contact the farmer and suggest they erect guide posts leading into their driveway so motorists can identify vehicles slowing down to enter the driveway.

## **6.2 B-Doubles access onto farms**

Mr Brighenti asked if something could be done to help provide access from B-double routes into farmers' properties.

Mr Balind advised there is a Farm Gate Access pilot program which commenced on 1 June 2019, where access is being granted on low volume roads with 25 or less b-double movements per day should a certain criteria be met. Any queries regarding this program, or access to farms by B-doubles, should be addressed to Mr Balind.

## **6.3 Rankins Springs Road and Mid-Western Highway**

Mr Brighenti asked why the last 500m of the Rankins Springs Road leading onto the Mid-Western Highway was not Road Train rated when the rest of Rankins Springs Road is.

Mr Balind advised:

- (a) The intersection of Rankins Springs Road and Mid-Western Highway is incompatible for Road Train movements; and
- (b) This section of the road was governed by RMS and Carrathool Shire Council.

## **6.4 St Mary's School, Yoogali**

Due to the increase in student numbers traffic management is becoming a greater problem for the school. Council recommended the implementation of changed traffic/parking conditions in 2017 however a compromise between the nearby church and the school was not able to be achieved. Mr Balind advised the location of existing infrastructure such as the children's crossing and driveways make it difficult to provide an easy solution however he confirmed he will review the issue again.

## **6.5 Yenda Amenities Sign**

The Yenda amenities sign on East Avenue, near the Club, has disappeared and needs replacing.

## **7 NEXT MEETING**

The next meeting of the Traffic Committee is to be held on Tuesday, 9 July 2019 at 10.30am.

There being no further business the meeting terminated at 11.25am.

Confirmed: .....

CHAIRPERSON

**TITLE**            **Notice of Motion - Attendance at State and Federal Conferences**

**FROM**           **Anne Napoli, Councillor**

**TRIM REF**      **19/45090**

---

**SUMMARY**

Council received a Notice of Motion from Councillor Napoli dated 17 June 2019.

**RECOMMENDATION**

**That the Mayor and three (3) Councillors be authorised to attend any State and Federal conferences.**

**SENIOR MANAGEMENT TEAM COMMENT**

Should Council support this Notice of Motion it is assumed by staff that the conferences to which this relates includes:

- Local Government NSW Annual Conference; and
- The National General Assembly of Local Government.

**NOTICE OF MOTION**

Mr Brett Stonestreet  
General Manager  
Griffith City Council  
GRIFFITH NSW 2680

Dear Brett,

I hereby give notice of the following motion for the Council meeting to be held on Tuesday, 25 June 2019.

**"That the Mayor and three (3) Councillors be authorised to attend any State and Federal conferences."**

Yours sincerely,

Councillor Anne Napoli

17th June, 2019.

Date

Excerpt from Council's Code of Meeting Practice:

**19. Giving notice of business**

The Council must not transact business at a meeting of the Council:

- (a) unless a Councillor has given notice of the business in writing or electronic mail by noon of the Tuesday immediately preceding the meeting; and
- (b) unless notice of business has been sent to the Councillors at least 3 days before the meeting, or, in the event of an extraordinary meeting called in an emergency, at least one day.

**TITLE** Notice of Motion - Street Trees - Gemini, Banna Avenue

**FROM** Christine Stead, Councillor

**TRIM REF** 19/45583

---

**SUMMARY**

Council received a Notice of Motion from Councillor Stead dated 18 June 2019.

**RECOMMENDATION**

Staff work with the developer for the removal of 5 trees located 201-207 Banna Ave and replacement of 5 more suitable and less invasive species with the agreement of staff and developer, all costs being borne by the developer.

**SENIOR MANAGEMENT TEAM COMMENT**

Senior Management Team recommend that Council not make a decision on this matter until such time as the following occurs:

- (i) Consultation be carried out with the developer of the Gemini in relation to timeframes of the development; and
- (ii) Community consultation be held regarding the Gemini street tree planting proposal and how it complements the CBD Strategy.
- (iii) Further information be presented to Councillors on the outcomes of the above consultation prior to any decision on tree removal.

Hi Christine, Here are some more photos of the issues with the tree roots on the footpath outside the Gem Hotel.  
Note, that the pipe under the root is the main coms line. The roots run up to and I suspect under the footings of the hotel.

To:  
Cc:  
Bcc:  
Subject: Fw: Gemini Footpath Trees  
From: Leanne Austin/Griffith City Council - Tuesday 18/06/2019 11:04 AM

Hi Christine, thanks for your time today and as discussed I have a copy of the specialist report prepared by Andrew Oliver. I have also attached a copy of the streetscape proposal for the front of The Gemini. I have thrown in some internal concept design pictures to give you a true value of the aesthetics and environment we are creating. I wasn't sure if I should go directly through Brett Stonestreet but with this information you can advise me or pass it on.

In brief there are Three main factors of why we need the trees removed.

1. **Work Health and Safety:** Dealing with such high traffic areas (68 accommodation rooms, corporate meeting rooms, fully serviced licensed restaurant, cocktail bar, public bar, games room, TAB and sports bar.....) the tree root systems are creating the existing pavers to rise and become very uneven. This is creating a very unsafe pathway adjacent to the front of the building. For the rest of the build both inside and out we have spared no expense to mitigate and eradicate the risk of health and safety issues for both the community at large and our employees. At the moment it is not uncommon for a staff member to help up someone who has tripped over, on the current path.
2. **Health of the Trees:** As the trees are under stress it is not uncommon for them to drop large branches. As you would be aware the council gardeners and our staff are forever picking up branches from the road and the curb. Again, this also becomes very dangerous to cars and pedestrians with the risk of branches and falling debris causing accidents where someone could be seriously hurt.
3. **Damage and Aesthetics:** The roots of the trees are currently causing major damage to the underground infrastructure of sewage, telecom , storm water....etc. The underground roots are also harbouring white ants which have to be maintained so as not to jeopardise any woodwork in our and surrounding buildings.

I could go on and on!!

Understanding you are very busy, I would like it if you and (John, Brett) could come down so I can show you around. Show you where we are up to with the build and give you some timelines on the completion. Go through our offerings and market strategies. This project on completion will be absolutely amazing. This will be a destination point for every person that travels to Griffith. Our restaurant will showcase local wines, beers, juices and all local produce, quail, Murray cod, Beef, chicken, lamb, pig (salami), fruits vegetables etc..... We will also be creating over 50 **NEW** employment positions.

Looking forward to hearing from you soon.

Thanks....

Figure 1: Proposed overlay of Gem Hotel (Designs, 2010)

## BRIEF

This report has been commissioned by Jim Knox, in order to assess the impacts associated with trees roots from several Claret ash trees outside the Gem Hotel located at 201 Banna Avenue Griffith, NSW.

With the main focus:

- a) Problems involving the pavement- this was resurfaced about 2 years ago, (noticeable by the newer coloured bricks)
- b) Unacceptable water displacement- the hotel having been flooded several times.
- c) A current development will include changes to the existing walkway- with public safety being a major focus if the trees are to remain.

The purpose of the report is to determine the health and condition of the trees, assess the structural integrity and address any salient concerns regarding the trees.

## INTRODUCTION

---

On the 4<sup>th</sup> of April 2019 Andrew Oliver conducted a tree assessment of five *Fraxinus raywood* (Claret ash) located on the nature strip outside the Gem Hotel at 201 Banna Avenue, Griffith NSW.

Concerns have been raised regarding damage that is being caused from the trees root systems, not only to the pavement but other adjacent infrastructure- the intrusion to a Telstra pit and plumbing to the hotel.

This report is to assess the impacts and implications caused by the severance of these tree roots- and will address the salient issues regarding the tree's current structural integrity and make necessary recommendations.

## KEY OBJECTIVES

---

- Accurately identify and record tree dimensions;
- Provide an assessment of the tree, health and structure;
- Assess the risks the current trees present in the landscape.
- Recommendations for trees

## METHODOLOGY

---

Andrew Oliver assessed five mature '*Fraxinus raywood*' on the 4<sup>th</sup> of April 2019.

The following data was collected for the tree;

- Latitude & Longitude
- Tree Identification number

- Botanical & Common name
- Origin
- Height
- Stem Ø DBH
- Health
- Structure
- ULE
- Works
- Priority
- Root defects
- Trunk defects
- Crown defects
- Comments

**Note.** In conjunction with VTA, no aerial or below ground root inspections were conducted. No invasive tests were conducted, any assessments of decay are qualitative only.

### METHODOLOGY EVALUATION

This report is driven using (VTA) Visual Tree Assessment.

'Where internal defects, rot, cracks or external lesions are repaired, the repair attachment ultimately is the symptom of a defect, a warning expressed in the body language of trees. It is a reflection of the axiom of uniformed stress, the rule of equitable load distribution on the surface of a tree. In a way, the tree continues to add wood until the high local stress caused by the defect has been equalised'. (Clause Mattheck, 2015)

## SITE MAP

## OBSERVATION/DISCUSSION

Griffith is a small city consisting of 19,144 people- including surrounding suburbs. (Census , 2016)

Five trees assessed were located in front of the Gem Hotel, 201 Banna Avenue, Griffith.

Of the five trees assessed, the most problematic appear to be Tree #1 and Tree #2- both are located at the main entrance to the hotel either side to an existing driveway- previously used as a drive-through bottle shop.

Both these trees are the largest specimens of the five, possibly due to the accessible water made available from both nearby storm water and the current Telstra pit - see [Figure 3](#)

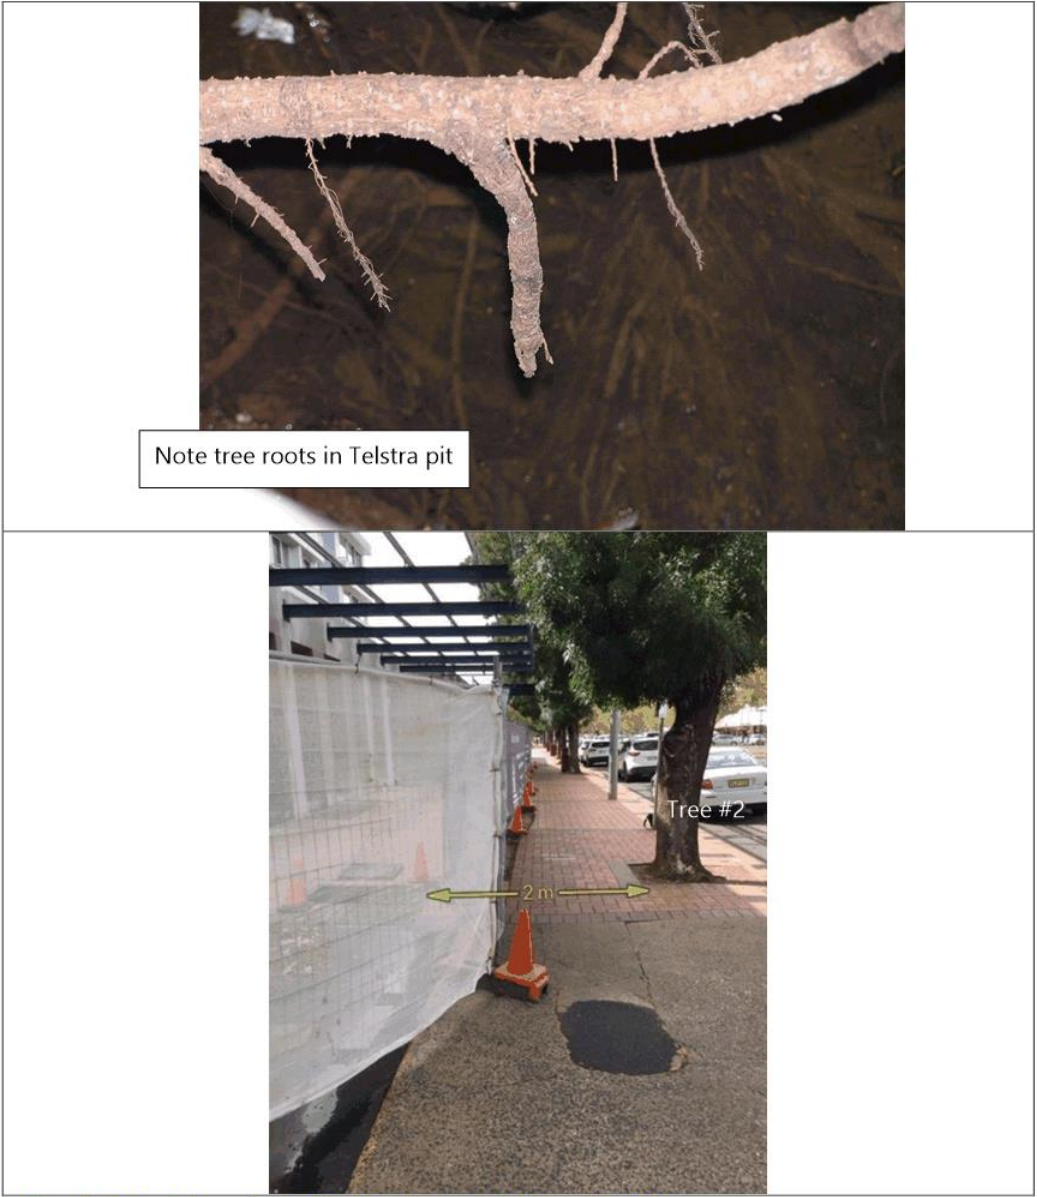

Figure 3: Replaced storm water pipe Tree #1 and tree roots in Telstra pit Tree #2

## ROOT SYSTEM

All trees appear to have been root pruned to allow for the re-bedding of pavement in the nature strip, most likely due to heaving on the surface, which would have created a trip potential hazard for pedestrians walking. Furthermore, two of trees have had the storm water replaced- both these works were estimated to have been done around 2 years prior to the current date, this can be easily identified by the darker coloured brick and new storm water outlets. See [Figure 4](#)

‘Give trees at least 8 feet (2.46 meters) between sidewalk and street and you will have very few sidewalk cracking problems.’ (Shigo, 1991).

Another issue identified in all the five trees assessed, is one that impacts many urban trees ‘compaction’. When soil is compacted, the pore space between soil particles is greatly reduced. This reduces oxygen availability to roots and causes accumulation of carbon dioxide and other gases’, ‘Urban soils are often altered in such a way as to become unfavorable for tree growth’, urban soils often lack an organic layer’ (Lilly, 2010)

Considering the trees estimate growth height to reach 15 metres a more appropriate species may need to be selected.

To consider tree selection first you need to understand root spread, this is further explained in more detail by, Day. S (2015)

- The average ratio of predicted root system radius to trunk diameter is 38:1.
- On young trees, root system radius may increase by 38 cm for every cm of trunk diameter

Figure 4: Storm water drainage circled- darker bricks (broken lines indicate area)

Tree #1; Structural Root Zone of 2.41 metres- distance from the excavation for drainage is 600mm. Tree #2; Structural Root Zone of 2.47 metres- distance from the excavation for drainage is 600mm. 'Root severance can give rise to an immediate windthrow hazard if it affects major roots in the root-plate area' (Lonsdale, 2013)

It is important to note that the SRZ is not related to tree health and works up to the SRZ can result in tree death/decline. It refers to the physical volume of roots required for the tree to remain stable in the ground. It is in no way related to the physiological

requirements of the tree, but is the minimum volume of roots required for the tree to remain standing.

Severe pruning at the root plate can be seen on Trees #1 through to #4, with a stump grinder possibly used to remove them. This can be seen by the furrows the teeth of the grinder cause. See [Figure 5](#)

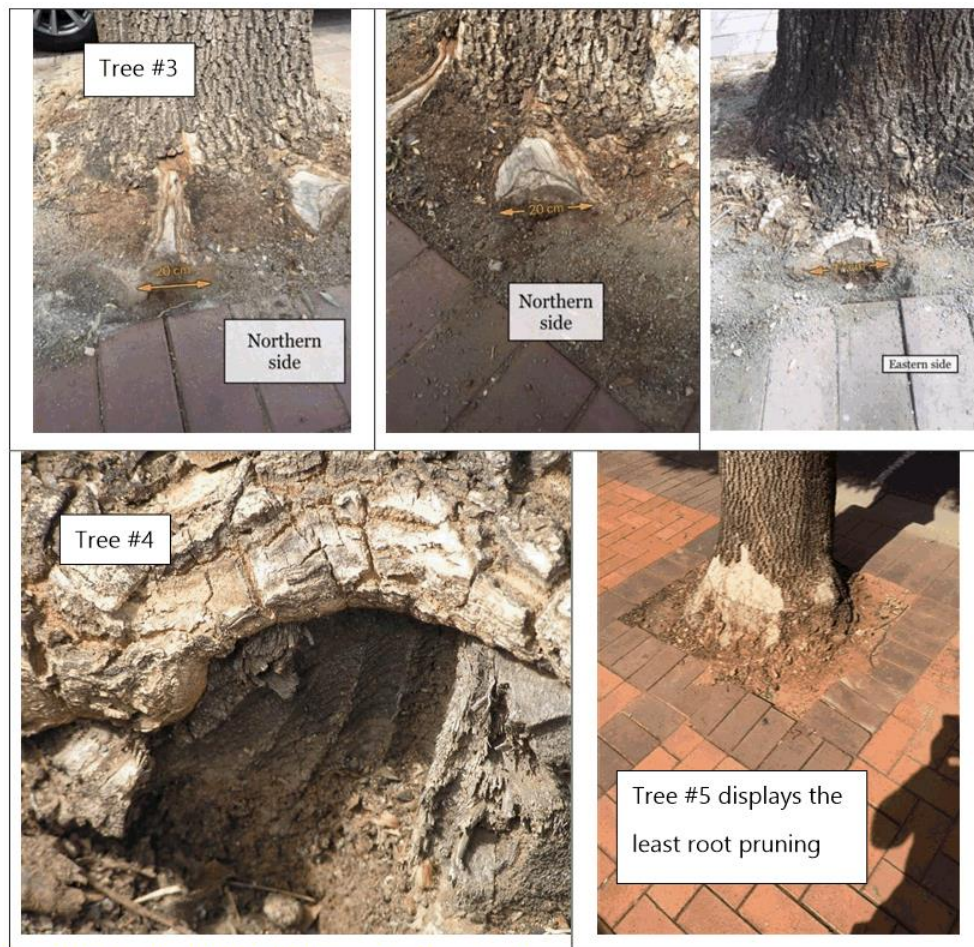

Figure 5: Pruning at root plate. NOTE: Furrows from stump grinder

'When it is necessary to cut roots, make cuts with a sharp tool and do not slant the cuts' (Shigo, 1991).

The amount of damage a tree suffers from root loss depends on how close to the trees stem the cut is made. 'Severing one major root can cause the loss of 15 to 25% of the root system. Another problem that may result from root loss due to digging and trenching is an increase potential for trees to fall over' (Lilly, 2010)

'The structural root zone is the area required for tree stability. A larger area is required to maintain a viable tree.' (Australian standards, Protection of trees on development sites, 2009)

Roots anchor trees to the ground, if major support roots are cut on one or more sides anchorage will be lost.

### TREE STEMS

Several trees display further signs of subsequent root damage and improper pruning, this has attributed to the spread of decay, as seen on several tree stems. See [Figure 6](#)

Figure 6: Spread of decay

Furthermore, are the epicormic sprouts- these are stress indicators, caused from flush cutting, compaction and damage around the root system.

'Epicormic growth is produced from dormant buds that lie beneath the bark of a tree. This growth does not form part of the tree's natural structure and, once the resultant branches reach a large size, they can be prone to failure' (Shigo, 1991)

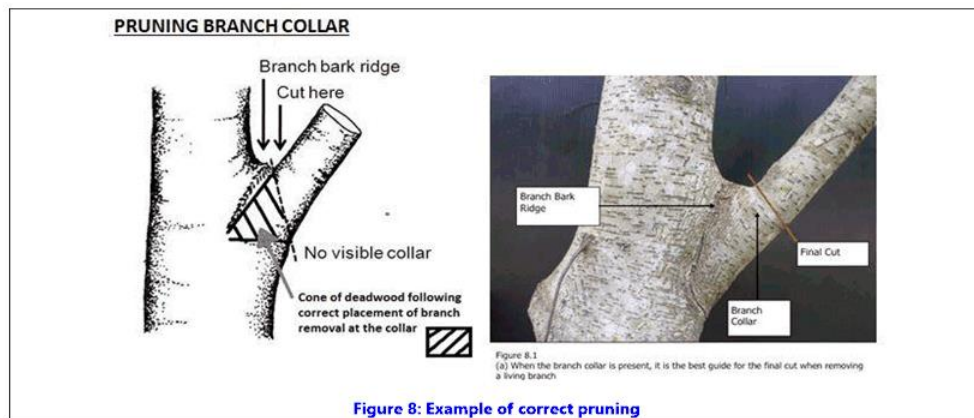

The high amount of epicormic growth supports moderate to high stress factors, most likely due to compaction and damage sustained around the root system.

'When roots are injured by construction or by other activities, many epicormic shoots often grow on the trunk and branches as branch tips die'. (Shigo, 1991) See [Figure 7](#)

Poor pruning whether on tree roots or on the stem of the tree increases the risk of decay- arborist should **always** prune to collars.... This allows the tree to compartamentalise and prevents the spread of decay. See [Figure 8](#)

Furthermore, is stem taper..... This is significant when regarding a tree's resistance to wind load. 'Stems with good taper- having a diameter that gradually decreases from base to tip are stronger than stems with poor taper. Taper develops in response to movement in wind and is enhanced by the presence of lateral branches low on the stem' (Lilly, 2010)

Tree #1 and #2 have poor taper with only 1 cm the difference for DBH and Buttress flare!

See [Figure 10](#)

'When stems have poor taper or the load is not uniformly distributed, the stem is more likely to break where the stress is greatest' (Lilly, 2010)

Figure 10: Example of poor taper-Tree #1

'Stems with good taper- having a diameter that gradually decreases from base to tip- are stronger than stems with poor taper. Taper develops in response to movement in wind and is enhanced by the presence of lateral branches low on the stem.' (Lilly, 2010)

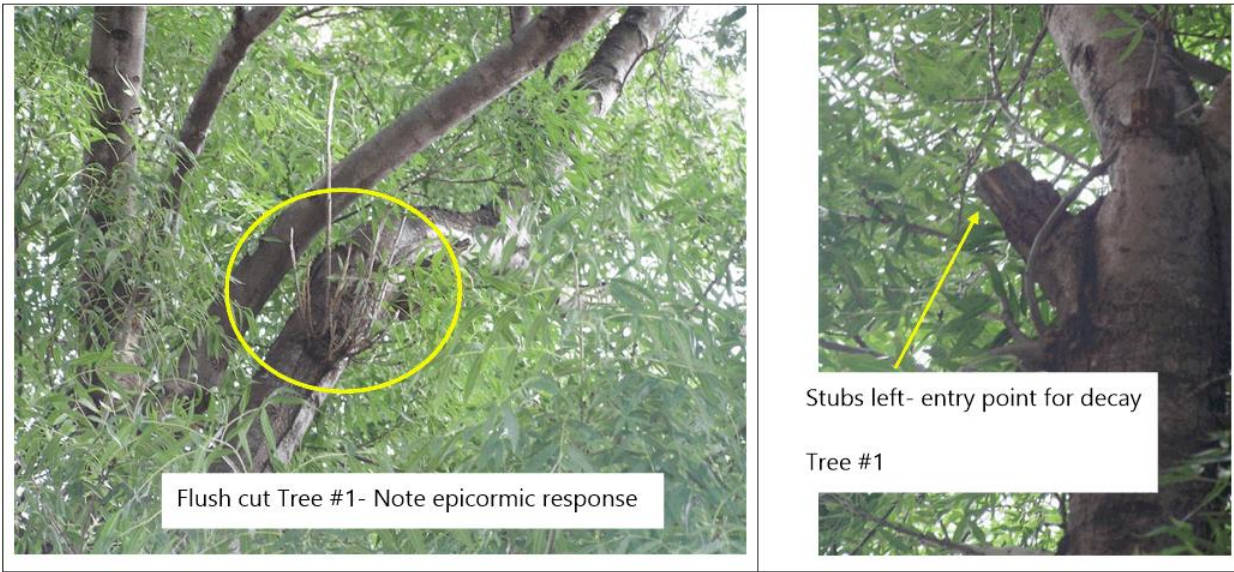

## TREE CROWN

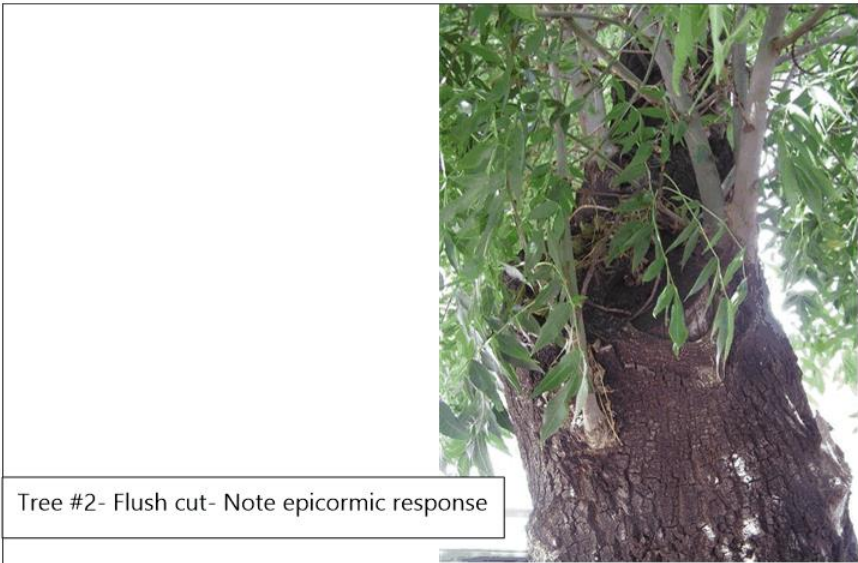

The crown begins at the first branch union, to the highest point of the tree and the total width, referred to as 'spread.'

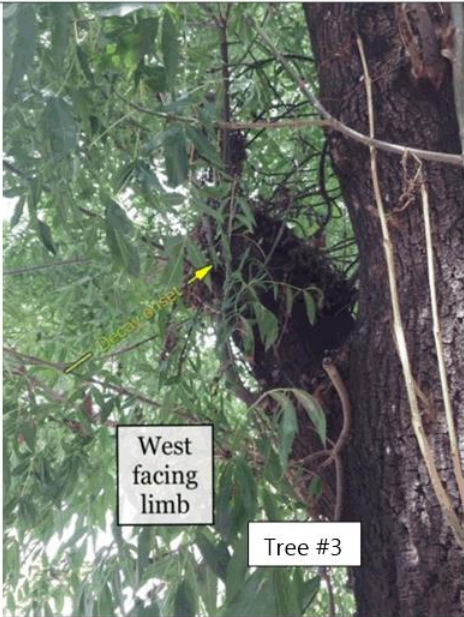

Of the five trees assessed Tree#5 displayed the lowest vitality, having only 60% leaf coverage, referred to as abscission.

The remaining trees all displayed defects- most were caused through human intervention..... Incorrect pruning! ..... And due to the current onset of decay- with time, this will likely be detrimental to the trees overall health and structure. See [Figure 11](#)

Tree #2- Flush cut- Note epicormic response

West facing limb

Tree #3

Tree #4- Flush cut

Figure 11: Sign of poor arboricultural practices

'Flush cuts not only destroy a trees major defense process by removing the tissues that produce the branch protection zone, but the flush cut leads to a reduction of energy reserves in the tissues about the wound'. (Shigo, 1991)

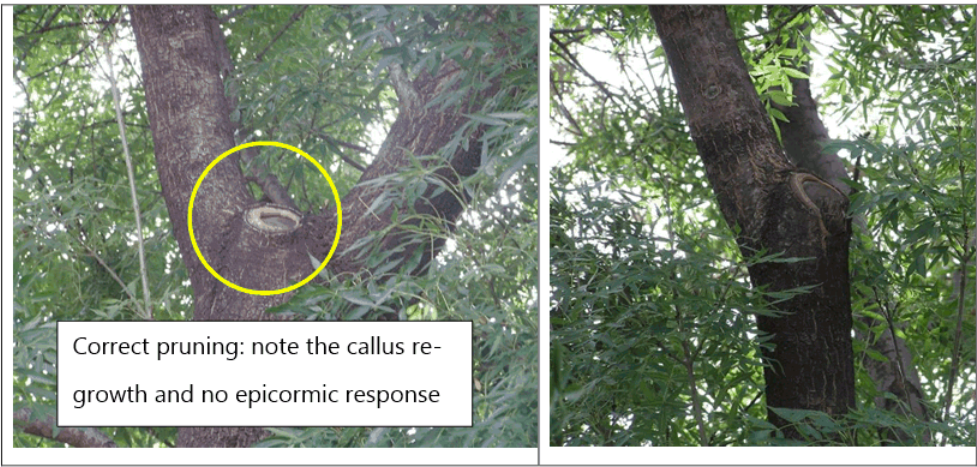

Figure 12: Tree #3 Top & #4 Below

## CONCLUSION

Five trees assessed were located to the frontage of the Gem Hotel, Griffith. The assessment was commissioned due to concerns regarding infrastructure damage and the level of risk the trees present. The trees health ranged from 'good' to 'poor'.

Of the trees assessed four reflected similar issues that can be attributed to; severe root pruning and poor arboricultural practices- these works have been regarded as major non-conformance and have cause significant doubt to the trees overall structural integrity. Because the root pruning has involved a stump grinder it is impossible to distinguish between what roots has been removed and what roots still exist!

In contrast, the pruning has been estimated to have occurred 2 years prior and given the trees would have been exposed to several adverse weather events (wind throw) it can be

safe to assume that the trees have become acclimatised and total tree failure would be unlikely at this present time.

Tree #1 to 3 display better vitality than 4 and 5 - this is possibly due to the remaining roots seeking nutrients from the available resources i.e. Telstra- pit where a high presence of tree roots was identified.

It also needs to be considered the Telstra- pit will require remedial works to rectify the invasion of tree roots and therefore the trees sustainability would need to be considered, given the pit is the trees main source of nourishment.

Finally, is the need to discuss the importance and significance of the trees, with regards to the community and their amenity value to the streetscape.

The trees contribution as an avenue would be deemed higher than as a standalone structure and therefore it would be advised that if the trees are removed then it be done in stages.

## RECOMMENDATIONS

---

Works have been recommended for the five trees at The Gem Hotel, Griffith. Recommended works have been prioritised into 'High', 'Moderate' and 'Low' categories.

Pruning and removal works should be carried out by fully qualified arborists or be directly supervised by qualified arborists. At least one fully qualified arborist must be present on-site at all times during pruning operations. The minimum qualification should be:

- An Advanced Certificate of Arboriculture
- A National Certificate in Horticulture (Arboriculture) Level 4
- The use of spur climbing is not to be used unless removal of the tree is necessary.

All pruning undertaken must conform to the Australian Standard Pruning of Amenity Trees (AS 4373-2007)

### THE AIMS OF PRUNING AMENITY TREES

- To reduce potentially hazardous situations in trees and improve tree structure, without compromising tree health
- To examine all trees from the crown of the tree and review each decision on "Pruning". If the contractor recommends tree removal, the supervising arborist should be consulted before any works proceed on that tree
- To retain and prune trees only if a "Useful Life Expectancy" of at least ten years can reasonably be predicted
- To remove all codominant trunks where there may be a structural problem
- To remove rubbing branches or trunks where the structure of the tree may be compromised
- Spurs are not to be used during any pruning works unless removal is recommended.

### RECOMMENDED WORKS

| ID | Botanical name          | Works                                                                                                                      | Priority | Risk category |
|----|-------------------------|----------------------------------------------------------------------------------------------------------------------------|----------|---------------|
| 1  | <i>Fraxinus raywood</i> | Removal                                                                                                                    | Moderate | Moderate      |
| 2  | <i>Fraxinus raywood</i> | Removal                                                                                                                    | Moderate | Moderate      |
| 3  | <i>Fraxinus raywood</i> | Structural prune and suppress crown -reduce western lateral over the roadway- reevaluate tree vitality 2 years after works | High     | Moderate      |
| 4  | <i>Fraxinus raywood</i> | Structural prune tree- weight reduction of lateral at first union                                                          | Moderate | Moderate      |
| 5  | <i>Fraxinus raywood</i> | Removal                                                                                                                    | High     | High          |

Table 1: Recommended works

## REPLACEMENT OPTIONS

### Recommended options for garden bed

#### a) Structured soils

Urban development requires severe compaction to meet load-bearing requirements, and are typically in direct conflict with the needs for trees. Architects have worked with arborists to find ways to improve the rooting environment of city trees while meeting the compression requirements of urban pavements and streets. 'Structure soils are 'designed' soils that can be compacted to meet engineering requirements and still allow root growth and development', 'Structured soils comprise of aggregates of gravel, clay loam, and hydrogels (used as a stabilising agent), their function is to create a load-bearing surface with sufficient pore space to support root growth and establishment of trees' Structured soils do come with concerns and limitations. Mixing is critical (to achieve the desired mix for the root zone), the expense (must be incorporated into the budget), if gravel is used (type is important, as it can impact on soil ph and the load support) and because soil is limited (the ultimate growth of the tree may also be limited).

#### b) Soils cells

Another approach to providing adequate root space under urban pavement is to create a suspended sidewalk using structured cells or strata vaults. The concept is to build a three-dimensional grid of cell-like modular units that can be filled with soil to support root growth and development. The cells incorporate a top deck, which is covered with a geotextile fabric, and an aggregate base course below the paving.

Figure 13: Stratavault, Macquarie Mall Redevelopment (Wilson, Kuhne, & Gooden, 2015)

c) Soil improvement

Options for deflecting roots away from surfaces has been discussed many times. Studies have proven the most effective way to deflect roots away from surfaces, comprises of the soil having 'good drainage' and 'little compaction', and not through the use of vertical root barriers. 'A gravel sub-base can prevent roots from growing under walks by creating an air environment too dry for root growth'

Urban sites associated with poor soil conditions can be improved, however some are more easily remedied than others. For instance, drainage can be improved and compaction reduced, but are best achieved on sites where trees are yet to be planted.

#### Species

- a) Replacement with the same genus and similar species will keep with the current streetscape. This being '*Fraxinus pennsylvannica* 'Aerial' the tree has a columnar growth habit, which will reduce the costs and maintenance on pruning (when pruning is required) and prevent the need to over-prune, as the trees reach maturity. The trees are hardy and wont look out of place in the Banna Avenue.

## Appendix 1. Data Collection Definitions

The information collected on each specimen was based on the assessor's experience and opinion of each of the trees. Included are the descriptions for each of the listed categories. The following information was collected on each tree.

- 1.1 Botanical name: The genus, species and common name.
- 1.2 Canopy dimensions: Height (approximate) and width (measured) of the canopy in metres.
- 1.3 DBH: Diameter at breast height (measured at 1.3m above ground level).

## 1.4 Health:

| Term      | Definition                                                                                                                                                                                                                                                                                          |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Excellent | The tree is demonstrating excellent or exceptional growth. The tree should exhibit a full canopy of foliage and be free of pest and disease problems                                                                                                                                                |
| Good      | The tree is demonstrating good or exceptional growth. The tree should exhibit a full canopy of foliage, and have only minor pest or diseases problems.                                                                                                                                              |
| Fair      | The tree is in reasonable condition and growing well. The tree should exhibit an adequate canopy of foliage. There may be some deadwood present in the crown. Some grazing by insects or possums may be evident.                                                                                    |
| Poor      | The tree is not growing to its full capacity; extension growth of the laterals is minimal. The canopy may be thinning or sparse. Large amounts of deadwood may be evident throughout the crown. Significant pest and disease problems may be evident or symptoms of stress indicating tree decline. |
| Very poor | The tree appears to be in a state of decline. The tree is not growing to its full capacity. The canopy may be very thin and sparse. A significant volume of deadwood may be present in the canopy or pest and disease problems may be causing a severe decline in tree health.                      |
| Dead      | Tree is dead                                                                                                                                                                                                                                                                                        |

Table 2: Health definition

## 1.5 Structure:

| Term    | Definition                                                                                                                                                                                                                                                          |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Good    | The tree has a well-defined and balanced crown. Branch unions appear to be strong, with no defects evident in the trunk or the branches. Major limbs are well defined. The tree is considered a good example of the species                                         |
| Average | The tree has some minor problems in the structure of the crown. The crown may be slightly out of balance, and some branch unions may be exhibiting minor structural faults. If the tree has a single trunk, it may be on a slight lean or exhibiting minor defects. |
| Poor    | The tree may have a poorly structured crown. The crown may be unbalanced or exhibit large gaps. Major limbs may not be well defined. Branches may be rubbing or crossing over. Branch unions may be poor or                                                         |

|           |                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | faulty at the point of attachment. The tree may have suffered root damage.                                                                                                                                                                                                                                                                                                                            |
| Very poor | The tree has a poorly structured crown. The crown is unbalanced or exhibit large gaps with possibly large sections of deadwood. Major limbs may not be well defined. Branches may be rubbing or crossing over. Branch unions may be poor or faulty at the point of attachment. Branches may exhibit large cracks that are likely to fail in the future. The tree may have suffered major root damage. |
| Failed    | The tree has a very poorly structured crown. A section of the tree has failed or is in imminent danger of failure.                                                                                                                                                                                                                                                                                    |

Table 3: Structure definition

### 1.6 Useful Life Expectancy (ULE) Rating

Useful Life Expectancy is approximately how long a tree can be retained safely and usefully in the landscape.

| Term        | Definition                                                                                                                                                                                                                                                                                       |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Removal     | The tree is considered dangerous in the location and has no significant amenity value                                                                                                                                                                                                            |
| 0-5 years   | The tree, under normal circumstances and without extra stresses being imposed on it, should be safe and have value for up to five years, but will need to be replaced. During this period, normal inspections and maintenance will be required. If possible, replacement trees should be planted |
| 6-15 years  | The tree, under normal circumstances and without extra stresses being imposed on it, should be safe and of value for up to fifteen years. During this period, normal inspections and maintenance will be required                                                                                |
| 16-40 years | The tree, under normal circumstances and without extra stresses being imposed on it, should be safe and of value for up to forty years. During this period, normal inspections and maintenance will be required.                                                                                 |
| 40+ years   | The tree, under normal circumstances and without extra stresses being imposed on it, should be safe and of value for greater than forty years. During this period, normal inspections and maintenance will be required                                                                           |

## DISCLAIMER

---

The information contained within this report is to be used solely for the purposes that were specified at the time of engagement.

All attempts have been made to ensure the legitimacy of any information which has been gathered in the process of compiling this report; however, the report does not seek to determine what level of risk any individual or organisation is prepared to accept, but serves to highlight straightforward hazards and management options.

Any tree inspections or assessments which have been carried out for the purposes of this report are valid only at the time of inspection and are based on what could reasonably be seen or diagnosed from a visual inspection carried out from ground level.

All inspections unless otherwise stated are based upon Visual Tree Assessment (VTA) techniques, industry best practice and applied knowledge. No internal diagnostic testing or below ground investigation has been carried out unless otherwise stated.

Trees are a dynamic living organism and as such they have a finite lifespan the end of which cannot always be predicted or understood, even apparently healthy trees can die suddenly or fall without warning.

A handwritten signature in blue ink, appearing to read 'Mr. Aif'.
