SUSTAINABLY DEVELOPING THE OUTBACK

Minutes

Ordinary Meeting held in the
Bedourie Administration Centre
Boardroom on 19 August 2024,
commencing at 9:00am

Minutes of the Ordinary Meeting of the Diamantina Shire Council held at the Administration Centre, Bedourie on Monday, 19 August, 2024 commencing at 9.00am

1 Opening of Meeting

Mayor Cr Francis Murray declared the Meeting open at 9.00am.

2 Attendance

- Mayor Cr Francis Murray
- Deputy Mayor Cr Damien Watson
- Cr Damian Clarke
- Cr Rob Dare (via video conference)
- Mr Jason Beaton, Chief Operating Officer
- Mrs Lorelle Hatch, Director Corporate Services
- Mr Brent Reeman, Executive Manager
- Ms Lorraine Mathieson, Executive Assistant
- Scott Mason, Acting Chief Executive Officer

Attendance - Ms Lorraine Mathieson, Executive Assistant entered the meeting at 9.01am.

3 Apologies and Leave of Absence

Cr Kerry Morton has advised the Mayor and CEO that he was unable to attend this meeting.

Minute No. 2024.08.19-OM-01

Moved Cr Clarke and Seconded Cr Watson

That Council accept the apology submitted by Cr Morton.

Carried 4/0

4 Acknowledgement of Country

Mayor Cr Francis Murray acknowledged the Wangkamadla People, Traditional Custodians of the land on which we meet today and paid respect to their Elders, past and present. He extended that respect to Aboriginal and Torres Strait Islander people here today.

5 Condolences

Condolences are extended to Cr Morton and his family on the passing of his mother, Mrs Beverly Morton OAM.

Our thoughts go out to the Morton family. Bev was an extraordinary person who touched the lives of everyone in the Diamantina community. She will be dearly missed, but her memory will always be cherished and fondly remembered.

The meeting observed a minute's silence, as a mark of respect.

6 Declarations of Interests in Matters on the Agenda

Cr Dare advised that he is President of the Bedourie Race Club, and as such has a conflict of interest in Agenda item 12.4.3.

Cr Watson advised he is a member of the Bedourie Race Club, and as such has a conflict of interest in Agenda item 12.4.3.

8 Confirmation of Minutes

8.1 Minutes of Ordinary Meeting held 15 July, 2024

Minute No. 2024.08.19-OM-02

Moved Cr Clarke and Seconded Cr Watson

That the Minutes of the Ordinary Meeting held 19 July, 2024 be confirmed.

Carried 4/0

8.2 Minutes of the Special Meeting held 31 July, 2024

Minute No. 2024.08.19-OM-03

Moved Cr Dare and Seconded Cr Murray

That the Minutes of the Special Meeting held 26 June, 2024 be confirmed.

Carried 4/0

9 Mayor's Business

Minute No. 2024.08.19-OM-04

Moved Cr Watson and Seconded Cr Clarke

That Council accept the Mayor's report as presented

Carried 4/0

10 Business Outstanding – Including Conduct Matters and Matters laying on the table to be dealt with

10.1 Resolution Register

Resolution Register was reviewed, noting that resolutions had been reviewed and commentary updated for currency and to reflect the status of implementation for each resolution.

11 Notices of Motion

Nil.

12 Officers Reports

12.1 Infrastructure Services Directorate

12.1.1 Infrastructure Services Monthly Report.

Attendance - Mr Scott Mason, Acting CEO left the meeting 9.38am and returned 9.39am.

Attendance - Mr Stuart Bourne, Partner, George Bourne and Associates entered the meeting at 9.41am.

Attendance - Mr Bob Stephen Director, Infrastructure Services entered the meeting at 9.42am.

12.1.1 Infrastructure Services Monthly Report (continued)

A potential water leak was noted north of the Eyre Development Road, west of the Diamantina River and east of Birdsville Township at 25deg 54'01S 139deg 22'16E@42m

Attendance – Mr Jason Beaton, Chief Operating Officer left the meeting 10.28am and returned at 10.30am.

12.1.2 Engineer's Report - GBA

Cooling Ponds Project, Part of Lot 14 SP303311

Attendance – Morning tea adjournment at 11.11am. The meeting resumed at 11.27am.

12.1.2 Engineer's Report - GBA (continued)

Cooling Ponds Project, Part of Lot 14 SP303311

That having regard to:

- (a) advice that the Department of Resources ("Department") has decided that native title is already extinguished by way of a public works previous exclusive possession act ("PEPA") over that part of the Birdsville township reserve required for the Cooling Ponds Project ("Project Area");
- (b) clause 34.2 of the registered Indigenous Land Use Agreement ("ILUA") over the Project Area to which Council is party, provides that the parties agree and will not dispute extinguishment within the ILUA area by way of PEPA; and
- (c) the Department's advice that a deed of grant in fee simple ("freehold grant"), will be offered to Council over the Project Area on revised terms to the in-principle offer previously made.

Minute No. 2024.08.19-OM-05

Moved Cr Watson and Seconded Cr Dare

That Council makes the following decisions:

1. Any revised offer of the kind referred to in paragraph (c) above, be accepted provided its terms are considered reasonable by the Chief Executive Officer.
2. Council and its agents and contractors make best endeavours to work with the Department to secure the making by the State of the freehold grant before the Queensland Government enters the upcoming caretaker period.
3. Council delegates authority to the Chief Executive Officer to formally accept any revised offer of a freehold grant, and take all such measures necessary for that purpose, in accordance with this resolution.

Carried 4/0

That Council receive the Community and Economic Development report and that those matters not covered by resolution be noted.

Carried 4/0

Attendance - Mark Williams, Partner, King and Company Solicitors joined the meeting via TEAMS at 4.01pm.

7. Deputations

This discussion is considered confidential and will be discussed in a closed meeting of Council in accordance with Section 254 (j) (g) Local Government Regulation 2012, negotiations relating to a commercial matter involving the local government for which a public discussion would be likely to prejudice the interests of the Local Government.

Minute No. 2024.08.19-OM-22

Moved Cr Watson and Seconded Cr Clarke

That Council resolve to close the meeting to the public in accordance with Section 254 (j) (g) Local Government Regulation 2012.

Carried 4/0

Attendance – The meeting was closed at 4.02pm.

Attendance – Mark Williams, Partner, King and Company Solicitors left the meeting at 4.58pm.

Minute No. 2024.08.19-OM-23

Moved Cr Clarke and Seconded Cr Watson

That Council re-open the meeting to the Public.

Carried 4/0

The meeting reopened at 4.59pm.

Attendance – Ms Lorraine Mathieson, Executive Assistant left the meeting 5.00pm, and returned 5.01pm.

Attendance – Mr Bob Stephen, Director Infrastructure Services attended the meeting at 5.01pm.

15.1 Late Agenda Item – Light Vehicle Tender Evaluation

Considered by Council.

Attendance – Mr Bob Stephen, Director Infrastructure Services left the meeting at 5.24pm.

Attendance – Mr Brent Reeman, Executive Manager left the meeting at 5.25pm.

Attendance – Ms Lorraine Mathieson, Executive Assistant left the meeting 5.25pm, and returned 5.27pm.

Minute No. 2024.08.19-OM-24

Moved Cr Dare and Seconded Cr Watson

That the Chief Executive Officer be delegated authority to instruct Council's solicitors:

- (a) to make offers of settlement in the District Court proceedings 4638/2016 against Rosecove Pty Ltd and others, as recorded in writing, and signed by the Mayor on 19 August 2024; and**
- (b) in the day to day conduct of the litigation generally, including in response to offers of settlement from the other parties that are no better than Council's direction as set out.**

Carried 4/0

Chief Operating Officer Reports (continued)

12.3.4 Community Grant In Kind Support for K WILLS Creative

Minute No. 2024.08.19-OM-25

Moved Cr Clarke and Seconded Cr Dare

That Council:

- 1. Approves in-kind support for KWills Creative by providing community hall venues and promotional assistance.**
- 2. Grants \$2,500 from the community grants fund to KWills Creative for conducting introduction to Millinery workshops in Bedourie and Birdsville.**

Carried 4/0

12.3.5 Community Grant Bedourie Gymkhana

Cr Clarke declared a prescribed conflict of interest in this matter, given he is the President of the Bedourie Gymkhana Club Association Incorporated. Cr Clarke dealt with the conflict by leaving the meeting and taking no part in the decision-making process.

Attendance – Cr Clarke left the meeting at 5.34pm.

Attendance – Mr Brent Reeman, Executive Manager returned to the meeting at 5.34pm.

Minute No. 2024.08.19-OM-26

Moved Cr Watson and Seconded Cr Dare

That the Diamantina Shire Council recognises the importance of its community events and it approves support for the 2024 Bedourie Campdraft, Rodeo and Gymkhana event. Details of Council's support is included in the schedule noted in the Agenda.

Carried 3/0

Attendance – Mr Scott Mason, Interim CEO left the meeting at 5.36pm and returned at 5.36pm.

Attendance – Upon invitation Cr Clarke returned to the meeting at 5.36pm.

Executive Manager Reports

12.4.1 Update on Birdsville Big Red Bash and Bedourie Camel Races events

Minute No. 2024.08.19-OM-27

Moved Cr Murray and Seconded Cr Watson

That Council receive the Executive Manager's report on Big Red Bash and Bedourie Camel Races, and that those matters not covered by resolution be noted.

Carried 4/0

12.4.2 Community Based Auctions

Attendance – Mrs Lorelle Hatch, Director Corporate Services left the meeting at 5.48pm and returned at 5.49pm.

Minute No. 2024.08.19-OM-28

Moved Cr Clarke and Seconded Cr Dare

That Council receive the Executive Manager's report regarding the upcoming community-based auctions, and that those matters not covered by resolution be noted.

Carried 4/0

12.4.3 Bedourie Race Track Earthworks

Cr Dare declared a prescribed conflict of interest in this matter, given he is an office bearer of the Bedourie Amateur Race Club Incorporated. Councillor Dare dealt with the conflict by leaving the meeting and taking no part in the decision-making process.

Attendance - Cr Dare left the meeting at 5.53pm.

Cr Watson declared a declarable conflict of interest in this matter, given he is a member of the Bedourie Amateur Race Club Incorporated. Cr Watson recognised that although he had a declarable conflict of interest, he would reasonably be perceived to be impartial because he is not an office bearer. Cr Watson stated that he wished to remain in the meeting and he requested eligible councillors to decide if he may participate in the debate and decision-making despite his declarable conflict of interest.

The eligible councillors present were Crs Murray and Clarke.

Minute No. 2024.08.19-OM-29

Moved Cr Murray and Seconded Cr Clarke

That Cr Watson be permitted to remain in the meeting, participate in the debate and subsequent decision-making regarding agenda item 12.4.3 which pertains to proposed Bedourie Race Track earthworks. The eligible Councillors make this decision based upon Cr Watson's indication that he can be impartial and that he is an ordinary member of the Bedourie Amateur Race Club Incorporated, and not an office bearer.

Carried 2/0

Minute No. 2024.08.19-OM-30

Moved Cr Clarke and Seconded Cr Murray

That Council authorise the Council to perform the requested earths works at the Bedourie Race Track to the approximate value of \$21,500.

Carried 3/0

Attendance - Upon invitation, Cr Dare returned to the meeting at 6.02pm.

12.4.4 Birdsville Courthouse Project Update

Attendance - Mr Bob Stephen, Director Infrastructure Services joined the meeting at 6.10pm

Minute No. 2024.08.19-OM-31

Moved Cr Clarke and Seconded Cr Dare

That Council receive the Executive Manager's report and that those matters not covered by resolution be noted.

Carried 4/0

12.4.5 Plant Committee Standing Committee Meeting

Minute No. 2024.08.19-OM-32

Moved Cr Watson and Seconded Cr Murray

That Diamantina Shire Council change the Plant Standing Committee Meeting from 20 August 2024 to 13 September 2024.

Carried 4/0

15.1 Late Agenda Item – Light Vehicle Tender Evaluation (continued)

Attendance – Mrs Lorelle Hatch, Director Corporate Services, left the meeting at 6.15pm and returned at 6.18pm.

Resolution No. 2024.08.19-OM-33

Moved Cr Dare and Seconded Cr Watson

That Council accept and approve the proposed purchases of the following vehicles:

- **1 x Toyota Land Cruiser 300 Series GXL 7 seat Wagon from Sci-Fleet, Mt Isa for a total cost of \$127,468.60**
- **3 x Dual Cab Utilities Toyota Hilux SR from Black Toyota, Dalby for a total cost of \$233,580.00**
- **3 x Isuzu D-MAX Dual Cab utilities from Mt Isa Isuzu at a total cost of \$221,970.00**
- **2 x Toyota Fortuner GX 7-seater Wagons from Sci-Fleet, Mt Isa for a total cost of \$148,804.00**
- **2 x Toyota Landcruiser workmate 2.8 litre Dual Cab utilities, from Sci-Fleet, Mt Isa for a total cost of \$227,048.00**
- **2 x Isuzu FVD 165-260 auto Crew Cab trucks from Isuzu Trucks, Toowoomba for a total cost of \$516,387.28**

Carried 4/0

Attendance – Mr Bob Stephen, Director Infrastructure Services left the meeting at 6.19pm.

13. CEO Report

Minute No. 2024.08.19-OM-34

Moved Cr Clarke and Seconded Cr Dare

That Diamantina Shire Council records its support for Deputy Mayor Cr Damien Watson being the Central Western Queensland Remote Area Planning and Development Board representative for the Queensland Dog Offensive Group (QDOG). The QDOG is a committee that provides advice to the Queensland Department of Agriculture and Fisheries on the best strategic direction to take in wild dog management.

Carried 4/0

Minute No. 2024.08.19-OM-35

Moved Cr Watson and Seconded Cr Dare

That Council receive the CEO's report and that those matters not covered by resolution be noted.

Carried 4/0

Attendance – The Mayor adjourned the meeting at 6.58pm. The meeting resumed at 7.03pm.

Attendance – Mr Jason Beaton, Chief Operating Officer left the meeting at 7.03pm.

14 CLOSED MEETING – Confidential Matters

14.1 Land Sale

That this item is considered confidential and will be discussed in a closed meeting of Council in accordance with Section 254J(3)(g) of the *Local Government Regulation 2012* – negotiations relating to a commercial matter involving the local government for which a public discussion would likely to prejudice the interests of the local government.

Resolution No. 2024.08.19-OM-36

Moved Cr Watson and Seconded Cr Dare

That Council close its Meeting to the Public in accordance with Section 254J(3)(g) of the *Local Government Regulation 2012*.

Carried 4/0

The meeting was closed at 7.04pm

Resolution No. 2024.08.19-OM-37

Moved Cr Dare and Seconded Cr Watson

That Council re-open its meeting to the public.

Carried 4/0

The meeting was re-opened to the public at 7.13pm

Minute No. 2024.08.19-OM-38

Moved Cr Dare and Seconded Cr Murray

That the request by Malcolm and Rochelle Reynolds for the temporary location of a mobile accommodation facility on wheels on land described as 2 Eyre Street, Bedourie is denied. Council makes this decision having regard for precedence, visual amenity and aesthetics at a high traffic (vehicle and pedestrian) area and because suitable accommodation solutions for caravans or mobile accommodation currently exist.

Further, that the request for an extension of one year to two years to build a dwelling and access the incentives under the Residential Housing Building Incentive Policy is approved.

Carried 4/0

14.3 Late Item Bedourie Gymkhana Club

Cr Clarke declared a prescribed conflict of interest, as he is the president of the Bedourie Gymkhana Club Association Incorporated. Cr Clarke dealt with the conflict by leaving the meeting and taking no part in the decision-making process.

Attendance - Cr Clarke left the meeting at 7.15pm.

Minute No. 2024.08.19-OM-39

Moved Cr Dare and Seconded Cr Watson

That Council support the request in principle, however the matter is to be deferred to the next Ordinary Council Meeting to allow for proper assessment.

Carried 3/0

Attendance – Mr Brent Reeman left the meeting at 7.38pm and returned at 7.38pm.

Attendance – Upon invitation Cr Clarke returned to the meeting at 7.38pm.

14 CLOSED MEETING – Confidential Reports (continued)

14.2 Recruitment

This item is considered confidential and will be discussed in a closed meeting of Council in accordance with Section 254J(3)(a) of the *Local Government Regulation 2012* – the appointment, discipline or dismissal of the chief executive officer.

Resolution No. 2024.08.19-OM-40

Moved Cr Clarke and Seconded Cr Dare

That Council close its Meeting to the Public in accordance with Section 254J(3)(a) of the *Local Government Regulation 2012*.

Carried 4/0

The meeting was closed at 7.39pm.

Resolution No. 2024.08.19-OM-41

Moved Cr Clarke and Seconded Cr Watson

That Council re-open its meeting to the public.

Carried 4/0

The meeting was re-opened to the public at 7.52pm

Minute No. 2024.08.19-OM-42

Moved Cr Watson and Seconded Cr Dare

- 1. That the Selection Panel Report (attached) on the process undertaken, outcome of applications and interviews conducted for appointment to the position of Chief Executive Officer (CEO) for Diamantina Shire Council be received and noted.**
- 2. That the preferred candidate who was selected following the CEO Recruitment Panel's final deliberations held after receiving the full Council's feedback on the final presentations and interviews conducted on Wednesday 17 July and then again across the week commencing Monday 5 August 2024, be offered the position of Chief Executive Officer of Diamantina Shire Council.**
- 3. That the Mayor, in consultation with the Recruitment Consultants, be authorised to negotiate and finalise the appointment based on the following terms and conditions:**
 - a. A four (4) year performance-based contract;**
 - b. A total remuneration package of up to \$280,000 being the total value of components of remuneration offered, including base salary, superannuation and the private use value of the Council provided motor vehicle;**
 - c. A relocation allowance be offered if required up to a limit of \$15,000 to cover the cost of relocating household and other items, subject to 50% of the reimbursement being paid on relocation and the remaining 50% after 12 months satisfactory service as assessed by the Performance Review Panel;**
 - d. May-24	2024.05.31-OM-05	Gravel Pit compliance Decision Report	That Council continue with the responsible management of council's gravel pits including: i. Undertaking Cultural Heritage clearances for new/ expanded gravel pits where identified, under the assumption that Native Title (NT) will be addressed in due course by the State (at this time those pits cleared should be added to the SP). ii. Undertaking NT assessments (where required) for pits not needing a SP (i.e on stock routes/freehold/road reserves etc), since Council can win/take material from areas where NT is extinguished, providing CH and Environmental compliance is appropriately addressed. iii. Add priority pits to the Environment Authority (EA) as required. iv. Continue to attend meetings and engage with Native Title Holders and DAF to obtain relevant ILUA's and/or Interim Agreements. 2. Attempt to mitigate the potential effects of unavailable gravel pits after 30 September 2024: i. Consider stockpiling material between now and 30 September 2024 in priority/ cost effective areas i.e re-sheeting locations for 2024/25 RMPC, flood damage areas likely to require gravel etc (This is expected to be challenging logistically as sites may not be approved at this time). ii. Seek access via DAF to stockpile material from pits not renewed post 30 September 2024 via clause 24GE of the Native Title Act. iii. Prepare and issue Entry Notices to landholders in anticipation of using Section 143 of the Local Government Act	GBA	Schedule meeting between Wangkamalda, QSNTS and DSC for Saturday 13 July 2024 in Bedourie	In progress	4/6/2024 Deb H rang QSNTS (Lilly Youels) and Avelina Tarrago to source arrival dates for Bedourie meeting. OPERATIONAL UPDATE

Facilities

Message from Facilities team – We have been Fencing Houses in Bedourie. Trenching at the Racecourse for 11 replaced power poles (Caravan Park Style) with water taps installed in the competitors camping area, Costs for this work, Quote from electrician \$37,266.02, and council cost for the trenching labour and plant is \$11,626.73, the old ones were a safety hazard as in the past we have had them arcing out and sparks falling onto camps when raining due to the birds chewing the lines, we had to have electricians do patch ups to help sort this out, we were also having a lot of cut outs and need of a generator to assist with power outlets. A new enclosure for gas bottles at kitchen, safety requirement. General maintenance of both towns' inspections for future projects. Co-ordinated works with Electricians and Plumbers.

Plumber Position is still vacant. HR still has it advertised. A conversation has been had in regards to possibly changing the outlook of filling this position. Possible casual position for travellers to help fill the role and get feet on the ground to try and complete some tasks, not only plumbing.

DABFAB industries and Chapo's Plumbing Pty Ltd are currently doing the required plumbing for Council

- Pricing installation of more water taps in the camping area of the bronco branding area in Birdsville.
- Request for quotes for 11 and 13 Jardine Street for an upgrade to the septic lines from the houses, on recent inspection after considerable request from the tenant regarding toilet issues it has been noted 13 Jardine Street has started to sink which has made the line from the house to the septic block up as it is not going downhill. 11 Jardine Street is on the same line.

Electricians BAE and Outback Power have both been coordinated to do tasks that are on the maintenance list.

Bedourie water usage takes into account an open-ended line running into the river, when the pool upgrade was done the heat exchanger tapped into this line, we are investigating changing the line for this to go through the spa.

Secondly the spa is another open line, originally this had a filter system so the water was not being run though the spa at all time but was removed when the gym was put in place so the water is continuously running through.

The Eyre Ck discharge matter has been investigated and it turns out that this is the pool heat exchanger discharge so can't just be capped off without causing damage to the HEX, GBA/ Jodie and Jason Doyle inspected site last week and we can make some improvements to minimise this discharge and run through the spa instead while still feeding the troughs, GBA will do a design sketch and table a budget to the Q1 review.

Housing available:

Birdsville

- 45 Frew Street
- 11 Jardine Street

Bedourie

- 5 Lignum 3-bedroom house
- 1 Herbert Street 4-Bedroom House **CEO**

Bill Knight our contract builder has been doing detailed inspection on our houses, he has completed 40% of the inspections, and we have already programmed some of the works into the programme and commenced some work.

We are light on tradesmen and are finding it hard to employ plumber and other trade skills, we are proposing to advertise for casual tradesmen through the Grey Nomad employment sites, if we can get some tradesmen for short periods this will allow us to progress the maintenance work on our house.

Aerodromes

Aerodrome operating as per usual

AIMS Airport Industries Management Support is currently in Birdsville running the Birdsville Aerodrome over the race period. Whilst in Birdsville they will be completing some maintenance in any down time.

Town Services – Bedourie

Message from Bedourie Town Services – Bedourie Parks and Gardens monthly report.

Throughout August the team have had a chance to catch up on some outstanding tasks between events.

First the town refuse tip received a good clean up, secondly the front garden of the administration office, we finished the retaining wall, added some irrigation lines and planted some more native plants between normal duties.

Town Services – Birdsville

Message from Birdsville Town Services

Regular cleaning duties of town facilities, we are no longer cleaning the clinic as Queensland Health have employed someone.

Usual mowing, whipper snipping duties around town.

Two backpackers joined our team for the remainder of their employment which is a great help over the Races, we have employed a new cleaner / labourer.

We have aerated, fertilised and filled in holes on the oval, its looking greener already, after the races we plan on top dressing it.

The Two Boys Dreaming Walking Trail and the other walking trail next to the caravan park have undergone maintenance and been tidied up

We have a new safety Rep on our team, HSR training has been completed.

Most of our focus this month has been on preparation of the town and set up for the Birdsville races.

Roads

Activation of new DRFA Event - Diamantina Rainfall and Flooding, 1-7 July 2024 (AGRN 1145)

We received activation for this event on the 23rd August 2024, we have commenced work, the 90 day emergent works commences as soon as we have access to the roads, we have requested an EOT, but this has been rejected, we have submitted to QRA our access dates, we believe emergent works will end first week in October 2024, we are still awaiting conformation of final dates.

Maintenance Crew (Zach Kinivan)

Presently working in the Betoota area.

They have completed a light formation grade from Birdsville to the Barcoo / Diamantina Shire Boundary, bitumen shoulder grading will commence after the horse racing carnival is over.

They have prepared the Betoota Racetrack, access roads and camping areas ready for the rodeo on Friday night and Races Saturday 31st August, be a great weekend.

Both access roads into Betoota have been graded, further work will be carried out on these roads later.

Crushing of gravel in the Betoota Gravel Pit is now complete, this gravel will be used on a ten-kilometre gravel resheet project from Betoota access towards Farleys Jump Up.

A five-kilometre section of road will also have a gravel resheet, from Cuppa Creek towards Birdsville, this gravel has already been carted and laid out ready to be Stabilized and shaped. Emergent work has commenced on roads in the Betoota area.

The Durrie Access Road will be graded prior to Birdsville Races.
This crew will be in the Birdsville Betoota area for the rest of the year.

Maintenance Crew (Fred Brown)

This Crew have completed a light formation grade from Cluny to the Barcoo / Diamantina Shire Boundary, all Flood Damage Restoration work through the Diamantina Channels at Monkira is now complete.

They did a light formation grade from Nyama intersection towards Coorabulka.

With the heavy movement of stock transport on the Bedourie to Windorah Road, we got this crew to do a light formation grade from Whitalarna Creek to Bloodwood Creek.

They have now started on the Emergent work.

They will grade the Cuttaburra section of gravel and tidy up the shoulders.

From here they will commence work from the Shire Boundary on the Bedourie to Windorah Road and do a light formation grade back to Whitalarna Creek.

Repairs to a large floodway near Kingadurka Trucking Yard turn off will be carried out while in the area.

Stockpiling of gravel and crushing will be carried out by Harris from Boulia on the Springvale to Diamantina Lakes Road.

This crew will move back to Springvale area to carry out Flood Damage Restoration work.

Civil Crew (Francis Warren)

They have near completed the foot paths in Birdsville.
Still have the path to complete at the Police Station in Birdsville

Foot paths at the police station area will be completed after the Horse Racing Carnival.
This Crew have been helping the Birdsville Town Crew prepare for the Horse Racing Carnival, Grading and preparing camp sites and access roads in Birdsville, Bedourie and Betoota.

They transported equipment to the Betoota Racetrack and helped with set up and then transported all equipment back to Birdsville and Bedourie depots
This crew will commence work on the Bedourie to Windorah Road after the Racing Carnival replacing and fixing all signage required.

Patrol Grader Crew

The graders are presently grading the bitumen shoulders from the Cuttaburra towards Birdsville and carrying out any necessary Flood Damage work.
They have started on the Emergent work in the Birdsville area.
Do a light formation grade from Birdsville to Nappabillie Creek, Birdsville to the SA Border and grade the inside road to the SA Border.
A grid on this road needs to be replaced.
They will then grade the Adria Downs Access Road and Stoney Crossing road.

General

Certainly, been a busy year to date with the constant wet weather conditions and high volumes of traffic coming through our area with the Big Red Bash, Camel Races and now the lead up to our Horse Racing Carnival.

We also have a large volume of Road Trains travelling our roads transporting cattle to and from properties.

All Local Contractors have been engaged for a month to help with the Emergent Flood Damage work from the July 2024 event throughout the Shire.

Things are progressing well.

Workshop

Plant

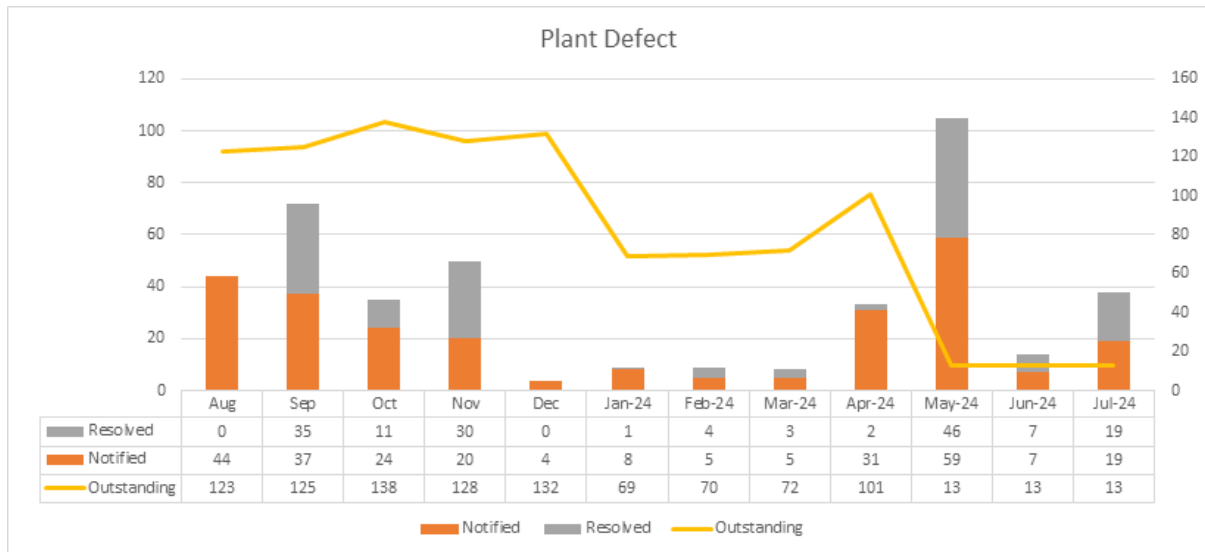

Purchase orders have been raised for the following vehicle, agreed for purchase at the last Council meeting

- 3 Toyota Hilux Dual Cab Utilities
- 3 Isuzu D Max Dual Cab Utilities
- 2 Land Cruiser Dual Cab Utilities

- 2 Toyota Fortuner
- 1 Landcruiser 300 Series
- 2 Isuzu !0 tonne Capacity Dual Cab Work Trucks

NAVMAN Upgrade is 50% completed the remainder being put in all vehicles late September

Workshop Coordinator/Supervisor has commenced work and is going well, catching up on outstanding works. He is settling in well and has started to review systems to enable a better running workshop.

All routine servicing on yellow plant is currently up to date, we are still catching up on some of the light vehicle servicing

We have had a contract boiler maker on site for the last two week and have caught up on a backlog of work

12.1.2 Engineering Report

Responsible Officer: Director of Infrastructure Services

Author: Stuart Bourne | Civil Engineer (GBA Consulting Engineers)

Summary

The purpose of this report is to update Council on matters that do not require a separate or comprehensive report for consideration. Current operational and strategic matters and upcoming matters that may be raised at future meetings are detailed.

Officers Recommendation:

That Council receive the Engineering Report and that those matters not covered by resolution be noted.

6-23 January 2024 South West Qld Flooding has been activated. The main restoration submission will be covered by the subsequent Kirrily submission.

2024 – Tropical Cyclone Kirrily, associated rainfall and flooding, commencing 25 January 2024.

Activation request for this event has been lodged and approved by QRA. Damage evidence collection is complete on DTMR and Shire roads. Some culverts to be inspected for potential Betterment applications. Submission pending lodgement.

Shire Roads Emergency works claim drafted for \$454,080.40.

Betterment Projects:

Three sites designed for future betterment were submitted for funding under the announced betterment fund associated to the Northern and Central Queensland Monsoon and Flooding, 20 December 2022 – 30 April 2023 event. These sites were Betoota – Mooraberee Road Ch 276, Springvale – Boulia Shire Boundary Road Ch 28,870 and Diamantina Lakes – Winton Shire Boundary Road Ch 26,882.

All three sites have been approved with a total project value of \$924,269.44. Tenders closed 23rd August 2024, further details are within the Betterment 2023 separate report.

OTHER

Project/ Item	Comment
Visits to the Shire	16 th – 21 st August: CH & Environmental Inspections 19 th August: Council meeting 21 st August: QRA meeting 21 st – 24 th August: CH Inspections 27 th – 29 th August: Reseals & Grid Inspections 28 th August: Birdsville Houses Final Inspection
Bedourie & Birdsville Solar Power Project (86 Sites total)	Ongoing troubleshooting for identified sites. Batteries are scheduled to be installed at Bedourie Ergon power station in Early 2025. Next teleconference 5 th September.
Mode Design	All deliverables have been provided. Variation pricing requested for development of preliminary plans for: - Birdsville Hall, further planning development - Bedourie Library/ County Universities Centre/ Childcare/ Information centre - Birdsville Multipurpose/ library/ evacuation centres/ playgroup/ gym
Water Main Air Scouring & Reservoir Cleaning	The Water Group have procured reservoir cleaning and water main air scouring. Airscouring completed 22/23 rd July. Reservoir cleaning scheduled for 29 th September.
Birdsville Housing	Contract awarded to Kent Constructions for 3 x 3 bedroom houses for \$2,216,160 + gst. Works practically complete. Remaining works include: Ergon connections, cupboard doors, building approval certificates. The Telstra connections have been requested.
Birdsville Billabong Ecological Study	The first & second Birdsville billabong ecological studies has been completed. The final document will be completed and submitted to the regulator to assist with justification of environmental flows in order to

	maintain environmental and cultural values of the billabong in the coming months.
Birdsville Cooling Pond	Quotation documents for the Cooling Pond Liner have closed pending decision. Quotation documents for the Temporary Cooling Pond Equipment have closed pending decision A tender is being prepared for the design and installation of the Birdsville Cooling Ponds including pipeworks and pumps, shade structure, overflow pond concrete works etc. Land acquisition is complete pending correspondence from traditional owners. The National Water Grid Funding application has been completed with the state government. (Department of Regional Development, Manufacturing, and Water). An Ergon contract has been received for power supply to the new site; construction should be completed by 18 April 2025.
Town Common Fencing	Survey completed – some sections too wet to access: Birdsville fencing 95% Bedourie fencing 95% Sections have been mapped and prioritised.

DECISION ACTION REPORTS

12.1 Director Infrastructure Services

12.1.3 Supply and Install Cooling Pond Liner

DECISION REPORT

Date:	28/08/2024	Presentation Duration:	Approx 10 minutes
To:		General Council Meeting

Letter of Recommendation – Supply and Install Cooling Pond Liner

PURPOSE

To outline the procurement, assessment and award of the Supply and Installation of Cooling Pond Liner for the new cooling pond in Birdsville.

OFFICER RECOMMENDATION

That Council accept Geotest Pty Ltd for the Supply and Installation of Cooling Pond Liner for \$ 286,733.66 excluding GST.

REPORT

Background

Tender documents for the supply and installation of cooling pond liner were uploaded to Vendorpanel on June 7, 2024, and one was also emailed out.

Tenders closed 2pm, August 23, 2024, with two submissions received via Vendorpanel and three received by email.

1. Geotest Pty Ltd
2. Merit Lining Systems
3. Simon Hullock
4. Fabtech
5. Curtis Barrier Intl Pty Ltd

Discussion/Current Issue

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

Our Infrastructure is constructed and maintained in a sustainable manner which meets community needs.

Our Infrastructure guarantees quality potable urban water supply and wastewater treatment. Secure potable water sources are maintained for Bedourie and Birdsville.

Budget/Financial/Resourcing

Tendered submission for Geotest Pty Ltd \$ 286,733.66 excluding GST.

\$4 million allocated in 2024/25 Budget, works order 2463 in Cooling Pond Construction Liner Pipework hex power.

Communication/Engagement

Nil

Risk Assessment

The final size of the cooling pond will need to be determined which may result in additional lining costs.

Timings/Deadline

The works can't commence until the earthworks are completed.

Conflict of Interest Declaration

Nil

Human Rights Impact

Human Rights are not impacted.

Alternatives Considered

The alternative lining options include importing clay materials or bentonite products, moisture conditioning/ spreading and compaction. This is a labour intensive and time consuming activity and may result in leaks which would require draining of the pond and reapplication of clay/bentonite products potentially several times before a water tight seal is obtained. The PE welded liner is cheaper and more reliable and is proven technology.

30 August 2024

The Chief Executive Officer
Diamantina Shire Council
17 Herbert Street
BEDOURIE QLD 4829

Dear Sir,

DIAMANTINA SHIRE COUNCIL
TC2024003 SUPPLY AND INSTALLATION OF COOLING POND LINER
LETTER OF RECOMMENDATION

On the 7th of June 2024, tender documents for the "Supply and Installation of Cooling Pond Liner" were uploaded to Vendorpanel and one tender was sent via email.

At the close of tenders 2pm, 23rd of August 2024, two (2) submissions from Vendorpanel, three (3) were submitted by email, they were received from:

1. Geotest Pty Ltd (vendorpanel)
2. Merit Lining Systems (vendorpanel)
3. Simon Hullock (tender emailed to and received from)
4. Fabtech (emailed submission)
5. Curtis Barrier Intl Pty Ltd (emailed submission)

We recommend Geotest Pty Ltd in accordance with the attached tender analysis.

Should you require further information regarding the content of this letter, please do not hesitate to contact Stuart Bourne of this office.

Yours faithfully

for **GBA Consulting Engineers**

Alternative													
	Anchor Trench with Backfill material	m3	76										
	Use of Different Geotextile (Provisional Item)	Lumpsum	1.00			\$ 5,952.00							
	Supply and Delivery of HDPE Membrane	m2	14280.00									\$ 8.22	\$ 117,381.60
	Supply and Delivery of Geotextile - 400g/m2	m2	14400.00									\$ 4.16	\$ 59,904.00
	*Crew Mobilisation	Lumpsum	1.00									\$ 45,220.00	\$ 45,220.00
	*Plant and Equipment Mobilisation	Lumpsum	1.00									\$ 24,450.00	\$ 24,450.00
	*Installation	Lumpsum	1.00		\$ -		\$ -		\$ -	\$ 104,367.27	\$ 104,367.27	\$ 173,250.00	\$ 173,250.00
Subtotal				\$	452,181.82	\$	286,733.66	\$	411,511.84	\$	721,780.53	\$	477,205.60
GST (10%)				\$	45,218.18	\$	28,673.37	\$	41,151.18	\$	72,178.05	\$	47,720.56
TOTAL				\$	497,400.00	\$	315,407.03	\$	452,663.02	\$	793,958.58	\$	524,926.16
Comments:				GBA forwarded the RFQ onto S.P & J.K Hullock S.P & J.K Hullock is unable to do the excavations and concrete works to hold the liner in place. S.P & J.K Hullock has not indicated any issues - ie no rise and fall unlike the other competitors		Includes rise and fall for the Geotextile Bidim. Alternative submission\$ 26,400.12 saving by backfilling with soil instead of concrete		Included rise and fall in the quotation due to the supply of the geobembrane being based on the AUD to USD exchange rate.		Late Submission by Fabtech Material Lead time is 8-9 weeks Has included rise and fall for AUD for the HDPE Geosynthetic Mobilisation was not included in the rates.		Late Submission by Curtis Barrier International Mobilisation of Plant and Equipment relatively normal when looking at the other rates. However, installation rate is extremely high.	
PRICE (70%)				44%		70%		49%		28%		42%	
Comments:				3rd best price submission however exludeds concrete works. Submission specified 50% payment to be made upfront.		Best price submitted. Does include rise and fall for the Geotextile Bidim. Could result in a future variation depending on timing to construct the pond.		Merit have got a good competitive price. They have worked with Geotest (leading on price) before.		Extremely high price - company is based out of WA.		Installation costs haven't been built into the rates. However, their price is based off of quantities that are 11.5% greater than what was set in the RFQ. Also, the price of the concrete can be a concern. They would like a wet mix but have not stated that it will meat the 20MPa requirements. Council to provide the skip bin for rubbish during the installation.	
Previous Experience (10%)				10%		6%		8%		6%		4%	
Comments:				Has worked in Birdsville before doing pond liner.		Extensive experience undertaking pond lining project that vary in size from 8,000m2 to 150,000m2+. Project undertake across Queensland, Victoria, South Australia		Wide range of clients and projects		Has shown previous experience in remote locations.		Not much provided in the tender. Had to google.	
Local Content (10%)				10%		8%		4%		4%		2%	
Comments:				Existing relationship with the council.		Geotest have identified two local contractors based in Birdsville, namely G&T Contracting Pty Ltd and Bruce Haulage Birdsville Pty Ltd. They will also be using the local accomodation and tip facilities.		Only considered using the local tip facilities and accomodation in Birdsville.		They have focused mostly on how they will impact the region but have not said if they would be able to work with local contrators.		Have not said how they would accomodate locals in the project.	
Tender Submission (10%)				2%		10%		8%		4%		3%	
Comments:				Only provided an email with a rate. No specifications on what product will be used. Also unable to do the concrete works.		Supplied all company polices that are project related. Provided a program in Gantt Chart format. Provided Quality certs and documentation. Copies of mangement plans, ITPs and SWMS have been provided.		Tender is well put together. Marks have been deducted because tenderer is unable to confirm that they can procure the N20 concrete for the anchor. Gains marks for method statements, subgrade preparations, HSE management plans, QMP		Lost points due to late submission. Submission is missing a few details in terms of program, technical data sheets. Have provided an alternative solution but not stated the cost of their alternative.		Late submission. Have provided some additional documents but noting that these documents are manuals and procedures rather than management plans.	
TOTAL WEIGHTINGS (OUT OF 100%)				66%		94%		69%		42%		51%	
Additional Comments:				We will need to go back to S.P & J.K Hullock with a list of questions. His price is competitive but we will need reassurance through spec data sheets program etc		Third party testing has not been provided.				Massive rate for concrete associated with the large establishment cost has pushed their price extremly high.		Important to note that testing has been allowed for in their price. The comforting thing is that if we proceed with their take off quantities, I would be fairly confident that we won't be facing a material shortage issue.

	Outline any initiatives which the Respondent currently implements, or proposes to implement if the Respondent's Response is successful, to support the development of competitive local business and industry within the Principal's local government area:		Geotest have identified two local contractors based in Birdsville, namely G&T Contracting Pty Ltd and Bruce Haulage Birdsville Pty Ltd .	MLS will use the local tip in Birdsville.		Not addressed
	Outline any initiatives which the Respondent currently implements, or proposes to implement if the Respondent's Response is successful, to support the local community within the Principal's local government area:		Geotest will use local accomodation in Birdsville for the duration of their installation.	MLS will use local accomodatin in Birdsville for the duration of their installation.		Not addressed
	Outline the Respondent's understanding of the Principal's local government area generally and the operations of the Principal (as relevant to this Response):					Not addressed
Schedule D2	Employment					
			Geotest has provided an environmental policy. They have also provided an Enviornmental Management Plan			A manual has been provided.
Schedule D3	Environmental					Enviornmental Policy has been provided.
Schedule E1	Similar Engagements Currently Underway		Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.
Schedule E2	Past Similar Engagements		Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.
				List of plant and equipment that will be used on the project has been provided.		Basic List of Plant and Equipment has been provided.
Schedule E3	Resources	Not Provided.				
			Specific Project Personal has not been provided. Only Managaging Director and Operations Manager has been provided.	Specific Project Personal has not been provided. Only Managaging Director and Operations Manager has been provided.		Key personal has been included in the tender.
Schedule F1	Key Personnel	Not Provided.			Not provied - not asked for in RFQ.	
Schedule F2	Subcontractors, Suppliers & Consultants	Not Provided.	Not provided - not asked for in RFQ.	Not provided.	Not provied - not asked for in RFQ.	Not provided - not asked for in RFQ.
			Geotest has provided an SMS&H Policy. They have also provided an Health, Safety and Enviornmental Management Plan in accordance with QLD standards.			A manual has been provided.
			SWMS have been provided for the following activities: - Loading and Unloading Rolls and Panels - Roll/Panel Deployment - Liner Installation - Roll/Panel Deployment/Spreader Bar - Telehandler Operations	MLS has provided an HSE Management Plan. This management plan has addressed specific QLD HSE acts and/or plans. Field Quality Control Manual has been provided		Sample SWMS has been provided. More detailed ones to be provided upon mobilisation.
				SWMS have been provided for the following activities: - Installation of Geomembrane and Geotextile.		WHS Policy Provided.
Schedule G1.1	Work Health and Safety Systems	Not Provided.			Not provied - not asked for in RFQ.	Note that wind over 15km/h will cause a risk on the installation.

Schedule G1.2	Workplace Health and Safety Record	Not Provided.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provided - not asked for in RFQ.
Schedule G2	Environmental Management	Not Provided.	Rolled into the HSE Management plan.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	A manual has been provided.
			Geotest has supplied a quality management plan and valid certificate of their Membership with ISO 9001:2015 . This membership is currently valid , with <i>expiration date on 24 January 2026</i> .	MLS has provided an Quality management plan in accordance with ISO 9000:2015.		A manual has been provided.
Schedule G3	Quality Management	Not Provided.	Quality Policy has been provided.	Inspection and Test Plans (ITPs) have been provided: - Geotextile - 2mm HDPE Geomembrane	Not provied - not asked for in RFQ.	Quality Policy has been provided. ITPs will be provided upon mobilisation. Also not that cost of material testing has been left out of the quote. CBI note that 12-14 tests will need to be conducted on the welds. They have not allowed for this testing in their pricing. This could be an additional cost.
Schedule H	Methodology		Inspection and Test Plans (ITPs) have been provided:	MLS have provided a methodology statement for the preparation of the subgrade . MLS have also provided a construction method statement for the installation of the Geomembrane and Geotextile .		
Schedule I	Pricing	Not Provided.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Provided upon mobiliastion to site.
Schedule J2	Cash Flow Projection - supplied	Not Provided.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Not provied - not asked for in RFQ.	Detailed breakdown has been provided.
Schedule J3	Variation Rates	Not Provided.		Rates have been supplied	Provided	Not provided - not asked for in RFQ.
	Schedule J3.1 - Labour	Not Provided.		Labour Rate is \$85.00/hour		Provided.
	Schedule J3.2 - Plant	Not Provided.	Plant Policy Provided.	Only Standown and Variation rates are supplied.	Only Standown and Variation rates are supplied.	
	Schedule J3.3 - Design Consultants	Not Provided.		Not provided.		
Schedule K	Technical Data		The selected HDPE Liner is: GRI-GM 13 HDPE 2.0mm Thick Black Smooth - Supplied by SOLMAX. Linear lead time is 3 weeks (according to supplied program) . The Geotextile is BIDIM GREEN A14 - Supplied by Geofabrics. Lead time for the Geotextile is two weeks . Alternative Geotextile is Bidim A34GNF for <i>increased price of \$5,952.00</i> . This is also recommended by Geotest. No lead time provided for this specific Geotextile.	Technical Data Sheets have been provided. The selected HDPE Liner is: GRI-GM13 - Supplied by Industrial Plastics . See also Geosynthetic Institute document. Liner lead time is 6-8 weeks . The Geotextile is Geofirma AS350D or similar - Supplier not given. Also not spec sheet has been provided .	The selected HDPE Liner is: GRI-GM13 - supplier not provided. Material lead time is 8-9 weeks . However, it may be 5-6 weeks if material can be procured locally. The Geotextile is Bidim A64 Cushion Geotextile - supplier not provided. It should be noted that the material data sheets for the proposed liner and proposed geotextile have not been provided in the RFQ response.	Technical data sheet has been provided. The selected HDPE Liner is : GRI-GM 13 HDPE 2.0mm Thick Black Smooth - Supplied by Industrial Plastic . Spec sheet from SOLMAX. Lead time on the liner is 6-8 weeks . Geotextile is AS500E - Supplied by Global Synthetics . The Geotextile is currently in stock. Concrete has a 1-2 week lead time.
Schedule L	Statement of Departures		The offer has rise and fall because, there is a <i>global shortage of Geosynthetic materials, international transport crisis and rise and fall of the foreign exchange rate</i> . The exchange rate quoted in the tender is 1AUD : 0.66USD Geotest have requested that the surface is to be "shall be smooth and free of excessive water, rocks, sharp stones, sticks, roots, sharp objects, vegetation and debris of any kind. The surface should provide a firm, unyielding foundation for the membrane with no sudden, sharp or abrupt changes or break in grade. No sharp stones or other hard objects that will not pass through a 10-mm screen shall be present in the top 25-mm of the surface to be covered." Noting that this does not mean they accept the surface directly. That responsibility would fall back on council. Assumed that there will be no interruptions during the construction	0.68 USD. So a wider range has been provided. Use 1AUD : 0.67USD MLS are unable to confirm that the recommended concrete to be used for the anchor is to be N20/20 as supplied by GBA as part of the RFQ terms and conditions. MLS have requested that the client provide the earthworks of the cooling pond in line with their requirements for the subgrade preparation. MLS will then also issue an acceptance of surface prior to the installation, however any surface defects afterwards still lie with the client. These are sticky conditions that we would need to be aware of. More details in the method statements and recommendations for subgrade preparations .	The offer has included rise and fall due to foreign exchange rate. The exchange rate provided is 1AUD: 0.67 USD Client to provided construction water for mass concrete mixing. Client to protect site and services Client to provided construction survey of the pond. Excavation is based on no hard rock excavations. Liner needs to be installed within the financial year of 2025, otherwise the offer will be subject to escalation.	The offer is subject to rise and fall due to foreign exchange rate. The exchange rate provided in the quote is 1AUD: 0.66USD . Client to provide subgrade preparation in order to suitable accept the materials. Client to provide 10 tonnes of unwashed sand or similar for ballast material. Client to provide waste servies such as a skip bin - free of charge.
Schedule M	Additional Information			Provisional items have been supplied. These are - Pipe boots @ \$800 each - Anchor Batten (chemcial anchors @ 300mm centres) @ \$220 per lineal m - Sealing Batten (chemcial anchors @ 150mm centres) @ \$280 per lineal m - Additional extrusion welding @ \$65 per lineal m		sea freight rates are highly fluctuating. CBI will charge client if rate of shipping at tender is different to rate of shipping date. Tempretures >50 degrees will cease welding operations.
Other Comments			Geotest have submitted a certificate of their membership with the international association of Geosynthetics Installers. This was valid until the 30 June 2022. Geotest have provided an Emergency Response Plan in their submission. Working Hours are 6 days at 10 Hours a day. Only sundays as rest days. Program is totalled at 18 days with 11 days being set aside for installation. Electrical Leak Detection has been provided as free of charge . Geotest have provided an alternative. This means that a concrete liner would be disposed of and a backfilled & compacted trench of 600mmx300mm can be used instead of the concrete anchor.	MLS have made an allowance for overlapping on the installation of the Geotextile. The installation and test of the HDPE liner is in accordance with the GRI (Geosynthetic Research Institute). Program is for 15 working days with a working day defined as 6:30am to 5pm (10 hour days) Monday to Saturday. Certificates not supplied.	Fabtech are also part of the International Association Of Geosynthetics Installers. Unknown whether their certificate is current. They claim to be the only ones who are with the International Association of Geosynthetics Installers. Fabtech recommend that we replace the concrete anchor trench with 500mmx500mm backfilled anchor trench - fill material to be used from excavated trench material if soil quality and grade permits. No cost has been provided for this recommendation. There is also the open ended question of what will define as suitable backfill material and who will pay the cost to test if the material is suitable. Also how long will the test results take etc etc. I think we should proceed with considering the concrete anchor.	Looks like Peter is based in Ireland as the cell number provided is his Irish number. Probably why there was a bit of a late submission potentially forgot about the timezones. CBI have provided an indicative layout and propsed construction method. CBI would like to use a wet concrete to minimize labour. Only issue here is they have not stated whether the wet concrete will reach the 20MPa that was stated in the notes of the RFQ. Program is for 15 working days to complete installation. Working day is defined as 10 hours days on Monday to Friday and 5hrs on a Saturday. Not certificates have been supplied. Only contractor who has done an extra take off. Whilst this is appreciated it has caused a bit of confusion. Appreciated because they understand the potential problems of running out of materials. However, they are sitting at an estimated 11.5% greater than what we have provided in the BOQ. Also the areas used for the liner and the geotextile are different. This should not be the case. At no point have CBI indicated that they will have an overlap with the Geotextile.

REQUEST SUMMARY REPORT

Diamantina Shire Council

Request for :

Supply and Installation of Cooling Pond Liner

Request type : Public Tender

VP reference Number : VP420960

Buyer reference Number : 230261

Opens 18/Jul/2024 : Closes 23/Aug/2024 02:00 PM E. Australia Standard Time

Cut-off date for supplier queries : Friday 23 August 2024 02:00 PM E. Australia Standard Time

This Request is not finalized.

2 Supplier responses as of the 23/Aug/2024 02:09 PM

Request created by:

Stuart Bourne (gbourne@gbaengineers.com.au)

Details of the Request

Supply and Installation of Cooling Pond Liner

Estimated Value	\$100,000 to 150,000 (hidden from suppliers)
Budgeted Value	Unknown

Buyer Details

Business:	Diamantina Shire Council												
Location:	Herbert St Bedourie, Queensland 4829 Australia												
Web Site:	http://www.diamantina.qld.gov.au/												
Business Overview:	Diamantina consists of two main towns Birdsville and Bedourie, with a third town of Betoota. Bedourie is located 1,600km west of Brisbane, while Birdsville is 200km south of Bedourie and 1,200km from Adelaide. Our towns have four aircraft services per week on the Brisbane- Mount Isa Circuit. REX (Regional Express) provides this service. Despite it's size, Birdsville is a well-known destination for many Australian and International visitors. The town hosts one horse race meeting a year, when over 6,000 people swell the town population. It is the start of the famous Birdsville Track, which originally was used as a stock route for moving cattle from Queensland to Southern markets. Bedourie is the Shire's administration centre. The last ten years has seen its population more than double to 140 people. The town boasts many new amenities including an aquatic centre, hot artesian spa and a community hall. Visitor numbers have increased to over 120,000 per year. The Shire's wealth lies within its cattle industry, tourism and natural environment. Located within Queensland's Channel Country, bordering South Australia and the Northern Territory, this area is renown for producing prime quality beef. The natural irrigation from the Diamantina and Georgina River Systems is also assisting with developing an organic cattle industry. We are fortunate that National Parks comprise 25% of our shire's area. The Simpson Desert, Diamantina National Park, (just been named in the top ten National Parks in Australia) and Astrebla National Park all offer unique scenery and wildlife for visitors to experience. Visit the Diamantina Shire for a unique outback experience.

Dates:

Can be responded between:	18/Jul/2024 and 23/Aug/2024 02:00 PM E. Australia Standard Time
Supplier query cut-off:	Friday 23 August 2024 02:00 PM (E. Australia Standard Time)
Decision Date:	13/Sep/2024

What's required

Supply and Installation of geotextile fabric liner for Birdsville Cooling Pond

The following supplier lists were selected

1. Water & Sewage Type: Public

The following categories were selected

- Water & Sewage

1. Reservoir & Dam Construction
2. Water & Sewage Treatment Plant Construction

Regions of service locations

- Queensland

1. Brisbane
2. Central West
3. Darling Downs
4. Far North
5. Fitzroy
6. Gold Coast
7. Mackay
8. North West
9. Northern
- 10South West
- 11Sunshine Coast
- 12West Moreton
- 13Wide Bay-Burnett

All Regions of Service locations are within Australia.

Information requested by others

QUESTION (from Marina Andreu : mandreu@geotest.net.au | 0882645802) on 24/Jul/2024 02:32 PM : Good afternoon,

For this project it states that the HDPE will need to with stand water temperature 98deg C. Is it just the initial water entry temperature or will 98 deg C be the constant temperature for this cooling pond?

This information is required for HDPE material decision-making.

Thanks.

ANSWER (Public) on 24/Jul/2024 02:39 PM : Good Afternoon,

The cooling pond water is expected to run between 25 and 55 degrees. The pond will initially be filled with cooled water at around 30 degrees.

QUESTION (from Johan Bothma : jbothma@fabtech.com.au | +61673184382) on 24/Jul/2024 03:33 PM : To whom it may

concern,

Can you please provide commentary on the below items:

1. What grade of geotextile is required to be installed underneath the HDPE geomembrane?
2. The proposed Supplier "Industrial Plastics" HDPE material is based on a GRI-GM13 specification. Will Council accept material supplied from other Supplier's that will meet the GRI-GM13 specification?
3. Is the HDPE geomembrane smooth on both sides?
4. In the absence of Project Specifications, are there any independent material test requirements.
5. Given the scope, its taken that the earthwork preparation of the pond will be done by others and handed over to the Linings Company to progress with the trench excavation and liner works.
6. Are there any test requirements from Council for the mass concrete?
7. Will flights in- and out of Birdsville including accommodation and messing be provided by yourselves free of charge?

ANSWER (Public) on 24/Jul/2024 04:39 PM : Afternoon,

1. What grade of geotextile is required to be installed underneath the HDPE geomembrane?

A protective cushion geofabric to protect the liner such as Bidim Strength Class A.

2. The proposed Supplier "Industrial Plastics" HDPE material is based on a GRI-GM13 specification. Will Council accept material supplied from other Supplier's that will meet the GRI-GM13 specification?

Yes

3. Is the HDPE geomembrane smooth on both sides?

This will depend on the product to be supplied

4. In the absence of Project Specifications, are there any independent material test requirements.

No however the proposed products will be assessed as part of the submission

5. Given the scope, its taken that the earthwork preparation of the pond will be done by others and handed over to the Linings Company to progress with the trench excavation and liner works.

Correct

6. Are there any test requirements from Council for the mass concrete?

No

7. Will flights in- and out of Birdsville including accommodation and messing be provided by yourselves free of charge?

No

QUESTION (from Johan Bothma : jbothma@fabtech.com.au | +61673184382) on 24/Jul/2024 04:34 PM : Pertaining to the Buyer's reply dated Wednesday 24 July 2024 02:09 PM, the following was stated:

"The cooling pond water is expected to run between 25 and 55 degrees. The pond will initially be filled with cooled water at around 30 degrees."

Can you please share the chemical analysis of this water to ensure that we allow for an adequate geomembrane product and also indicate the anticipated lifespan requirement of this pond.

ANSWER (Public) on 24/Jul/2024 05:04 PM : Tender Addendum 1 - Chemical analysis reports uploaded. A lifespan of between 50-100 years would be required.

QUESTION (from Marina Andreu : mandreu@geotest.net.au | 0882645802) on 26/Jul/2024 04:54 PM : Good afternoon,

In regard to the answer "A protective cushion geofabric to protect the liner such as Bidim Strength Class A", are you referring to 'Strength Class A' in terms of Main Roads/TMR standards?

Thanks.

ANSWER (Public) on 29/Jul/2024 10:03 AM : Good morning,

Yes, alternatives may be considered.

QUESTION (from Alicja Borysewicz Slabik : sales@mls.com.au | +61893837510) on 05/Aug/2024 12:54 PM : Hello,

Could you please confirm if there are any pipe penetrations through the liner in Colling Pond? Thank you.

ANSWER (Public) on 08/Aug/2024 10:22 AM (edited on 08/Aug/2024 03:21 PM): Hello,

No, there are no pipe penetrations through the liner.

QUESTION (from Marina Andreu : mandreu@geotest.net.au | 0882645802) on 15/Aug/2024 12:30 PM : Good morning,

Will be any facility available on site free of charge such as:

- Site security
- Water supply
- enclosed storage facility
- ablution facilities for personnel
- Waste bins

Thanks.

ANSWER (Public) on 16/Aug/2024 09:36 AM : Good morning,

There will be no free facilities available on site.

Thank you for your question.

Kind regards

Updates made to this Request

24/Jul/2024 05:00 PM (25 supplier staff notified of these changes) : Tender Addendum 1 - Attached Chemical analysis reports.

08/Aug/2024 04:31 PM (28 supplier staff notified of these changes) : Closing date extended to Friday 23 August 2024 02:00 PM

THE COMPANY MANAGER: You are invited to tender for the scheduled product/service as listed below.

LOCAL AUTHORITY: Diamantina Shire Council

PROJECT No: 230261

LOCATIONS: Birdsville Cooling Pond

TENDER TITLE: Supply & installation of Cooling Pond HDPE Liner

QUERIES: Richard Lewis

DATE: 18/07/2024

Item	Qty	Unit	Description	Rate	Amount
1	12,400	m2	Supply & installation of 2mm thickness HDPE liner with geotextile fabric liner	\$ 16.76	\$ 207,824.00
2	38.0	m3	Supply and installation of mass concrete anchor trench, including trench excavation	\$ 2,076.57	\$ 78,909.66
Subtotal (ex GST)					\$ 286,733.66
GST					\$ 28,673.37
TOTAL (incl. GST)					\$ 315,407.03

Please refer to our pricing table in our offer letter to see Geotest recommendations.

Notes:

1. HDPE liner (see attached brochure, or equivalent) must withstand water temperatures of up to 98°C.
2. Mass concrete to be class N20/20.
3. Trench spoil to be disposed of and site left tidy with all rubbish removed.
4. The lowest or any tender may not necessarily be accepted.
5. The quote validity period is to last 30 days from the quotation closing date.
6. This shall be a schedule of rates contract and is not subject to rise and fall.
7. All site activities will be at the direction of the Site Supervisor.
8. The principal is not bound to accept the lowest or any quote, or any clarification, alteration or amendment.

Quotations close no later than 2:00pm, 16/08/2024. Quotes are to be submitted via Vendorpanel.

Dear Diamantina Shire Council,

Geotest Pty Ltd has the pleasure in providing the following information to carry out the Supply and Installation of Cooling Pond Liner at Birdsville Cooling Pond, QLD.

Geotest

As well as being involved in the design and installation of geomembrane liners and floating covers, Geotest Pty Ltd works collaboratively with other Geomembrane Installation Companies, Contractor's, Consulting Engineers and Principals to provide services to assure the performance of installed geomembranes through the auditing of materials, advice on long term performance issues, and inspection and electrical survey testing of geomembranes post installation throughout Australia.

Geotest provides solutions within the mining, oil & gas, landfill, agricultural, potable water storage and wastewater sectors. Our clients include various international and local companies, government and private utility providers and local councils.

Our services cover a range of applications, including, but not limited to, landfill liners, industrial storage ponds, wastewater treatment membranes, potable water storage basins, tank installations, methane collection covers, dam drainage systems and tunnels.

Geotest is the only Installation Company in Australia that has an in-house Design Department, managed by a Chartered Professional Engineer with 8 years industry experience specialized in different applications.

Please find our full Capability Statement, attached.

Industry Accreditations

Geotest advocates the use of Industry accreditations to evidence competence. Geotest has the following accreditations.

- Geotest Australia is a member of IAGI– Certificate attached
- Geotest has staff certified (by an independent, third party, Geosynthetics firm) in performing electrical leak location surveys as an additional quality tool to complement “conventional quality” processes and procedures.
- Geotest Australia has an in-house Welding Technician training and competency verification programme. We also validate our Welding Technicians competence by continues training program.
- Geotest Australia is at an advanced stage in achieving ISO 9001 Accreditation

Geotest’s Quality Strategy

Geotest is a geomembrane company specialised in Design, RLI Testing, Material Review, Auditing, CQA, CQC, Training, and generally undertakes project installations which require a high level of quality with documented compliance.

In addition to installing approximately 1,000,000m² of materials we have a substantial database of projects (in excess of 20,000,000m²) that have been integrity tested. This data allows Geotest to analyse, research and implement quality improvements. This experience has shown that the only way to achieve the highest possible quality standards is to build quality into the entire construction process.

Geotest Australia’s quality processes deliver a very high rate of tested and documented zero defect projects. Attempting to inspect quality into an inadequate construction process cannot achieve this outcome.

Geotest Credentials

Geotest has extensive experience constructing lining systems for critical storages and can demonstrate a history of successful projects with a variety of blue-chip clients throughout the mining and resources sector. Geotest have undertaken numerous geomembrane supply and installation projects for Clients in a variety of Sectors. Should you require further information regarding our capabilities in this regard please don’t hesitate to contact us.

E	Alternatives - Recommendations				Price AUD EX GST
E1	Alternative to line item 3 - Price increase: Supply and Installation of Geotextile Bidim A34GNF				\$ 5,952.00

Alternatives / Recommendations

Please refer to our pricing table above for Geotest's recommendations:

- Supply and installation of Geotextile Bidim A34GNF: We propose the use of Geotextile Bidim A34GNF, which offers superior mechanical and hydraulic properties, thereby enhancing the durability and performance of the installation.
- Excavation and trenching: We recommend the excavation of a trench measuring 300x600 mm, followed by backfilling with spoils and compaction at 300 mm lifts. This approach not only adheres to industry standards for this type of installation but also results in cost savings for the overall project.

Electric Leak Survey

Geotest is the market leader in electrical leak detection having completed testing of over ten million square meters of geomembrane. With extensive research and development, we have created the most sensitive and sophisticated electrical leak testing equipment in Australia. Electrical leak detection is a method used to identify leaks or defects in geomembranes by applying electrical testing techniques to find and locate potential breaches in the liner.

Although it is not a specified project requirement, Geotest is committed to delivering the highest standards of quality and safety. As such, **we will perform an Electrical Leak Survey of the completed lining installation at no additional cost to the client.** This proactive measure is designed to enhance the overall quality of the installation and

ensure the integrity and security of the membrane, providing you with added assurance and peace of mind.

Local procurement

Geotest is committed to supporting the local community through this project. Where possible, we will prioritise the hiring of local labour and subcontract civil works and freight services from local companies. Additionally, our crew members will utilise local accommodation and services for the duration of the works, ensuring that the economic benefits of the project extend to the surrounding community.

Geotest will potentially engage with the following companies to undertake the works:

- G & T Contracting Pty Ltd
- Bruce Haulage Birdsville Pty Ltd

Comments/Qualifications

1. We have used the areas provided in the tender package in our offer. The area needs to be verified and confirmed by the provision of CAD file drawings. We assume these areas are net areas which include material specified by the drawings in the anchor trenches. We have included within our price the additional material quantities to allow for overlaps and wastage. Geotest assumes that the net area excludes lining the overflow. Final areas will be discussed upon completion of the approved final design.
2. We have assumed that:
 - a. A laydown area/s will be available located adjacent to the section of works. So that no additional material handling is required. The laydown area should be flat, smooth, free draining and free of rocks, sticks, sharp matter or undulations.
 - b. Clear and unlimited access to and around the site.
 - c. The site will be made available prior to first light, such that lining works can commence at first light.
 - d. The lining works would be completed as a continuous uninterrupted process.
 - e. The materials will be fully approved before installation commences.
 - f. Installation will be conducted during day shifts only and so no night shift work is required. Additional charges apply for night shift.
 - g. All earthworks, including maintenance of the subgrade, will be undertaken by the Principal/Diamantina Shire Council/Others.
3. Payment terms:
 - a. Material – special payment of 30 days is required for the supply of imported materials upon delivery to our Factory provided they are supplied with the required manufacturers quality assurance testing results and certificates of conformance to the relevant standards.
 - b. Payment Standard terms of the balance 30 days from the date of invoice. Progress payments are allowed.

4. No allowance has been made for:
- Facilitating the Company Representatives travel and accommodation cost to sample material rolls at the Manufacturer's plant. This is to be undertaken by the Company.
 - Material sampling
 - Third-party Material Conformance Testing.
 - Contract Works Insurance, it is assumed that the responsibility for Contract Works Insurance is with the principal.
 - Any interface with the SCADA System, if required
 - Security and retention payments.
 - Police Check
 - Medical nor Drug and Alcohol Test
 - Site inductions
 - Supply nor install Wire rope anchor post, stainless steel 316 wire ropes, floating spray platform.
5. Our working hours will be based on 6 days' work per week, 10 hours a day, with Sundays being a rest day.
6. No provision has been made for third-party involvement in the sampling process, encompassing aspects such as Engineers' travel and lodging. If external witnessing is deemed necessary, the responsibility for arranging this at zero expense to Geotest falls upon the relevant parties.
7. Geotest have not catered for the provision of permanent ballast that may be required to secure the lining system due to potential wind uplift and will price this requirement should the specification require this. We have however catered for the supply temporary ballast as required for the installation of the lining membrane. The temporary ballast is to be left in the facility and removed on commencement of the filling activity (if required).
8. The surface to be lined "shall be smooth and free of excessive water, rocks, sharp stones, sticks, roots, sharp objects, vegetation and debris of any kind. The surface should provide a firm, unyielding foundation for the membrane with no sudden, sharp or abrupt changes or break in grade. No sharp stones or other hard objects that will not pass through a 10-mm screen shall be present in the top 25-mm of the surface to be covered." Please note that acceptance of the surface does not constitute an implicit acceptance of the degree of compaction of the surface.
9. Geotest are not able to reserve install capacity or materials without an official order.
10. Workmanship is covered by Geotest's QA/QC procedures, which comply with ISO 9000 standards. Geotest meets the requirements of ISO9001.
11. The standard geomembrane manufacturer pro rata warranty of 20 years applies to this project.
12. Our offer is subject to the rise and fall for the USD:AUD exchange rate the foreign currency will be transacted at the prevailing foreign currency rate based on the exchange rate at time of payment and a variation raised as appropriate. The reference Fx rate is shown in above pricing table.
13. Our offer does not include any allowance for delays beyond Geotest's control, including the preparation for, the occurrence of, and remediation of the effects of, inclement weather. Such delays shall qualify as Extension of Time and costs.

14. The quote is valid only for 30 days from the date of issue subject to the Cover Material Price stability. Due to the global shortage of Geosynthetic Material, the international transport crisis, and raise and fall of the foreign exchange rate, the material price is fluctuating. Geotest recommends that the Client purchases the cover materials as a priority to negate any supply chain delays.

We appreciate Geotest having been given the opportunity to quote and trust that the submission meets your requirements, and I look forward to hearing from you.

Regards,

Phillip Bennett
Managing Director
Geotest Pty Ltd

Cooling Pond Temporary Installation

DECISION REPORT

Date: 26/08/2024

Presentation Duration: Approx 15 minutes

To:

General Council Meeting

Author:

Stuart Bourne

Authorising Officer:

Bob Stephen, Director of Infrastructure Services

File Reference: InfoExpert -

Presented for: Decision

ATTACHMENTS

Letter of Recommendation – Supply and Install Cooling Pond Equipment

PURPOSE

To outline the procurement, assessment and award of the Supply and Installation of Cooling Pond Equipment for the old cooling pond as a risk mitigation measure for the failing copper pipework.

OFFICER RECOMMENDATION

That Council accept the tender from Dab Fab Industrial for the Supply and Installation of Cooling Pond Equipment is accepted for \$ 266,063.85 excluding GST.

REPORT

Background

Tender documents for the supply and installation of cooling pond equipment were uploaded to Vendorpanel on July 18, 2024.

Tenders closed 2pm, August 13, 2024, with two submissions received.

1. Complex Civil Infrastructure Services Pty Ltd
2. Dab Fab Industrial

Discussion/Current Issue

The submerged copper pipework system in the cooling pond has reached the end of life. The new cooling pond system won't be online for 12-18 months and a contingency is required to ensure cooled water for residents of Birdsville is available. This equipment will be installed in the old cooling pond to replace the submerged copper pipework.

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

Our Infrastructure is constructed and maintained in a sustainable manner which meets community needs.

Our Infrastructure guarantees quality potable urban water supply and waste water treatment. Secure potable water sources are maintained for Bedourie and Birdsville

Budget/Financial/Resourcing

Tendered submission for Dab Fab Industrial \$ 266,063.85 excluding GST.

\$4 million allocated in 2024/25 Budget, works order 2463 in Cooling Pond Construction Liner Pipework hex power.

Communication/Engagement

Nil

Risk Assessment

The site is complex and aging and the works are difficult to scope accurately to contractors who are not familiar with the site. Dab Fab Industrial are familiar with the site and have undertaken a range of different tasks at this site which should minimize the potential for variations.

Timings/Deadline

The Heat Exchanger has arrived in Birdsville so works can commence in the near future. The copper pipework is likely to fail again in the short term.

Conflict of Interest Declaration

Nil

Human Rights Impact

Human Rights will not be impacted

Alternatives Considered

The original submerged galvanised pipework and the subsequent copper pipework represents older technology that has limited effectiveness in cooling hot bore water. Corrosion issues have plagued both systems with leaks reducing the effectiveness of the submerged pipework and also the heat exchanger (as the cool pond reservoir is warmer because of the leaks). The plate heat exchanger is easier to maintain/ replace and will ensure a cooler reservoir of pond water that will be more effective at cooling the bore water.

23 August 2024

The Chief Executive Officer
Diamantina Shire Council
17 Herbert Street
BEDOURIE QLD 4829

Dear Sir,

DIAMANTINA SHIRE COUNCIL
TC2024002 SUPPLY AND INSTALLATION OF COOLING POND EQUIPMENT
LETTER OF RECOMMENDATION

On the 18th of July 2024, tender documents for the "Supply and Installation of Cooling Pond Equipment" were uploaded to Vendorpanel.

At the close of tenders 2pm, 13th of August 2024, two (2) submissions were received from:

1. Complex Civil Infrastructure Services Pty Ltd
2. Dab Fab Industrial

We recommend Dab Fab Industrial in accordance with the attached tender analysis.

Should you require further information regarding the content of this letter, please do not hesitate to contact Stuart Bourne of this office.

Yours faithfully

for **GBA Consulting Engineers**

TENDER SUMMARY

Tender Summary

Council: Diamantina Shire Council
Job Title: Supply & Installation of Cooling Pond Equipment
Job No: 230261
Closing Date/Time: 2pm, Tuesday 13th of August 2024

				Complex Civil Infrastructure Services Pty Ltd		Dab Fab Industrial	
Item Number	Description	Unit	Quantity	Rate	Amount	Rate	Amount
1	Installation of parallel plate heat exchanger (HEX - Supplied by Council)	LS	1	\$ 21,947.97	\$ 21,947.97	Please see separate tender breakdown	
2	Supply and installation of one inline filter before HEX	LS	1	\$ 4,908.49	\$ 4,908.49		\$ -
3	Supply and installation of one 6" river screen filter with 18 mesh	LS	1	\$ 25,454.03	\$ 25,454.03		\$ -
4	Supply and installation of two inline pumps (1 on duty and 1 backup), connect to existing switchboard	LS	1	\$ 46,490.42	\$ 46,490.42		\$ -
5	Supply and installation of one floating spray platform (24 spray jets)	LS	1	\$ 25,454.03	\$ 25,454.03		\$ -
6	Supply and installation of one concrete slab on ground with a 3m x 3m shade structure	LS	1	\$ 21,947.97	\$ 21,947.97		\$ -
7	Power connection to the existing switchboard	LS	1	\$ 28,258.88	\$ 28,258.88		\$ -
8	Existing Pipework modifications (DN100uPVC) to feed the ground level reservoir	LS	1	\$ 11,429.77	\$ 11,429.77		\$ -
9	Relocate/extend the existing heat exchanger discharge line	LS	1	\$ 14,234.62	\$ 14,234.62		\$ -
10	Freight	LS	1	\$ 34,569.80	\$ 34,569.80		\$ -
Subtotal				\$ 234,695.98		\$ 266,063.85	
GST (10%)				\$ 23,469.60		\$ 26,606.39	
TOTAL				\$ 258,165.58		\$ 292,670.24	
Comments:				CCIS can offer a cheaper pump with a shorter lead time then 30 weeks. These alternatives can be discussed in post tender clarifications.		Detailed tender was attached with own descriptions. Includes additional works replacement of level probe and relay and cabling and new electrical plans for system.	
Price 60%				60%		53%	
Comments:							
Knowledge and Experience 40%				30%		40%	
Comments:				Has not worked in Diamantina. Has completed a pump station upgrade in Boulia.		Completed good quality work recently in Diamantina particularly around the cooling ponds.	
				90%		93%	

Tender opened & assessed by: Jannita Cridge & Stuart Bourne

Recommendation: Dab Fab Industrial

Details of the Request

Supply and Installation of Cooling Pond Equipment

Estimated Value	\$25,000 to 50,000 (hidden from suppliers)
Budgeted Value	Unknown

Buyer Details

Business:	Diamantina Shire Council												
Location:	Herbert St Bedourie, Queensland 4829 Australia												
Web Site:	http://www.diamantina.qld.gov.au/												
Business Overview:	Diamantina consists of two main towns Birdsville and Bedourie, with a third town of Betoota. Bedourie is located 1,600km west of Brisbane, while Birdsville is 200km south of Bedourie and 1,200km from Adelaide. Our towns have four aircraft services per week on the Brisbane- Mount Isa Circuit. REX (Regional Express) provides this service. Despite it's size, Birdsville is a well-known destination for many Australian and International visitors. The town hosts one horse race meeting a year, when over 6,000 people swell the town population. It is the start of the famous Birdsville Track, which originally was used as a stock route for moving cattle from Queensland to Southern markets. Bedourie is the Shire's administration centre. The last ten years has seen its population more than double to 140 people. The town boasts many new amenities including an aquatic centre, hot artesian spa and a community hall. Visitor numbers have increased to over 120,000 per year. The Shire's wealth lies within its cattle industry, tourism and natural environment. Located within Queensland's Channel Country, bordering South Australia and the Northern Territory, this area is renown for producing prime quality beef. The natural irrigation from the Diamantina and Georgina River Systems is also assisting with developing an organic cattle industry. We are fortunate that National Parks comprise 25% of our shire's area. The Simpson Desert, Diamantina National Park, (just been named in the top ten National Parks in Australia) and Astrebla National Park all offer unique scenery and wildlife for visitors to experience. Visit the Diamantina Shire for a unique outback experience.

Dates:

Can be responded between:	18/Jul/2024 and 13/Aug/2024 02:00 PM E. Australia Standard Time
Supplier query cut-off:	Tuesday 13 August 2024 02:00 PM (E. Australia Standard Time)
Decision Date:	03/Sep/2024

What's required

Supply and install associated infrastructure for additional heat exchanger at the Birdsville Cooling Ponds.

The following supplier lists were selected

1. Utilities Type: Public
2. Water & Sewage Type: Public

The following categories were selected

- Utilities

1. Utility Connection Services
2. Water Supply

- Water & Sewage

1. Pipes & Valves & Fittings

Regions of service locations

- Queensland

1. Brisbane
2. Central West
3. Darling Downs
4. Far North
5. Fitzroy
6. Gold Coast
7. Mackay
8. North West
9. Northern
- 10South West
- 11Sunshine Coast
- 12West Moreton
- 13Wide Bay-Burnett

All Regions of Service locations are within Australia.

Information requested by others

				GST	\$ 23,469.60
				TOTAL (incl. GST)	\$ 258,165.60

Notes:

1. The lowest or any quotation may not necessarily be accepted.
2. The principal is not bound to accept the lowest or any quote, or any clarification, alteration or amendment.
3. The quote validity period is to last 30 days from the quotation closing date.

4. This shall be a schedule of rates contract and is not subject to rise and fall.
5. The parallel plate heat exchanger will be supplied by Diamantina Shire Council. A copy of the heat exchanger's technical specifications is attached in Annexure A.
6. Refer to Annexure B for the sketch of the proposed arrangement. The hot water discharge for the new heat exchanger is to be co-located with the old heat exchanger hot water discharge. The cold water will be supplied by the river screen to the heat exchanger.
7. The inline filter supplied is to be Arag 2" M220 3303173V or equivalent.
8. The inline pumps supplied are to be Grundfos TPED 100-200/4 or equivalent.
9. The spray floating system will be 100m of DN110 PN16 poly line in 12m lengths (see Annexure B). Spray bars supplied are to be SpiralJet Brass BSPT or equivalent.

Quotations close no later than **2:00 pm on August 9th, 2024**. Quotes are to be submitted via Vendorpanel.

12.1.5 DECISION ACTION REPORTS

Director Infrastructure Services

Works For Queensland Funding

DECISION REPORT

Date:	23/08/2024	Presentation Duration:	Approx 15 minutes
To:		General Council Meeting	
Author:		Stuart Bourne	
Authorising Officer:		Bob Stephen, Director of Infrastructure Services	
File Reference:	InfoExpert -		
Presented for:	Decision		

ATTACHMENTS

Nil

PURPOSE

To seek approval for the Works for Queensland funding allocations.

OFFICER RECOMMENDATION

That Council endorses the 2024-2027 Works For Queensland Program Scope of Works as the following:

- \$100,000 Betoota Showgrounds Shed for the Betoota Race Club Inc./ Betoota Gymkhana Club/ Betoota Social Club
- \$100,000 Bronco branding yards amenities and kitchen for the Birdsville Social Club
- \$200,000 Bedourie Showgrounds Awning for the Bedourie Amateur Race Club
- \$80,000 Birdsville Cemetery fencing
- \$80,000 Bedourie Cemetery Fencing
- \$960,000 Bedourie & Birdsville town street Reseals

REPORT

Background

The Department of Housing, Local Government, Planning and Public Works is responsible for administering the 2024-27 Works for Queensland funding round (2024-27 W4Q). Council has been allocated \$1,520,000 to deliver local projects that create jobs, deliver better services, and improve the lives of Queenslanders now and into the future. All works must be completed by 30 June 2027. The online application process was completed before closing on 5 July 2024 based upon feedback from budget workshops.

Discussion/Current Issue

Although feedback on the W4Q projects has been received through the budget workshops a formal council resolution has not been made on the proposed projects.

Proposed Works	Value	Entity responsible for delivery of the works
Betoota Showgrounds Shed	\$100,000	Betoota Race Club/ Betoota Gymkhana Club/ Betoota Social Club
Bronco branding yards improvements to amenities and kitchen	\$100,000	Birdsville Social Club
Bedourie Showgrounds awning	\$200,000	Bedourie Amateur Race Club
Bedourie Cemetery Fencing	\$80,000	Diamantina Shire Council
Birdsville Cemetery Fencing	\$80,000	Diamantina Shire Council
Town Street Reseals	\$960,000	Diamantina Shire Council

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

Corporate Plan 2022-2027

Our Community is enhanced by participation in arts and cultural activities.

Our Community has quality sporting facilities with high participation rates.

Our Community where volunteering in the community is a given and community spirit is visible.

Our Organisation is engaged with its residents.

Our Infrastructure is constructed and maintained in a sustainable manner which meets community needs.

Community Grants Policy

https://www.localgovernment.qld.gov.au/_data/assets/pdf_file/0026/89405/2024-27-works-for-queensland-w4q-program-guidelines.pdf

Budget/Financial/Resourcing

That the funds are allocated as indicated. There is no council contribution required.

Communication/Engagement

Council submitted an application through the Works 4 Queensland eGrant portal which has been accepted but not yet approved by the Minister. Announcements from the Minister are expected September 2024. Richard Cooley (Funding and Economic Development Manager) has been co-ordinating with the clubs regarding scope of works and budget allocations.

Correspondence is to be sent to the relevant community groups to outline the funding requirements (such as claim process/proof of payment/ timeframes/ completion photos etc).

Risk Assessment

The primary risk is lack of delivery. By documenting these projects and seeking approval early in the funding cycle there is sufficient time to communicate with stakeholders and ensure projects are delivered in a timely manner.

Timings/Deadline

All works must be completed and acquitted by June 2027.

Conflict of Interest Declaration

Nil

Human Rights Impact

Human rights are not impacted by any of the proposed works

Alternatives Considered

There are few available alternatives to the proposed structures/ fences or town street reseals. The infrastructure proposed will be constructed using long established techniques that are based on best industry practice.

12.1.6 DECISION ACTION REPORTS

Director Infrastructure Services

2023 Betterment Tender Recommendation

DECISION REPORT

Date: 04/09/2024	Presentation Duration: Approx 15 minutes
To:	General Council Meeting
Author:	Stuart Bourne
Authorising Officer:	Bob Stephen, Director of Infrastructure Services
File Reference:	InfoExpert -
Presented for:	Decision

ATTACHMENTS

TC2024001 Letter of Recommendation – Diamantina Betterment 2023 Event

PURPOSE

To outline the procurement, assessment and award of the Diamantina Betterment 2023 Event Tender.

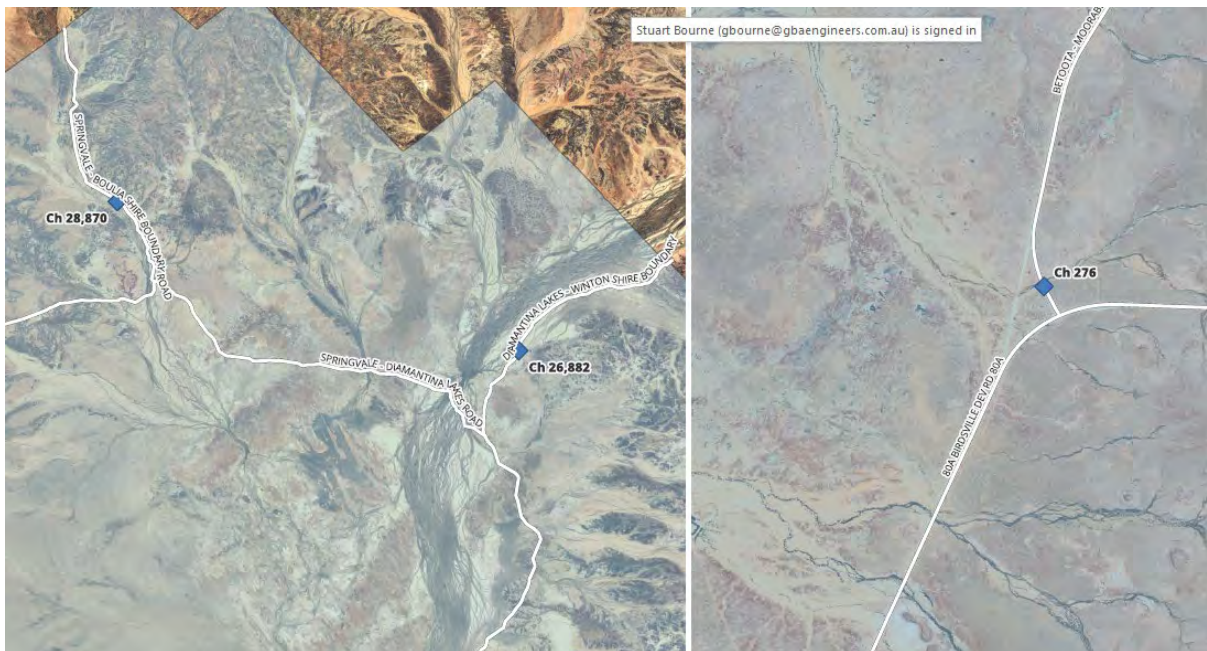

OFFICER RECOMMENDATION

That Council resolves to accept the tender for \$ 339,636.00 excluding GST, submitted by Mann Made Construction for the Diamantina Betterment 2023 program, for the construction of concrete floodways.

REPORT

Background

In late July 2024, the funding agreement was signed with the Queensland Reconstruction Authority for the approved Betterment submission under the Northern and Central Queensland Monsoon and Flooding, 20 December 2022 – 30 April 2023 event to construct three floodways. The three concrete floodways will be located on the Betoota - Mooraberree Road chainage 0.276, Diamantina Lakes—Winton Boundary Road chainage 26.882, and Springvale—Boulia Shire Boundary Road chainage 28.87. The concrete floodways are 20-22m long to be completed under this contract. Council crews or local contractors will complete the approach earthworks and side track construction.

On 2 August 2024 tender documents for the TC2024001 Diamantina Betterment 2023 were uploaded to Vendor panel.

Tenders closed on 30 August 2024; six (6) submissions were received from:

1. Lieben Constructions
2. Lohman Contracting Pty Ltd
3. Mann Made Construction
4. Mick Sutton Concreting Pty Ltd
5. Stockham Building Services Pty Ltd
6. War (Nq) Pty Ltd

Discussion/Current Issue

To award the contract.

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

Our organisation is recognised as the sole road construction provider in the shire.

Our Infrastructure is constructed and maintained in a sustainable manner which meets community needs.

A well-maintained Shire road network which meets the needs of the road users.

Budget/Financial/Resourcing

Tendered submission for Mann Made Construction is \$ 339,636.00 excluding GST.

The approved QRA funding for the works is \$924,269.44 excluding GST.

This approval amount includes \$54,227.31 in REPA, \$45,000 in Council contribution and will include Councils costs to complete the side track works and approach gravel works to tie into the new floodway.

Communication/Engagement

Nil

Risk Assessment

Works are susceptible to wet weather delays if constructed during the flood season.

Timings/Deadline

Works to be completed by 30th June 2025.

Conflict of Interest Declaration

Nil

Human Rights Impact

Nil

Alternatives Considered

Other alternatives to concrete floodways are gravel or bitumen sealed floodways. Concrete will provide a more durable and lower maintenance surface which will improve trafficability.

4 September 2024

The Chief Executive Officer
Diamantina Shire Council
17 Herbert Street
BEDOURIE QLD 4829

Dear Sir,

DIAMANTINA SHIRE COUNCIL
TC2024001 DIAMANTINA BETTERMENT 2023
LETTER OF RECOMMENDATION

On the 2nd of August 2024 tender documents for the "TC2024001 Diamantina Betterment 2023" were uploaded to Vendorpanel.

At the close of tenders 30th of August 2024, six (6) submissions were received from:

1. Lieben Constructions
2. Lohman Contracting Pty Ltd
3. Mann Made Construction
4. Mick Sutton Concreting Pty Ltd
5. Stockham Building Services Pty Ltd
6. War (Nq) Pty Ltd

We recommend Mann Made Construction in accordance with the attached tender analysis.

Should you require further information regarding the content of this letter, please do not hesitate to contact Stuart Bourne of this office.

Yours faithfully

for **GBA Consulting Engineers**

PRICE (60%)					60%		22%		27%		27%		51%		32%
Comments:				They have come in very cheap but own their own batch plants and majority of their equipment. Being 'locally' based in Winton certainly helps with reduced establishment costs.		Price exceeds value approved by QRA.		Reasonably priced although on the expensive side. Difficult to justify because when we add the council works to their price they will go over budget.		Assuming Mob & Demob has been built into their rates.		No breakdown of costs provided. They have come in very cheap but own their own batch plants and majority of their equipment. Being 'locally' based in Winton certainly helps with reduced establishment costs.			
REGIONAL AND REMOTE EXPERIENCE (30%)															
				25%		14%		23%		30%		25%		15%	
Comments:				Worked in Winton and Boulia Shire which are two neighbouring shires of Diamantina Shire.		Large projects in and around Bowen region which is where the company is based.		Completed work in the area - particularly neighbouring shires such as Boulia and Richmond.		Most recent company to work in Diamantina Shire.		Worked in Winton and Boulia Shire which are two neighbouring shires of Diamantina Shire.		Most work has been in Charters Towers, Townsville and Cook Shire region. Very little in Central West Qld.	
COMPLETION OF TENDER SCHEDULES (10%)															
				1%		10%		8%		6%		2%		5%	
Comments:				Lack of Paperwork (Management Plans, Policies, SWMS, ITPs) and overall presentation of submission is where the majority of the marks have been lost.		Provided a comprehensive tender submission including relevent management plans, SWMS, ITPs, relevant checklists. COC's & CVs of key figures involved were also provided.		Missing management plans, SWMS and ITPs.		Lost points due to Management Plans, ITPs and no indicative program being submitted in the tender.		Lack of Paperwork (Management Plans, Policies, SWMS, ITPs) and overall presentation of submission is where the majority of the marks have been lost.		Provided all relevant checklists that would be used on site. Program also provided.	
TOTAL WEIGHTINGS (OUT OF 100%)

	Outline any initiatives which the Respondent currently implements, or proposes to implement if the Respondent's Response is successful, to support the development of competitive local business and industry within the Principal's local government area:	Source as much materials local as possible	Rock - PE & GC Harris Road Contractors Concrete - G&T Contracting Accommodation - Boulia, Betoota & Birdsville as applicable	Use local subcontractors and suppliers wherever feasible.	MSC have sourced supplied from the local suppliers available - Rock, Crusher dust and concrete has been supplied by local firms. Due to the remote nature, MSC will bring Reo, plant and equipment, geofab and other supplies. MSC is also sourcing local accomodation and meals to Diamantina Shire area.	We always ensure when working away from our shire that we support the area we are in. We do this in a few different ways depending on the job and the exact location of the work but an example of ways we support local business & industries are by ensuring we purchase fuel in the town, groceries accomodation when the work is town based and restaurants for meals at night time. We also like to involve the local contractors in our jobs which benefits both us and the local businesses. We are happy to support the local community just as they support us when we are in their town.	If we are aware the tender we would like to help with local initiative which would be on around the time we are in the shire. We would endeavour to help out the community if needed and will be part of the communities events while we are within the shire.

Tender Summary

Council: Diamantina Shire Council
Job Title: Diamantina Betterment 2023
Job No: TC2024001
Closing Date/Time: 2pm, 30th August 2024

		Joel Mann	Lieben Constructions	Lohman Contracting Pty Ltd	Mick Sutton Concreting Pty Ltd	Stockham Building Services Pty Ltd	War (NQ) Pty Ltd
	Outline any initiatives which the Respondent currently implements, or proposes to implement if the Respondent's Response is successful, to support the local community within the Principal's local government area:		Lieben Constructions has the capacity to employ local tradesmen if they are available for the work when it is scheduled.	Use local subcontractors and suppliers wherever feasible.	MSC crew will be staying in local accomodation when visiting the area for works and will aim to resouce any needs we have locally. We plan to be apart of the community while visiting and engage with all locals in a positive manor.	As mentioned above, we would use local contractors where possible for things such as earth & machinery works. The supply of some materials and groceries when visiting the township. As the specific work we are quoting is remote, accomodation would be on site in a mobile camp.	If we are awared the tender we will be using local supplies for material. Local business to purchase our required living items while we are working If we are succesful we would like to employ workers within local community
	Outline the Respondent's understanding of the Principal's local government area generally and the operations of the Principal (as relevant to this Response):	Diamantina Shire Mann Made Construction, currently employs 5 indigenous staff and 2 apprentices who are indigenous	Diamantina consists of two main towns Birdsville and Bedourie, with a third town of Betoota. Bedourie is located 1,600km west of Brisbane, while Birdsville is 200km south of Bedourie and 1,200km from Adelaide. The towns have four aircraft services per week on the Brisbane Mount Isa Circuit. REX (Regional Express) provides this service. Despite it's size, Birdsville is a well-known destination for many Australian and International visitors. The town hosts one horse race meeting a year, when over 6,000 people swell the town population. It is the start of the famous Birdsville Track, which originally was used as a stock route for moving cattle from Queensland to Southern markets. Bedourie is the Shire's administration centre. The last ten years has seen its population more than double to 140 people. The town boasts many new amenities including an aquatic centre, hot artesian spa and a community hall. Visitor numbers have increased to over 120,000 per year. The Shire's wealth lies within its cattle industry, tourism and natural environment. Located within Queensland's Channel Country, bordering South Australia and the Northern Territory, this area is renowned for producing prime quality beef. The natural irrigation from the Diamantina and Georgina River Systems is also assisting with developing an organic cattle industry. National Parks comprise 25% of the shire's area. The Simpson Desert, Diamantina National Park, (just been named in the top	1. Geography and Location •Location: Situated in southwestern Queensland, covering an area of approximately 93,000 square kilometers. •Topography: Predominantly flat with some elevated ranges and river systems. It features a range of arid and semi-arid landscapes, including parts of the Channel Country and the Simpson Desert. •Major Towns: Includes Bedourie, and Birdsville, which are the main population centers. 2. Population and Demographics •Population: Sparse, with a small and spread-out population. It is one of the least populous shires in Queensland. •Demographics: Predominantly Australian-born residents with a mix of long-term locals and more transient populations due to the region's remote nature. 3. Economy •Primary Industries: oCattle Grazing: The main economic activity, with extensive cattle stations operating in the region. oTourism: Growing sector due to attractions like the Birdsville Races and the Simpson Desert. The region is known for its rugged outback experiences	Diamantina Shire is a remote area and the infrastructure is very important to the locals to allow for travel to different areas for resources. MSC has completed multiple projects in the area and understand the travel required between sites to complete works.	We have a strong understanding of working in remote and rural locations. Being from Winton, we are well aware of the temperature and conditions experienced in these outback towns. We also understand the need to be organised in advance to get materials, concrete testers etc to site in a timely manner. We have a lot of experience working in similar locations and for this reason we are equipped with everything we need to be self sufficient in these locations. Our crew have a sat phone & starlink for ease of organisation and phone calls with the local council, GBA, testers etc. We also have our own mobile camps, water tanks, generators, porta loos, machinery etc to accomodate.	The Diamintina Shire covers 95,000 square kilometres, it is rich in natural, cultural, and pastoral heritage, it is home to13 cattle stations and 300 residents. It encapsulates the essence of Australia's outback. The Diamantina Shire rare flora and fauna, national parks, Channel Country, and expansive red deserts and sand dunes. This area boasts one of the world's most fragile and unique desert ecosystems, teeming with wildlife.

Their Quality systems will be based off of the requirements of ISO 9001:2015 , ISO 14001:2015 and ISO45001:2018 .	Respondent does not have a quality policy. Respondednt does not have documented quality procedures.	Quality in accordance with ISO 9001 series.

Tender Summary

Council: Diamantina Shire Council
Job Title: Diamantina Betterment 2023
Job No: TC2024001
Closing Date/Time: 2pm, 30th August 2024

		Joel Mann	Lieben Constructions	Lohman Contracting Pty Ltd	Mick Sutton Concreting Pty Ltd	Stockham Building Services Pty Ltd	War (NQ) Pty Ltd
Schedule H	Methodology				Upon being successful in this tender we would aim to schedule a meeting with the project managers and local authorities via either on site or video call to schedule works. We understand that Diamantina shire council will install side roads prior to Mick Sutton concreting commencing works. Once works are ready to commence, MSC will travel to Diamantina and complete floodways in three locations in conjunction with the Diamantina shire council. MSC will undertake risk assessments at each site prior to commencing works to identify and mitigate any risks or hazards. Upon completion of each floodway, our project manager will have a handover with the relevant persons to identify any defects. Due to location, In the unlike event any defects were identified, we would look to tend to these immediately. If any cost saving initiatives were identified during works, MSC would liaise with the project manager however due to the remote nature of works, our quote has been provided in line with local supplier costs. We have attempted to use as many local suppliers as possible in this process while still providing a fair and accurate quote. MSC has previously completed works alongside Diamantina shire council and had a seamless working relationship. These works took place in 2021/22.	Stockham Building Services aims to get all awarded jobs done in a realistic timeframe. Attached to this tender is a program of work which has been constructed by Jake, the owner & director of the company. If awarded this job, our team understand that the successful completion of this job in a timely manner is very important. If at any point there is the potential to save funds or do things differently (for the better), these will be brought to the attention of the Council/GBA and discussed. Though we do not expect to run into any problems, should any issues occur, a solution, suitable fix and timeframe will be discussed with the council. Our team has a sat phone and Starlink internet available on site meaning phone, email & text message are all options for contacting the Principal as soon as possible. As previously mentioned, we have completed many job of a similar nature with a positive outcome and appreciate your consideration with this tender. Our team is dedicated, hardworking and ensure all work is completed to the best of our ability.	After Council builds the side tracks War Nq will engage local contractors to complete excavation works And footings works Setup of concrete works by qualified concreters Pouring of slabs Rock work completed by local contractors - Rock to be supplied out of Councils borrow pits or Harris quarry Boulia Remediation(abument works done with locally sourced gravel done by local contractors Concrete will be batched on site by Bells Concrete WAR (NQ) Pty Ltd shall undertake all works necessary to execute the recovery works approved under , Diamintiana Shire Council including sourcing, extracting, and supply of all necessary materials. The scope of works to be undertaken by the Contractor includes, but is not necessarily limited to, the following: Preparation of project plans (including erosion and sediment control plan, environmental management plan, traffic management plan, quality management plan, and safety management plan) Mobilisation and demobilisation of plant and equipment to each site location identified in the Bill of Quantities, the approved work extents and shown in the Locality Plans. Implementation of project plans including erosion and sediment control measures and traffic management Sourcing, extracting, stockpiling, transport, and delivery of gravel materials to the respective sites. TheContractor's attention is drawn to the Resource Location Plan provided for gravel pit andwater extraction point locations. The undertaking of the following flood recovery works: Program has been submitted along with the price. 3rd best price overall. Total days to complete the works has been allowed for as 60 days. No allowance for wet weather has been made.
Schedule I	Pricing / Program	Covered in excel spreadsheet	Covered in excel spreadsheet Program provided. Note no allowance for potential delays such as rain.	Covered in excel spreadsheet Program is very detailed. Lohman have accounted for wet weather.	Covered in excel spreadsheet No program provided.	Total construction program length is calculated at 48 days (16 days per floodway).	Program has been submitted along with the price. 3rd best price overall. Total days to complete the works has been allowed for as 60 days. No allowance for wet weather has been made.
Schedule J2	Cash Flow Projection - supplied	Not used.	Not used.	Not used.	Not used.	Not used.	Not used.
Schedule J3	Variation Rates	Covered in excel spreadsheet	Covered in excel spreadsheet	Covered in excel spreadsheet	Covered in excel spreadsheet	Covered in excel spreadsheet	Covered in excel spreadsheet
	Schedule J3.1 - Labour	Not Provided.		See Daywork Rates Tab	See Daywork Rates Tab	See Daywork Rates Tab	
	Schedule J3.2 - Plant	Not Provided.		See Daywork Rates Tab	See Daywork Rates Tab	See Daywork Rates Tab	
	Schedule J3.3 - Design Consultants			See Daywork Rates Tab	See Daywork Rates Tab	See Daywork Rates Tab	
Schedule K	Technical Data			NA	NA	NA	
Schedule L	Statement of Departures	Nil	Nil	NIL	Annexure A - Works to begin within 20 business days of acceptance of tender- this may need to be ammended as it is our understanding the Diamantina Shire council will need to complete their works before we can scheudle to go on site- we are able to work on a date as soon as possible but due to this, we feel this date may need to be ammended in the contract. Note no change in contract value.	NA	CL 13 - Rention (no comment made). Locally sourced gravel and rock to be supplied out of borrow pits
Schedule M	Additional Information	Nil	The rain season will need to be taken note of. If the Project is awarded with adequate time to deliver the project in full prior to the general rain season, then the works will be done prior to Christmas. If the Project is awarded with not enough time prior to the rain season, then the works will be scheduled for after the rain season.	No Comments	We have visited the area for works prior and understand the remote geographical location. This has allowed us to provide a detailed and measured quote while considering the best way to utilise a mix of local suppliers and suppliers from our location. We believe this experience in the area will allow us to complete the works professionally and efficiently. Our key personell for this project have extensive experience and work well alongside local council. Our team is professional and capable and adaptable to challenging situations. We feel we can meet all key markers of the contract and are the right team for this project. Due to our manpower with an FTE of 14, we are able to meet key timelines and estimate these works will take 3-4 weeks. We are able to schedule works in line with the council's instructions within reason provided we are able to source accomodation locally- we are aware September is a busy month for the shire with social events but are fairly flexible with scheuding works after that time when accomodation is available again. Please note: we have not filled in scheudle F2 as we do not intend to subcontract on this project. We can provide suppliers details if necessary however MSC has completed this scope including the supply of all materials to prep, place and pour on this project.	NA	Please Note. I have included information in the attachment of some of the documentation that we have on site and also forward to the required people. These document will be filled out prior to the commencement of work and will be updated as reuired.
Other Comments			Lieben Constructions provided the most ammount of documentation other than the other tenderers.	Lohman have provided contractors work insurance.	Mob and Demob costs have not been provided. I assume this has been built into their rates. They have provided their contractors work insurance.	No HSEQ (Health, Safety, Enviro & Quality) Management plans submitted. No SWMS or ITPs have been submitted either. No capability statement has been submitted but GBA have had experience working with them.	Provided a site dairy, site specific risk assessments, Sign in and sign out register, Site inspection and take over doc, Site induction register, Toobox talk meeting, cold start meeting, traffic management inspection report, Checklist for road signage, Checklist for trucks and mobile plant, Checklist for excavators, Incident report doc, Injury/illness report doc, Plant & vehicle pre starts & defect report. Program is sound. The methodology has stated the use of two crews but does not explain how the two crews will be used and also has not been shown accurately in the construction program. Some of the photos in the methodology are missing, which makes it hard to understand some of the points that they are trying to make. One thing they did point out was to accomodate for dewatering in the event that there is water present on the site.

REQUEST SUMMARY REPORT

Diamantina Shire Council

Request for :

Diamantina 2023 Betterment

Request type : Public Tender

VP reference Number : VP422990

Buyer reference Number : 240124

Opens 02/Aug/2024 : Closes 30/Aug/2024 02:00 PM E. Australia Standard Time

Cut-off date for supplier queries : Sunday 25 August 2024 02:00 PM E. Australia Standard Time

This Request is not finalized.

6 Supplier responses as of the 30/Aug/2024 02:13 PM

Request created by:

Details of the Request

Diamantina 2023 Betterment

Estimated Value	\$500,000 to 1M (hidden from suppliers)
Budgeted Value	Unknown

Buyer Details

Business:	Diamantina Shire Council												
Location:	Herbert St Bedourie, Queensland 4829 Australia												
Web Site:	http://www.diamantina.qld.gov.au/												
Business Overview:	Diamantina consists of two main towns Birdsville and Bedourie, with a third town of Betoota. Bedourie is located 1,600km west of Brisbane, while Birdsville is 200km south of Bedourie and 1,200km from Adelaide. Our towns have four aircraft services per week on the Brisbane- Mount Isa Circuit. REX (Regional Express) provides this service. Despite it's size, Birdsville is a well-known destination for many Australian and International visitors. The town hosts one horse race meeting a year, when over 6,000 people swell the town population. It is the start of the famous Birdsville Track, which originally was used as a stock route for moving cattle from Queensland to Southern markets. Bedourie is the Shire's administration centre. The last ten years has seen its population more than double to 140 people. The town boasts many new amenities including an aquatic centre, hot artesian spa and a community hall. Visitor numbers have increased to over 120,000 per year. The Shire's wealth lies within its cattle industry, tourism and natural environment. Located within Queensland's Channel Country, bordering South Australia and the Northern Territory, this area is renown for producing prime quality beef. The natural irrigation from the Diamantina and Georgina River Systems is also assisting with developing an organic cattle industry. We are fortunate that National Parks comprise 25% of our shire's area. The Simpson Desert, Diamantina National Park, (just been named in the top ten National Parks in Australia) and Astrebla National Park all offer unique scenery and wildlife for visitors to experience. Visit the Diamantina Shire for a unique outback experience.

QUESTION (from Ben De Jager : ben@liebenconstructions.com.au | 0412719079) on 14/Aug/2024 12:26 PM : Good afternoon.

We have 2 questions.

1. Under which Item is the supply and install of the WQ35 LOCAL MATERIAL claimed, or is this the existing material that is to be treated with the Type A treatment?

2. Under which item is the supply and install of the rock protection to be claimed?

Kind regards

ANSWER (Public) on 14/Aug/2024 03:57 PM : Afternoon,

Question 1 response: Cross Section A is delivered by the principal.

Question 2 response: Item Number 1 - Supply and installation of geotextile, Strength Class E, Filtration Class III and Rock protection (d50 = 250mm).

Kind Regards

QUESTION (from Ben De Jager : ben@liebenconstructions.com.au | 0412719079) on 14/Aug/2024 01:07 PM : Good afternoon.

Under which item is mobilization and de-mobilization to be claimed?

Kind regards.

ANSWER (Public) on 14/Aug/2024 04:00 PM : Afternoon,

Tender Addendum 1 will be uploaded directly.

Thank you for your question.

QUESTION (from Ben De Jager : ben@liebenconstructions.com.au | 0412719079) on 15/Aug/2024 11:13 AM : Good morning.

Please could we request an extension of time to Friday the 30th of August 2024 for Tender submission.

Kind regards

ANSWER (Public) on 16/Aug/2024 09:33 AM : Morning,

The closing date has been extended to the 30th of August at 2pm. It is included in Tender Addendum 2 - Environmental Restrictions.

Thank you for your question.

Kind regards

QUESTION (from James Durack : james@durackcivil.com.au | +61417072491) on 22/Aug/2024 02:52 PM : Hi there
We would like to request an extension to the submission deadline to allow the most competitive price proposals to be received for our submission.

Thanks,

ANSWER (Public) on 22/Aug/2024 03:13 PM : Afternoon,

Tender Addendum 2 included an Extension of Time. Unfortunately, a further Extension of Time is not possible.

Regards

Suppliers response:

War NQ Pty Ltd would like to tender for Diamantina 2023 Betterment

Over the past 30 plus years we have been engaged by several different Councils to provided services. These works have totaled approx. \$25M. We have worked predominantly on dirt and gravel roads in remote locations.

It is our intention to supplement our existing crew with local staff and contractors when required.

Our crew is self-sufficient with a fully mobile camp setup. We are able to move our equipment to any area which would be required.

We have engaged, Brendan Smith - Director, NQ Estimating & Civil Services to be employed with war NQ PTY LTD to be our ENGINEER, PROJECT MANAGEMENT, TENDER MANAGEMENT

We are able to start the contract at any given time. Please find listed a schedule of plant equipment that would be available to work on this contract, while all this equipment would not be on contract at one time there will be back up machines available in case of breakdowns or falling behind time.

If you have any further questions do not hesitate to contact Emma Smith on 0429 232 985

If you have any further questions do not hesitate to contact me on 0427 730 030

This Schedule is attached separately and is to be completed and returned in Excel format with the Response.
Schedule J3.1 – Labour
Schedule J3.2 – Plant

Schedule L – Statement of Departures

Schedule L1 – Statement of Departures			
The Respondent must provide details of any proposed amendments, qualifications or departures to the draft contract contained in Part 4 – Contract or the scope contained in Part 5 – Scope of the Request for Tender, including: 1. the amendment, qualification or departure proposed; 2. the reason for proposing the change; and 3. the effect on the Respondent's Price if the amendment, qualification or departure is accepted.			
The Respondent's Response is subject to the following amendments, qualifications or departures:			
Part, Clause or Item	Amendments, Qualifications or Departure	Reduction or increase in Price (\$AUD) if amendment, qualification or departure is accepted.*	
		[INSERT 'REDUCTION', 'INCREASE' OR 'NO CHANGE']	\$
		[INSERT 'REDUCTION', 'INCREASE' OR 'NO CHANGE']	\$
		[INSERT 'REDUCTION', 'INCREASE' OR 'NO CHANGE']	\$
		[INSERT 'REDUCTION', 'INCREASE' OR 'NO CHANGE']	\$
		[INSERT 'REDUCTION', 'INCREASE' OR 'NO CHANGE']	\$
<i>*Note: If nothing stated, the Respondent warrants that the amendment, qualification or departure will have no effect on the Price.</i>			

Schedule M1 – Additional Information

The Respondent may add any additional information relevant to this Response in this Schedule.

Response Schedule - Pricing

The Tenderer shall:

1. complete the Pricing Schedule detailing its Price for carrying out of all *WUC*;
2. provide a maximum daily rate for delay costs; and
3. list the hourly rates for all personnel and all types of constructional equipment to be used on site for the works

Cells highlighted orange indicate user input cells. Tenderers should ensure monetary values do not include parts of cents.

The Contract is a Schedule of Rates Contract. The Tenderer's attention is drawn to clause 2 of the Contract. Where a discrepancy exists between the actual aggregate of the items listed in the Price Schedule and the figure shown on the Form of Tender or shown as the aggregate total of those items in the Price Schedule, then the rate, price or lump sum of each item will prevail over the total shown, and the total shall be adjusted accordingly. That adjusted total shall then be taken as the Tenderer's tendered Price.

Pricing Schedule & Delay Costs

Item Number	Description	Unit of Measure	Quantity	Unit Rate (excl. GST)	Amount (excl. GST)

12.1.7 DECISION ACTION REPORTS

Director Infrastructure Services

Feasibility study to decarbonise isolated communities Update and Background

DECISION REPORT

Date:	12/08/2024	Presentation Duration:	Approx 15 minutes
To:		General Council Meeting	
Author:		Stuart Bourne	
Authorising Officer:		Bob Stephen, Director of Infrastructure Services	
File Reference:	InfoExpert -		
Presented for:	Information		

ATTACHMENTS

Nil

PURPOSE

To provide an update on the rooftop solar trial undertaken with Ergon Energy.

OFFICER RECOMMENDATION

For information only.

REPORT

Background

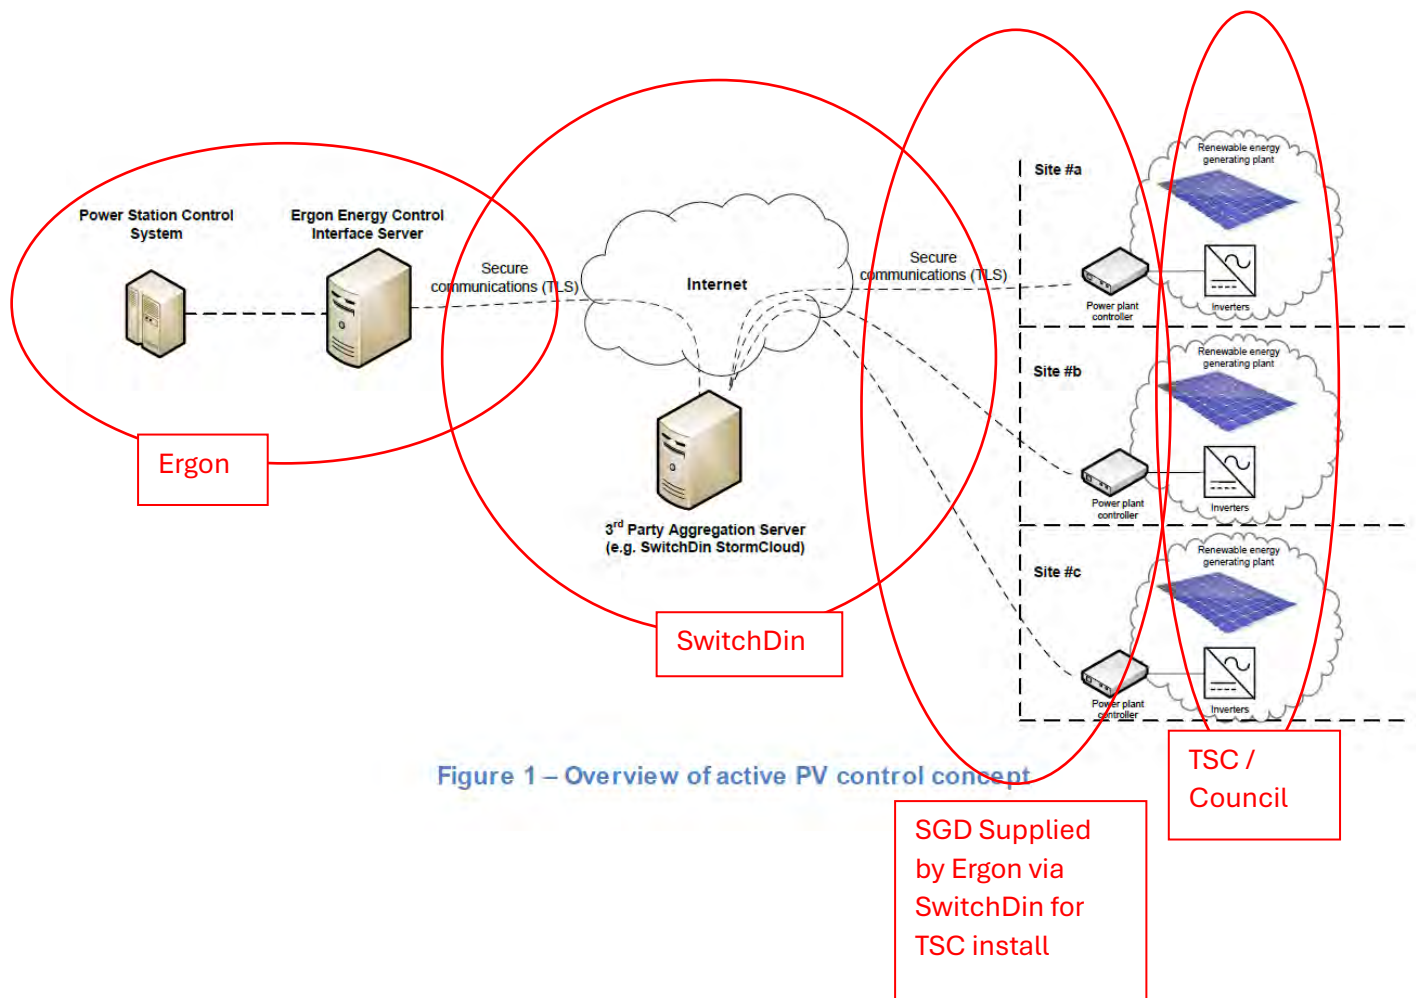

In 2019, on the back of the closure of the Birdsville Geothermal power station operated by Ergon, Council and Ergon Energy commenced discussions to collaboratively seek out options for economic power supply to the towns of Bedourie and Birdsville.

Because both towns are not connected to the national grid, power is sourced from diesel generators running 24 hours per day at a power station located in each town.

In early 2020 Bedourie and Birdsville joined a feasibility study with Ergon Energy into how new technologies such as smart communication devices can be used to transition remote communities towards renewable power generation and reduce the reliance on diesel generators. Planning, design and procurement activities were undertaken with works commencing in November 2020. The project was funded by Building Our Regions Round 5 (\$944,860 BoR, \$128,904 Council).

The installation of inverters and solar panels was completed in six months (May 2021). However, the units were not immediately operational as upgrade works were required by Ergon to the power stations in both towns. The Bedourie power station was upgraded in August 2021 and the Birdsville power station was upgraded in March 2021. Testing / Commissioning commenced at these times in each town. A number of issues emerged during the commissioning phase which caused ongoing delays due to troubleshooting and implementing corrective actions.

The system involves the Ergon power station curtailing individual rooftop solar sites from producing power to ensure network stability. For example when it is sunny and little power is being used by the town the power station curtails the rooftop solar to ensure no excess power is being generated, which would threaten the stability of the network. This results in rooftop solar ramping up and down throughout the day to suit the power demand of the town.

A number of issues have been encountered and addressed since commissioning:

- Communication timing out or dropping out requiring manual device reset
- Communication congestion, so many devices trying to communicate via the SGD to the power station, firmware update rolled out to reduce polling
- Inverter configurations/ settings incorrect or had to be changed (powerfactors)
- Inability to access some inverters remotely (tunnelling)
- Firmware updates to inverters and secure gateway devices sometimes requiring additional software patches to be written and rolled out to maintain the communication between the devices
- Some SGD firmware updates causing dropouts requiring manual resetting
- Some inverter firmware updates causing dropouts requiring manual resetting or changing configurations/ settings which had to be reset
- Additional code to be prepared and updated to allow automatic overnight reboot
- The SwitchDin dashboard which displays the status of the sites has been improved to make troubleshooting easier
- Some setting changes aren't being saved correctly by the inverters – needs to be done multiple times
- Some inverters not registered with SMA preventing firmware updates

- SGD continual setting changes for the inverter for the MPPT (Max power point tracker) which adjusts impedance to suit the power requirement. They are supposed to be designed to do this but possibly it is set too frequently, resulting in the MPPT getting 'stuck' on very low/no resistance
- A power reticulation issue at Bedourie under low loads – due to reactive reverse flow. Not to do with Solar but caused by the network. Change fixed power factor on inverters.
- The main issue was the NSS Quickstop (SMA error code) which is part of the communication between the SMA inverters and the Ergon Power station via the SGD – turns off the AC relay on the inverter without turning off the DC – results in burn out/short of the capacitor on DC side. The affected units have been replaced under warranty.
- Sim card failures (to be replaced)
- Data consumption was very high resulting in high Telstra costs. The polling frequency has been reduced cutting the data consumption in half.

Discussion/Current Issue

The current issues involve monitoring of the dashboard and troubleshooting on an as required basis. This generally involves resetting units identified or possibly further investigations such as replacement sim cards or raising a ticket with SwitchDin for further investigation.

CONSIDERATIONS/IMPLICATIONS

The overall system is complex and susceptible to many different types of potential failures. Close ongoing monitoring and troubleshooting will be required to maintain the system.

Corporate/Operational Plan Reference/Policy/Legislation

Our Environment Benefits from the utilisation of renewable energy sources.

Our Community has a cost of living in the comparable to South East Queensland.

Our Community has access to a reliable and affordable renewable electricity supply.

Budget/Financial/Resourcing

An annual allocation will be required to monitor and troubleshoot sites that are down.

Communication/Engagement

Nil

Risk Assessment

Nil

Timings/Deadline

Nil

Conflict of Interest Declaration

Nil

Human Rights Impact

Nil

Alternatives Considered

It is likely that this model won't be further replicated in other remote sites by Ergon. An alternative model involving a solar farm located adjacent to the power station could easily be controlled with fewer communications issues and less stakeholders. The disadvantage of this alternative model is that any savings are unlikely to be passed onto residents.

Dear Richard

Project: **DIAMANTINA SHIRE COUNCIL – BIRDSVILLE TOWN HALL**
Location: Birdsville, QLD
Subject: **Developed Design**

Further to our completion of the Concept Design of the proposed refurbishment works for the Birdsville Town Hall, we now provide, as requested, the following proposed fees for developing the design further for your consideration.

The following areas of design development will provide an increased level of surety in what is possible and will focus on the existing building's key elements identified during the concept design.

We propose this design development to incorporate the following design disciplines, carried out over two stages for architectural and kitchen, while only one stage is envisaged for mechanical and ESD.

- Architectural design
- Kitchen Design
- Mechanical Design
- Environmentally Sustainable Design

MODE DESIGN Corp. Pty Ltd

ACN 112 807 931

DEVELOPED DESIGN – Stage 1

Architectural Design – Stage 1

The architectural design work will advance the previously completed concept design by the following activities:

- Prepare updated site master plan
- Prepare updated floor plans, elevations and sections
- Prepare room data sheets for each room
- Investigate the heritage value or listing for the building
- Investigate the existing timber floor deterioration and provide recommendation

Kitchen Design – Stage 1

The existing commercial kitchen is proposed to be completely re-designed. Therefore, a new design for the kitchen is necessary which will involve a specialist kitchen designer to carry out the following activities in conjunction with MODE:

- Engage with stakeholders and establish spatial details and confirm all kitchen operational parameters.
- Based on the agreed operating requirements, prepare spatial concept sketches of the overall kitchen fit-out to resolve operating issues etc.
- Prepare outline concept sketches of the options for configuration of the food services requirements
- Issue Sketch drawings indicating fixtures and fittings in the kitchen

Rhonan O'Brien
QLD 2350 NSW 7176
ACT 2361 VIC 16182
NZ 4712
Peter Reffram
QLD 2333
WA 2143

Mechanical Engineering – Stage 1

As part of the concept design refurbishment objectives, the existing mechanical cooling and ventilation system is to be replaced. The following mechanical design activities will be carried out in this stage:

- Carry out preliminary investigation by way of a desk top review of the existing building, site and conditions.
- (NOTE: In this Developed Design, a site visit is not anticipated)
- Preparation of a preliminary schematic design series of sketches and planning for major plant, service rooms and reticulation of ducts and services.
- Provide 'bluebeam' drawing mark ups to describe the overall preliminary mechanical design.

ESD Design Input – Stage 1

The existing building is identified as having a lack of section J compliant building envelope. As part of the stage 1 design work, a section J (energy efficient) report will be prepared identifying the inclusion of various improved energy efficient building design elements into the architectural design building fabric.

This is an important design component for a building located in the Birdsville climatic environment and will influence and inform the new mechanical cooling design to achieve an efficient and robust cooling system outcome.

STAGE 1 - Developed Design Fee

Kitchen Design - \$8,850.00

Architectural Design - \$17,000.00

Mechanical Design - \$6,000.00

ESD - \$6,000.00

Total Stage 1 Fee = \$37,850.00 + \$3,785.00 GST = \$41,635.00

DEVELOPED DESIGN – Stage 2

Architectural Design – Stage 2

The stage 2 architectural work will incorporate the specific elements developed from Stage 1 to include ceiling layouts, wall details and updated furniture layouts and the specific findings from the mechanical and ESD design inputs.

- Reflected ceiling layouts
- Updated floor plans
- Updated elevations and sections
- Finishes Schedule
- Carry out a review of the existing timber floor structure to determine condition.

Kitchen Design – Stage 2

Following feedback from the stakeholders, advance the kitchen design as follows:

- Prepare schedule of all fixtures and equipment – indicating make and model of equipment.
- Prepare building services schedule of all fixtures and equipment for the services engineers.
- Resolve interior design of kitchen and incorporate into a final design.
- Issue developed design to be coordinated with architectural design.
- Prepare estimated opinion of probable cost based on finalized developed design.

NOTE: It is not envisaged that any additional mechanical design or ESD design will be required for Stage 2. However, to enable the structural assessment of the timber floor, the services of a structural engineer will be required. It would also be necessary to have structural engineering input into the new roof and any other structural elements.

STAGE 2 - Developed Design Fee

Kitchen Design - \$9,860.00

Architectural Design - \$8,000.00

Mechanical Design - N/A

ESD - N/A

Total Stage 2 Fee = \$ 17,860.00 + \$1,786.00 GST = \$19,640.00.

It would be normal for civil engineering to be included in the developed design, especially in this project due to the new car park and dealing with stormwater infrastructure. This has not been allowed for in the proposal, but is something we can discuss. We have also not included electrical or specialist audio visual at this stage, but these services should certainly be included in any additional design work. We would be happy to discuss the above additional engineering services with you to clarify when and how these services can be implemented.

Exclusions:

- MODE and their sub-consultants have excluded site visits to Birdsville (including travel and accommodation). This is predominantly a result of the limited and uncertain transportation options available. If site visits are deemed necessary to carry out the proposed work, associated costs will be provided to GBA for consideration.
- Engagement of consultants not listed within the letter
- Authority fees and charges.

In summary, our total fees are:

DEVELOPED DESIGN STAGE 1 = \$41,6335.00

DEVELOPED DESIGN STAGE 2 = \$19,640.00

We trust the above is satisfactory and we look forward to discussing the above with you as required.

Yours faithfully,

Trevor Barker

12.1.8 DECISION ACTION REPORTS

Director Infrastructure Services

Birdsville Hall Further Planning Development

DECISION REPORT

Date:09/09/2024

Presentation Duration: Approx 15 minutes

To:

General Council Meeting

Author:

Stuart Bourne

Authorising Officer:

Bob Stephen, Director of Infrastructure Services

File Reference: InfoExpert -

Presented for: Decision

ATTACHMENTS

Fee Submission, Mode Design Corp, 26 August 24-Developed Design.pdf

PURPOSE

To advance the design of the Birdsville Hall.

OFFICER RECOMMENDATION

That Council approve the Fee Proposal from Mode Design Corp for the Developed Design Stage One and Two for the Birdsville Hall Refurbishment Project and that the budget is amended accordingly.

REPORT

Background

Mode Design were engaged in August 2022 to undertake concept planning for the Birdsville Hall and Bedourie Administration Centre.

Draft Concepts of the Birdsville Hall/ Bedourie Administration Centre and Bedourie Depot were tabled in September 2023.

Community Consultation was held in Birdsville to review the concept in November 2023.

Recommendation

'That the Development of Concept Architectural Plans for Birdsville Town hall and Bedourie Office be awarded to Mode Design Corp. Pty Ltd'

Minute No. 2022.08.15-OM-14

Moved by Cr Cooms and Seconded by Cr Murray

'That the recommendation be adopted.'

Carried 4/0.

Recommendation

'That Council endorse a modification to the scope of the contract with Mode Design Corp Pty Ltd to include a further option for the Birdsville Hall – that being – Concept Architectural Plans for renovation and renewal of the existing Birdsville Hall.'

Minute No. 2022.09.19-OM-12

Moved by Cr Murray and Seconded by Cr Rowlands

'That the recommendation be adopted.'

Carried 3/0.

Birdsville Hall Refurbishment Concept – Mode Architects

RESOLUTION 2024.05.31-OM-09

Moved: Cr. Clarke

Seconded: Cr. Morton

That Council obtain a costing proposal for the Birdsville Hall refurbishment works for further consideration.

CARRIED 4/0

Discussion/Current Issue

A fee submission has now been received to further develop the design.

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

Our Infrastructure is constructed and maintained in a sustainable manner which meets community needs.

Our Community is enhanced by participation in arts and cultural activities.

Our Economy flourishes from a growing tourism industry and continuation of major events.

Budget/Financial/Resourcing

The developed design stage 1 and 2 total cost is \$55,710 + GST.

This doesn't include a structural assessment / solution to the floor in the hall and the kitchen, an additional amount of \$10,000 would be prudent.

The budget has an allocation for the Birdsville Hall Master Plan Precinct of \$50,000 for 2024/25.

Communication/Engagement

Initial community engagement was held in November 2023 to inform the concept planning stage.

Risk Assessment

There is minimal risk involved at this stage. Investigations into the kitchen concrete floor and hall timber floor will be necessary to determine the required treatment in this area.

Timings/Deadline

Planning for the Birdsville Hall is required to progress this project close to 'Shovel Ready' status in order to take advantage of ad hoc funding opportunities by either the State or Federal Governments.

Conflict of Interest Declaration

Nil

Human Rights Impact

Nil

Alternatives Considered

The developed design could be sent out to the market to price however this additional procurement stage will take several months. Mode have the historical knowledge of the requirements from the Concept Planning stage so will not require time to gain background knowledge of the project.

12.1.9 Remote Workers Camp Tender

Directorate: Infrastructure

DECISION REPORT

Date:	9 th September 2024	Presentation Time:	Mins
To:	Ordinary Council Meeting		
Author:	Bob Stephen Director Infrastructure		
Authorising Officer:	Scott Mason, Interim Chief Executive Officer		
File Reference:	IX		
Presented for:	Decision		

ATTACHMENTS

1. Tender Overview Spreadsheet
2. Plant Replacement Strategy

PURPOSE

Purchase new remote workers camp to replace ageing workers' camp.

OFFICER RECOMMENDATION – to be table at Ordinary Council Meeting on 16 September 2024

That Council:

Accept and approve the proposed purchase of the following

2 # 40-foot container Remote workers camp as per tender documents Tender # TC20233068 from Crocodile Containers, based in Archerfield Queensland for the sum of \$296,582.00

REPORT

Background

Some of our Remote workers camps are ageing, we have included funds in this year's budget to buy a new camp. We put out to tender for the supply of two (2) 40 foot containers, including 1.8m deck with handrails. One container will be a three (3) bedroom camp with en-suite bathrooms and a second container with kitchen, laundry room and office.

Discussion/Current Issue

Nil

CONSIDERATION/IMPLICATIONS

Specification, details submitted, price and suitability to be placed on 40 foot trailers have been taken into consideration in our proposed purchase. Council received 10 tender responses, ranging in price from \$218,350 to \$642,500. The response from Crocodile Containers is considered the best fit from a specification and fit for purpose point of view. Of the complying tenders, Crocodile Containers are the best value for money with the lower priced tenderers either non-complying, not fit for purpose or made from unsuitable materials.

Corporate/Operational Plan Reference/Policy/Legislation

Plant Replacement Strategy.

Budget/Financial/Resourcing

Remote Workers Camp in this tender is within the current Budget.

Communication/Engagement

Discussed with Plant Standing Committee.

Risk Assessment

Minimal Risk

Timings/Deadlines

As soon as possible

Conflict of Interest Declaration

Nil

Human Rights Impact

Nil

Alternatives Considered

N/A

PLEASE NOTE

- Equipment must be registered to Council's common date of 2, July 2025.
- All prices are to be inclusive of GST.
- Trailers and dollies are to be fitted out and supplied in accordance with all relevant Australian standards, Australian design rules and meet Workplace Health and Safety Regulations.
- Trailers and dollies are to be a quoted on with availability and delivery outlook.
- The Trailers and dollies shall be supplied with the following documentation
 - 1 x Operators Manual

Further particulars can be obtained from Bob Stephen (07) 4746 1600

CONDITIONS OF REQUEST FOR TENDER FOR THREE (3) NEW OR USED FLAT TOP SEMI - TRAILERS AND TWO (2) NEW OR USED DOLLIES, TANDEM - SPRING.

1.1 Request for Tender Documents

- A. The Organisation providing the Tender shall complete all details on the Tender Form which shall be recognised as the Tender.
- B. The Organisation providing the Tender shall sign the Tender or if the Organisation is a corporation, affix the common seal or otherwise formally sign the Tender.
- C. Selection shall be made from the signed Tender and not from any literature or letter accompanying the Tender, unless such attachments are specifically referred to in the signed Tender Schedule.

1.2 Variations from Specification

- A. If because of the basic design or other factors it is impracticable for the organisation providing the Tender to fully comply with the specifications of the equipment required, he/she shall clearly list these variations and attach to the General Request for Tender Schedule.
- B. Unless these exclusions are stated, it shall be expected that the trailers offered comply with the specification in all respects.

1.3 Time for Delivery

- A. The organisation providing the Tender shall state on the tender the time for delivery of the trailers. A monetary penalty shall be incurred by the successful organisation on failure to comply with the stated time, and at Council discretion. The penalty shall be calculated at the rate of 0.1% of the Tender price per ordinary working day, i.e., Monday to Friday, exclusive of public holidays, that the actual delivery time exceeds the stated delivery time. Council also reserves the power to subtract this calculated penalty amount from the Tender price and to make payment accordingly.
- B. Delivery shall be to the Council Depot at Eyre Street, Bedourie, and the supplying organisation should nominate the price involved in delivering the item to this point in their Tender price. If the successful organisation/supplier fails to supply the vehicles or equipment quoted within the time set out in their Tender document, Council reserves the right to cancel the order and either place an order with another organisation/supplier or recall Tenders.

1.4 Lodgement of Tender

- A. The Tender must be lodged through the Vendor panel system.

1.5 Acceptance of Quotation

- A. Any Tender which does not comply with the requirements of the conditions of quoting in all respects may be rejected.
- B. The lowest Tender may not necessarily be accepted.
- C. The organisation whose Tender has been approved and accepted shall be advised by the placement of an official order form from Council.
- D. If the successful organisation fails to supply the trailers quoted on within the time as set out in their Tender documents, Council reserves the right to cancel the order and either place an order with another organisation or recall the quotations.

Quotations to include all costs associated with purchase, delivery and fit out to all specification. Any missed late or excluded costs may not be accepted.

Mandatory Accessories to be included/fitted.

The trailers must be supplied fully fitted out and ready for operations. The trailers must be supplied with 3-way container hook points. All materials must be robust and durable to withstand the harsh working environment.

3 x 45ft Flat Top, Semi-Trailers
10 Studd steel rims plus 2x spares per trailer
20 Inch K-Hitch Axles
K- Hitch Spring Suspension
JOST brand landing legs
3-Way container Pins
2 Positions King Pin 50mm
2 x tool boxes
Glad end couplings fitted
Road train and oversize signs fitted to each trailer
3 x ring feeders TC7230 Supplied and Installed, Inc. Plumbing & EBS
2 x Dollies – Tandem – Spring
20 Inch K-Hitch Axles
K – Hitch Spring Suspension
50 mm turntable
10 Studd Steel Rims
Standard Long Draw bar
Flexi Wheel Guards
Standard brake kit (Air Brake Corp)
ABS connector leads
Glad end couplings fitted

Ensure the trailers and Dollies have a full pre-delivery service and check over to all equipment installed.

12.1.10 INFORMATION REPORT

Bullrushes, Birdsville Billabong

Directorate:	Infrastructure
Date:	12/09/2024
To:	Ordinary Council Meeting
Author:	Bob Stephen Director Infrastructure
Authorising Officer:	Scott Mason, Interim Chief Executive Officer
File Reference:	IX

OFFICER RECOMMENDATION

That Council receive the report and that those matters not covered by resolution be noted.

ATTACHMENTS

1. Elders Email

OPERATIONAL UPDATE

To date we have researched various methods of removing the native bullrushes growing in the Birdsville Billabong. Options considered include excavating with a machine, poisoning with chemicals, or burning.

Advice was sought from Elders, who supply most of Council chemicals requirements, on which chemicals would be suitable for using to destroy the bullrush without any harm to the existing flora, fauna and fish in the Diamantina River. Elders responded that they would not recommend using any chemicals which could damage the environment, as they have had issues in the past (see attached email).

We are looking at other sources for supply of chemicals. Barcaldine Council have used a contractor to spray their bullrush, and we are waiting to receive information of the contractor they used. Once we have received the contact details, we will make contact and see if they can assist us with removing the bullrush.

A plan is in place to meet with Birdsville Rural Fire Services and Queensland Police to see if it is possible to undertake a burn, after the events season is over. This meeting is booked for 2.00pm, 18 September 2024.

We have been in touch with Wesley Philips, Environmental Officer for RAPAD, for any information he may have, to assist us with the eradication of bullrushes in the Diamantina River, Birdsville. At the time of writing, we are still awaiting his response.

Jodie,

Unfortunately Elders are unable to sell, or recommend any products for weed control in public access waterways. Due to past experience, the risk of liability in any case of mishap as a result of our recommendation is too great for the company to be exposed to.

As a result, Elders are unable to help in this instance.

Thanks for your understanding.

ATTACHMENTS

1. Vehicle tender 7 x Hilux Dual Cab 4x4 Utes
2. Vehicle tender 2 x 7 seat 4x4 wagon
3. Vehicle tender 2 x Dual Cab Workmate Landcruiser 4x4 Utes
4. Vehicle tender 1 x 7 seater 4x4 Wagon

Operational Report

Below is the additional accessories that were requested on the twin cab utility vehicles, after the tender documents were prepared. These were sent out to Director Infrastructure, Works Manager and Workshop Manager, to ensure all requirements were included.

Once the response is received the tenders are released to Vendor Panel.

After the tender review process was concluded on the recent light vehicle tender, it was noted there were no long-range fuel tanks included in the specifications. In the past some tenders had inclusion of long-range tanks and some did not.

I have attached all the tender documents for the last light vehicle tenders, there are some slight differences in the mandatory accessories.

Diamantina Shire Council

TENDER DOCUMENT

**Invitation for supply and delivery of Seven (7) New 4x4
Dual Cab Utes**

Tender number: TC20233066

Closing: Time: 4pm

Further particulars can be obtained from Bob Stephen (07) 4746 1600

CONDITIONS OF REQUEST FOR TENDER FOR MOTOR VEHICLES

1.1 Request for Tender Documents

- A. The Organisation providing the Tender shall complete all details on the Tender Form which shall be recognised as the Tender.
- B. The Organisation providing the Tender shall sign the Tender or if the Organisation is a corporation, affix the common seal or otherwise formally sign the Tender.
- C. Selection shall be made from the signed Tender and not from any literature or letter accompanying the Tender, unless such attachments are specifically referred to in the signed Tender Schedule.

1.2 Variations from Specification

- A. If because of the basic design or other factors it is impracticable for the organisation providing the Tender to fully comply with the specifications of the vehicle required, he/she shall clearly list these variations and attach to the General Request for Tender Schedule.
- B. Unless these exclusions are stated, it shall be expected that the vehicle offered complies with the specification in all respects.

1.3 Time for Delivery

- A. The organisation providing the Tender shall state on the tender the time for delivery of the vehicles. A monetary penalty shall be incurred by the successful organisation on failure to comply with the stated time, and at Council discretion. The penalty shall be calculated at the rate of 0.1% of the Tender price per ordinary working day, i.e., Monday to Friday, exclusive of public holidays, that the actual delivery time exceeds the stated delivery time. Council also reserves the power to subtract this calculated penalty amount from the Tender price and to make payment accordingly.
- B. Delivery shall be to the Council Depot at Eyre Street, Bedourie, and the supplying organisation should nominate the price involved in delivering the item to this point in their Tender price. If the successful organisation/supplier fails to supply the vehicles or equipment quoted within the time set out in their Tender document, Council reserves the right to cancel the order and either place an order with another organisation/supplier or recall Tenders.

1.4 Lodgement of Tender

- A. The Tender must be lodged thorough the Vendor panel system

1.5 Acceptance of Quotation

- A. Any Tender which does not comply with the requirements of the conditions of quoting in all respects may be rejected.
- B. The lowest Tender may not necessarily be accepted
- C. The organisation whose Tender has been approved and accepted shall be advised by the placement of an official order form from Council.
- D. If the successful organisation fails to supply the vehicles quoted on within the time as set out in their Tender documents, Council reserves the right to cancel the order and either place an order with another organisation or recall the quotations.

Quotations to include all costs associated with purchase, delivery and fit out to all specification. Any missed late or excluded costs may not be accepted.

Mandatory Accessories to be included/fitted.

1. Genuine Snorkel
2. Steel Bull bar. Bull bar to include; a. Minimum 3 aerial mounts b. 7-inch Spot lights c. 22-inch 40 LED Double row light bar.
3. Tow Bar to be fitted and including; a. Tow ball b. 7 pin small round trailer lug adapter (metal)
4. Steel tray to suit, tray to include; a. 3mm checker plate floor b. Two Revolver LED amber beacons mounted on headboard with illuminated switch, in conspicuous place on dashboard. c. Twin 12v powered cigarette lighter type socket mounted on headboard d. Plastic water tank with soap dispenser fitted under body. e. All Tyres to be TOYO AT3 f. Two (2) spare tyres and rims one (1) mounted to inside headboard include bracket and bolt. g. Handrail fitted to headboard and painted yellow with corresponding protruding step below tray level for access to tray on passenger side.
5. Reverse beeper
6. Steel sidesteps
7. Rubber floor mats

8. Carpet type Dash mat
9. Canvas Seat covers for all seats.
10. Windows tinted to Maximum legal standard
11. GME TX3350 UHF Radio with GME AE4705B Heavy Duty Antenna – Black, mounted to Bulbar.
12. Navman Unit installed with a duress alarm covered switch
13. Electric brakes fitted in the vehicle for trailer towing.

OPERATIONAL UPDATE

This report provides an update from the Corporate Services Directorate of council on activities for the information and attention of Council that do not require a decision of Council (items requiring a decision of Council will be reported separately).

Safety & Quality

- The Local Government Workcare (LGW) Mutual Risk Obligations Workplace Health and Safety Review (V1 26 June 2024) recommendation updates are provided in Table 1 below.

Table 1: Implementation of Internal Audit Recommendations – Plant and Equipment

No.	LGW Recommendations	Council Action	Status	Responsible Officer
1	3 year strategy	Introduce a 3 year strategy including 12 month action plan outlining annual priorities. Review actions as part of internal audit reviews.	Progressing	Safety & Quality Coordinator and Director Corporate Services
2	Incident Investigation Training	Safety Lead to undertake ICAMM training as part of the role development.	Rescheduled	Safety & Quality Coordinator and Director Corporate Services
3	Due Diligence Training for Senior Leadership Team	Undertake Due Diligence training for management explaining the responsibilities for their role in Council.	Booked for 30 September 2024	Safety & Quality Coordinator and Director Corporate Services

- The Work Health and Safety Report is at Attachment 1.

Finance

Key activities include:

- An update report on the Financial Turnaround Strategy is Attachment 3 from Council's external consultant.
- A copy of the Financial Performance Report, 31 August 2024 is at Attachment 2. A verbal update will be provided at the Ordinary Meeting.
- The Lease and Management Agreement for the Birdsville Lodge was handed over to the successful applicant of Council's Tender process on 1 August 2024. A meeting was held with the successful tenderer regarding the finalisation of the agreement on 4 September 2024, with the view to finalising all written arrangements by 30 September 2024.
- Tenders are being drafted by Council solicitors for the lease and management of the Council owned Birdsville Caravan Park and Bedourie Caravan Park.
- The Internal Audit Report for Plant and Equipment (May 2024, Walsh Accounting) was presented to Council at its Plant Standing Committee on 26 June 2024. The recommendations from this report are continuing to be implemented into council's administrative processes as provided in Table 2 below.

Table 2: Implementation of Internal Audit Recommendations – Plant and Equipment

No.	Recommendations	Actions	Status	Responsible Officer
1	That Council review the Motor Vehicle Policy to ensure it is consistent with current expectations of Council.	Draft policy was discussed at the Plant Standing Committee on 13 September 2024. Enhancements to the policy are now being drafted presentation at the	Progressing	Director Corporate Services and Director Infrastructure Services

No.	Recommendations	Actions	Status	Responsible Officer
		next Plant Standing Committee.		
2	Council implement an asset accounting policy to assist with classification and treatment of assets, and ensure consistent application of asset thresholds, useful lives and depreciation rates.	• New Asset Management Policy has been drafted to provide the strategic management of Council's infrastructure assets in a coordinated manner – ready for review by Executive Leadership Team. • Asset Accounting Policy being drafted to ensure that all assets are managed efficiently. • All asset related policies will be reviewed by King and Company.	Still being reviewed Adopted by Council 31 July 2024, refer Minute No. 2024.07.31-SM-21	Director Corporate Services and Director Infrastructure Services
3	That Council review all motor vehicle private use arrangements and where these are to continue, they be formalised using the standard agreement.	This work is progressing in the development of Council's policies and was discussed at Council's Plant Standing Committee on 26 June 2024.	Progressing.	Director Corporate Services and Director Infrastructure Services
4	The 2024 FBT Return be updated to include all private use vehicles.	To be actioned by Finance Team.	Completed	Director Corporate Services
5	That Council utilise the existing reporting functionality in Synergy Soft to provide plant profitability reporting on a regular (ideally quarterly) basis. Further, plant performance reporting be included as part of the monitoring undertaken by the Plant Committee.	To be implemented into the administration process and relevant work instructions.	Progressing	Director Corporate Services and Director Infrastructure Services
6	The plant recording sheets and input processes be reviewed to ensure	Being reviewed.	Progressing	Director Corporate Services and

	recording of plant usage is as accurate as possible.			Director Infrastructure Services
7	That Council adopt consistent hourly or KM charge-out rates for all plant and equipment items for all recoverable works to ensure all plant costs are being fully recovered.	Being reviewed.	Progressing	Director Corporate Services and Director Infrastructure Services
8	That Council review the depreciation parameters (useful lives, depreciation rate, minimum written down value) for all plant and equipment items before finalisation of the asset register at 30 June 2024, to ensure these are consistently and correctly being applied.	These matters were discussed at the Plant Standing Committee and will be implemented into the relevant Council policies.	Finalised	Director Corporate Services and Director Infrastructure Services
9	That Council re-commence use of the standard Plant Purchase Form to ensure consistency of depreciation parameters when assets are added in future.	To be implemented into relevant work instructions.	Progressing	Director Corporate Services and Director Infrastructure Services
10	That Council maintain a centralised register for floating plant, to identify the location of all items of portable and attractive equipment.	To be implemented into relevant work instructions.	Progressing.	Director Corporate Services and Director Infrastructure Services

Human Resources

As at 31 August 2024, there were 73 employees in Council's workforce, refer to Attachment 4 for the most current statistical workforce data. The recruitment strategy was presented to the Executive Leadership Team (ELT) on 4 September 2024 and approval was given to proceed. A focus on adequate resourcing is a priority for the ELT.

Audit Committee

The recruitment process for the two independent Audit Committee members closed on 12 September 2024. The proposed timetable is as follows:

13/9/2024	Shortlisting with Mayor Murray, Cr Dare and Mr Jason Beaton, Chief Operating Officer
23-27/9/2024	Interviews
19/11/2024	Inaugural Audit Committee Meeting at Birdsville, 9.30am start – 14.30pm

Town Planning and Property Development

This information report provides a monthly update on the planning services that Council provides to support planning and development activity across the local government area.

1. DEVELOPMENT ASSESSMENT

No new applications were received last month. The following application is in its appeal period.

The following application was approved at the July General meeting with the decision notice issued to the applicant in August. The applicant has a 20 business day Appeal Period within which they can file an appeal or request a negotiated decision. The Appeal Period for the application is expected to finish around 18 September 2024.

1.1	Council reference:	DA-M-2024-01
	Application:	Development Permit for a Tourist Park (Maximum 74 Persons)
	Street address:	7 Waddi Drive, Birdsville
	Property description:	Lot 1 on CP847849
	Day application was made:	06 February 2024
	Category of assessment:	Impact assessment
	Public notification required:	Yes
	Applicant:	Donald Keith Rowlands C/- Reel Planning
	Status:	Appeal period

2. GENERAL PLANNING SERVICES, ENQUIRIES AND ADVICE

2.1 CUSTOMER REQUESTS

The following customer requests have been received and responded to since the last monthly report:

PLANNING ENQUIRIES			
Date received	Customer Details	Details of Enquiry	Status
29/08/24	State Government	The Department of Housing, Local Government, Planning and Public Works notified Council of the Scheme Supply Fund. - The fund has two funding pathways – Pathway 1 and Pathway 2 - Diamantina Shire Council is identified within Local Government Group 3 - Pathway is limited to Councils in Group 3 and is a non-competitive, allocation based funding - Eligible projects include the delivery of planning outcomes related to endorsed Local Housing Action Plans (LHAPs). Council's LHAP (March 2023) includes relevant actions that appear to meet the	Ongoing

Environmental Health

The RAPAD Region Environmental Health Report No. 5 for August 2024 is at Attachment 5.

Property Development

The current land for sale list for Diamantina Shire Council is provided at Attachment 6. The land sales process is governed by Chapter 6 of the *Local Government Regulation 2012*. Council is receiving advice from King and Company Solicitors to ensure all legal requirements are met. All enquiries regarding Council's sale of land are to be directed to the Director Corporate Services.

Administration

A comprehensive review of records management has commenced. A review report will be presented at the November 2024 Ordinary Meeting with initiatives, including staff training, to enhance records management and compliance across council.

- END OF REPORT -

Work Health and Safety Report

Responsible Officer: Chief Executive Officer

Author: Jo Fiorenza | Safety and Quality Coordinator

Summary

This monthly report provides an update of safety activities for the information and attention of Council that do not require a decision of Council (any items requiring a decision of Council will be reported separately).

Officers Recommendation:

That Council receive the Work Health and Safety Report and that those matters not covered by resolution be noted.

Incident Statistics

Date	Type	Incident	Response
27/8/24	Property Damage	Broken windscreen on truck from passing tourist	Property Damage. Order placed for replacement.
29/8/24	Injury	Bonnet of truck fell on hand of Contractor Driver	Report Only. Being investigated.

Hazard inspections

Period	Number inspections outstanding at start of period	Number inspections scheduled during period	Number inspections completed during period	Number inspections outstanding at end of period
June	0	2	1	1
July	1	29	18	12
August	12	0	12	0

Audits

No audits scheduled for completion in August.

Safety Databases

Progression to new Skytrust system ongoing.

HSC Meetings

HSC Meeting scheduled for September 2024.

Workers Compensation

- 1 ongoing work cover claim since March 2022. This claim continues to be managed by the SQC in consultation with LGW.

Training

- The following training was completed in August
- 5 x Construction Induction White Card
- 5 x Health & Safety Representatives
- 6 x DSC Inductions
- 1 x Skid Steer ticket
- 1 x Traffic Awareness
- 5 x Traffic Management Implementer

2024 AUDIT COMMITTEE BRIEFING PAPER

Diamantina Shire Council

8 August 2024

QAO representatives

Michael Claydon - Director (QAO)

Lizelle Van Loggerenberg – Senior Manager (QAO)

Timothy Cronin – Engagement Leader (PKF)

Erick Manikan – Manager (PKF)

1. Summary

Audit progress – Behind Schedule

We have completed our audit planning processes and interim audit.

Financial reporting risks and areas of audit focus

We have commenced our audit procedures over the areas of audit focus that we identified in the external audit plan. For these areas, we have held meetings with management within key business areas to understand any new business updates, and to confirm the design and implementation of key financial reporting controls.

Council has experienced significant change of executive leadership in the preceding two years, including the CEO. There have been 8 CEO's in permanent and acting roles since August 2022. At the time of our interim audit, Scott Mason, a former Council CEO (2007 – 2013) had been appointed as Interim CEO. Recruitment of a permanent CEO is in progress.

The audit report for FY 2023 was signed 31 January 2024 and Council is behind in financial reporting for FY 2024.

Scott Mason has been working closely with the newly elected Council on implementing a “financial turnaround strategy”. This process involves working to re-build the organisational capability of Council, particularly with respect to financial and management reporting. To this end, a team of consultants (some with prior experience with Council), are working to review and revise Council's policies and procedures. Council are heavily involved in this process and a number of workshops have been conducted.

Whilst Council is currently behind schedule in its financial reporting, there is confidence with the team in place and a concerted effort, that statutory timeframes for FY 2024 will be met.

Key milestones

3 June 2024	pro forma financial statements due (behind schedule)
7 June 2024	asset valuations due (behind schedule)
10 June 2024	Accounting papers on known accounting issues due to audit

Internal controls and financial reporting issues

5 active and 4 closed issues

\$274,000 overall materiality

Based on our work to date, which included a walkthrough of key control processes to assess design and implementation of your controls, we have not identified any new control deficiencies or financial reporting issues.

We will update you on the testing of these controls/review of proforma financial statements/review of asset valuations in our closing letter in October 2024.

2. Areas of audit focus

Our external audit plan identified items we considered to be significant or at risk of material error to the financial statements. The current status of our audit procedures are as follows.

Area	Status
1. Valuation/depreciation of infrastructure assets - Property plant and equipment is the most material balance in the financial statements at \$175 million at 30 June 2023 - Valuation involves significant estimates and judgements - There is no market-based evidence of fair value due to the specialised nature of the assets (comparable items are rarely sold) - Infrastructure assets generally have long lives which require significant estimation For the financial year ending 30 June 2024, only a desktop valuation will be undertaken.	At the time of our interim audit, Council was still working through valuation and depreciation. We will review and test during the year-end visit.
2. Grant Revenue/Contract Assets and Liabilities - Grant revenue was \$9m of total revenue of \$26m for the financial year ended 30 June 2023. - It is anticipated that the level of grant funding will be similar for the financial year ending 30 June 2024. - Incorrect assessment of grant conditions could lead to errors in recognition of grant revenue and calculation of contract assets and liabilities. - Financial reporting deficiencies were identified in relation to management's calculation of contract assets and liabilities in prior year.	At the time of our interim audit, Council was still working through grant revenue and contact asset and liabilities. We will review and test during the year-end visit.
Probity, Procurement Policies and Practices - Large supplier base with de-centralised purchasing - Council undertakes large projects where legislative requirements guide tendering - Increase in vendor fraud attacks across Queensland	We have reviewed policies and processes and undertaken walkthroughs. Testing will be finalised during the year-end visit.

3. Key financial audit milestones

The following table details the current status of key financial reporting and audit deliverable milestones for your entity as at 30 June 2024.

Planning	Agreed date	Completed date	
Planning visit	17 – 19 April 2024	17 – 19 April 2024	●
External audit plan issued to client	29 May 2024	29 May 2024	●
Interim			
Interim testing visit	10 – 14 June 2024	10 – 14 June 2024	●
Interim report outlining preliminary audit findings issued to client	28 June 2024	8 August 2024	●
Accounting papers on known accounting issues due to audit	10 June 2024	Outstanding	●

Asset valuations reviewed by audit	14 June 2024	Outstanding	●

Final			
Year-end visit	16 – 20 September 2024	Not yet due	●
Complete draft financial statements to audit	26 August 2024	Not yet due	●
Feedback on draft financial statements to client	5 September 2024	Not yet due	●
QAO closing report summarising the audit findings issued to client	3 October 2024	Not yet due	●
Council clearance	10 October 2024	Not yet due	●
Financial statements signed by management	11 October 2024	Not yet due	●
Audit report including our audit opinion issued to the client	14 October 2024	Not yet due	●
Final management report outlining the final audit findings issued to the client	14 October 2024	Not yet due	●

Note: [Audit visit](#) | [Council deadline](#) | [QAO deadline](#)

● Completed | ● On track | ● Behind schedule

4. Update on new reports and resources

We present to you our update on reports and resources, as at 30 June 2024. It provides an overview of the information relevant to your entity, including learnings from our tabled reports to parliament, newly published resources such as our blog articles and fact sheets, and an update on our audits that are in progress.

Forward work plan

QAO's forward work plan for 2024–27 is now available. Our plan provides our expected audit activity for the next 3 years in response to the strategic risks facing public sector entities and local governments. Our upcoming audits cover a broad range of government services. Auditing the right matters at the right time is key for ensuring we add value for the entities we engage with, and to ensure our work drives positive change. Our plan includes 6 focus areas for the coming year:

- Technology risk and opportunities
- Sustainable communities and environment
- Governance of government
- Healthy and safe Queenslanders
- Infrastructure investment
- Economic risk and response.

We also provide an acquittal with the plan outlining any changes to the topics, timing, or audit scope from the previous year's plan.

Read the full plan at [Forward work plan 2024–27](#). Topics that may be of interest to you are in the table below.

Tabling year	Audit
2024–25	Reducing landfill waste This audit will assess the effectiveness of state government strategies for reducing landfill waste. This will include assessing: • how effective local governments are in implementing the state government’s strategies • how effective the state government is in assisting local governments to manage waste to achieve relevant targets.
2025–26	Managing third party cyber security risks This audit will examine how effectively public sector entities: • identify third parties who have access to their data and network • assess the security vulnerabilities the entity is exposed to through third parties • establish relevant controls to manage third party cyber security risks • minimise the impact of third-party security breaches. Mitigating risk from future floods Flooding causes more damage in Queensland than any other natural disaster. The estimated social, financial, and economic cost to Queensland of the 2022 floods was \$7.7 billion. This audit will assess how the government is planning and preparing for future floods by mitigating the risk associated with these events. Enhancing sustainability of local governments This audit will be the fifth in a series of local government sustainability audits that we have undertaken. It will examine the sector’s progress in meeting its sustainability challenges. It will assess how effectively the sector has acted to address previous QAO findings and recommendations.
2026–27	Managing volunteer services This audit will assess whether the government is effectively managing its volunteer workforce (for example, the Rural Fire Service and State Emergency Service). The audit may consider issues such as workforce attraction and retention. Planning for liveable communities This audit will assess how the Queensland Government’s planning framework supports economic growth and development and liveability. We will also examine how effectively the state and local governments collaborate and coordinate their long-term plans to provide the services needed to support Queensland’s growing population.

QAO overview for local government

Following the recent local government elections we have sent all councillors an information sheet providing an overview of our role which covers our services and some recent resources relevant to the local government sector. A copy of the overview document is attached.

Relevant reports in progress

The below reports to parliament are currently underway and may be of further interest to you.

Title	Audit status
Managing Queensland’s regional water quality	This audit will assess how effectively state and local government entities ensure communities can access safe water. This audit is in the reporting phase. Expected tabling: August 2024
Effectiveness of local government audit committees	Following our report <i>Effectiveness of audit committees in state government entities</i> (Report 2: 2020-21), this audit will provide insights into the effectiveness of audit committees at local governments.

Title	Audit status
	The audit is in the conduct phase. Expected tabling: September 2024

Recently tabled reports to parliament

Since your last meeting, we have tabled the below reports to parliament. For more information on any of these reports, please see our website: www.qao.qld.gov.au/reports-resources/reports-parliament.

Report	Summary
Reducing serious youth crime Report 15: 2023–24 Tabled 28 June 2024	Youth crime is complex and has been a growing public concern in recent years. It can have significant impacts – physical, emotional, psychological, and economical – for victims and the wider community. Most young offenders only commit a small number of offences and are diverted away from the youth justice system. However, a small proportion reoffend and commit serious offences. As the underlying causes of youth crime are multi-faceted, effectively addressing the problem requires a whole-of-system approach. This report assesses whether youth justice strategies and programs are effective in reducing crime by serious repeat offenders and improving community safety: www.qao.qld.gov.au/reports-resources/reports-parliament/reducing-serious-youth-crime Wider learnings Multi-agency delivery and coordination Delivering government initiatives in a multi-agency operating model is inherently challenging. Entities typically have their own mandates, objectives, and leadership structures. To be successful, entities need clearly defined strategies, roles, and responsibilities, with coordination and oversight requiring effective cross-entity governance. Entities should commit to these models while ensuring a focus on both entity level and multi-entity strategies. They must be open to sharing information and collaborating, while maintaining focus on joint outcomes. Procurement and contract management practices Entities should base procurement decisions on sound needs and analysis. To achieve value for money, they should be regularly testing the market. They should sufficiently maintain documentation to help support their analysis and decisions. When engaging contractors, they need to include sufficient performance measures and targets within contracts, with a focus on both outputs and outcomes. Monitoring and evaluating the effectiveness of strategies and programs Entities should continuously evaluate the effectiveness of their strategies and programs. This must be informed by: - the design and monitoring of clear and measurable performance indicators - regular, ongoing monitoring, evaluation and reporting. It is crucial they have systems and processes in place to capture necessary data. Informed analysis, and measuring performance, can improve decision making. It also enables entities to adapt their strategies to changing circumstances.
Queensland's regions 2023 Report 14: 2023–24 Tabled 13 June 2024	Queensland is the second largest state in Australia and has the most people living outside greater capital city areas. Queensland's regions (referring to all areas outside Greater Brisbane) cover around 99 per cent of the state. It ranges from coastal cities, like the Gold Coast, through to the Far North, to more remote outback areas. Our regions are home to diverse regional economies and environments, reflected in significant industries like mining, manufacturing, agriculture, and tourism. This report brings together insights from our financial audits across entities, and analyses data on state and local government service delivery and support to the state's regions: www.qao.qld.gov.au/reports-resources/reports-parliament/queenslands-regions-2023 Wider learnings

Report	Summary
	• Entities may need to adapt their plans and services to accommodate changing community needs. • Having useful data is important for measuring the success of policy initiatives. Without it, entities cannot accurately track their progress against objectives. • Entities across government must work together to effectively deliver initiatives, including working across internal boundaries, having clear roles and responsibilities for each entity, and implementing appropriate governance arrangements. Entities may need to contribute some of their own resources to achieve a common goal.
Responding to and recovering from cyber attacks Report 12: 2023–24 Tabled 4 June 2024	The nature, frequency, and severity of cyber attacks continues to grow and evolve. Public sector and local government entities, regardless of size or location, are a target because of what they do and the type of information they hold. Cyber incidents may compromise entities' information systems and business operations –significantly disrupting the delivery of critical public services. This can have long-lasting economic and social impacts. All entities need to proactively manage their cyber security risks, identify vulnerabilities, and ensure they can respond to an incident. This report discusses how prepared public sector entities are to respond to and recover from cyber security incidents. We examined 2 lead entities and their role in guiding cyber security across the Queensland Government, and 3 other entities with differing levels of resourcing and capability for managing cyber incidents: www.qao.qld.gov.au/reports-resources/reports-parliament/responding-recovering-cyber-attacks We have published 2 better practice guides. Our checklist of key questions for those charged with governance (executive management, boards, and councillors) to consider when planning how they respond to and recover from cyber security incidents: www.qao.qld.gov.au/reports-resources/better-practice/cyber-response-recovery-governance-checklist. And a checklist for entities to map where they do or do not hold cyber capabilities: www.qao.qld.gov.au/reports-resources/better-practice/role-capability-checklist-cyber-attack-response-recovery. Wider learnings Take a business-led approach to cyber incident response Responding to a cyber attack requires a coordinated approach across the business. It is not simply a technical exercise. This 'business-led approach' focuses on the broader organisational impacts of a cyber incident rather than just the technical cyber and systems elements. Entities should bring key stakeholders such as legal, communications, and operational areas in with management and technical teams to coordinate the response. Periodically test preparedness Entities need to test their preparedness for managing and responding to cyber attacks. Just having plans in place is not sufficient. Testing these plans through exercises such as cyber simulations: • provides entities with valuable feedback on how they are managing risks and identifying vulnerabilities, and helps them identify any areas requiring improvement • gives key personnel experience in managing these incidents in a safe environment. Take ownership of third-party cyber-related risks Those charged with governance at public sector entities and local governments need to understand and be accountable for all of their cyber risks. Most entities have arrangements in place with third-party providers, which includes access to systems and to expertise and resources. Entities must understand risks that arise under these arrangements and be accountable for managing them. Collaborate and share learnings Most entities face similar cyber risks and use similar products, networks, hardware, systems, and applications. As such, it is critical that entities proactively share their knowledge and lessons learned, and collaborate to improve their preparedness. All entities should take part in central communities of practice and forums available to them, such as those the Queensland Government Cyber Security Unit leads.

Evolve alongside changing cyber risks

The changing nature of technology means that cyber security threats evolve rapidly. The development of new technologies, such as artificial intelligence and machine-learning, compounds this. Entities need to continually revisit and refresh their plans and risk assessments to ensure they are prepared for a cyber attack.

Recommendations for all entities

We made a series of detailed recommendations to all entities. In summary, we recommended that all entities:

1. protect their systems and sensitive information
2. formally recognise in key governance documents that responsibility for cyber security rests with the chief executive, or equivalent
3. improve and test incident response plans
4. improve their crisis communication plans and templates
5. gain access to the technical skills required to respond to and recover from cyber incidents
6. share cyber threat intelligence and lessons learnt with the Queensland Government cyber security unit (CSU) and other public sector entities as quickly as possible.

We also recommended that local governments document their assessment on whether IS18:2018 is appropriate to their environments, and if not, which frameworks are being applied to manage information security risks.

The full recommendations are in our report. The council should assess these recommendations and action any that apply to them.

Podcast – Cyber risk: what do we do now?

Alongside our recent report, *Responding to and recovering from cyber attacks (Report 12: 2023–24)*, we published a new podcast that shares some interesting findings and important recommendations from our report, as well as insights from our work over the years on cyber security.

Listen in as 2 of QAO's senior directors and the Queensland Government's Cyber Security Unit chat about what chief executives need to consider, including risk management, controls, and what to do if you experience a cyber attack: www.qao.qld.gov.au/reports-resources/podcasts.

You can also view and download a range of resources related to cyber security from our website, including reports to parliament, blogs and better practice guidance: www.qao.qld.gov.au/reports-resources

Insights from other jurisdictions: Cyber security in local government

Background

Similar to the QAO, the Audit Office of New South Wales (NSW AO) reports to parliament over the years have highlighted gaps in councils' cyber security risk management approaches since 2019.

Their Local Government 2023 report, tabled in March 2024, found that 50 councils were yet to implement cyber security governance frameworks and related internal controls.

In a recently published report on cyber security in local government, the NSW AO undertook a deep dive into 3 councils and assessed how effectively they identified and managed cyber security risks.

Findings in this report that relate to councils

1. Ineffective identification and managing of cyber risk

- Risk management processes did not identify and manage cyber risk.
- Governance arrangements in managing and reporting cyber security risks were ineffective.
- Value of the information assets and systems were not assessed to inform the risk councils are exposed to.
- Policies and procedures to manage cyber risk were ineffective and there were no plans to improve their cyber security.

- There is no clear and consistent approach to monitoring the effectiveness of controls to mitigate identified cyber security risks.
- 2. Lack of up-to-date plans and processes to support effective detection, response, and recovery from cyber security incidents**
- Lack of cyber incident response plans to ensure an effective response to and prompt recovery from cyber incidents.
 - Out-of-date business continuity and disaster recovery planning.
 - No clearly defined roles and responsibilities for detecting, responding to, and recovering from cyber incidents.
 - No register of cyber incidents was maintained to record information about the sources and types of incidents experienced and relevant responses, to support post-incident evaluation.

Recommendations to New South Wales councils in this report

- Integrate the assessment and monitoring of cyber security risks into corporate governance processes.
- Complete a self-assessment against the foundational requirements in the *Cyber Security Guidelines – Local Government* and report the results to audit committees.
- Implement a plan and program to improve cyber security.
- Develop, implement, and test a cyber incident response plan.

What can Queensland councils take away from this report?

1. Undertake a self-assessment of your council's practices against the [NSW's Cyber Security Guidelines – Local Government](#) to identify any improvement opportunities.
2. Discuss the results of the self-assessment with your audit committees and elected members.

Advice on setting your risk appetite 19 June 2024	Risk appetite is an ever-evolving aspect of an organisation. It's rarely a set and forget exercise, and should be revisited regularly. Organisations can use it to drive decision-making, understand the extent of controls needed to manage risks, and assess how to take advantage of opportunities. The second blog in our risk series outlines how to set and monitor your risk appetite: www.qao.qld.gov.au/blog/advice-setting-your-risk-appetite
How do you maintain your buildings when funding and labour supply is limited? 17 June 2024	Building asset maintenance is a key pillar of public service delivery. Failure to maintain assets can lead to public dissatisfaction, cost increases, and poor asset information. Reporting on asset maintenance can also be challenging when entities' have limited funding, and the cost of labour and supplies have increased due to inflation and supply chain limitations. This blog provides advice to help maintain your entity's building assets when there is limited funding and labour supply: www.qao.qld.gov.au/blog/how-do-you-maintain-your-buildings-when-funding-labour-supply-limited
Eight steps to consider for a systems approach to asset management 8 May 2024	In Queensland, public sector entities and local governments own and operate over \$500 billion in assets. A systems approach to asset management can help organisations identify, assess, and make better decisions about their assets. This blog provides an 8-step approach to effective asset management. These steps can assist organisations overcome various challenges and complexities, provide for greater efficiencies, and support a more strategic use of resources: www.qao.qld.gov.au/blog/eight-steps-consider-systems-approach-asset-management

Published	About
Managing risks associated with third-party providers 16 April 2024	Using other organisations (third parties) to provide information technology services can offer a range of benefits. However, there have been several high-profile attacks on third-party systems that have impacted public sector entities in recent years. As more state and local government entities start using third-party providers, it's important they understand and manage the risks this brings. This blog highlights why entities need to consider third-party providers in their risk management practices, and questions those charged with governance should ask: www.qao.qld.gov.au/blog/managing-risks-associated-third-party-providers

Upcoming QAO events

Briefing for audit committee chairs

QAO briefs the chairs of public sector and local government audit committees twice each year. The next briefing is on 3 December 2024. Invitations will be sent in August 2024.

The most recent briefing was held on 1 May 2024 and covered how we are preparing for climate reporting, the status of Auditor-General's recommendations, QAO's forward work plan, risks to consider in an election year, and insights from QAO.

Client technical audit update

The most recent update was held on 21 February 2024 and covered Queensland Treasury and QAO providing an update on auditing and accounting standards, managing change and internal controls, how QAO is preparing to audit climate reporting, and key learnings from reports and upcoming audits. Tourism and Events Queensland also presented on system implementation from a client's perspective.

2024 INTERIM REPORT

Diamantina Shire Council

8 August 2024

Councillor Francis Murray
Mayor
Diamantina Shire Council

Dear Councillor Murray

2024 Interim report

We present our interim report for Diamantina Shire Council for the financial year ending 30 June 2024. This report details the results of our interim work performed to 30 June 2024. Under section 213 of the Local Government Regulation 2012, you must present a copy of this report at your council's next ordinary meeting.

Results of our interim audit

In this phase, we assessed the design and implementation of your internal controls relevant to the financial report, and whether they are operating effectively. We assessed the key controls we intend to rely on in auditing your financial statements. Our audit does not assess all controls that management has implemented across the organisation.

Deficiencies:

- 0 raised in the current year
- 4 unresolved from prior years

Financial reporting matters:

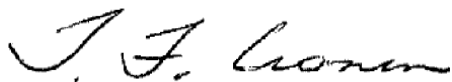

- 0 raised in the current year
- 2 unresolved from prior years

Based on the results of our testing completed to date and the resolution of prior year issues, we have determined your internal control environment does not support an audit strategy where we can rely upon your entity's controls.

Refer to section 1 for further details.

If you have any questions or would like to discuss the audit report, please contact me on 0421 056 478.

Yours sincerely

Timothy Cronin
Partner, PKF Brisbane Audit

Enc.

cc. Scott Mason, Interim CEO, Diamantina Shire Council

1. Status of issues

Internal control issues

The following table identifies the number of deficiencies in internal controls and other matters we have identified. Refer to section 2 *Matters previously reported* for the status of previously raised issues.

Year and status	Significant deficiencies	Deficiencies	Other matters*
Current year issues	-	-	-
Prior year issues – unresolved	-	4	-
Total issues	-	4	-

Note: *Queensland Audit Office only tracks resolution of other matters where management has committed to implementing action.

Financial reporting issues

This table identifies the number of financial reporting issues we raised. Refer to section 2 *Matters previously reported* for the status of previously raised financial reporting issues.

Year and status	High risk	Medium risk	Low risk
Current year issues	-	-	-
Prior year issues – unresolved	1	1	-
Total	1	1	-

2. Matters previously reported

The following table summarises the status of deficiencies, financial reporting issues, and other matters previously reported to you.

Ref.	Rating	Issue	Status
23IR-1		Inventory count procedures not documented Cyclical inventory counts not performed on a regular basis since June 2022	Work in progress Council is in the process of rolling out a financial turnaround strategy Responsible officer: Lorelle Hatch Original Action Date: 31 March 2024 Revised Action date: 31 August 2024
23IR-2		No approved Internal Audit Charter Council did not have an approved Internal Audit Charter	Resolved
23IR-3		Missing superannuation guarantee payments in employee's fortnightly pay Employees' details were not correctly entered in Synergy Soft resulting in incorrect superannuation guarantee charge.	Work in progress Council is in the process of rolling out a financial turnaround strategy Responsible officer: Lorelle Hatch Original Action Date: 31 March 2024 Revised Action date: 31 August 2024

Ref.	Rating	Issue	Status
23IR-4		Details of contracts awarded over \$200,000 not updated on the Council's website Details of significant contracts over \$200,000 were last updated in April 2022.	Resolved
23CR-1		Preparation for external audit, including working papers Working papers for final audit were not prepared and provided to QAO on a timely basis	Work in progress Council is in the process of rolling out a financial turnaround strategy Responsible officer: Lorelle Hatch Original Action Date: 30 June 2024 Revised Action date: 31 August 2024
23CR-2		Reconciliation of rates to unimproved ;land valuation report from Valuer General No evidence of rates being reconciled to unimproved land valuation report issued by Valuer General	Work in progress Council is in the process of rolling out a financial turnaround strategy Responsible officer: Lorelle Hatch Original Action Date: 30 June 2024 Revised Action date: 31 August 2024
23CR-3		Councillor Remuneration Council did not perform a reconciliation of Councillor remuneration as at 30 June 2023. Overpayments were made to Councillor in FY 2023	Resolved
23FR-1		Contract Assets – Prior Period Error/Current Year Error Reconciliation of contract assets not complete resulting in a prior period error of \$2,140,905.	Work in progress Council is in the process of rolling out a financial turnaround strategy Responsible officer: Lorelle Hatch Original Action Date: 30 June 2024 Revised Action date: 31 August 2024
23FR-2		Contract Assets - LRCI Full reconciliation of LRCI for past three years identified that the first LRCI Report incorrectly stated Council had received 100% of the grant funding of \$453,393 when in fact only 50% of funding had been received.	Work in progress Council is in the process of rolling out a financial turnaround strategy Responsible officer: Original Action Date: 30 June 2024 Original Action Date: 30 June 2024 Revised Action date: 31 August 2024

QAO / PKF 2024 Interim Report and 2024 Audit Committee Briefing Paper.

On behalf of the QAO PKF conducted the interim audit 11th – 13th June. As feedback following that visit the attached 2024 Interim Report and 2024 Audit Committee Briefing Paper were issued.

2024 Interim Report – Key Points

Matters previously reported and current update

Issue: Inventory count procedures not documented

Status: A draft stock take procedure has been prepared and we will run through with Stores on our next onsite visit.

Issue: No approved Internal Audit Charter

Status: Resolved and Audit Committee established.

Issue: Missing superannuation guarantee payments in employee's fortnightly pay

Status: Advised this has been resolved.

Issue: Details of contracts awarded over \$200,000 not updated on Council website

Status: Resolved and since been added to website.

Issue: Preparation for external audit, including working papers

Status: A full electronic audit file is being prepared and will be provided prior to audit. The file will include supporting workpapers for all key financial statement balances.

Issue: Reconciliation of rates to unimproved land valuation report from Valuer General

Status: A reconciliation has been done as at 1 July 2024. There is a variance of \$59,000 involving four properties that need to be reviewed.

Issue: Councilor Remuneration reconciliation

Status: Resolved and for current term now reconciled monthly to payroll records

Issue: Contract Assets – Prior Period Error / Current Year Error

Status: This is a significant balance in the financial statements and all balances raised will be fully reviewed supporting documentation. Any queries in relation to these balances will be discussed with PKF.

Issue: Contract Assets - LRCI

Status: A full reconciliation of all LRCI funding has been performed and Phase 1, Phase 2, Phase 3 annual Reports for 2021 to 2023 resubmitted to PKF for audit mid July. Annual reports for 2024 are in the process of being prepared.

2024 Audit Committee Briefing Paper – Key Points

Key Milestones

3 June 2024 – Pro Forma financial statements due

Status: Noted as outstanding in report.

Update: PKF have been advised that Pro Forma financial statements were submitted through Caseware platform on 10 June – no feedback received to date.

7 June 2024 – Asset valuations due

Status: Noted as outstanding in report

Update: PKF have been advised that a Position Paper on the asset valuations was submitted 8 June 2024 indicating a desktop revaluation was being undertaken at 30 June 2024 using ABS Producer Price Index for the June quarter. This was discussed at the time that we could not provide valuations at 7 June when the June quarter index was not due out till 2nd August – no feedback received to date.

10 June 2024 – Accounting papers on known accounting issues due to audit.

Status: Noted as outstanding in report

Update: PKF advised that a Position Papers on Contract Assets & Liabilities and Valuation of Infrastructure Assets were submitted 8 June 2024 – no feedback received to date.

DIAMANTINA SHIRE COUNCIL

30TH JUNE 2024 STOCK TAKE WRITE-OFF IMPACT

BACKGROUND:

An annual stock take is required to be performed as of 30 June and any required adjustments are to be processed in accordance with the relevant accounting standards. This report briefing is to report to council the financial impact of this process being reduction of \$379,383.57 in stores value as at 30 June 2024.

ISSUES IDENTIFIED:

During the end of the financial year stores clean up and stock take process several issues were identified which had an impact of the amount processed to the Stores & Purchasing Write-offs/Adjustments general ledger account. These issues included but not limited to the following:

- The stores Stock Cost File report having many historical transactions that had not been cleared out for a number of years.
- Store codes being duplicated with transactions but no stock location
- Errors in stock counts entered for FY 2022/23.
- Large volume of inactive/obsolete stock items currently in the stock valuation.
- Some stock items being unable to be located during the stock count process.

IMPACT:

1. The Stock Cost File report should only contain current transactions for which a stock receipt has been processed or a creditor payment has been made for stock items that have not yet had the stock receipt processed. The system automatically removes matched transactions from the report as they are processed. However, if the two transactions do not accurately match, they will continue to report until a manual process is performed to match the transactions off. These transactions impact the average unit cost of the associated store items and stock on hand quantities. As part of the 23/24 stores clean-up project a large number of adjustments for historical transactions were manually processed in the system. ***The total value of these adjustments was \$121,994.20.***

2. As part of the stock take process a number of store items were identified as having incorrect stock counts applied previously particularly for duplicated store codes with no stock location. Below is a list of store items that as a result of the 23/24 stock count being applied resulted in stock write-off adjustments of greater than \$10,000. The total of these adjustments is \$233,682.06:

- **S3541 Post Guide – Steel Flexible 1400mm White D2 Red/White write off 884 units (\$22,628.92)**
No obvious reason for adjustment.
Similar dollar value adjustment at 30 June 2023. Potentially processing issue.
- **S3428 Plumbing – Plasson Tee No. 7040 32mm write off of 4,440 units (\$105,405.60)**
Processing error 30/6/23
30/6/23 Stocktake adjustment to add 4440 units with valuation of \$105,405.60.
30/6/24 Stocktake adjustment to remove 4440 units with valuation of \$105,405.60
- **S3674 Oil – CAT DEO – ULS 15W40 208L write off of 7 units (\$12,839.94)**
No obvious reason for adjustment.
Similar dollar value adjustment at 30 June 2023. Potentially processing issue.
- **S1043 Irrigation – Elbow 19mm x 20mm write off of 521 units (\$16,221.85)**
Historic balance
Last issue 1 unit 15/7/2020. No adjustments on previous stocktakes.
Packs of 25 with 521 on hand. Possibly original quantity entered as individual items rather than boxes.
- **S1785 Cleaning – Soap Azure Foaming 1 Litre Pod write off of 223 units (\$25,177.61)**
Duplicate stock code with no location
Possibly receival quantity entered as individual items rather than boxes.
- **S2263 Tyre – 11R22-5 Double Coin RLB1 (Drive Tyre) write off of 15 units (\$15,478.92)**
Historic balance bought on in 2018. No stocktake adjustments have every been done so not possible to determine when or how the variance has arisen.
- **S2420 Cement Powder – Bulk Tank write off of 38.13 units (\$19,551.53)**
Historic balance bought on in 2018. Multiple stock codes. No stocktake adjustments have every been done so not possible to determine when or how the variance has arisen.
- **S2487 Cutting Edge – CAT 7D1158 – 140M & 150M write off if 71 units (\$16,377.69)**
Historic balance bought on in 2018. Last stocktake adjustment 31/5/2018 so not possible to determine when or how the variance has arisen.

3. There are currently a large number of store items with stock values in the Stores system that are marked as Inactive or Obsolete. ***The value of these items is \$148,616.72.***

The values of points 1 and 2 above total \$355,676.26 of the total adjustment amount of \$379,383.57. The Inactive items totalling \$148,616.72 currently remain in the stock system.

RECOMMENDATIONS:

1. That the stock adjustment amount of \$379,383.57 be approved for write off.
2. That the Stock Cost File report be reviewed and required adjustments processed monthly and signed off on by management.
3. That the stock valuation report be run monthly and reviewed. In particular, the average unit cost be reviewed for obvious anomalies.
4. That Locations be established in Stock system to allow small periodic stocktakes to be performed throughout the year. This will ensure that count variances and discrepancies are identified and rectified on a timely basis.
5. That inactive/obsolete store items be removed from the system and either offered for sale or disposed of.
6. That the Unused Stock Report be used periodically to identify stock items that have not been moved after a specific date. This report could be used to identify store items that need to be removed from the system and potentially be offered for sale.

FINANCIAL TURNAROUND STRATEGY UPDATE 10 September 2024

Since last update to 13th August the following are the significant updates:

Budgets

- Amended June 2024 budget into Synergy can't be done automatically. Each amended budget amount needs to be manually updated into Synergy. Approximately 520 budget amounts to be updated.

Plant

- Plant rates recalculated and agreed with TMR
- Updated DSC rates entered into Synergy
- GBA working on updating claims based on new rates

Assets

- Review of confirmed plant list to Synergy plant commenced
- Review of confirmed plant list to Synergy assets commenced
- Journals processed to reconcile asset registers to general ledger balances at 30/6/24

Financial Statements

- Synergy Trial balance was out of balance at 30/6/24 and 31/7/24. This has now been resolved.
- Review of all balances commenced. For a number of balances this requires review and reconciliation of balances carried forward from prior years.

Sundry

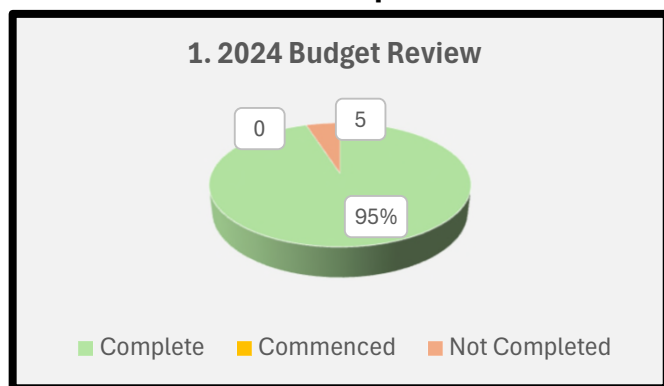

- Rates reconciliation of VG unimproved value to Synergy records

Focus for the next month will be:

- Getting plant data 2024 updated data back into Synergy. Approximately 18,500-line entries which will be done by excel journal template in batch of 500 lines.
- Getting plant data for July & August into Synergy.
- Commence processing plant timesheets into Synergy from 1 September
- Reconciliation of plant list to Synergy Plant & Asset Registers
- Preparation of the year-end financial statements
- In consultation with DCS & FM develop a clear checklist of process and responsibilities to ensure reliable financial reports and generated monthly.

FINANCIAL TURNAROUND STRATEGY UPDATE 8TH JULY 2024

10-Sep-24

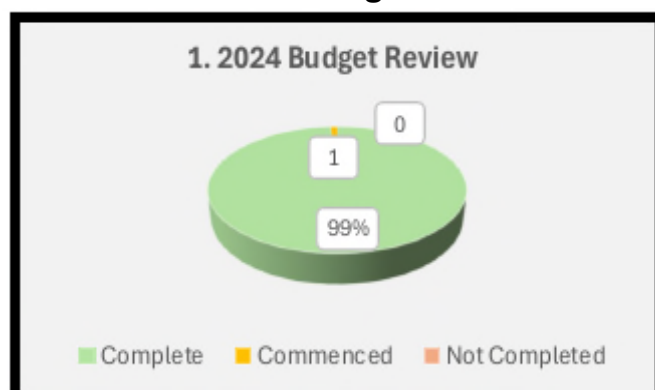

Main Areas to be Completed

New Projects added

Input 23/24 budget to Synergy needs to be manually keyed

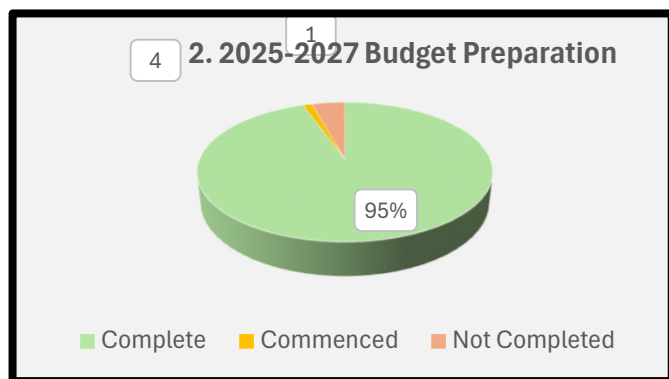

13-Aug-24

Progressed / Completed

Input 23/24 budget to Synergy - Team Meeting with
Itvision unable to resolve

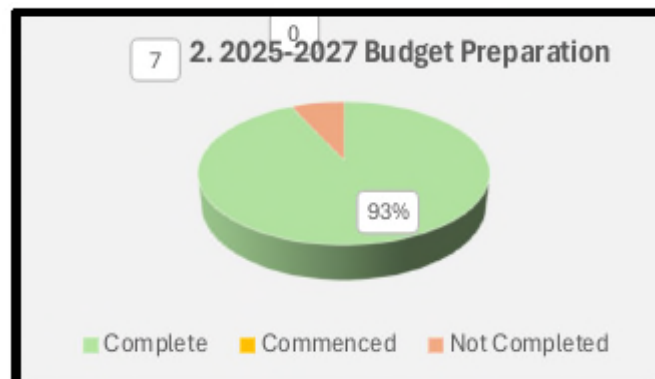

10-Sep-24

Main Areas to be Completed

Document inclusive Budget process - hold over
until new budget document developed
Training in use of Bottom up Budget doc

13-Aug-24

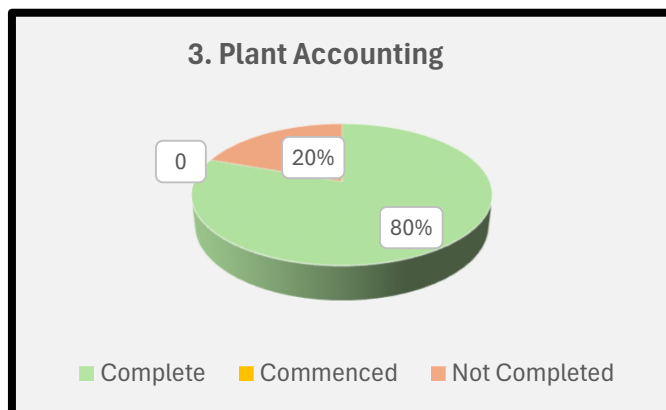

Progressed / Completed

Bottom up budget document to staff / GBA
Input 24/25 Budget to Synergy

FINANCIAL TURNAROUND STRATEGY UPDATE 8TH JULY 2024

10-Sep-24

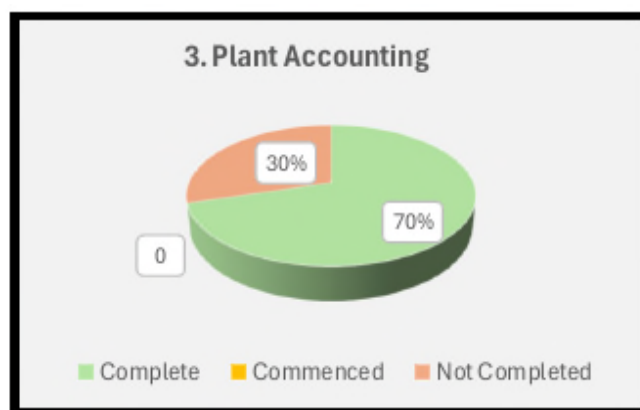

Main Areas to be Completed

Input updated plant hire data from 1/7/23 into Synergy - input work Upload new -DSC rates schedule to Synergy
 Prep of camps, water pumps, gen sets, FP< to book out
 Implement process for pro active servicing
 Reconcile between new plant list and Synergy
 Reconcile between new plant list asset register
 Portable & Attractive items register

New Projects added

Resubmit claims & new claim based on new plant data

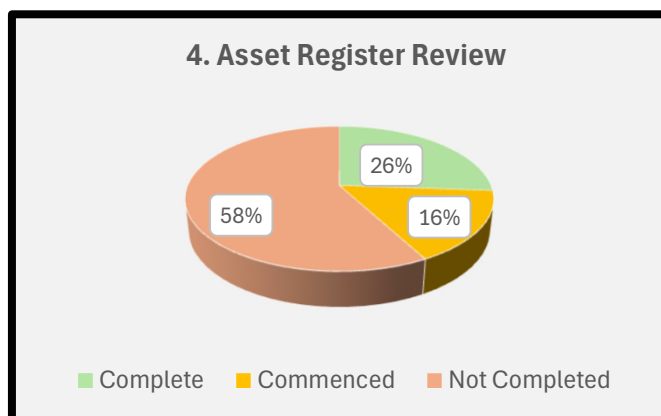

13-Aug-24

Progressed / Completed

Plant rates recalculated and agreed with TMR

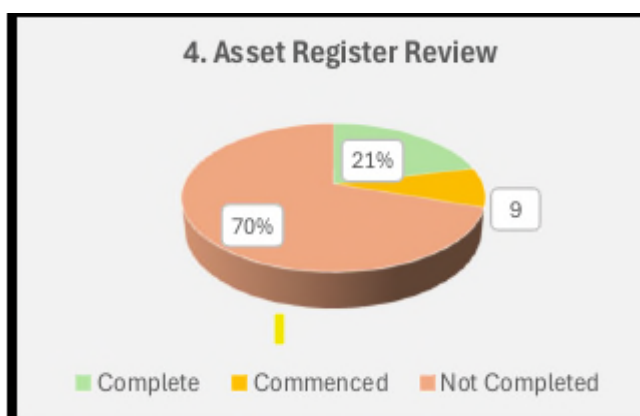

10-Sep-24

Main Areas to be Completed

Full Asset register review
 Capitalisation of completed WIP projects
 Desktop Revaluations
 SGFA Ownership % - 13 x public house
 Insurance values reconciliation to asset register

13-Aug-24

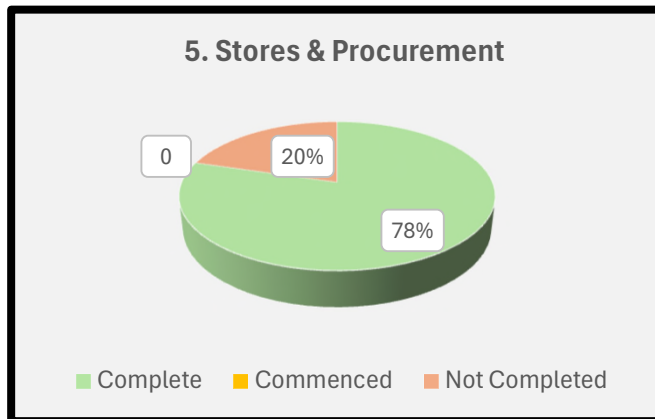

Progressed / Completed

Reconciliation of opening balances
 Full Asset register review commenced

FINANCIAL TURNAROUND STRATEGY UPDATE 8TH JULY 2024

10-Sep-24

Main Areas to be Completed

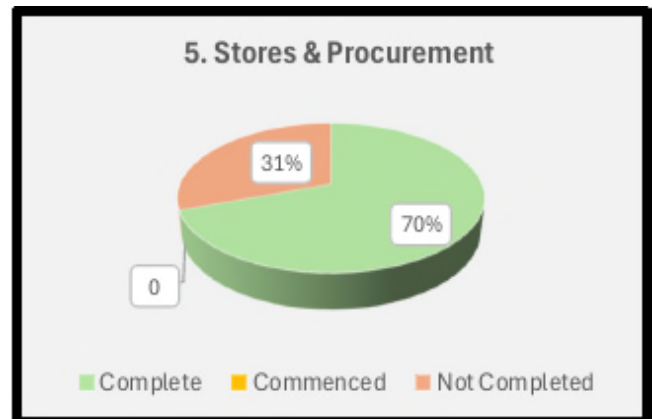

Stores

Full Stock system review
 Fuel Controls
 Implement recommendations LGSG Plant overhaul
 Review & develop procedure for stock receivals
 Develop & Document procedure for stocktake

Procurement

Review procurement policy inc local pref. parameters
 Rationalisation of stock capacity in favour of
 potentially supporting local business if economical
 Implementation of purchasing cards
 Review of requisiting processes
 Review of outstanding purchase orders
 Purchasing Policy Training

13-Aug-24

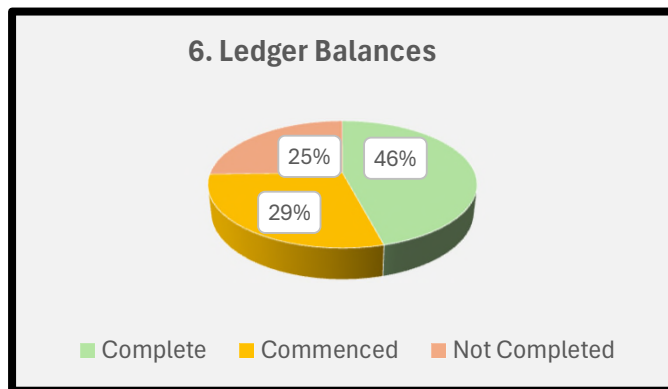

Progressed / Completed

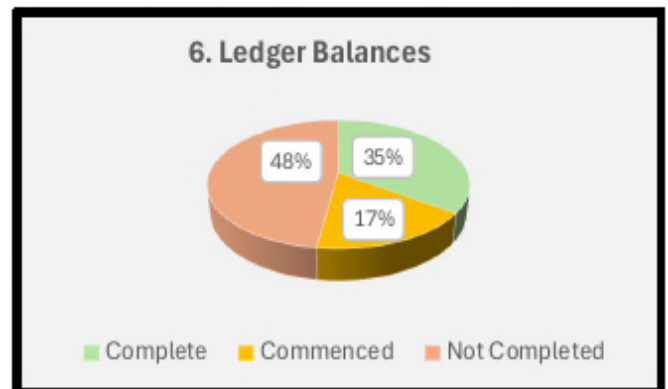

Reconciliation of Stores balances to general ledger
 Clean up of inventory cost file

FINANCIAL TURNAROUND STRATEGY UPDATE 8TH JULY 2024

10-Sep-24

13-Aug-24

Main Areas to be Completed

Funding

Debtors - Review of old invoices

Trust - Review of old balances

Payroll rec payroll system to general ledger each pay period

Payroll - ensure clearing accounts reconcile each pay period.

Financials - review of all balances identified needing correction.

Progressed / Completed

Contract assets & liabilities accounting and reporting

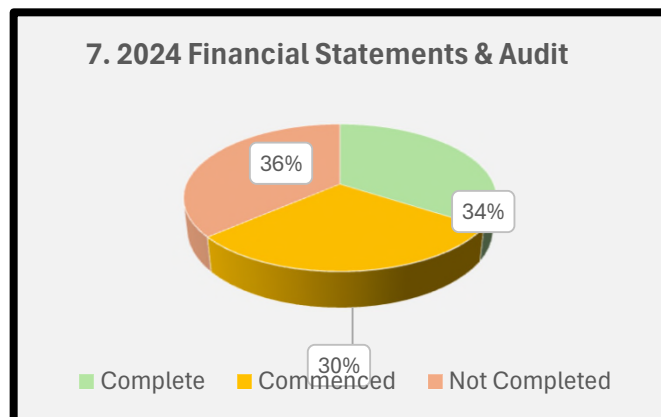

Reconciliation of all funding accounts

Trust - Reconciliation of balance

New Projects added

Clear all outstanding entries in bank rec back to 2021

10-Sep-24

13-Aug-24

**REMOVED AS AUGUST GRAPH
WAS NOT CORRECT**

Main Areas to be Completed

Financial Statements

Draft Financial Statements

Financial Statement QAO Certification

External Audit

Audit File Final

Final audit visit

Agenda Ordinary Council Meeting Monday 16 September 2024

Progressed / Completed

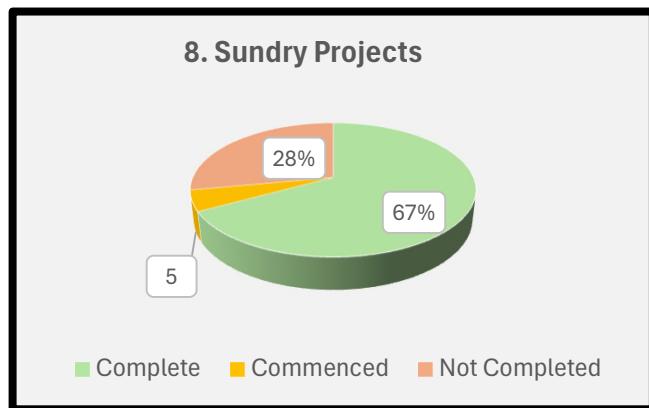

Review of all balances commenced

Audit file established

Synergy Trial Balance Reconciled

FINANCIAL TURNAROUND STRATEGY UPDATE 8TH JULY 2024

10-Sep-24

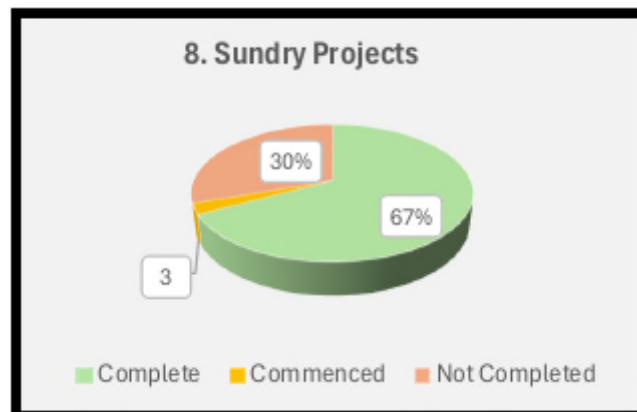

Main Areas to be Completed

Insurance - Audit of all policies
Rates - Move back into office, monthly reconciliations
SES - Review framework for funding & Support

New Projects added

Review of all services for all assessments

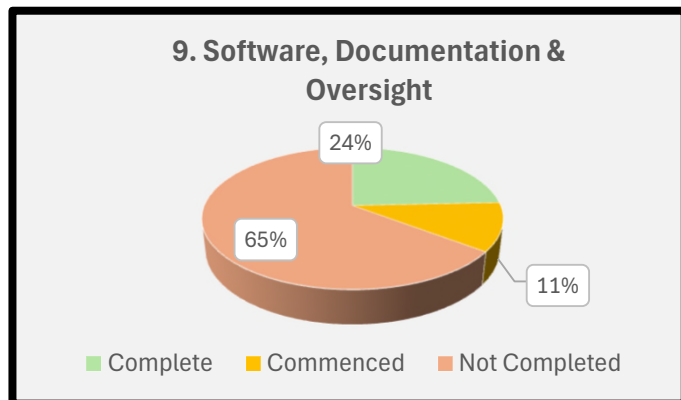

13-Aug-24

Progressed / Completed

BAS lodged up to date - ongoing
TPAR lodged with ATO
Rates reconciliation of VG unimproved value to Synergy

10-Sep-24

Main Areas to be Completed

Software
Look at alternatives to Synergy
Look at using Grants module to track progress
Review file structure & accounts (inactive, descriptions, IE codes)

Independent Review / Audit Committee

Develop review process and report to council

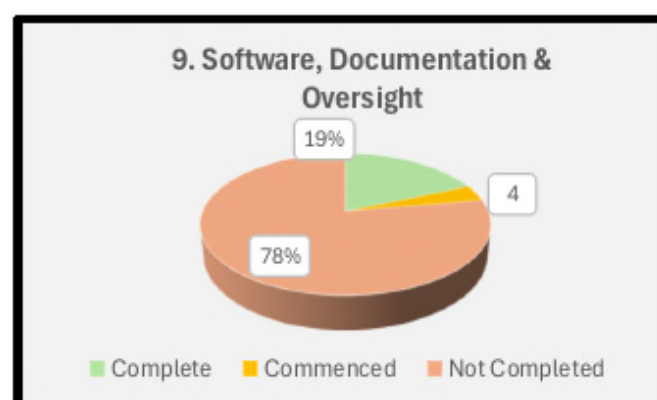

Documentation

Flowcharts
Monthly reconciliations
End of month checklist

Internal Audit Committee

Separation of Duty
Ethics Training

13-Aug-24

Progressed / Completed

First cut of monthly review checklist
Formation of Internal Audit Committee - external chairman
Findex Service proposal

12.2.2 Director Corporate Services

Sale for Council Land – 8 Pebble Court, Birdsville

DECISION REPORT

Date:	16 September 2024	Presentation Duration:
		Approx. 15 mins
To:	Ordinary Council Meeting	
Author:	Jo Fiorenza, Acting Director Corporate Services	
Authorising Officer:	Scott Mason, Interim Chief Executive Officer	
File Reference:	InfoExpert	

ATTACHMENTS

1. Offer to purchase Council owned land by Mr Hayden Bruce of Bruce Haulage Birdsville
2. Map indicating location of Lot 10, SP301774 – 8 Pebble Court, Birdsville.

PURPOSE

The purpose of this report is to apply an exemption under section 236(1)(a) of the *Local Government Regulation 2012* (the Regulation) and for Council to enter into a contract of sale for Lot 10 SP301774, 8 Pebble Court Birdsville for the purchase price of \$40,000 to Mr Hayden Bruce of Bruce Haulage Birdsville. A copy of the tender received is at Attachment 1. A copy of the map showing the location of Lot 10 SP301774 is at Attachment 2.

OFFICER RECOMMENDATION

That Council resolves:

1. To apply the exemption under section 236(1)(a) of the *Local Government Regulation* to the sale of Lot 10, SP301774, 8 Pebble Court, Birdsville sized at 5462m²; and
2. Enter into a contract of sale of this land with Bruce Haulage Birdsville for the purchase price of \$40,000.

REPORT.

Section 228 of the Regulation outlines how a local government must invite written tenders for a valuable non-current asset contract. Council's last tender process for sale of land, including Lot 10, SP301774, 8 Pebble Court, Birdsville was in March-April 2024.

Section 236(1)(a) of the Regulation allows for Council to dispose of a valuable non-current asset other than by tender or auction if the asset has previously been offered for sale by tender or auction but not sold, and is sold for more than the highest tender or auction bid that was received.

Council resolved at its 31 May 2024 Ordinary Meeting to apply the exception under section 236(1)(a) of the Regulation to those parcels of land that were not sold, refer Minute No. 2024.05.31-OM-18.

In addition to section 236(1)(a), section 236(3) of the Regulation requires that Council may only dispose of land or an interest in land if the consideration for the disposal would be equal to or more than the market value of the land.

Council has published a list of Council-owned properties for sale on its webpage. Mr Hayden Bruce of Bruce Haulage has offered to purchase Lot 10, SP301774, 8 Pebble Court, Birdsville at Council's listed price of \$40,000.

It is considered that the elements of this sale of land meet the required legislative provisions under the Regulation.

Background

It is Council's strategic direction to offer residential and industrial land for sale and promote construction in the Shire.

Discussion/Current Issue

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/ Policy/Legislation

Local Government Regulation 2012

Section 228 and section 236(1)(a) and section 236(3) of the Regulation have been outlined in this report and all elements are considered to be met to enable the execution of this contract of sale.

Policy Implications

Corporate Plan 2022-2027:

Our Community: The offer of land for sale is in alignment with Item 2.5.1 of Council's Operational Plan 2024-2025 - '*Offer residential land for sale*' and 2.5.2 '*Promote the Council housing construction subsidy scheme in the community*'. Although this parcel of land is Industrial land, it is considered to align with the desired level of development and construction within the Shire.

Our Organisation – "*Is a sustainable and effective organisation*" and follows sound contracting principles.

Council's Planning Scheme - [diamantina-shire-planning-scheme](#)

Budget/Financial/Resourcing

If sold, rates would apply to this industrial land, i.e. increase in revenue stream and potential generation of economic benefits.

Communication/Engagement

King and Company Solicitors have been assisting in this land sale process and is providing advice as relevant.

Risk Assessment

Due diligence checks have been conducted in contract document preparation. Legal advice has been sought when required.

Timings/Deadline

The Operational Plan timeframe was to offer land for sale by Q1 2024-2025. The contract of sale will include stipulated timeframes for execution.

Conflict of Interest Declaration

Nil conflicts of interest.

Human Rights Impact

Consideration of human rights has been given in all decision-making relating to this matter.

12.2.3 Director Corporate Services

Sale for Council Land - 25 Ironstone Street, Birdsville

DECISION REPORT

Date:	16 September 2024	Presentation Duration:
To:	Ordinary Council Meeting	Approx. 15 mins
Author:	Jo Fiorenza, Acting Director Corporate Services	
Authorising Officer:	Scott Mason, Interim Chief Executive Officer	
File Reference:	InfoExpert	

ATTACHMENTS

1. Offer to purchase Council owned land by Mr Alex Oswald
2. Map indicating location of Lot 19, SP107134, 25 Ironstone Street, Birdsville

PURPOSE

The purpose of this report is to apply an exemption under section 236(1)(a) of the *Local Government Regulation 2012* (the Regulation) and for Council to enter into a contract of sale for Lot 19, SP107134, 25 Ironstone Street, Birdsville for the purchase price of \$10,000 to Mr Alex Oswald. A copy of the tender received by Mr Oswald is at Attachment 1. A copy of the map showing the location of Lot 19, SP107134 is at Attachment 2.

OFFICER RECOMMENDATION

That Council resolves:

1. To apply the exemption under section 236(1)(a) of the *Local Government Regulation* to the sale of Lot 19, SP107134, 25 Ironstone Street, Birdsville sized at 1000m²; and
2. Enter into a contract of sale of this land with Mr Alex Oswald for the purchase price of \$10,000.

REPORT.

Section 228 of the Regulation outlines how a local government must invite written tenders for a valuable non-current asset contract. Council's last tender process for sale of land, including Lot 19, SP107134, 25 Ironstone Street, Birdsville was in March-April 2024.

Section 236(1)(a) of the Regulation allows for Council to dispose of a valuable non-current asset other than by tender or auction if the asset has previously been offered for sale by tender or auction but not sold, and is sold for more than the highest tender or auction bid that was received.

Council resolved at its 31 May 2024 Ordinary Meeting to apply the exception under section 236(1)(a) of the Regulation to those parcels of land that were not sold, refer Minute No. 2024.05.31-OM-18.

In addition to section 236(1)(a), section 236(3) of the Regulation requires that Council may only dispose of land or an interest in land if the consideration for the disposal would be equal to or more than the market value of the land.

Council has published a list of Council-owned properties for sale on its webpage. Mr Alex Oswald has offered to purchase Lot 19, SP107134; 25 Ironstone Street, Birdsville at Council's listed price of \$10,000.

It is considered that the elements of this sale of land meet the required legislative provisions under the Regulation.

Background

It is Council's strategic direction to offer residential and industrial land for sale and promote construction in the Shire.

Discussion/Current Issue

CONSIDERATIONS/IMPLICATIONS

Corporate/Operational Plan Reference/ Policy/Legislation

Local Government Regulation 2012

Hi Alex

I spoke to the Solicitors today. The next step is for you to complete the enclosed Tender Form and send it back to me. I can help you if you wish, just ring me on 0407 231 694. You need to note the Assessment No. A325 at the top right on the front page.

Once you send this form back to me, I have to write a report for Council's Ordinary Meeting on 16 September 2024 seeking a resolution from Council to sell this block for this price. This is the regular practice. Following a resolution, the solicitors will then proceed with executing the contract with you.

Kind regards

Lorelle Hatch

OFFICER RECOMMENDATION

That Council receive the Birdsville Races – Post Event Report and that those matters not covered by resolution be noted.

ATTACHMENTS

1. 2024 Birdsville Races - Post Event Report

OPERATIONAL UPDATE

Purpose

To provide Council with a post-event overview of the 2024 Birdsville Races, held on 6–7 September 2024, including key outcomes, challenges, and recommendations for future events. The summary of the report is as follows:

Overview

The 2024 Birdsville Races attracted approximately 3,000 attendees, marking another successful year for this iconic event. Minimal incidents were reported, and feedback from stakeholders was largely positive. Several recommendations and improvements were noted to enhance future event planning and execution.

Key points include:

- Strong communication between the Race Club and Council, with regular stakeholder meetings recommended for future events.
- A proposal to create a more vibrant festival atmosphere, with alternative entertainment options being explored.

SWOT Analysis for Birdsville Races

Strengths:

- Well-known event with a strong reputation in tourism.
- Positive relationships with both the Race Club and community stakeholders.

Weaknesses:

- Low staffing levels led to operational challenges.
- Internal communication between Council departments was not fully streamlined.

- Shuttle buses and accessible toilet/shower facilities at Tent City were identified as areas for improvement.

Opportunities:

- Promoting the event and Birdsville through a central hub in Burt Street with music and entertainment.
- Expanding the parade and growing the festival's appeal.
- Establishing an Event Control Centre for better coordination.

Threats:

- Decreasing attendance numbers pose a long-term risk.
- Adverse weather conditions could affect the event.
- Staff burnout and lack of clear processes were concerns, particularly with managing workloads and lighting issues at the oval.

Road Closures

Road closures were well-managed, with positive feedback from emergency services and the community. Some areas for improvement include:

- The need for reduced-speed signs in shard zones.
- Increasing the number of shuttle buses for better management of crowd flow during track egress and pub closing times.

Public Safety

Public safety was a top priority, particularly given the extreme heat experienced during the event. Water distribution at race track gates helped keep attendees hydrated while waiting for shuttle buses. The assistance of clinic nurses and other personnel was commendable.

Recommendations:

- Council should purchase a pallet of 250ml water bottles for future events.
- Investigate the installation of taps and misters at the race track gates for continuous water supply and cooling.

Rent-a-Tent

The Rent-a-Tent service operated smoothly, though there is room for improvement in messaging and layout. Earlier communication about available packages and designated camping areas is recommended. Premium unpowered camping options at the end of the oval should be explored for future events.

Vendors

The layout and power infrastructure for vendor areas need to be reassessed. Creating a central entertainment hub and selecting specific vendors through an EOI process will enhance the vendor experience and event appeal.

Parks, Gardens, and Tourism Team

Feedback was overwhelmingly positive regarding the cleanliness of public facilities and the helpfulness of Council staff. Visiting QPS and QAS teams commended the Council's professionalism.

General Observations:

- Additional seating near the Wirrarri Centre should be cleaned prior to events.
- Maintenance forms should be completed for event showers before and after the event.
- Additional wheelie bins are required at Rent-a-Tent areas, and skip bins on the common were effective.

Recommendations:

- Close Burt Street between Florence and Adelaide Streets for event duration to manage traffic.
- Open the vendor area for a full week with set trading times and fees.
- Review Rent-a-Tent layout and provide additional 3x3 and 6x3 marquees for shade and shelter.
- Increase shuttle bus capacity to four buses.
- Install misters and water taps at race track gates for cooling and hydration.
- Engage a Public Safety/Risk Management contractor, such as ERMS Group, for future events.

2024 Birdsville Races Report

1. Overview

The 2024 Birdsville Races was a successful event, that saw around 3,000 people in town. There were minimal incidents during this time below are a few notes and recommendations included below as well as a SWOT analysis.

- Clear lines of communication for Race Club to Council and vice versa
- Need to hold stakeholder meetings bi-monthly from October to April, then monthly from May to June, then fortnightly July and weekly in August.
- Internal meetings need to be held regularly, same pattern as above. Need to have one point of contact and 'truth' for the event from council.
- Growing the event and creating a 'festival' atmosphere in town is necessary, a proposal is being drafted, this will include alternative entertainment to Brophy's Boxing tent.

2. SWOT Analysis for Birdsville Races

Strengths Well known event Good for Tourism Relationship with Race Club strong Relationships with Community stakeholders strong	Weaknesses Low staffing levels Communication internally closed between departments Shuttle Buses Providing Accessible toilets and showers at tent city
Opportunities Promotion of Event and Town Create a Races Hub , in Burt st with music Growing Parade Create Event Control Centre	Threats Attendance numbers decreasing Weather Staff burnout Lack of processes and Chain of command Lighting on oval

3. Road Closures

- Road closures worked well, the Traffic controllers were fantastic and the feedback from the emergency services meeting was a resounding 'great job'.
- Need some sharps zone signs in town with reduced speed
- More buses needed for track egress and pub closure

2024 Birdsville Races Report

4. Public Safety

Public Safety is, as defined in the Public Safety Preservation Act 1986, “the provision of protection for members of the public in terrorist, chemical, biological, radiological or other emergencies that create or may create danger of death, injury or distress to any person, loss of or damage to any property or pollution of the environment and for related purposes”

It was discussed and arranged between Patrice (DSC) and Stephan (QPS) the weekend prior due to the extreme heat the region had been experiencing, the lack of shade at the gates and the length of time it takes to clear under public safety the Provision of additional water for Egress at Race Track and the following amount of water was purchased;

- 2 x 10ltr
- 5x 6x1.5ltr bottles
- 2 x 20x250ml bottles
- 5 pkts of small cups

This with the water coolers that were at the gates aided in keeping the race patrons hydrated whilst waiting for the shuttle buses.

The water was being handed out by all available emergency services, security, council personnel. The additional assistance from the Clinic nurses was fantastic on Saturday.

Recommendation

- DSC to purchase water for the event to be handed out, recommend purchasing a pallet of the 250ml bottles.
- Also investigate the installation of taps at the gate of the track to enable the installation of misters and continuous water.

Egress Breakdown

Egress Friday

2 buses all stops , Discovery bus roadhouse due to clutch problem

- 1615 commence slow trickle of people
- 1630 Increased rate of queueing
- 1800 que was approx. 2 bus loads of punters
- 1812 Discovery bus did last run and finished
- 1825 all patrons cleared.

Egress Saturday

2 buses all stops , Discovery bus roadhouse due to clutch problem

- 1604 Egress commenced and lines built quickly, 2 buses waiting to take first load
- General flow was better on Saturday as we had established a system for loading.
- 1809 last bus

Recommendation

- Increase to 4 buses

2024 Birdsville Races Report

- Provide shade on both inside and outside of the gates for the queueing patrons, this will not be perfect but will improve the experience.
- Engage a Public Safety / Risk Management contractor to assist with the town needs for events, ERMS Group is highly recommended <https://erms.group/>

5. Rent a tent (Same feed back as 2023)

- Layout
- Bedding packages
- Rules and area overview ie – no cars on oval, unpowered tents etc
- Rent a tent worked well, more messaging earlier about what is available.
- Sell end of oval for premium unpowered camping!, need to have staff monitor

6. Vendors

- We had 3 food vendors, 5 non food vendors, the vendors were not happy with layout (haven't been apparently for sometime)
- Racing trailer only comes in for 2 days needs to be on road side
- Need to review area layout, creating a 'hub' with entertainment for all
- Need to review power infrastructure in the area to facilitate changes to layout
- Recommend 2025 to open an EOI for vendors then pick the specific vendors for the space, this also needs to be driven by myself.

7. QLD Toilet Trucks

4 units hired, fully serviced and all consumables included.

- 2 units on oval – 1 combo block , 1 toilet and 1 shower – for Rent A Tent customers.
- 2 toilet units on the common – these were well utilized
- Need to hire accessible units – shower and toilet as there are no accessible showers or toilets available for the public if they are not staying in tourist park.

8. Security

Service delivery was excellent. Guards provided Security services from Thursday to Sunday inclusive. Security for the DSC areas is from a public safety perspective, with the inclusion of assisting with transporting patrons from the Pub back to their accommodation after closing time.

Security was engaged for DSC as follows;

Thursday – Saturday

Public Camping Area	9:30	12:00
Public Camping Area	17:00	22:00
Public Camping Area	17:00	22:00

2024 Birdsville Races Report

Public Camping Area	17:00	22:00
Town Common/Public Camping Area/Tent City	22:00	3:00
Town Common/Public Camping Area/Tent City	22:00	3:00

Sunday (reduced hours, due to large amount of patrons exiting on Sunday morning)

Public Camping Area	9:30	12:00
Public Camping Area	1200	1400

Accommodation for Contractors / Suppliers

Supplied accommodation to the below contractors/ suppliers for 2023, organized through Wirrarri Centre

Company	What supplied	Accomm Location	Nights	FOC / Paid
QPS	cabins	Caravan Park	6 nights , 2 pax	Paid
QLD Toilet Trucks	Rent A Tent	Oval	5 nights	FOC
Security	DSC House	45 Frew Street	5 nights – 12 pax	FOC

- Accommodation for suppliers / contractors should be in 1 serviceable area – ie. Depot, a sectioned off part of Caravan Park.

9. Parks and Gardens and Tourism Team

- We have had fantastic feedback on the cleanliness of the toilet facilities
- I have received lots of feedback from the visiting QPS and QAS teams on how helpful and wonderful the council team is here in Birdsville.

10. General

- Note to arrange that the Seating area in front of Wirrarri Centre be gennied prior to events.
- Maintenance Forms to be filled out prior and post for event showers, with photos
- Need to arrange additional keys to be cut for:
 - Event Showers
 - Gym
 - School pool
- Skip Bins on Common worked well, fantastic feedback from all
- More wheelie bins needed on oval for Rent a Tent

2024 Birdsville Races Report

11. Recommendations

- Close Burt Street between Florence and Adelaide streets from Monday
- Open Vendor area for the week, with a set fee and trading times (same recommendation as 2023).
- Review and work with private landowners in relation to vendors on land
- Need to have EHO in town.
- Rent a Tent - Review Layout - need work more closely with rent a tent
- Purchasing 5m Feather banners - 'Bus Stop' x4 for along the common
- 3phase 5 pin power needs to be installed in place of 20amp power
- Stakeholder meetings regularly
- DSC internal meetings regularly
- DSC to purchase water for the event to be handed out, recommend purchasing a pallet of the 250ml bottles.
- Also investigate the installation of taps at the gate of the track to enable the installation of misters and continuous water.
 - Purchasing 10 x 3x3 and 2x 6x3 marquees for events,
- Increase to 4 buses
- Provide shade on both inside and outside of the gates for the queueing patrons, this will not be perfect but will improve the experience.
- DSC to purchase water for the event to be handed out, recommend purchasing a pallet of the 250ml bottles.
- Also investigate the installation of taps at the gate of the track to enable the installation of misters and continuous water.
- Engage a Public Safety / Risk Management contractor to assist with the town needs for events, ERMS Group is highly recommended <https://erms.group/>

2024 Birdsville Races Report

12. Meeting Notes, incl Debrief

During the event period there is a daily meeting at the Police station to talk through expectations, plans and the wash up of the previous day.

Attendees

Stephan Pursell (QPS) and visiting officers, Erin Saltmarsh (QAS), Glen Robinson (AIMS), Sue Wilks (Birdsville Clinic), Andrew Riddell (Heightened Security), Ginnie Hope-Johnstone (Race Club), Patrice Brandenburg-Wallace (Council), SES, RFS.

Thursday 5th September

All services in attendance

Race Club

- Expected attendance 2800 Friday, 3100 Saturday

Airport

- inquirers down
- Couple of additional rex charters
- Gas cannons on at airport due to the bugs and birds

Friday 6th September

- No QPS incidents to report
- All quiet overnight (Thursday night)
- Gala was successful

Saturday 7th September

- No QPS incidents to report

QAS / Clinic - 3 calls overnight (Friday night)

- Intoxicated person outside caravan park fall, grazes dropped back to campsite
- QPS call to Rent a Tent toilet , patient had a fall, extensive medical history, medical evacuation required
- Assault , self presentation at clinic, security in attendance as patient was aggravated and getting aggressive
- Race Club expecting 3500

2024 Birdsville Races Report

Sunday 8th September – Debrief Meeting

Attendees: Stephan Pursell (QPS) and visiting officers, Erin Saltmarsh (QAS), Glen Robinson (AIMS), Sue Wilks (Birdsville Clinic), Andrew Riddell (Heightened Security), Ginnie Hope-Johnstone (Race Club), Patrice Brandenburg-Wallace (Council), SES, RFS, Ben Fullagar (Birdsville Hotel) and Garry (A2O traffic)

Meeting commenced at 10am, in the Wirrarri Centre Zoom room

Race club

- 6400 aggregate attendance figures for the event
- Event was a success for the club
- Crowd well behaved
- 1 power issue with the power for the bar, was rectified quickly.

QPS

- Traffic Control was fantastic and a job well done to the A2O crew.
- Buses we need to work on
- 850 roadside breathe tests were conducted
- Offences; 1 for Drunk Driving, 1 for Drug driving, 1 x driving without a license, 1 for unregistered vehicle, 5 x drug possession charges. Increase in drugs in town this year.

QAS

- Everything was great
- Special mention for security team, attending calls to ensure safety

A2O Traffic

- Team has been great
- For 2025 request E-Stops for the traffic lights
- Need more pedestrian signs on the path to the race track
- Recommend bunting along the side of the road to keep pedestrians in the right place

Clinic

- 2 airlifts throughout the event
- Additional staff leaving town Monday and Tuesday
- All good otherwise

AIMS (Airport)

- Didn't have many aircraft, spent time performing maintenance at the airport.
- Had calls from bookings, stating that they could not get to Birdsville because of the high winds
- Spent a lot of time with gas cannons on and clearing the runway of birds
- Question of "Under Wing Camping" was raised, Glen clarified that in 2019 the underwing camping occurred, but was costly and this cost DSC money. Recommends that the camping area be designated a "Special Event Zone" and demarcated, this way the requirements are less, but still expensive and the potential ROI is not there.

2024 Birdsville Races Report

Birdsville Hotel (Ben)

- Great event, the pub sees it as successful.
- At the race track, need to look at permanent potable water supply to the bar area, as the tank water is not great and was extremely hot.
- Best event since Covid for the hotel.

12.3.2 DECISION ACTION REPORTS

Chief Operating Officer

Request For Support – Bedourie Gymkhana Club

DECISION REPORT

Date: 16 September 2024 Presentation Time: 15 Mins
To: Ordinary Council Meeting
Author: Jason Beaton
Authorising Officer: Scott Mason, Interim Chief Executive Officer
File Reference: IX
Presented for: Decision

ATTACHMENTS

1. Bedourie Gymkhana Club – Community Grant Form
2. Quotes for Services

PURPOSE

To seek Council approval for a community grant request of \$10,000 from the Bedourie Gymkhana Club to support the provision of ambulance and security services for the upcoming Bedourie Campdraft, Rodeo, and Gymkhana.

OFFICER RECOMMENDATION

That Council recognises the importance of its community events and approves the Bedourie Gymkhana Club's Community Grant request of \$10,000 that will be directly used for the supply of Ambulance and Security services.

REPORT

Background

The Bedourie Campdraft, Rodeo, and Gymkhana is a major local event that attracts participants and spectators from across the region. It is an important cultural and sporting event for the Diamantina Shire, fostering community spirit and contributing to the local economy. To ensure the safety of all participants and spectators, the Bedourie Gymkhana Club has requested a community grant to cover essential services such as ambulance and security.

Request

The Bedourie Gymkhana Club is seeking a \$10,000 community grant to cover the costs associated with hiring ambulance and security services for the Bedourie Campdraft, Rodeo, and Gymkhana. These services are critical to ensuring that the event runs safely and complies with regulatory requirements.

- **Ambulance services:** \$6,000

- **Security services:** \$4,000

Community Benefits:

1. **Public Safety:** Ensuring the availability of ambulance and security services will enhance the safety and security of all attendees, including participants, volunteers, and spectators.
2. **Event Continuity:** The event contributes to the cultural and social fabric of Bedourie and the wider Diamantina region. The presence of these essential services will ensure the event meets regulatory and insurance requirements, safeguarding its future.
3. **Economic Impact:** The Campdraft, Rodeo, and Gymkhana attract visitors and participants from outside the region, providing a boost to local businesses, including accommodation, food, and fuel providers.
4. **Community Engagement:** The event promotes social cohesion and engagement within the local community, fostering a sense of pride and tradition.

CONSIDERATION/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

- Local Government Act 2009
- Local Government Regulation 2012
- Diamantina Shire Council's Community Grant Policy
- Corporate Plan
 - o Our Community
 - Recognises the value of preserving the unique culture of the area
 - Is enhanced by participation in arts and cultural activities

Budget/Financial/Resourcing

The requested \$10,000 grant would be allocated from Council's community grant fund. The Bedourie Campdraft, Rodeo, and Gymkhana is a significant event for the community, and supporting it aligns with Council's objectives of promoting local events and enhancing public safety.

Communication/Engagement

Communication has been maintained with the Bedourie Gymkhana Club to understand their requirements and coordinate the assistance needed.

Risk Assessment

Assessments have been conducted to ensure that all provided and requested support complies with safety and regulatory standards.

Timings/Deadlines

Approval for the additional in-kind support is required to ensure all arrangements can be made before the event date 27 September 2024.

Conflict of Interest Declaration

No conflicts of interest have been identified.

Human Rights Impact

The support provided aims to enhance accessibility and facilities, ensuring inclusivity for all participants, including those with disabilities.

Alternatives Considered

Alternative funding options and support mechanisms were considered but deemed less effective given the immediate needs and the event's timeline.

- END OF REPORT -

APPLICANT DETAILS	
Name	Bedourie Gymkhana Club
Does the applicant have an ABN	☒ Yes, ABN: ☐ No, please attach statement of supplier with your application. ☐ NA, if using an auspice organisation.
Address	Kamaran Downs Station Bedourie, QLD, 4829
Contact person	Emma Clarke
Position in organisation	Secretary
Contact person phone	0488770922
Contact person email	bedouriecampdraftrodeo@gmail.com
Is your organisation registered for GST?	☐ Yes ☒ No
Is your organisation Incorporated?	☒ Yes, attach Certificate of Incorporation. ☐ No, please provide auspice organisation details below.
AUSPICE ORGANISATION DETAILS (if applicable)	
Name of auspicing organisation	
Is your auspicing organisation incorporated?	☐ Yes, attach Certificate of Incorporation. ☐ No, sorry you are ineligible to apply.
Does the auspicing organisation have an ABN	☐ Yes a ABN: ☐ No, please attach statement of supplier with your application.
Auspicing organisation's address	
Contact person at auspicing organisation	
Position in organisation	
Contact person phone	
Contact person email	
Is your auspicing organisation registered for GST?	☐ Yes ☐ No
Supporting information provided	☐ Yes, I have attached a letter from the auspicing organisation confirming this arrangement is valid and current.
GRANT DETAILS	
Amount applied for	\$ 10,000
Have you previously received a grant from Council?	☒ No. ☐ Yes, please provide details of most recent grant/s received.
Have all previous grants been acquitted	☐ No, you are ineligible to apply for further funding. ☐ Yes, please provide date of acquittal.

PROJECT DETAILS	
Name of project	Bedourie Campdraft, Rodeo & Gymkhana
Purpose of the project	To bring a social weekend to Bedourie
Description of the project	To hold the annual campdraft, rodeo & gymkhana
When will the project take place? Must be within 12 months of the application.	27 th , 28 th & 29 th September 2024
Where will the project take place?	Bedourie Racecourse
Does your organisation hold insurance to cover project activities?	☐ No. ☒ Yes, please attach proof insurance. ☐ Na.
Does your project include any capital improvements?	☒ No. ☐ Yes – Capital improvements located on private land. Proof of tenure or consent from the land owner is required. ☐ Yes – Capital improvements located on council controlled land. The project should be in accordance with the Council endorsed capital works site plan, or alternative Council consent will need to be attached.
How many people will be employed through the project?	0
How many volunteers (unpaid workers) will be involved in the project?	10
How will you promote the project?	Through the Facebook page & posters emailed around to surrounding areas and stations.
Is the project targeting specific groups in your community? Tick all appropriate groups.	☒ Aboriginal People and Torres Strait Islander People ☐ People with a disability ☐ Australian South Sea Islander people ☒ Women ☒ Men ☒ Children (0-11) ☒ Youth (12-25) ☒ Older people (55 years and over) ☐ People with a disability ☐ Regional Queenslanders ☐ Emerging artist and cultural workers ☒ Tourists ☐ People with culturally or linguistically diverse background
What State Government priorities are addressed through this project? Tick all appropriate priorities.	☒ Encouraging safe and inclusive communities ☐ Building regions ☐ Stimulating economic growth and innovation ☐ Increasing workforce participation ☐ Supporting disadvantaged Queenslanders ☒ Conserving heritage

PROJECT BUDGET				
Please provide a detailed budget for your project, including all other sources of funding. Please note: Expenditure and income must be the same and the budget must balance. Adjust descriptors to suit your project. Identify any income that is unconfirmed with an asterisk (*). Provide and attach evidence where possible to support your budget.	Income	Total	Expenditure	Total
	Community grant*	\$10000	Hire Fees	\$250
	Gate Fee	\$2000	Prizes	3000
			Entertainment	\$4000
	Nominations *	\$24000	Ambulance	\$6000
	Sale of goods*	\$10250	Security	\$4000
	Sponsorship	5000	Insurance	\$2500
			Bar	\$6500
			Prize Money	\$25000
	Total	\$51,250	Total	\$51,250
Community Grant Outcomes (Not all may apply to your project)				
How does your project provide benefit and value the community?	The Campdraft brings people to town, where they usually make purchases at the local businesses			
How does your project support the economic development of the Shire?	People come into the town and then spend money at the local businesses.			
How does your project build local cultural capacity, cultural innovation and community pride?	The draft & rodeo weekend has been running for a while now and it will continue to run with the council's support. It showcases how people on the stations manoeuvre cattle around.			
How does your project contribute to the connectedness and social wellbeing of the people living in the Shire?	It gives people the opportunity to have a break from their everyday pressures and be around different people.			
How does your project increase access to support services for people living in the Shire?	It gives Bedourie a local event, where everyone can come together for a social weekend, which helps with mental health.			

COMMUNITY NEED & SUPPORT	
Provide evidence of genuine local need and support for this project. Examples of evidence of support may include letters of support, meeting minutes etc.	
ORGANISATIONAL CAPACITY	
Do you have the capacity to deliver the project to achieve the desired outcome?	Yes
Have you lodged your association annual return?	☐ No. ☒ Yes. Please provide audited financial and minutes from the AGM they were presented to.
FUNDING SUPPORT REQUESTED	
Cash amount/s requested (excl GST)?	\$10,000
What components from the budget will the grant funding be attributed to? List specific items and corresponding values.	\$6000 – Ambulance \$4000 - Security
Does your project require in kind Support from Council	☐ No. ☒ Yes, Complete and attach an In-Kind Support Request form.
SUPPORTING DOCUMENTATION	
Please ensure all required documentation is attached.	☐ Certificate of Incorporation ☐ Certificate of Insurance ☐ Proof of tenure or consent from the land owner ☐ Statement of supplier ☐ Audited financials ☐ Minutes from AGM ☐ In-Kind Support Request form ☐ Evidence to support budget ☐ Letter from the auspicing organisation (if applicable)
Submission of Application	Completed applications can be forwarded to admin@diamantina.qld.gov.au no later than 2pm on the 10th April 2019 . For any questions regarding community grants program please contact the Wirrarri Information Centre on 4564 2000.

12.3.3 DECISION ACTION REPORTS

Directorate: Chief Operating Officer

Heading: Tourism Digital Kiosks and Mobile App

DECISION REPORT

Date: 16 September 2024 Presentation Time: 15 Mins
To: Ordinary Council Meeting
Author: Jason Beaton, Chief Operating Officer
Authorising Officer: Scott Mason, Interim Chief Executive Officer
File Reference: IX
Presented for: Decision

ATTACHMENTS

1. Specialist Apps - Kiosks
2. Specialist Apps – Mobile App
3. Specialist Apps Pricebook

PURPOSE

To seek Council approval for the purchase and installation of two interactive kiosks for placement in front of the Birdsville and Bedourie Visitor Information Centres. The kiosks will enhance visitor engagement and provide essential information during and outside of centre operating hours as well as digitise Council's Australia Day Honours Lists.

OFFICER RECOMMENDATION

That Council approves the pursuit of external funding opportunities, to cover the cost of two interactive kiosks for the Birdsville and Bedourie Visitor Information Centres and associated mobile application.

REPORT

Background

The Birdsville Wirrarri and Bedourie Visitor Information Centres play a crucial role in guiding tourists, especially during peak travel periods. However, in the summer months, visitor traffic drops significantly, making it less feasible to operate the centres at full capacity. To provide continuous visitor services while optimising operational efficiency, it is proposed that interactive kiosks be installed outside the centres.

Proposal:

- Purchase and install two interactive kiosks, one each for Birdsville and Bedourie.
- The kiosks will provide essential visitor information, such as:
 - o Maps,
 - o Up to date road information

- o Accommodation details,
- o Local attractions and wayfinding and;
- o Booking services.

Benefits:

- **24/7 Accessibility:** Kiosks will provide round-the-clock access to vital visitor information, ensuring tourists can access services even when the centres are closed.
- **Cost Savings:** Reduced staffing and operational hours during low-traffic summer months will result in long-term savings, contributing to a quicker return on investment.
- **Enhanced Visitor Experience:**
 - o **Wayfinding:** The kiosks will offer wayfinding functionality, allowing visitors to easily navigate key tourist spots, accommodation, eateries, and local businesses in Birdsville and Bedourie.
 - o **Local Storytelling:** The kiosks will feature engaging storytelling elements, highlighting the rich history and unique characters of the Diamantina region. These stories, including tales of pioneers, stockmen, and outback legends, will bring local history to life for visitors and foster a deeper connection to the area.
 - o **Cultural Engagement:** By incorporating multimedia features, the kiosks can share the cultural and natural significance of landmarks and sites such as the Simpson Desert, Big Red, Bedourie Mud Hut, Carcoory Ruins etc.
- **Tourism Promotion:** Featuring storytelling and wayfinding tools, the kiosks will serve as an interactive platform that promotes key tourist attractions, events, and local businesses, encouraging longer stays and greater visitor spending.
- **Australia Day Honours:** The Kiosks will be able to provide details of the Shire's honours lists removing the reliance on the physical boards housed in the community halls. This information can be updated anytime and provides the options to elaborate on the honourees and why they won the award.
- **Potential for App Integration:** The mobile app can extend these benefits, providing personalised itineraries, GPS-based wayfinding, and enhanced storytelling experiences straight to users' smartphones.

CONSIDERATION/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

The establishment two interactive kiosks for placement in front of the Birdsville and Bedourie Visitor Information Centres is in alignment with Council's Corporate Plan 2022-2027 long term goals of:

Our Community

- Recognises the value of preserving the unique culture of the area

Our Economy

- Flourishes from a growing tourism industry and continuation of major events

Values:

- Innovation and Continuous Improvement

Budget/Financial/Resourcing

The budget breakdown for the purchase, configuration and installation of the Kiosks for the option quoted by Specialist Apps is as follows:

Description	Unit Cost	Quantity	Total
Hardware			
Interactive 55" Outdoor 4k Touch Screen Kiosk	\$20,000	2	\$40,000
Software and Setup			
Kiosk software setup, including ATDW integration, localisation and configuration	\$2,000	1	\$2,000
ATDW Integration and configuration including category definitions, postcode optimisations and data config	\$2,500	1	\$2,500
Device Content Management (DCMP) configuration, role definitions and setup	\$1,200	1	\$1,200
Device Content Management (DCMP) 2 hour remote training session - DCMP Basics	\$1,200	1	\$1,200
Device Content Management (DCMP) 2 hour remote training session - Tour Builder essentials	\$1,200	1	\$1,200
Device Content Management (DCMP) 2 hour remote training session - events portal, news and editorial content	\$1,200	1	\$1,200
Support and assistance with splash video stitching, image optimisation and tour content configuration	\$1,500	2	\$3,000
Total Software and Setup			\$12,300
Annual support and maintenance, including extended warranty per kiosk	\$1,500	2	\$3,000
Freight			\$10,000*
Total Costs			\$65,300
<i>* Discounts may apply</i>			

In addition to the Interactive Kiosks there is an option to develop a visitor engagement mobile app that would provide similar functionality to the kiosks. Importantly, due to mobile

coverage in the Shire, much of this functionality would work offline. The cost breakdown for the development of the Mobile App is as follows:

Description	Unit Cost	Quantity	Total
Development costs			
Device Content Management Platform setup and configuration (including training)*			\$8,000
Visitor Engagement App - iOS			\$12,000
Visitor Engagement App -Android			\$12,000
Total Development Costs			\$32,000
Annual Support and Maintenance for Visitor Engagement Apps for iOS and Android			\$4,800
Annual Amazon Cloud Hosting for content management platform (Proximity eLockers)			\$1,200
eLockers Server Support and Maintenance			\$2,000
App Total Annual Costs for first 12 months			\$8,000
App Total Year 1 Costs including Support, Maintenance and Hosting			\$40,000

The purchase of the kiosks can be offset by a reduction in staffing and operating hours at the Visitor Information Centres, particularly during the low-traffic summer months.

These savings will be realised by:

1. Reducing staff rosters during off-peak periods when visitor numbers are lowest, particularly in the hotter months of November through March.
2. Reducing centre operating hours and shifting the bulk of information services to the kiosks being mindful to adhere to the require to be open 42 hours per week.

These savings would need to be investigated further to fully understand what can be achieved without affecting the level of service given to visitors and the community.

Communication/Engagement

A communication plan to market the service to the community and visitors will be developed when the kiosks are implemented. Additionally, consultation will be undertaken with the Managers of the Visitor Information Centres to determine the content needed as well as new staffing options.

Risk Assessment

A risk assessment should be conducted to identify potential risks and develop mitigation strategies to address them

Timings/Deadlines

Kiosks should be implemented in time for the 2025 tourist season beginning in April 2025.

Conflict of Interest Declaration

Nil

Human Rights Impact

The support provided aims to enhance accessibility and facilities, ensuring inclusivity for all participants, including those with disabilities.

Subject: Re: Security Quote

Good evening Emma,

Thank you for your prompt reply.

With this information, we confirm and quote a total sum of **\$3,500.00** for the security services you've requested.

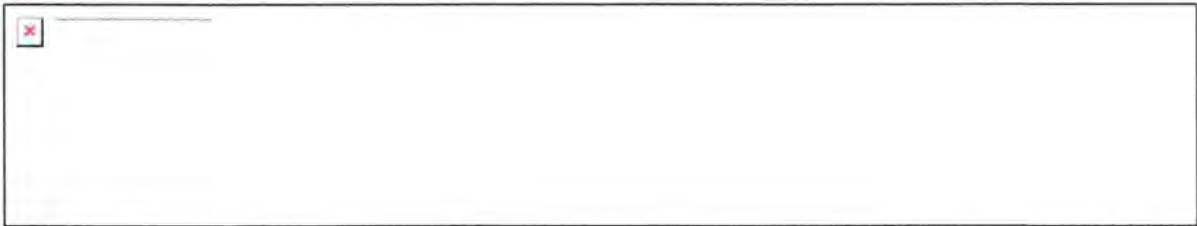

Covered in this quote is the cost of labour, travel, insurance, equipment, victuals.

If you have any questions or require any further information, please do not hesitate to contact us.

Kind regards,

Jack

Administration Officer

Date of service:	27 September 2024	Expected travel time (hrs) x no. of officers:	2.083333333
Required time of arrival:	12:00 PM	Expected departure:	8:00 PM
Organisation name:	Bedourie Gymkhana Club		
Type of event:	Horse Riding / Eventing Campdraft		
Location of event:	Bedourie Showgrounds, Bedourie, QLD, 4829		

QAS service proposal

Number of QAS paramedics required:	1	Total expected hours chargeable:	11.08
Number of QAS vehicles required:	1	Rate per hour (inc GST):	\$125.57
Other resources to be supplied by QAS:	0	Cost of other resources (inc GST):	\$0.00

Additional resources to be supplied by the customer

This is a list of the resources which the customer has agreed to make available to the QAS during the event.

4 x Nights Accommodation, 2 x Rooms, Check In 26/9/24 Check Out 30/9/24

Terms and conditions of QAS services at special events

- The initial request for QAS services at special events should be received at least 21 days in advance to guarantee service.
- Provision of the service is subject to signed acceptance of QAS terms and conditions that should be received by QAS at least seven days in advance of the special event.
- Event organisers will cooperate with QAS in the evaluation, planning and deployment of health care resources for the event.
- The QAS is a community service provider whose first responsibility must always be to the wider community. In circumstances where unforeseen or unusual demands on QAS services necessitate the withdrawal of any agreed services to a special event the QAS will not be responsible for any loss or damages resulting from the withdrawal of that agreed service.
- For dedicated special events, event organisers will be responsible for QAS expenses associated with:
 - For each officer dedicated to the event, actual time attendance at the event and time required to travel to the event (maximum of two hours for each way),
 - For each vehicle dedicated to the event, one hour to both prepare the vehicle for the special event and then restore the vehicle ready for operational service delivery;
 - A minimum of three hours per event;
 - Any other direct, out of pocket expense incurred by QAS specific to provision of dedicated services at the special event.
- For standby attendance at special events, event organisers will be responsible for any direct, out of pocket expense incurred by QAS specific to provision of standby services at the special event.
- Payment must be made to QAS within fourteen days of the invoice date.
- Cancellation of the event must be notified to QAS within 48 hours of the proposed commencement time of QAS resources. Failure to provide such notice may attract a fee of up to 50% of the agreed rate for QAS attendance at the event for the first day of the event.

NOTE: Where circumstances require QAS to provide additional resources or remain on site beyond the estimated time of departure, additional costs will be borne by the event organiser/s. Fees are subject to adjustments according to GIR, which take effect from 1 July each year. Quotes given prior to that date for events to be held after 1 July will not reflect the increased fees. Event charges will be those in effect at the time of the event and not the time the quote is issued

Acceptance of Terms and Conditions

In my capacity as the special event organisation, I have authorisation, on behalf of the organisation, to accept the terms and conditions of service outlined in this document.

WAYFINDING & STORYTELLING DIGITAL KIOSKS

Specialist **Apps**

Agenda Ordinary Council Meeting Monday 16 September 2024

Page 401

TRADITIONAL CHALLENGES

- **Multiple projects creating resource and capacity challenges**
- **Expensive hardware, costly setup and inflexible architecture**
- **Expensive agencies**
- **Too many stories to tell**

SOLUTION

- **Proven, robust and easily implemented wayfinding, storytelling and signage hardware and software (kiosks, CMS & app)**
- **Cost-efficient, rapid development and easy installation**
- **Automatic integration and support for the Australian Tourism Data Warehouse (ATDW) provides instant access to business listings, events, places of interest and more**

Specialist Apps

SOLUTION

Fully supports blended Visitor Information Services through Information Kiosks and optional Visitor Information and Wayfinding App

Specialist Apps

CONTINUOUS INNOVATION

World's first off-grid outdoor kiosk powered by renewables (wind and solar). Fully autonomous unit that can be located in any remote location using either 4G or Starlink data connection. Revolutionising digital information in remote locations.

Harnessing the power of the sun and wind, this kiosk is completely independent of external power sources, making it an ideal solution for off-grid environments.

Real time provision of emergency notifications, hyper local maps and park notices.

Rapid development of custom touch screen applications including booking systems, enhanced accessibility, security monitoring and more.

Eco power mode to allow users to customise power consumption of the device based on their needs and location.

SOLUTION: SPECIALIST APPS

- Specialist Apps provide interactive touch screen kiosks for use in public spaces including shopping malls, airport arrival and departure lounges, visitor information centres etc
- The kiosks are user-friendly, interactive and have accessibility features seamlessly designed into the user experience (e.g. keyboard access for wheelchair users)
- Provides visitors with easy access to maps for wayfinding, itinerary planning which are enhanced with locations of interest, operator listings, food & beverage providers
- Ability to display promotional content for client's brand, city events and seasonal events.

SOLUTION: SPECIALIST APPS

- Content management system can handle multiple API sources
- Manage different content configurations from the same CMS
- Reporting dashboard provides data on visitor interaction with kiosk; link clicks, operator referrals and heatmap onscreen activity
- Device management app provides report on installation health and uptimes

Specialist **Apps**

WHO ARE SPECIALIST APPS?

- Twenty years experience in software and app development for the tourism industry, local councils, zoos, aquariums and museums throughout Australia, Asia and Europe
- Established company experienced in providing large-scale solutions for stakeholders and audiences
- Proven out of the box software for best practice visitor user experience
- Provides ongoing support with development, graphic design and hardware needs
- Robust hardware (kiosks) that can handle harsh weather conditions as well as challenging neighborhoods

WHO ARE WE?

At Specialist apps we believe that every use-case is unique and a successful App is the result of working closely with the customer and applying innovative technology in creative, cost effective ways.

This approach has helped with creation of a variety of visitor apps which are unique and tailored to each customer's needs.

The logo for Specialist Apps features the words "SPECIALIST" and "APPS" in a sans-serif font, stacked vertically. Below the text is a graphic of concentric circles, resembling ripples in water, which is part of a larger light blue circular graphic that fades into the background.

SPECIALIST
APPS

WHAT DO WE DO?

We specialise in helping Zoos, Aquariums, Museums, Local Councils, Botanic Gardens, Public Attractions and Educational Institutions embrace this mobile revolution

With our help organisations can maximise their business effectiveness by creating deeper engagement with their visitors.

SPECIALIST
APPS

SPECIALIST APPS

Interactive Way-Finding Maps

Specialist Apps' advanced mapping and navigation framework allows you to create a fully customised intelligent wayfinding solution for any sized site.

Our wayfinding framework includes stylised, custom maps, turn-by-turn navigation directions and built-in instant search.

Suitable for both outdoor and indoor wayfinding, guidance and navigation scenarios

Works offline where Internet services are not available

Real time content management backed by simple visual backend management tools for maintaining and updating

Real time provision of emergency notifications, hyper local maps and park notices.

Rapid development of custom touch screen applications including booking systems, enhanced accessibility, security monitoring and more.

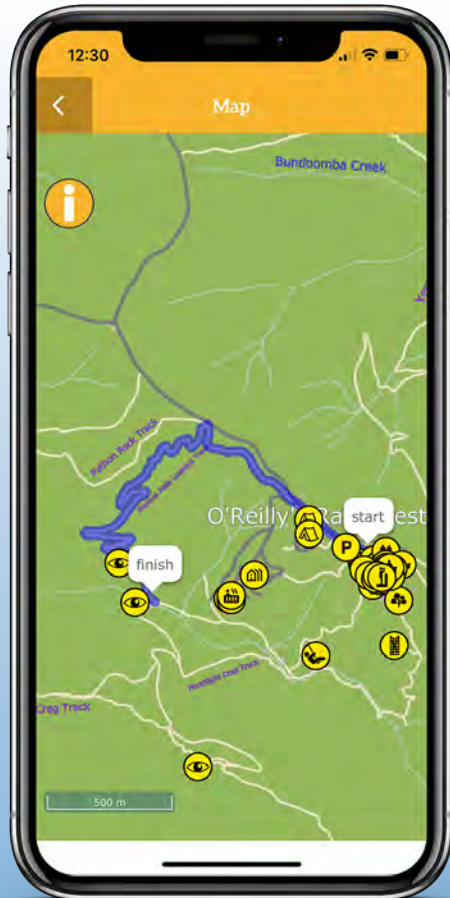

Loyalty Programs

Loyalty programs encourage deeper engagement from visitors at your attraction. These programs offer the ability to reward loyal visitors with special offers, prizes, discounts and more.

The program requires users to sign up, which allows for greater user retention and further contact via email and social media contact.

SPECIALIST APPS

Self Guided Tours

Using a visitor's own smartphone to deliver self guided tours and general visitor information has a number of key advantages over traditional brochures and paper based materials, the most obvious one being the cost savings in printing, and the ability to maintain currency of information.

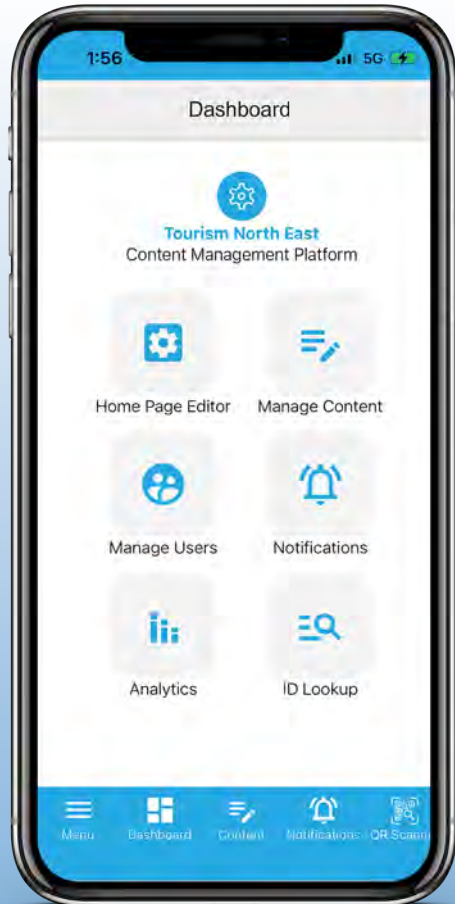

Once a tour has been selected, content relating to that trail will be automatically delivered to the visitor when passing beacons, geo-locations and other trigger points.

We help our clients promote the assets that they already have in their own backyard such as :

- heritage trails
- mural trails
- silo artwork
- hiking trails
- walking trails
- cycling trails

We believe there is a great opportunity to use technology to improve delivery of services, and provide smarter, safer environments for visitors to regions and public attractions.

SPECIALIST APPS

Staff Assistant App

The accompanying staff assistant app is a powerful and easy to use tool that allows your staff to control many aspects of your visitor app, these include:

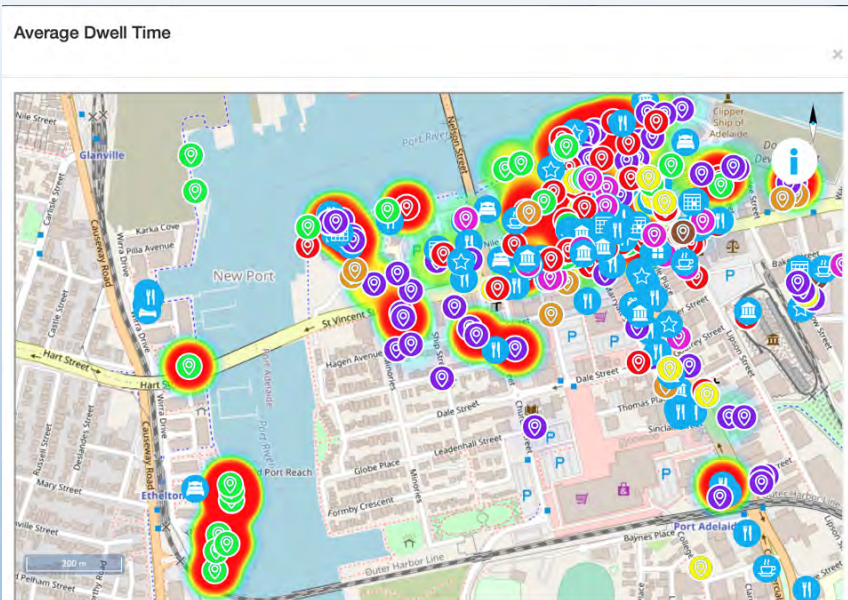

- Home page editor – edit the images, title and navigation of the home page view. This allows for customised themes that can be pushed out to the user at the touch of a button without needing to update the app in the store.
- Alerts – push out alerts and notifications to the user
- Dynamic Self Guided Tour Builder – intuitive and easy to use editor that allows for customised walking trails complete with additional location content such as images and video. Can be pushed to the user app without needing to update in the app store.
- User app statistics and analytics, track usage, user device information etc
- Push editorial content to app, such as articles complete with additional content such as videos and images
- Add custom events which can be pushed to the user app.

SPECIALIST APPS

Comprehensive Analytics

We are able to provide extensive data on app usage and user behaviour in real time:

- Scalable, robust, Content Management Solution for all App content, trigger points and data.
- Sophisticated events management console for setup and management of recurring events, including real time queue management, status alerts etc
- Provides comprehensive mapping engine include routing layers, points of interest, GeoFences and beacon management.
- Provides BIG data analytics and reporting console Supports multiple roles for team management and mobile updating on the fly.

SPECIALIST APPS

Gaming

Specialist Apps Location Based AR gaming engine has been designed to add fun, education and excitement to visitor experiences. Practically any indoor or outdoor attraction can be enhanced through gamification.

Our Location Based AR Gaming Engine, originally developed in conjunction with the National Museum of Singapore, can save your institution man months of research and development time and money. This form of content delivery can be used in a variety of ways to produce a unique and unforgettable visitor journey that utilises the latest cutting edge AR location based technology.

What Our Clients Say

“We’re proud to be part of such an incredible initiative. Working alongside Geoff and the Specialist Apps team is a constant source of innovation as they consistently enhance and modernise our touch screens and smart displays to reduce our power consumption.”

Claire Burrell, General Manager of SEA LIFE Melbourne Aquarium and LEGOLAND® Discovery Centre

We have loved working with Geoff and the team at Specialist Apps on the Port Adelaide Enfield Smart Cities Project and have learnt so much ! We look forward to continuing on our Smart Cities journey at PAE!

Karen Cummings, City Development Manager at City of Port Adelaide Enfield

We are excited to be working with Geoff Elwood and the team at Specialist Apps on our Visitor Engagement App, part of the 2019 Queensland Bushfires Community Recovery Package Cat C under the Disaster Recovery funding arrangements. We are cooking up all sorts of treasure hunts and trails which has been a lot of fun.

Terese Finegan – Tourism Recovery Officer at Southern Downs Regional Council

APPS

What Our Clients Say

"Working in collaboration with our team, Specialist Apps developed an interpretive app and audio guide, ideal for the immersive rainforest experience Skyrail Rainforest Cableway provides. Available as a multi-lingual application, the Skyrail interpretive app utilises GPS location and augmented reality technology to deliver an interactive, interpretive experience which enhances our overall visitor experience.

We continue to work with Specialist Apps in developing customised and exciting new enhancements to our app. Specialist Apps provide a collaborative approach to product development and support and we look forward to working with them into the future."

Kevin Parise – Director of Sales, Skyrail Rainforest Cableway

We have found Specialist Apps to be a world class organisation to deal with. We have worked with them on some truly innovative ways to present what is unique and special about Waimangu Volcanic Valley for our visitors and the response has been great. Using augmented reality has proven to be extremely useful as we look to engage guests in hidden aspects of our offering and the functionality for guests has been well received. A great bunch of talented people to deal with."

David Blackmore, General Manager, Waimangu Volcanic Valley

SPECIALIST

12.3.4 DECISION ACTION REPORTS

Directorate: Chief Operating Officer

Heading: Scheme Supply Fund

DECISION REPORT

Date: 16 September 2024 Presentation Time: 15 Mins
To: Ordinary Council Meeting
Author: Jason Beaton, Chief Operating Officer
Authorising Officer: Scott Mason, Interim Chief Executive Officer
File Reference: IX
Presented for: Decision

ATTACHMENTS

1. DSC - Local Housing Action Plan

PURPOSE

To inform Council of the \$12.5 million Scheme Supply Fund announced by the Department of Housing, Local Government, Planning, and Public Works, and to seek approval to apply for non-contestable funding of up to \$100,000 allocated to our Council.

OFFICER RECOMMENDATION

That Council:

1. Approves the submission of an application for up to \$100,000 under the Scheme Supply Fund.
2. Authorises the CEO to engage necessary resources, including consultants, to develop and implement planning strategies to meet the housing needs identified in the Local Housing Action Plan (LHAP) and Local Housing Plan (LHP).
3. Commits to ensuring project delivery by 30 June 2026, as per the Fund's requirements.

REPORT

Background

On 27 August 2024, the Department of Housing, Local Government, Planning, and Public Works launched the Scheme Supply Fund ('Fund') valued at \$12.5 million. The purpose of the Fund is to assist Local Governments in enhancing their planning schemes to better meet housing needs within their communities. This includes delivering planning outcomes under Local Housing Action Plans (LHAPs), Local Housing Plans (LHPs), and facilitating housing outcomes for Aboriginal and Torres Strait Islander areas.

Diamantina Shire Council has been identified as a Group 3 Local Government, qualifying for a non-competitive funding allocation of up to \$100,000. This funding aims to support remote,

regional, and Aboriginal and Torres Strait Islander local governments in improving planning schemes to address housing challenges.

The fund has two funding pathways – Pathway 1 and Pathway 2

- **Pathway 1**

- o Is limited to Councils in Group 3 and is a non-competitive, allocation based funding
- o Eligible projects - to deliver planning outcomes related to endorsed Local Housing Action Plans (LHAPs). May include secondary elements in the projects that result in additional improvements to the planning scheme as long as the primary focus delivers housing outcomes within the funding parameters.
- o Section 2.1 of the guidelines describe the aims and objectives of the fund.
- o Applications are lodged using the Departments eGrant Portal – online project proposal form to complete with application
- o Successful applicants receive funding allocation of up to \$100,000
- o Applications open 29 August 2024
- o Project to be completed by 30 June 2026
- o Only one application allowed

- **Pathway 2**

- o Competitive process open to all Local Governments
- o Expression of interest opens – 2 September to 16 September 2024
- o Group 3 Local Governments are not required to provide co-contributions
- o Maximum Qld Government funding \$350,000

Options for Diamantina Shire Council:

After reviewing the LHAP, the following actions meet the objectives of the funding:

2. Planning

- **2.1** Undertake a Shire Housing Needs Assessment (HNA) to inform planning work for housing provision demands across the region for all housing sectors
- **2.2** Review Shire and local planning schemes to meet housing needs objectives while acknowledging the town character, through review of local density aspirations, opportunities for secondary dwellings on existing blocks, mixed use development options, repurposing unused commercial space, types of construction permitted, and any other specific initiatives to address future housing needs.

4. Master Planning

- **4.1** Consider master planning of identified options to ensure resilient development meets community expectation of how town development acknowledges its heritage. Planning may be at allotment, street, or locality level.

- **4.2** Investigate master planning of the provision of future residential housing development sites, particularly addressing the provision of infrastructure.

Proposed use of funds

There is opportunity within this funding to include other scheme amendments, if needed/identified. It is recommended we apply under pathway 1 as it is non-competitive funding and there are amendments to the scheme that meet the objectives of the funding, including:

- Identifying Rural land or other land that may be suitable to be included in the Township zone
- Review level of assessment for Dwelling houses where affected by the flood hazard
- Review the level of assessment for all housing types (including Dual occupancy and Multiple dwelling)
- We will also carry out a more in-depth review of the planning scheme to see if there are other amendments we could do at the same time.

With regards to an application under pathway 2, we would need to consider further what amendments could be incorporated that meet the objectives of the fund and develop business cases accordingly to be submitted as part of the funding applications process. Pathway 2 Expression of Interest opens 2nd – 16th September, therefore it is recommended that we only explore Pathway 1.

Benefits to the Community

- **Address Housing Shortages:** The funding will support efforts to address gaps in housing availability, particularly for vulnerable populations, including Indigenous communities.
- **Long-Term Planning:** Enhancing the planning scheme will ensure future housing developments meet the needs of the community while aligning with sustainable growth strategies.
- **Culturally Appropriate Housing Solutions:** Working with local Indigenous groups will help develop housing that respects cultural values and supports long-term settlement.

CONSIDERATION/IMPLICATIONS

Corporate/Operational Plan Reference/Policy/Legislation

The application for the Scheme Supply Fund is in alignment with Council's Corporate Plan 2022-2027 long term goal of:

Our Community

- Has significant private home ownership with all residents appropriately housed.

Our Economy

- Is led by Council and the business community, together growing and diversifying business and industry opportunities.

Budget/Financial/Resourcing

- **Funding Amount:** Up to \$100,000 on a non-contestable basis for Group 3 Councils.

- **Eligibility:** Remote, regional, and Aboriginal and Torres Strait Islander local governments.
- **Application Opening Date:** 29 August 2024.
- **Project Delivery Deadline:** Projects funded under the Scheme Supply Fund must be completed by 30 June 2026.

Communication/Engagement

Communication has been undertaken with Council's Planning and Development contractors, Reel Planning to determine their opinion and capacity.

Risk Assessment

A risk assessment should be conducted to identify potential risks and develop mitigation strategies to address them

Timings/Deadlines

Projects funded under the Scheme Supply Fund must be completed by 30 June 2026.

Conflict of Interest Declaration

Nil

Human Rights Impact

The support provided aims to enhance accessibility and facilities, ensuring inclusivity for all participants, including those with disabilities

Introduction

Introduction

This Local Housing Action Plan (the Plan) is developed through a joint initiative involving the Queensland Government*, Diamantina Shire Council (Council) and the Western Queensland Alliance of Councils (WQAC) to respond to a range of immediate, emerging, and longer-term housing challenges in the Diamantina Shire.

This is an iterative process that does not intend to duplicate existing actions of Council or the actions under The Queensland Housing Strategy Action Plan 2021-2025. It seeks to identify opportunities, consider an agreed response, develop targeted actions on key priorities and enable ongoing review of effort to adapt and respond to changing need.

The Plan aims to:

1. **develop agreed priority actions** to respond to housing need,
2. **establish strong foundations for longer-term housing responses** to assist housing and homelessness outcomes in the Diamantina Shire into the future.
3. **incorporate existing information and plans** that assist with developing responses to housing need and acknowledge work already completed by the Council, State Agencies, private and not-for-profit organisations.
4. **facilitate targeted interaction between all parties through agreed actions** to ensure a focus on deliverables and projects that can improve housing responses in the short and longer-term.

Approach and methodology

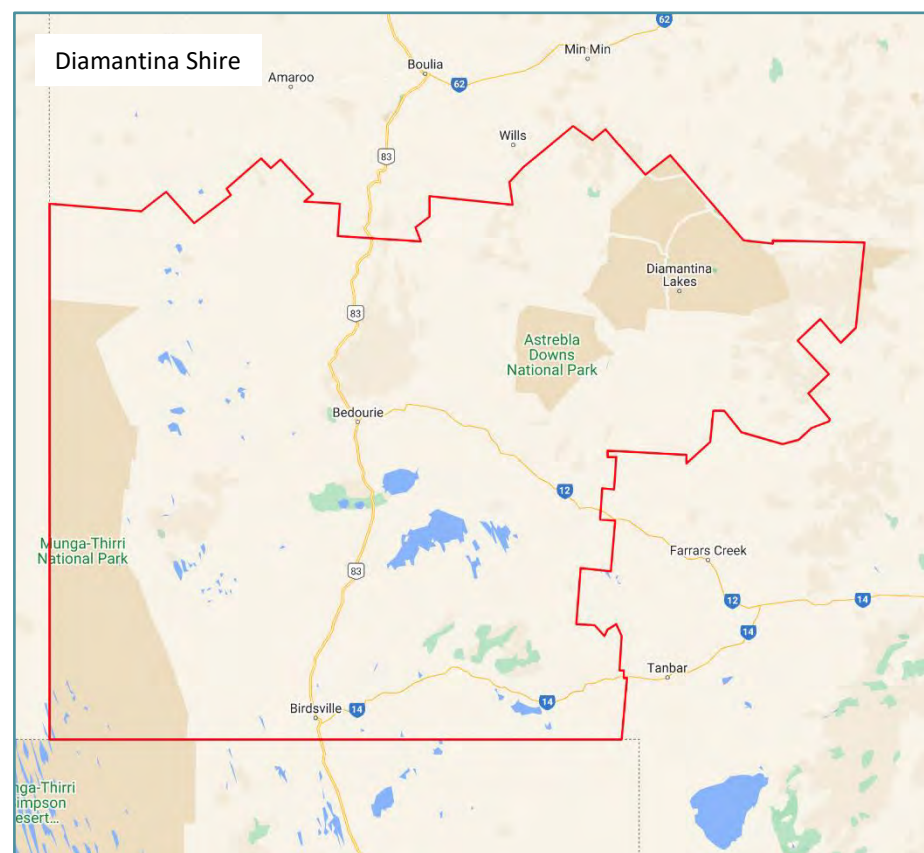

The plan provides an overview of key community and housing characteristics, and emerging issues related to housing in the community and identifies a targeted initial set of priority actions to respond to housing need. It has been developed through a review of a range of supporting documentation including:

- Regional Infrastructure plans
- Diamantina Shire Council Planning Scheme
- Relevant Council strategy reports and plans
- Statistical data via the Queensland Government Statisticians Office, including Census and other data sets such as building approvals, rental market data, housing approvals
- Housing needs data from the Department of Communities, Housing and Digital Economy and other state agencies as required
- *The Queensland Housing Strategy 2017-2027* and the *Housing and Homelessness Action Plan 2021-2025*.
- Other local data and information such as RAI reports

Emerging issues and opportunities, key challenges, and potential responses have been developed from the review of a range of data sets, anecdotal feedback, and preceding engagement opportunities with Council and other stakeholders.

Diamantina Shire Council key details

- Diamantina Local Government Area (LGA) has a total land area of 94,722 km².
- The Diamantina Shire is located within Queensland's Channel Country, bordering South Australia and the Northern Territory.
- The town of Bedourie is the administration centre approximately 1,600km west of Brisbane, around a 19-hour drive, and 1,193km north of Adelaide.
- Iconic Birdsville and Betoota are the shire's other towns. .
- The primary industry is agriculture, with the area renowned for producing prime quality beef.
- The region also has a growing tourism sector, with visitors drawn to the region's history, scenic landscapes, cultural experiences, waterways and wetlands, birdlife, and iconic events such as the Birdsville Cup and the Bedourie Camel Races.

Key focus areas identified

Areas of emerging concern have been determined through a review of existing data and engagement with stakeholders as identified in the methodology. These concerns will be considered when identifying and prioritising shared actions.

1. Housing Availability

Housing demand in the Diamantina Shire is based mainly on growth in demand for employees. Council staff numbers in Bedourie continues to grow with the additional demand in services and administrative requirements and seasonal tourism in Birdsville also demands additional accommodation.

Only 8.5% of Diamantina's private occupied dwellings are owned compared to 63.5% in Queensland. This position indicated that the private housing market is virtually non-existent, and its town housing stock generally can only be accessed through rental markets.

Occupied dwellings according to the 2021 census represented 56.2% of the housing stock while unoccupied dwellings were 40% (ABS). While this represents a single point of time over 12 months ago, it may continue to be representative of the current position, however, the percentage of unoccupied dwellings is likely to be less.

The breakdown of housing statistics collected in 2021 was as follows:

- Households with families represented 63% of households
- Single-person households made up 37%
- Detached houses made up 93% of dwellings
- Semi-detached dwellings were 3%
- Units were 3% of the total dwellings
- The average number of bedrooms per dwelling was 2.8
- The average number of people per household was 2.1.

The ratio of availability of beds to persons, per dwelling, indicates sufficient capacity if dwelling mix met demand structure. This situation would indicate a focus on the provision of smaller two-bed semidetached dwellings and units for future housing stock supply, however, Council would still prefer to consider a mixture of housing to encourage families to develop the community.

The number of dwellings for sale in Diamantina is limited compared to other western local government regions and currently there are no properties publicly advertised available for sale. Annual house sales over the past decade have been between zero and six (6) houses in the Shire. Only one price was available for a house sold in Birdsville which sold at auction in April 2021 for \$58,000. Council staff are aware of a recent house purchase of \$162,000 and an older house for \$100,000.

Vacant land was sold in Birdsville and Bedourie in the order of \$10,000 to \$15,000. There are still an adequate number of vacant lots within both towns. These lots were developed several years ago but have not been taken up by private investors for immediate construction even though Council offers a rebate of \$45,000 on the construction of a dwelling. There was concern that some lots were purchased by speculators and are being banked. These vacant lots will meet the needs of town growth for many years.

The difficulties in increasing these housing stock numbers can be attributed to substantial costs of construction due to material supply and logistics, and lack of availability of local house construction contractors across the region. However, Council has a strategy to build new homes for Council employees and sell when they reach the 15-year mark and then reinvest in new houses to replenish housing stock. Council is the only entity that can accept the long-term risk otherwise the town housing supply will deteriorate.

The current housing stock remains at a good liveable standard due to past renew strategy however, Council has not constructed a house in the past ten (10) years and now wishes to continue the previous strategy.

Council recently called tenders for the construction of four (4) houses in Birdsville as there are employees waiting up to two (2) years in temporary accommodation. The cost for a three (3) bedroom house was in the order of \$900,000 with only one tender submitted.

Councils have been exploring housing construction types to reduce the costs of construction. Preconstructed and transported dwellings has been a trend to lower these costs, however, cost remain high. Coordination across local governments in procurement may produce economies of scale, particularly with the house transport.

Housing affordability is still one of the major concerns as there is little to no market competition. Of 8.5% of the dwellings owned outright there are no dwellings owned with a mortgage (ABS) which may reflect on the ability to gain housing finance in rural and remote areas.

There are concerns regarding financial institutions' security requirements which include finance applications of up to 50% deposits and large mortgage insurances. First home buyers cannot enter the rural and remote housing market unless there is a change in policy to allow them to purchase older homes in these regions. They are being penalised due to costs of new houses being well beyond their reach. Localised financial arrangements to remove these barriers could assist in overcoming this situation.

Response opportunities

- Focus on immediate housing responses to the current housing shortage through selective dwelling construction subject to grant funding support.
- State and Federal Government review of financial support to provide financial options that are more attractive to home buyers and local house investors.
- Lobby Federal Government for first home buyers in rural and remote areas for eligibility to purchase old homes.

2. Rental Market

Many Local Government Areas (LGAs) in Queensland considered to have 'tight' rental markets are characterised by a vacancy rate of under 2.5%. Over three-quarters of Queensland LGAs (77%) have vacancy rates under 1% as at December 2021. The current vacancy rate is zero (0) with no available dwellings for rent in Bedourie and Birdsville. Rented dwellings represent 67% of the total dwellings compared with 33% in Queensland. This is mainly because house construction for rental purposes is financially unviable. Council is forced to become the main housing provider in the region otherwise there would be no employees to service its community.

The current median rental price in 2021 was \$140 per week (ABS). Council rents its housing stock to its employees as well as the public under the Rental Tenancy Authority. The current rental price for a fully furnished 3-bedroom house is in the order of \$340 per week. Council provides a subsidy of approximately 60% for employees only.

As the demand for rentals increases due to single transient employees and permanent staff on fixed short-term contracts, local community members have difficulty competing. Anecdotally, this situation has resulted in increased rental prices for houses with reasonable liveability quality. Given much of this demand is for single occupancy, employers may consider as an option, opportunities for promoting shared accommodation thereby freeing up multi-bedroom houses for families. This situation currently occurs with a private

employer who owns several private houses for employees. Unless a person is employed by Council or given private employee housing it would be extremely rare to access a rental house for other employment.

Response opportunities

- Investigate the current rental supply market and the current unoccupied dwellings to identify opportunities to bring additional “hidden” rental supply into the market.
- Support for service provider employers to construct employee housing to avoid transient employees monopolising the private rental market.
- Continue to review the mix of rental housing types to respond to specific demand.
- Explore shared accommodation arrangements for single occupants of multi bedroom dwellings to open opportunities for family household access.

3. Social Housing Supply

There is a high demand for social housing across Queensland and allocations focus on supporting households with the highest needs. The median household income in Diamantina is \$1,792 per week compared to the Queensland median of \$1,675 per week (ABS). The total income for 12% of households was less than \$650 per week compared to the Queensland figure of 16.4% (ABS) and the income for 20% of the households which exceeds \$3,000 per week is in the same order of the State average of 21.9%.

Low income and supported individuals and families find it difficult to enter the private rental market. When the minimum weekly rent exceeds the target of 30% of their household income, it is unlikely they can avoid financial stress. Details from ABS (2021 census) recorded that 72% of households in Diamantina have rental charges of less than 30% of their total income, and there are no households with rental costs greater than the 30% indicator of rental stress. Consequently, this lower proportion of lower income households, may be reflected in the lower demand social housing stock.

The State manage eight (8) dwellings for social housing in Birdsville and Wurrari manage three (3) social houses in Birdsville. There is currently no registered demand for social housing in the Diamantina local government area.

Response opportunities

- Council and State Government continue to monitor the demand for social housing in the Diamantina Shire.

4. Aged Housing and Care

Council rents houses in Bedourie and Birdsville to aged pensioners. It also assists with maintenance of the yards and building. The median age in Diamantina is only 39 years and there are only nine (9) persons above the age of 70 years that reside in the Shire.

There is a void between aged pensioners living alone in private housing and the opportunity to downsize into community housing. Many local governments have attempted to fill this gap through the supply of aged pensioner accommodation. However, at times these facilities are required to accommodate essential government employees due to the lack of availability of standard accommodation. Diamantina Shire has provided some dwellings targeting aged needs however, recent employee housing demand has meant some of these are rented to other persons.

While Council has assumed the role of aged care support in the community in the void of other housing support, it is one additional service it has taken on which places additional cost in servicing the community. Clarification of roles in the supply of aged care needs to be resolved.

Anecdotal evidence suggests that government home care packages are providing extended home living for the aged which reduces the demand for special aged-care facilities. Inclusion of the outcome of home care on aged-care housing demand could be part of a local review, if not already completed by the Federal Government. The difficulty in providing this support in remote communities will need further investigation.

Response opportunities

- Review aged housing and care provision in the region and the linkage to the effectiveness of the stay-at-home strategy delivered through home care packages.
- Assess the role of local government in the provision of aged pensioner housing and its impact on Council resources.

5. Employee Housing

To engage worthy employee candidates in rural and remote areas, employers prioritise attraction and retention incentives such as housing. However, housing stock is limited in these regions, and the standards do not match accommodation expectations from where potential employees are relocating. Relocating employee families away from more populated areas creates stress within the family unit, therefore availability of a good standard of housing assists in the transition and performance of employees.

Diamantina Shire Council supplies 39 dwellings in Bedourie and nine (9) dwellings in Birdsville for subsidised rental for employees. Council is in the process of adding another four (4) dwellings to its housing stock for employees in Birdsville.

The trend of single employees is growing, and this reduces the number of family houses available. A mix of multi bedroom detached houses and units would address the imbalance of use of houses available for families.

Council has a considerable additional cost to service delivery than eastern states by having to supply employee housing. Remote local governments have previously raised concerns of this substantial cost impost to these communities as they need to divert funds from service provision to supply employee housing. These capital, maintenance, and depreciation expenses add an ongoing financial demand to already struggling local governments.

The State Government supplies housing for its employees under the Government Employee Housing arrangement (GEH). GEH provides a range of housing types for government employees such as police, health, and education. They include permanent housing, temporary housing and shared accommodation located on site, such as medical employee accommodation on hospital grounds and police accommodation on station sites. GEH has provided housing details in each of the towns. There are only two (2) dwellings located in Birdsville, however GEH have indicated that one (1) extra dwelling is required in Birdsville.

Response opportunities

- Consideration of employee housing for single accommodation in managed shared arrangements to allow general access for families requiring three or more-bedroom houses.

6. Cohort Specific Housing

The following cohort-specific housing has been identified as an issue to be addressed in housing configurations within towns of the region:

- Domestic and family violence
- Disability
- Youth homelessness
- Family homelessness
- Sleeping rough.

There is no specific evidence for the demand of housing for the above-mentioned cohorts, and there is no current provision for such housing. However, Council does own two (2) 2-bedroom units for disabled persons.

Response opportunities

- Investigation to be conducted into crisis housing for the cohorts of domestic and family violence and homeless persons to identify the need for such housing.
- Evidence of the extent of family and youth homelessness that results in couch surfing and overcrowding should be qualified to assess social housing demand estimates.
- Supply needs for disability housing be addressed through detailed assessment demand.
- Council to investigate opportunities in the Federal Government National Housing and Homelessness Plan.

7. Future Housing Demand

While no specific future housing demand was identified, tourism will continue to grow and impact on housing demand. Council's economic development strategies will provide input to future housing needs through the ongoing assessment of the proposed actions in this plan.

Response Opportunities:

- Council's housing and development plans to be linked to its economic development strategies.

Response Opportunities

A local housing action plan enables engagement across all levels of government, and benefits from partnerships between private and not-for-profit organisations.

An initial set of tactical actions has been developed, enabling refinement through an ongoing iterative process. These actions provide for a targeted response and outcomes that will seek to either create immediate benefit or establish a foundation for the next phase of actions. More specific responses can then be determined that provide flexibility in delivery and support each of the broad areas identified.

Actions

The Diamantina Shire Council with the support of the Queensland Government through the Queensland Housing and Homelessness Action Plan 2021-2025 is committed to engaging in the delivery of its initial Local Housing Action Plan through this set of actions, developed to target immediate to longer term housing responses. This is an iterative process, and these actions and target outcomes will seek to either create immediate benefit or to establish foundations that help respond to ongoing housing needs.

1	Land and Development	Timeline Starting in March 2023 (months)
1.1	Conduct a detailed assessment of current residential land and buildings to support immediate development of temporary housing provision including repurposing of existing buildings to address the present housing crisis.	6
1.2	Review land holdings to identify lots that would be suitable to support short and longer-term housing outcomes.	12-24
1.3	Develop a Property Management Strategy and incorporate into Council's ten-year financial plan for investment.	6-12

2	Planning	
2.1	Undertake a Shire Housing Needs Assessment (HNA) to inform planning work for housing provision demands across the region for all housing sectors.	12
2.2	Review Shire and local planning schemes to meet housing needs objectives while acknowledging the town character, through review of local density aspirations, opportunities for secondary dwellings on existing blocks, mixed use development options, repurposing unused commercial space, types of construction permitted, and any other specific initiatives to address future housing needs.	24
2.3	Prepare a draft Shire Council Housing Strategy with targeted action for the next 10 years in consultation with the community, informed by other policy settings such as environmental management, infrastructure and servicing, transport, and economic development and social outcomes.	12
2.4	Council's housing and development plans to be linked to its economic development strategies.	Ongoing

3	Optimisation	
3.1	Based on assessment of underutilised land, buildings and housing needs assessment. Council and State Government to investigate and coordinate options for development of under-utilised sites in partnership with the not-for-profit sector, private sector (including employer housing providers), and Federal Government assistance where available.	12
3.2	Assess use of land sale/purchase involving long-term lease exchange, new for old land exchange, redevelopment, change of use or renovation of existing buildings to optimise community outcomes that support housing needs that will maximise the use of existing infrastructure.	24
3.3	Investigate the current rental supply market and current unoccupied dwellings for identification of opportunities to bring additional “hidden” rental supply into the market.	12

4	Master planning	
4.1	Consider master planning of identified options to ensure resilient development meets community expectation of how town development acknowledges its heritage. Planning may be at allotment, street, or locality level.	24
4.2	Investigate master planning of the provision of future residential housing development sites, particularly addressing the provision of infrastructure.	24

5	Supports	
5.1	State Government and Council consider additional actions to support and address age pensioner housing needs for the local community in Shire towns.	12
5.2	Investigate what Federal Government programs/funding/incentives are available that encourage and assist local youth to take on trades in the local building industry.	12
5.3	Jointly promote with other local governments, State and Federal Governments’ provision of financial assistance for rural and remote LGA’s to support delivery of employee housing to reduce the financial burden on communities in funding these additional costs of service delivery by obtaining equitable access to essential services.	24
5.4	State Government to ensure there is sufficient housing of an acceptable standard in rural and remote local government areas for State Government agency and service staff to minimise the impact to general housing markets.	5 years
5.5	Lobby State and Federal Governments to consider financial options to remove inequity in both rural and remote areas to access finance for house ownership.	24
5.6	Lobby the Federal Government to allow first home buyers in rural and remote areas to access the First Home Buyers grant.	12

6	People in need	
---	----------------	--

6.1	Consider how Specialist Disability Accommodation (SDA) can be incorporated into existing properties where required, and for future developments.	12-24
6.2	Undertake a detailed needs assessment to determine necessary actions in response to domestic and family violence situations for any specific identified cohorts such as young people, rough sleepers, individuals, and households; with the view to providing immediate support regarding crisis housing on a temporary or more permanent basis.	12
6.3	Undertake an assessment of aged housing demand and resolve institutional roles of aged pensioner housing delivery in addition to accessing local social housing priority.	24
6.4	State Government to review the allocation of social housing applications for small and remote areas with limited health and transport access to ensure that priorities for local community needs are addressed.	12

7	Construction	
7.1	Identify opportunities to enable housing construction in private market and social housing including the use of non-traditional housing options in response to emergent need. However, in the longer-term the built form needs to be reflective of the traditional housing character in the towns, while using more sustainable and resilient materials.	12-24
7.2	Encourage housing development which may repurpose existing commercial properties for specific cohorts to address emerging needs.	12

8	Capital solutions	
8.1	Develop capital solutions in partnership with State and Federal Governments through land provision and funding partnerships to construct and manage delivery of current and future housing needs.	24
8.2	Investigate options for developing low deposit and interest free periods for house construction to encourage housing investment on existing local government residential land.	12
8.3	Develop funding partnerships with not-for-profit social housing providers to deliver short term outcomes for specific cohorts in the interim with longer term plans being incorporated in the arrangements.	24
8.4	Engage with private landowners and developers with land opportunities to maximise use of existing underutilised serviced land without having to develop high-cost green field sites thus promoting a gradual improvement of the housing stock quality	24

Next steps

Establish a Local Housing Action Plan (LHAP) working group of key representatives from Council, selected State Government agencies, and community representatives to oversee and progress actions, review findings, report quarterly and develop and test next steps in an open partnership to resolve the housing crisis and progress towards sustainable and resilient communities.

12.4.1

Directorate:	Executive Manager
Date:	11/09/2024
To:	Ordinary Council Meeting
Author:	Executive Manager
Authorising Officer:	Scott Mason, Interim Chief Executive Officer
File Reference:	IX

OFFICER RECOMMENDATION

That Council receive the Executive Manager's report regarding the upcoming community-based auctions, and that those matters not covered by resolution be noted.

ATTACHMENTS

Draft Public Notice

OPERATIONAL UPDATE

Community Based Auctions

Diamantina Shire Council (DSC) is coordinating two community-based auctions to clear surplus Plant, Fleet and Chattels.

Following a quotation process that identified three potential providers, and consultation with Council at the August Ordinary Meeting, City and Country Realty in Mt Isa was selected as the preferred auctioneer. John Tully will lead the process and is currently working with the Executive Manager on a Marketing Plan.

The auctions will occur on Friday 25 October in Bedourie and Saturday 26 October in Birdsville, commencing at 8.00am in each location.

Council is offering the local community, businesses and stations to participate in the auctions. Public Notices will be released week ending 13 September. A social media campaign is also being developed to promote the auctions.

Residents will be encouraged to participate and use the opportunity to tidy up the towns by removing old vehicles and goods that could be auctioned. Council will assist residents by organising collection and transportation of their goods to the auction site.

As part of the preparation for the auctions Council has cleaned up the Bedourie Industrial Depot and has commenced consolidating auctions items.

The Bedourie Stores team have conducted a full audit and stocktake of stock on hand and identified a significant number of store items that are no longer required. These are currently being consolidated and catalogued and will be added to the auction items.

Current Council Inventory

1 x Prime Mover and Triple Road Train Side Tippers (can be sold as a complete unit or separated)

2 x 140 CAT Graders

4 x Hilux Utes

Selection of trailers

Use Scraper and Grader tyres

Miscellaneous - storage tanks/small machinery/racking/grids

Surplus office equipment – large format printer etc.

Surplus Stores inventory – superseded parts, used parts, fittings and accessories that are no longer required.

SUSTAINABLY DEVELOPING THE OUTBACK

PUBLIC NOTICE

Community Auctions

Diamantina Shire Council (DSC) is conducting two (2) community auctions, in Bedourie 25 October 2024 and Birdsville 26 October 2024, commencing at 8.00am at the Shire Depots in each town. Council will be auctioning surplus used Plant, Fleet, Light Vehicles, Trailers, Parts and Stores items.

The community, local businesses and stations are encouraged to participate in the auctions by offering auctions good for sale. Council is covering the cost of conducting the auctions and there are no seller's commissions to pay. Buyer's premiums only will be applied to items sold.

Council will assist community members, where possible, to relocate items to each auction. Auction goods will need to be in place two (2) days prior to commencement of the auction.

For more information, please contact DSC Executive Manager Brent Reeman on 0428 197 177.

 # Attendance to be confirmed

Safety and Wellness

- ELT Safety Meeting 16.8.24
 - Commitment to advancing safety maturity from borderline reactive/dependant to borderline dependant/independent

- Safety included on every ELT Meeting agenda from 16.8.24
- Safety Representative Training from 10 to 13 August, 2024
- Due Diligence Training for ELT scheduled for 30.9.24
- Sky Trust Safety Management Training for ELT scheduled for 30.9.24
- Progress has been made in responding to 5 outcomes identified through Quality Review
- Progress has been made in responding to 3 recommendations from recent Safety Review
- Next Safety Committee Meeting is scheduled for 9 September, 2024
- A regime of regular training is currently being developed for people leaders within the organisation

Risk Management

- Risk Management Framework adopted by Council 19.8.24
- Strategic Risk Management identification to be undertaken by ELT during September, 2024

2024 Chairs and Co-ordinators Meeting

The Queensland Water Regional Alliance Program (QWRAP) Annual Chairs and Co-ordinators Meeting was held at Eagle Farm, Brisbane on Wednesday, 21 August 2024.

Attendance

- Far North Queensland Regional Organisation of Councils
 - o Ms Amanda Hancock, Regional Strategic Infrastructure Coordinator
- Remote Area Planning and Development Board Water and Sewerage Alliance
 - o Mr Andre Pretorious, Director of Works, Longreach Regional Council
 - o Mr Matt Brennan, George Bourne and Associates, Regional Coordinator
- South West Queensland Water & Sewage Alliance
 - o Mr Matt Brennan, George Bourne and Associates, Regional Coordinator
 - o George Inocentes, South West Queensland Chair, Bulloo Shire Council
- North West Queensland Water Regional Alliance Program
 - o Mr Stephen Jewell, Director Infrastructure Services, Mt Isa City Council
 - o Mr Matt Brennan, George Bourne and Associates, Regional Coordinator
- Wide Bay-Burnett Urban Water Alliance
 - o Mr Shaun Johnson, Water and Waste Water Manager, North Burnett Regional Council
 - o Mr Col Hester, Regional Coordinator
- Central Queensland
 - o Mr Gopi Palayam, Manager Water and Wastewater Operations, Gladstone Regional Council and proxy for Mr Mark Francis, Chairman
 - o Scott Mason, Regional Coordinator
- North Queensland
 - o Mr Jeff Mallard, Regional Coordinator
 - o Mr Joe Galea, Chairman, Charters Towers Regional Council
- Whitsunday Mackay Isaac Alliance
 - o Mr Michael Gallagher, Principal Engineer for Water and Waste, Whitsunday Regional Council
 - o Ms Lee-Anne Willis, Learning and Development Coordinator, WIW Coordinator
 - o Ms Janice Wilson, Regional Coordinator
- Downs Urban Water Technical Group
 - o Graham Sweetlove, Southern Downs Regional Council
- Local Government Association of Queensland (LGAQ)
 - o Mr Gary Fenwick
- Queensland Water (qldwater)
 - o Mr David Wiskar, Director, QWRAP
 - o Dr Georgina Davis, Chief Executive Officer
 - o Mr Neil Holmes, Skills Partnership Manager
 - o Ms Louise Reeves, Major Programs Lead
 - o Ms Jess Dean, Project Manager, Data and Environment
 - o Ms Desire Gralton, Manager Communications

- Department of Regional Development, Manufacturing and Water (DRDMW)
 - o Ms Michelle Bordignon, Water Resource Management
 - o Ms Helen Dawson, Senior Policy Officer, Water Resource Management
 - o Ms Steph Hogan, Executive Director, Strategic Water Initiatives
 - o Ms Ellie Crase, A/Director, Strategic Urban Water Funding, Strategic Water Initiatives
- Communications consultants
 - o WK Digital
 - Amanda Rodgers
 - o New Word Order
 - Suzanne Oxford

Welcome

Mr David Wiskar welcomed all in attendance and thanked everyone for their contributions over the past year. He noted that it takes extra effort to build regional partnerships, and this discretionary effort was recognised.

David performed a Welcome to Country, and in doing so he acknowledged the accomplishments of Thelma Green and her son, Dr Ken Green and Alex Wiskar, who is Ken's Grandson and David's Son!

In performing the Welcome to Country, David challenged us to really embrace, understand and seek out our First Nations history, as it is highly likely that the Census data for Australia, 'under reflects' our actual heritage, due to many First Australians not acknowledging their history in order to make their way in the world, at a time when it was more difficult to be proud of ones heritage.

This was followed by a summary of the agenda ahead for the day.

QWRAP Program Update

Mr Fenwick provided an update on the QWRAP Program

- Brief update on the LGAQ, which was formed in 1896 and which currently has 77 member councils
- QWRAP
 - o QWRAP is an industry-led initiative to investigate regional collaboration on water and sewerage services in regional Queensland. The program is a collaboration among the LGAQ, **qldwater**, the Queensland Government, through the Department of Regional Development, Manufacturing and Water (DRDMW, previously the Department of Natural Resources, Mines and Energy) and over 60 participating councils. It provides a formal opportunity for councils to consider collaboration and alternative regional arrangements for managing services. (<https://qldwater.com.au/qwrap>)
- Governance structure
 - o Working Group representatives
 - Ms Michelle Bordignon, DRDMW
 - Mr David Wiskar, qldwater
 - Gary Fenwick, LGAQ
 - o Partner Steering Committee, which meets monthly and which review projects >\$50,000
 - Steph Hogan, Executive Director, Strategic Water Initiatives, DRDMW

- Georgina Davis, CEO, qldwater
 - Sarah Vogler, Head of Advocacy, LGAQ
- Projects
 - o 2023/24
 - Cash - \$1,230,410.89
 - Bid Pool Grant Funding - \$655,572.40
 - o 2024/25
 - Bid Pool - \$760,000
 - Regional Coordinators - \$315,000
 - Bid Pool remaining - \$672,895
- To continue with an existing Regional Coordinator (or to engage a new one)
 - o Complete the QWRAP Regional Coordinator Funding Request template
 - o Endorse the Annual Work Plan
 - o Submit in the QWRAP Portal
 - o Invoice for Funding
- Bid Pool project management
 - o What is known
 - Committee members and their teams are busy in their fulltime positions
 - o Project Outcomes
 - Projects can experience delays, deliverables not achieved
 - o Proposed Solution
 - Bid pool proposals including a resourcing plan and request funding for a technician, project manager or engineer as required

Skills Discussion

- HR/IR Toolkit
 - o <https://qldwater.com.au/water-workforce-toolbox-hr>
- Micro -Credentials
 - o Fluoridation for Operators
 - o Practical Implications for DWQMPS (Drinking Water Quality Management Plans)
 - o Water Quality Data
 - o Fluoridation for Regulators
 - 28 August (Group 1)
 - 29 August (Group 2)
 - 10 September (Group 3)
 - Duration – 6.5 hours
 - Location – Brisbane
 - Places available – 15 per group
 - o SCADA (Supervisory Control And Data Acquisition) Introduction
 - 4 & 5 September (Group 3)
 - Duration – 16 hours (2 days)
 - Location – Brisbane
 - Places available – 12
- Non Certified Training
 - o Chemistry
 - o Monitoring
 - o Fluid Flow
 - o Calculations
 - o Isolation
- Balmoral Skills Report (prepared for qldwater in May, 2024)

- o Key finding – The absence of mandatory training requirements, lack of centralised and standardised recordkeeping for skills training, and difficulty in accessing industry funding have led to critical training gaps, despite the crucial role that skilled operators and engineers play in ensuring safe drinking water and effective environmental risk management
 - Refer attached summary document
 - o 7 x Key Barriers and Drivers
 - Adapting to technological advances: Integrating modern technologies into water industry training
 - Attracting talent in an ageing workforce
 - Overcoming financial barriers to accessing training
 - Unpredictable and Indeterminate training demand
 - Facilitating flexible accreditation
 - Dispersion of industry and small service providers
 - Culturally appropriate training/tailored training approaches
 - o https://qldwater.com.au/workforce_composition_snapshot_reports
- Skills Partnership
 - o Chair of the Water Skills Partnership Group – Ms Amber Robinson, Central Highlands Regional Council
 - o 2022 Snapshot Report - https://qldwater.com.au/workforce_composition_snapshot_reports
- Digital Water Skills Partnership
 - o Signature programs
 - Introduction to Water Industry
 - Aqua Card
 - Brown Card
 - Green Card
- Industry Skills Advisors (ISA's)
 - o Engage with employers, small business and industry stakeholders
 - o 11 x ISA's across all sectors of industry, connected through Industry Engagement Managers (IEM's)
 - Ms Cass Cowley, Water Sector IEM, DESBT (Department of Employment, Small Business and Training)
- Queensland Water Industry Reference Group
 - o Chair of the QWIRG is Mr Trevor Dean, Fraser Coast Regional Council
- Jobs and Skills Councils
 - o https://qldwater.com.au/workforce_composition_snapshot_reports

Facilitated Workshop to develop a road map and future investment priorities for water skills projects, across the QWRAP Program

In two groups, the barriers/challenges and solutions were identified to the following questions:

- Recruitment and retention
- Skills and training

The results of the workshop will be pulled together and distributed. This was a beneficial process and it has identified some excellent solutions.

One (of many) excellent ideas, was to utilise the risk framework withing DWQMP's to inform discussions and decision-making at the councillor and senior management level within councils.

Regional updates and Future priorities

Each of the 9 groups provided their presentations, which focussed upon greatest achievements, the year's activities, future plans and concern areas.

Portal update

- Key priority is to raise the profile of QWRAP as an industry-driven initiative
- Supported by DRDMW's Innovation and Research Priorities Fund
- A 'one-stop-shop'
- Consistent messaging
- Streamlining of bid pool applications
- Resources
 - o Brand guidelines
 - o Comms plan on a page
 - o About QWRAP slide deck
 - o Blog posts/articles
 - o Templates
 - o Photo's (SmugMug)
 - o Water Workforce Toolbox
- Next steps
 - o Meet with Coordinators
 - o QWRAP Village
 - o Refine and improve

Brand, engagement and communicating guidelines

- 2 versions of the logo – shortform (amongst group); and longform (acronym expanded) for everything else
- Logo reflects the different colours of water and different colours of regions
 - o Sizes of the elements reflects the various sizes of regions
 - o And, it's a 'Q'! (and accidentally, a Southern Cross windmill head)
- Icon can be used 'sparingly' as a design element
- Don't reverse it, change the typography, don't touch it
- Colour palette – very clearly defined
- Brand font is 'Outfit'
 - o Substitute is Arial
- Nature of partnership – two versions have been created, which include partner logo's
 - o Short version, for when space is limited
 - o Long version, for everything else
- Letterhead has been created
- Roller banner versions have been created
- Canva-friendly versions have been created, too
- Email signatures and/or email banners are available for all to use – will be available in the toolkit, soon

Engaging and communicating 101

- Consistency and strong visuals, build trust
- 'Push' and 'Pull' Communications
 - o Push – pushing the message out
 - o Pull – what do I put on my social media or email signature

- A hierarchy of how to use the tools, will be developed
- ***It was identified that an overarching communications strategy is missing***
 - o ***This will be actioned by the Partner Steering Committee***
 - o This is important, because different regions and councils have different protocols and expectations
- Every regional alliance is only as strong as the relationships that form it
- Striking the right balance between engaging and communicating with the right stakeholders will help you strengthen yours
 - o Engagement is active
 - It looks like meetings, workshops, events and collaboration
 - o Communication is passive
 - It looks like publications, newsletters, media stories and emails
- Engagement and increasing the impact on the decision (public participation goals and promise to the public)
 - o Inform
 - o Consult
 - o Involve
 - o Collaborate
 - o Empower
- Stakeholder mapping
 - o Identify
 - o Determine level of interest and level of influence
- Stakeholder planning
 - o 12-month calendar
 - Email
 - Monthly
 - 1:1 Meeting
 - Bi-monthly
 - Case Study
 - Annually
 - LinkedIn
 - Fortnightly
 - Project Steering Committee will support
 - Media Release
 - Quarterly
 - Project Steering Committee will support
 - Alliance Event
 - Annually
- Key messages
 - o 9 x key messages have been developed
- Match how you write to the brand
- Communication channels
 - o Think more broadly how you can get the message out
 - Owned
 - Earned
 - Paid
- A list of appropriate hashtags and handles was requested to assist with content generation

The Portal

- Success stories
- Bid pool applications area

- o Will facilitate joint completion of bid pool applications for streamlined submission processes
 - o Will permit tracking
 - o Admin, Regional Coordinators, Contributor, Reviewers, etc.
- Documents library
- Shared Calendar to create events, thus creating visibility to the entire group
 - o Integration with Microsoft is a possibility (not available at present)
- Profile area
- Feedback on the portal demonstration was provided, which will enable some refinement and further testing
- One on one sessions will be undertaken with all Regional Coordinators, which will include a trial bid pool funding lodgement exercise

Urban Water Update

- Excellent, strong and extensive engagement
 - o 33 interviews held with service provider staff
 - o 67 site visits by Arup/DRDMW
 - o 100+ meetings or workshops with stakeholders
 - o 87% of service providers were engaged directly
 - o 273 survey and questionnaire responses
 - o 94% First Nations providers engaged
- Assessment activity
 - o 264 water security assessments
 - o 67 DWQMP reviews
 - o 67 service delivery assessments
 - o 250+ reports/plans/assessment reviewed
 - o 273 water quality assessments
 - o 45 waste water continuity assessments
- Risk assessment framework
 - o Water quality
 - o Water security
 - o Wastewater continuity
 - o Service delivery
- The work continues...
 - o Validation work is taking place at present
 - o The work is complex
 - o Issues and risks have certainly been identified
 - Prioritisation will be undertaken
 - o Follow up engagement with service providers post final validation and caretaker period prior to 2024 Queensland State Government election
- Supporting our councils
 - o QWRAP
 - o Building our Regions (projects being finalised)
 - o Works for Queensland
 - o Local Government Grants Subsidies Program
 - o Targeted urgent shovel-ready funding requests
 - Mount Morgan
 - Toowoomba to Warwick
 - Douglas
 - Longreach
 - Cairns
 - Others
 - o Guidance to position for shovel-ready

o Regional Water Assessments

Forum closure

- Dr Davis thanked all for travelling and for making time to participate in the Annual Forum.
- This work will shape future strategy and assist qldwater to support its members councils and the QWQAP regions.

Reference documents

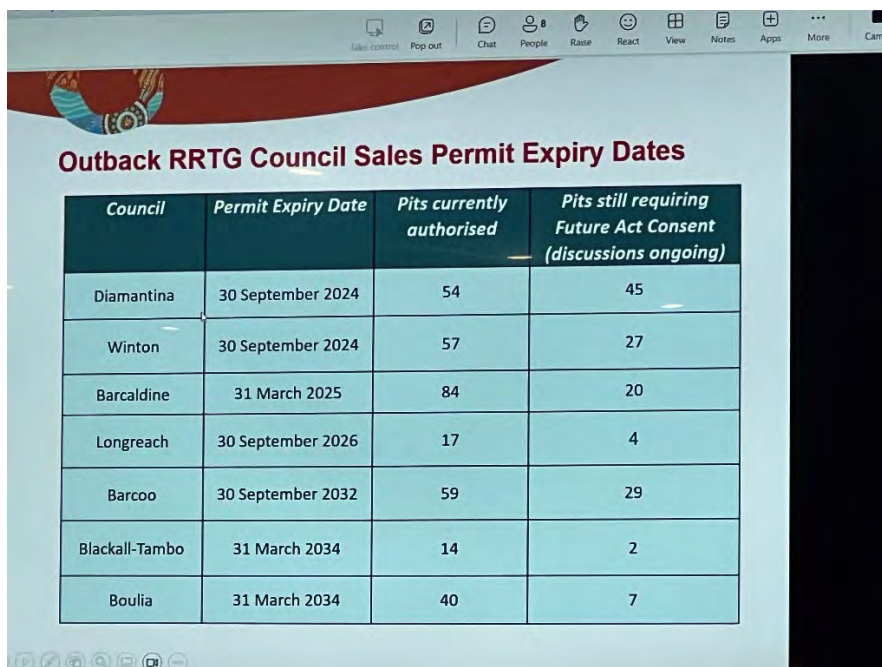

1. Agenda
2. Queensland Water Skills Survey 2024

Outback Regional Roads and Transport Group Meeting held at Longreach on Tuesday, 27 August 2024 at the Birdcage Hotel Board Room

- *This Meeting was Chaired by Mayor Cr Francis Murray*
- *Diamantina Shire Council was represented by Cr Murray and Acting CEO Scott Mason*

Key points

- Quarry permits and native title – Diamantina has 54 pits currently authorised on its sales permit, which expires 30 September, 2024. At present, 45 pits require Future Act Consent.

Council	Permit Expiry Date	Pits currently authorised	Pits still requiring Future Act Consent (discussions ongoing)
Diamantina	30 September 2024	54	45
Winton	30 September 2024	57	27
Barcaldine	31 March 2025	84	20
Longreach	30 September 2026	17	4
Barcoo	30 September 2032	59	29
Blackall-Tambo	31 March 2034	14	2
Boulia	31 March 2034	40	7

Group / Registered Native Title Body Corporate (RNTBC)	Sales Permit pits (qty)	Extension sought for pits (qty)	New pits (qty)	Notes on Native Title (NT)
Mithaka Aboriginal Corporation (MAC) RNTBC	31	31	12	Requires Interim NT Agreement.
Mulligan River Aboriginal Corporation (MRAC) RNTBC	2	2	4	Requires Interim NT Agreement.
Wangkangurru Yarluyandi Aboriginal Corporation (WYAC) RNTBC	10	10	2	2 Adria Downs pits still not endorsed.
Pitta Pitta Aboriginal Corporation (PPAC) RNTBC	3	3	5	Requires Interim NT Agreement.
Maiawali People	6	6	6	No NT Determination, hence Interim NT Agreement / ILUA can't be reached.
Maiawali & Karuwali	0	0	3	
No claim area	2	2	0	
Total	54	54	32	

Table: The current situation for Diamantina Shire Council

- A decision was made to push for a two-year extension, via interim agreements, to current sales permits (to September, 2026) to allow for negotiations and assessments to occur
- The LGAQ Annual Conference will be held October, 2024, which will include the Roads and Transport Forum
- Funding opportunity – Heavy Vehicle Rest Areas Initiative - [Heavy Vehicle Rest Areas initiative now open for applications | Department of Infrastructure, Transport, Regional Development, Communications and the Arts](#)
- Water way barrier works – acceptable guidelines are being reviewed and submissions close 24 September, 2024
- Of the \$6,272,686 Transport Infrastructure Development Scheme (TIDS) funding allocation for 2024/25, as at July 31, 2024 \$654,229 or 10% has been expended
- \$83M was expended in the Central District of the Department of Transport and Main Roads (TMR) for 2023/24, which was \$1M over budget
- \$95M funding has been included for the Central District of TMR
- Barcoo inquired about funding for the Farrer's Channels section of the Bedourie-Windorah Road
- Funding for the missing link (15.7 kilometres) between Bedourie and Birdsville is the current TMR and ORR&TG priority
 - o TIDS allocation is \$2.6M
 - o Remaining pave and seal length is subject to a business case, which will be complete by the end of the 2024 calendar year
 - o The 6km floodway section of the Cuttaburra, will be subject to additional analysis, expected to be complete by Quarter 1, 2024, but definitely by the middle of 2024. This will include a process for input by the Diamantina Shire Council
- TMR Central District has collaborated with the North West District on safety improvements to the hilly sections from Mount Guide northward toward Mt Isa. As a

safety initiative, call point signage will be installed for trucks and travellers to announce their movement status.

- The Roadworks Hierarchy and Investment Strategy Prioritisation model was re-visited. The intention is for each member to have 1 x Priority 1 road, 2 x Priority 2 roads and 3 x Priority 3 roads, with the exception that roads where members may jointly support a particular road, then exceedances are permitted.
- The reflectivity material being used for road signs was discovered to generally be of a higher standard to meet the minimum reflectivity class after a 12-year warranty period. A suggestion is to review the reflectivity specifications and/or the warranty period. Correspondence will be issued to the technical standards
- Efforts are underway to announce a tourist loop between Longreach, Muttaborra, Aramac and Barcaldine as the 'Vaughan Johnson Way'.

The next meeting will be held 26 November, 2024 at Brisbane. The TMR Minister and Director-General will be invited to this meeting.

Central Western Queensland Remote Area Planning and Development Board (RAPAD)
Water and Sewerage Alliance Meeting held at Longreach on Tuesday, 27 August 2024 at
the Birdcage Hotel Board Room

- *This Meeting was Chaired by Mayor Cr Sally O'Neil*
- *Diamantina Shire Council was represented by Cr Murray and Acting CEO Scott Mason*

Key points

- QWRAP (Queensland Water Regional Alliance Program) update by the Local Government Association of Queensland (LGAQ)
 - o The RAPAD group has participated in 32 projects since its formation in 2011
 - o Working group comprises Department of Regional Development, Manufacturing and Water (RDMW), Queensland Water (qldwater) and the LGAQ
 - Michelle Bordignon, David Wiskar and Gary Fenwick
 - The Working Group meets fortnightly
 - It considers funding applications up to \$50K
 - o The Partner Steering Committee comprises RDMW, qldwater and LGAQ
 - Steph Hogan, Dr Georgina Davis and Sarah Vogler
 - o The LGAQ Annual Conference will be held October, 2024, which will include a QWRAP booth and representation from the QWRAP Working Group
 - A PFAS (poly-fluoroalkyl substances) motion has been proposed for consideration of delegates
- qldwater Update
 - o A new website will be launched soon
 - o Election manifesto released
 - Managing emerging contaminants
 - Local government are the receivers of PFAS waste
 - For more information on chemical concoctions - [Home - Chemical Concoctions](#)
 - The cost to local government of not controlling PFAS at the source is significant

RAPADWSA Strategic Group Quarterly Meeting

12:38

Cost to qld Local Government of not controlling PFAS at source

WWTP Size	EP	Urban Utilities		Queensland	
		WWTPS (n)	Average Capital Investment Required	WWTPS (n)	Capital Investment Required
Small	<5000	16	\$19 million	102	1.9 billion
Medium	5k-50k	6	\$69 million	63	4.3 billion
Large	>50,000	6	\$367 million	19	7.0 billion
TOTALS		28	-	184	13.2 billion

Table 2: Summary first approximation of costs to remove PFAS from the liquid stream at 184 Queensland WWTPs.

Planning Level Estimates developed by Urban Utilities and qldwater

Note: In addition to capital costs as above Urban Utilities have estimated an additional \$145 M in OPEX per year.

- An Emerging Contaminants Workshop will be held at Townsville from 21 to 22 November, 2024
 - Significant investment in essential water services is requested
 - Sunwater raw water pricing
 - o Some grant opportunities have closed soon, which indicate some announcements may be made prior to the Queensland State Government election caretaker period
 - August 9 – Local Government Grants and Subsidies Program
 - August 9 – Women in Industry Skills Grant
 - August 9 – Grow your Own Skills Grant – Round 3
 - Projects
 - o Asset Data Collection Project
 - Costs have escalated
 - The data has not been provided to the Alliance
 - The matter has become legal
 - o Annual Sewer Rehabilitation Program
 - o Reservoir Cleaning
 - On some occasions radiation readings have exceeded safe human diver tolerances. This is due to the quantity of third-party co-location of antenna equipment.
 - It was reasoned that a potential risk to council employees that work near such infrastructure could exist due to radiation levels
 - o Water Mains Air Scouring
 - o Water meters
 - A smart meter trial is taking place at Winton Shire Council
 - o Manhole and pump station assessment and rehabilitation
 - o Bore head closed circuit television (CCTV) assessments
 - o Sewer re-lining and CCTV inspections
 - o Infrastructure Cliff project
 - o Review and update of Water Security Plans
 - Training
 - o Certificate III in Water Industry Operators
 - Strategic Plan and Strategies
 - o To be condensed by the Regional Coordinator and tabled for feedback September, 2024
 - Memorandum of Understanding and Constitution
 - o Endorsed by Alliance

- Funding opportunities
 - o National Water Grid Investment Framework
 - Projects will be progressed by the Technical Group
 - o Works for Queensland \$300M program - [2024-27 Works for Queensland Program | Local government](#)

The next meeting will be held at Brisbane on 26 November, 2024.

Central West Regional Pest Management Group Leadership Group Meeting held at Longreach on Tuesday, 27 August 2024 at the Birdcage Hotel Board Room

- *This Meeting was Chaired by Mayor Cr Rick Britton*
- *Diamantina Shire Council was represented by Cr Murray and Acting CEO Scott Mason*

Key points

- Feral Pig Coordinator
 - o The RAPAD (Remote Area Planning and Development Board) application was unsuccessful
 - o 5 x Coordinators have been approved across the state with Desert Channels Queensland (Natural Resource Management Group) being successful with a 0.5 FTE (Full Time Equivalent) position, which will be based at Longreach
- Sticky Florestina
 - o Councils were encouraged to identify Sticky Florestina as a declared local plant pest under their respective Community and Environment Management Local Law
- Stock Route Management Working Group
 - o Nil to report
- Local Government Association of Queensland (LGAQ) Update
 - o Draft Invasive Plant and Animal Pest Strategy will be presented to State Government for sign off soon
 - Will include formal recognition of regional pest management groups, which will achieve good resourcing and consultation outcomes
 - o Co-Investment Model review
 - Developed 2014
 - Guides, through a collaborative framework, the expenditure strategy for the Land Protection Fund
 - A Working Group will be established to undertake this review
 - Will exclude the wild dog barrier fence
 - Will include the locust pest contingency fund
 - To be delivered in the 2025/26 year
 - o A Benefit-Cost analysis will be undertaken on the wild dog barrier fence
 - Queensland Treasury unwilling to contribute additional funding
 - Some councils believe the operational maintenance expenditure should be provided for from the Land Protection Fund
 - Will incorporate a review of cluster fencing
 - o Election Platform
 - Will be released mid-September, 2024
 - State Government to fund 100% of barrier fence
 - Fund regional pest management groups – \$14M for next 4 years to enable regional decision-making

- Advocacy partnership with AgForce and the Queensland Farmers Federation
- o Stock Route Management Group
 - RAPAD is represented by Mayor Cr Rick Britton of Boulia Shire Council and Mr Mike Lollback, CEO, Blackall-Tambo Regional Council
 - Safety risks associated with travelling stock is a key focus area
- o Funding
 - Queensland Feral Pig Initiative – applications close mid-September, 2024
 - Feral Pig Research Funding EOIs - \$1M program
 - Flying Fox Management Grants
- o 1080 Baiting Programs
 - Review of deed and authority to sign forms has been undertaken
 - Templates are accessible via 'Congruent' platform for local government councillors
- o Stock Route Management Plans
 - Councils encouraged to update plans and to incorporate public consultation within the process
- Disaster Preparedness Plans
 - o DCQ (Desert Channels Queensland) have shared the draft Biodiversity and Agricultural Natural Asset Emergency Preparedness & Response Plan. This project is funded by the Australian Government Natural Heritage Trust and delivered by Desert Channels Queensland.
 - o The plan outlines proposed actions for preparedness, response and recovery actions for biodiversity and agricultural assets with the aim of reducing the impacts associated with catastrophic natural disasters within the region. In recent times, there has been a growing need to enhance preparedness for natural disasters and their impact on biodiversity and agricultural and natural assets within the Desert Channels Region.
 - o Key features of the plan include:
 - Identification and mapping of biodiversity and agricultural assets;
 - Analysis of extreme weather events and natural disaster susceptibility data;
 - Preparedness, response, and recovery actions tailored to each asset; and
 - Integration with regional planning documents and lessons learned from recent environmental disasters.
 - o Councils were encouraged to review this document and provide feedback prior to the September deadline to DCQ
- Longreach Regional Council plan to address the 'Smart Weed' problem, which is prolific in the Thomson River catchment and impacting on the urban water supply
 - o *Persicaria lapathifolia* (POLYGONACEAE) Pale Smartweed, Curlytop Knotweed
 - [Persicaria lapathifolia \(POLYGONACEAE\) Pale Smartweed, Curlytop Knotweed - Save Our Waterways Now \(sown.com.au\)](https://www.sown.com.au/Persicaria-lapathifolia-POLYGONACEAE-Pale-Smartweed-Curlytop-Knotweed-Save-Our-Waterways-Now)
- Diamantina Shire Council sought advice on the most effective treatment regime for Bull Rushes

The next meeting will be held at Brisbane on 26 November, 2024. Mr Graham Bolton, Director-General, Department of Agriculture and Fisheries will be invited as a delegate to this meeting.

Central West Remote Area Planning and Development (RAPAD) Board Meeting held at Longreach on Tuesday, 27 August 2024 at the Birdcage Hotel Board Room

- *This Meeting was Chaired by Mayor Cr Tony Rayner*
- *Diamantina Shire Council was represented by Cr Murray and Acting CEO Scott Mason*

Key points

- Gratitude was expressed to Directors for attending the inaugural CUC (Country Universities Centre) RAPAD Meeting at the Longreach Pastoral College on 26 November, 2024
 - o CUCRAPAD is a separate initiative to RAPAD
 - o It is envisaged that monthly meetings will initially occur
 - o The work undertaken by all involved in this success, especially by David Arnold and Morgan Gronold was recognised by the Board
 - o The next CUCRAPAD meeting may occur on Thursday morning, 28 November, 2024 at Brisbane
- Wind up of Western Queensland Local Government Association
 - o The majority of RAPAD-member councils have determined to keep the funds (circa \$7,500 each) for application to future RAPAD initiatives, such as joint submissions
- Security and governance
 - o Enhancements to the 'Box' platform will be made to ensure RAPAD manages potential cyber security threats
- The Friends of RAPAD networking event will be held at Brisbane on Wednesday evening, 27 November, 2024
- Local Government Association of Queensland (LGAQ) Update (refer attachment)
 - o Regional Telecommunications Review
 - o Glencore CTSCo Carbon Capture Project
 - Moratorium on all carbon capture projects in Queensland
 - o Environmental Protection Act 1994 – a number of significant amendments have been made
 - Polluter pays
 - Precautionary Principle
 - Duty to restore provision
 - Environmental Enforcement Orders
 - o School Transport Infrastructure Program
 - Closes 31 October, 2024
 - \$500,000 cap
 - 50:50 contribution
 - o Grow your Own Regional Workforce Funding – Round 3
 - Closed 9 August, 2024
 - o Review of Animal Management (Cats and Dogs) Act
 - Taskforce met 6 August, 2024 and a number of recommendations made
- Meeting protocols
 - o Changes to the regime of acknowledging country will be considered
- RAPAD Power Grid (RPG)
 - o John and Joseph O'Brien of VisIR Pty Ltd attended the meeting
 - o [RAPAD Power Grid](#)
 - o A uniquely integrated energy infrastructure corridor linking Gladstone to Hughenden via the Barcaldine Renewable Energy Zone
 - o A 5.2 Gigawatt high voltage direct current transmission link with battery storage and voltage source converter

- o Interdependency between the west of Queensland and the east coast of Queensland
- o Will achieve economic uplift and create value
- o Will achieve power system security via the 'loop' created
- o Integration and connection to the Flinders Power Station at Hughenden should not present any insurmountable difficulties
- o Q&A
 - Q – With this complex and integrated energy model and periods of excess capacity, how is the hierarchy of use managed?
 - A – Via the energy market and interactions between energy generators and retailers
 - Q – With expected deceleration of the thermal coal mining industry, is there a point at which market destabilisation occurs?
 - A – No, this is determined by major coal fired energy plant upgrade decisions and Queensland is fortunate to have plants which are young in asset life
 - Q – Under different political parties and their respective preferred energy mix, does this create a project risk?
 - A – No, not necessarily
- o Rio Tinto are largest energy consumer – 80 terawatt hours per annum
- o Project is now at the project initiation stage
- o A Memorandum of Understanding will be entered into between RAPAD and VisIR

To be continued...

RAPAD Meeting (Continued)

- Continuation of Opal Mining on Vergemont Station
 - o The Queensland Boulder Opal Association were present for this part of the meeting
 - o Expansion of protected area estate is the goal of Queensland State Government
 - DESI (Department of Environment, Science and Innovation) determine properties which can make the most significant contribution to protected area estate
 - o Vergemont has 33 unique ecosystems, which did not presently exist in the protected area estate
 - o DESI are undertaking values mapping – cultural and wildlife
 - Opalton Grasswren
 - o DESI are in favour of co-existence with opal mining activity
 - o Compensation agreements are being entered into between DESI and opal miners, where displacement occurs
 - o The Department of State Resources supports the continuation of opal mining
 - Exploration to enable future mining is important to enable the growth and continuation of opal mining
 - A Restricted Area assessment is being undertaken
 - o The Boulder Opal Association are keen to ensure that the current Restricted Area is preserved for current and future mining activity as much as possible
- Georgina Diamantina Water Plan Review
 - o The Plan came into effect 2004 and expires 5 August, 2024
 - o The Plan will be extended for 3 years to 5 August, 2027 while a new plan is developed

- o The Plan regulates surface water and overland flow water at present along with hydraulically linked underground water
- o 12,000ML allocated across 5 sub catchments and 6,108 ML provided through 5 entitlements
 - Upper Diamantina
 - Lower Diamantina
 - Burke and Hamilton
 - Upper Georgina
 - Lower Georgina
- o Current unallocated water
 - 1,500 ML Strategic Reserve for projects of state significance is available
 - 12,000 ML General Reserve in 200ML lots across the 5 sub catchments
- o Feedback to date
 - Broad support for how water is currently regulated under the plan
 - Keen interest in collecting more data, to model any emerging trends against a baseline, over the life of the plan and beyond
 - Support for standardising water plan outcomes to include ecological, economic, social and cultural outcomes
 - No support for the establishment of water allocations and trading zones
 - Support to review unallocated water reserves, including to explore options for establishing an unallocated water reserve for First Nations people
- o Key policy issues
 - Creation of an Indigenous Reserve
 - Review of allocation in General and Strategic Reserves
- o It was suggested that a small allocation of water be provided for an Indigenous Reserve in small entitlements
- o Future consumptive use
 - Interest in water to expand agriculture sector and businesses in Northern part of the basin
 - Town water supply also a very important consideration
 - If water is provided, stakeholders would like access indefinitely
 - Concern from stakeholders downstream that they will need to apply for entitlements to protect their water interests if more water is taken from the top of the system
- Cooper's Creek Catchment – Minister's Report Findings
 - o https://www.rdmw.qld.gov.au/_data/assets/pdf_file/0004/1909192/cooper-creek-water-plan-minister-assessment-report.pdf
 - o Positive findings
 - Ecologically sustainable development
 - Allocation/use of water – economic, physical, social wellbeing
 - Sustain the health of ecosystems
 - Enable water resources to be obtained – fair, transparent, orderly processes
 - Build confidence – availability, security, value of entitlements
 - Promote efficient use – markets, allocation, risk assessment and education
 - Facilitate community involvement in planning
 - o Findings – more work to do
 - Recognise the interests of First Nations peoples
- Public Health Network Mental Wellbeing Program
 - o Head to Health support line – 1800 595 212

- <https://www.headtohealth.gov.au/>
 - It is recommended to view the video available on above link
- o Beyond the Dust resource
 - <https://rapad.com.au/publications/beyond-the-dust-impact-of-drought-on-town-businesses/>
- o Recommended paper
 - The role of the peer support worker is increasing rural mental health help-seeking
- Integrated Care and Commissioning service
 - o The aim is to provide better care and support services across rural and remote communities to meet local needs
 - o National Disability Insurance Scheme (NDIS) statistics for Diamantina Shire
 - <= 20 NDIS participants currently being supported
 - <\$250K in current NDIS participant spend
 - 5 providers active
 - o Aged care participants and provider statistics for Diamantina Shire
 - <= 20 people accessing aged care
 - <\$250K in current spend
 - 1 registered aged care provider

Local authority	NDIS participants	NDIS participant spend	Active NDIS providers	People accessing aged care	Aged care spend	Registered age care providers
Barcaldine	41-50	\$1,385,400	103	161-170	\$1,427,900	8
Blackall-Tambo	21-30	\$977,300	60	111-120	\$872,400	2
Barcoo	<=20	<\$250,000	11	<=20	<\$250,000	0
Longreach	61-70	\$1,826,900	163	321-330	\$7,706,400	8
Winton	<=20	\$357,100	45	71-80	\$872,700	4
Boulia	<=20	<\$250,000	31	<=20	<\$250,000	0
Diamantina	<=20	<\$250,000	5	<=20	<\$250,000	1

- Central West Health update
 - o Surplus achieved for second year in a row
 - Improvements to operational management, including recruitment
 - Optimisation of sustainable healthcare by reducing premium labour
 - Improved hospital patient revenue
 - Increased revenue from granted private practice (mostly General Practice)
 - Identification of new fee revenue streams, especially in hospital
 - o Workforce challenges
 - Isolation
 - Experience and difficulties in recruiting suitable staff
 - Shortage of nursing professionals
 - Impact on service provision
 - o Workforce solutions
 - Focus on recruitment and retention
 - Using applicant pools, leveraging conferences and social media and partnering with local government on joint media campaigns
 - Support from State Government to attract staff to rural and remote Queensland
 - Workforce Attraction Incentivisation Scheme
 - o \$70K over 2 year

- Remote Area Nursing Incentive Package
 - o Bonus annual leave
 - o Professional development
 - o Travel support
 - o Isolation bonus - \$21K over 3 years
 - Resumption of school-based trainees' program
- o Putting Queensland Health Kids First program
 - <https://www.qld.gov.au/about/putting-qld-kids-first#:~:text=The%20Putting%20Queensland%20Kids%20First%20plan%20invests%20more%20than%20%24500,at%20every%20stage%20of%20life.>
 - Multi-year statewide funding
 - An opportunity for partnership with local government
 - Priorities
 - Partnering for connected and community-led delivery
 - Wellbeing in the early years of life
 - Supporting families and strengthening communities
 - Responsive support for healthy development and positive life courses
 - Supporting confident steps through life and learning
- Member discussion
 - o I attended another meeting and was unavailable for this section
- OQTA (Outback Queensland Tourism Association) update
 - o I attended another meeting and was unavailable for this section

The next meeting will be held at Brisbane on 26 November, 2024.

Central West Area Wide Management Group Meeting held at Longreach on Wednesday, 28 August 2024 at the Birdcage Hotel Board Room

- *This Meeting was Chaired by Mayor Cr Tony Rayner*
- *Diamantina Shire Council was represented by Cr Murray and Acting CEO Scott Mason*

Key points

- Boulia Shire Council and Diamantina Shire Councils have been invited into the Central West Area Fire Management Group
- Queensland Bushfire Plan - https://www.disaster.qld.gov.au/_data/assets/pdf_file/0021/340086/QLD-Bushfire-Plan.pdf
- 7,500+ fire events since July, 2023
- 2,000 bushfire warnings issued
- The Seasonal Outlook
 - o Accumulated vegetation, beginning to cure
 - o Warmer and above average temperatures
 - o Higher than average chance of rainfall
- Diamantina raised concerns around volunteer capability with the Rural Fire Service and the State Emergency Service
- The Birdsville Race Week event will be supported by the Ilfracombe Rural Fire Service
- Most areas were struggling with lack of volunteers and recruitment
- Generally, most areas have high fuel loads

- The Lake Eyre Basin Land and Sea Rangers are willing to work with all Traditional Owner groups, stakeholders and all government agencies on land management issues
 - o They have bases at Mt Isa and at Longreach
- The Risk Management Plan was reviewed and updated
 - o This focussed on mitigation burn activity

The next meeting will be held in conjunction with the next face to face RAPAD Meeting. Typically, two Management Group Meetings are held per year.

National Flood Warning Infrastructure Network Program Workshop held at Longreach on Thursday, 28 August 2024 at the Birdcage Hotel Board Room

- *Diamantina Shire Council was represented by Cr Murray and Acting CEO Scott Mason*
- *This workshop was facilitated by the Bureau of Meteorology*
- *The purpose of this workshop is to gain an understating of council needs and requirements and to agree on an initial list of assets that councils would like the Bureau of Meteorology to acquire and remediate*

Key points

- The Bureau's Flood Warning Infrastructure Network (FWIN) program is working to simplify and remediate local government owned priority-1 flood assets
- The Bureau seeks to relieve asset owners of the requirement to own and maintain priority-1 rain and river level gauges
 - o In scope assets
 - Gauges
 - Stations
 - Telemetry
 - o Out of scope assets
 - Camera's
 - Will not turn off, however will separate energy source feed and hardware system
- The Program is starting in Queensland with the RAPAD (Remote Area Planning and Development Board) region catchments and the Queensland state government who have agreed to a cost sharing arrangement to help maintain the network
 - o Will take years to roll out
 - o Budget exists for the acquisition of 1,000 assets
 - o Will focus on 200 assets per year for the next five years
- The national budget allocation for priority-1 assets is \$236M
- Boulia Shire Council
 - o Will not transfer ownership unless the entire asset is maintained – gauge and camera
- Diamantina Shire Council
 - o Camera locations (to be confirmed)
 - Brown's Creek, Betoota
 - Stoney Crossing
 - Cuttaburra
 - Monkira
 - Farrer's Channels
 - o Diamantina River Catchment
 - 15 gauge stations will be taken over by the Bureau

- o Suggested that a local maintenance person be located in the region to assist with development of local knowledge and maintenance responsiveness
- Barcoo Shire Council
 - o Cooper's Creek Catchment
 - 6 gauge stations will be taken over by the Bureau
- Initial assessment of Priority 1 assets in the Georgina River and Eyre Creek, Diamantina River and Cooper Creek Catchments
 - o 121 Total assets
 - o 36 Council-owned priority-1 assets earmarked for acquisition
 - o 0 Remaining Council-owned priority-1 assets after acquisition – for discussion

At the next meeting of Council, a report will be presented by the Director of Infrastructure Services to provide additional information regarding the transfer of assets.

A copy of the Bureau of Meteorology presentation will be made available to councils by the Bureau soon.

Western Queensland Alliance of Councils Assembly 2024

Welcome

The Western Queensland Alliance of Councils Assembly 2024 was held at the Buchanan Park Events Complex, Mount Isa from September 4 to 5, 2024.

Diamantina Shire Council was represented by:

- Mayor Cr Francis Murray
- Cr Rob Dare
- Acting CEO Scott Mason

Mayor Cr Peta MacRae, Mayor, Mount Isa City Council welcomed all delegates to the Western Queensland Alliance of Councils Assembly, which was followed by a welcome to country by Ms Roslyn Von Senden, a representative of the Kalkadoon Prescribed Body Corporate.

A video welcome was provided by the Premier, The Hon Mr Steven Miles.

About the WQAC

Executive Officer for the North West Queensland Regional Organisation of Councils, Mr Greg Hoffman PSM, provided an update to the Assembly.

The WQAC is an alliance of three ROC's (Regional Organisation of Councils). A Memorandum of Understanding (MoU) was first signed in 2020. It was originally 21 Councils, then. The three additional councils are Croydon Shire Council, Etheridge Shire Council and Mornington Shire Council. A new MoU has been executed in 2024.

The four priorities for WQAC are:

- Housing, in all its forms
- Connectivity
- Roads

- Financial Sustainability

To find out more about the WQAC, its submissions and publications, check out the website – <https://wqac.com.au/>

State election priorities for 2024

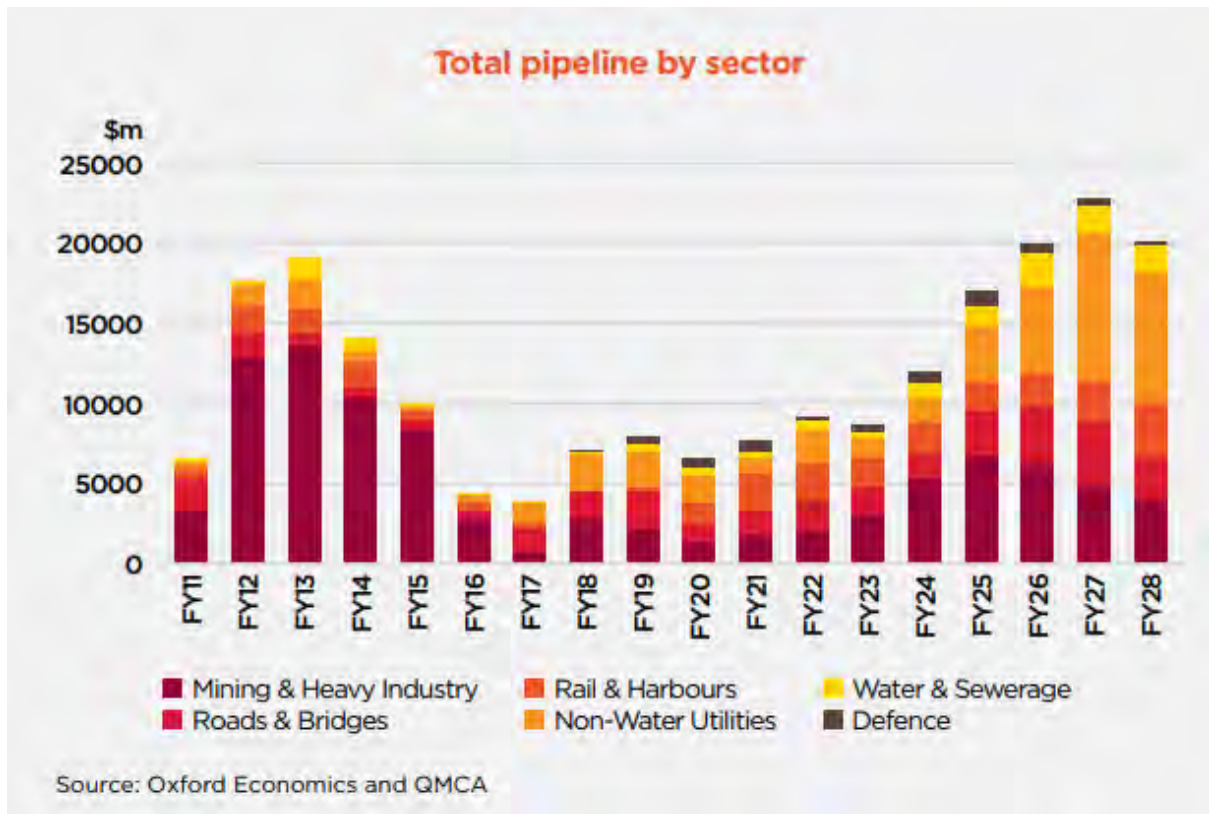

1. Strengthening regional representation
2. Jointly planning and funding future ready infrastructure
3. Collaborating to deliver better health, better housing, and better liveability outcomes
4. Resourcing councils and communities to transition to net zero emissions and develop circular economy opportunities
5. Helping manage seasonal highs and lows
6. Growing tourism, trade, and 2032 Olympic and Paralympic opportunities
7. Adopting practical grant and subsidy arrangements

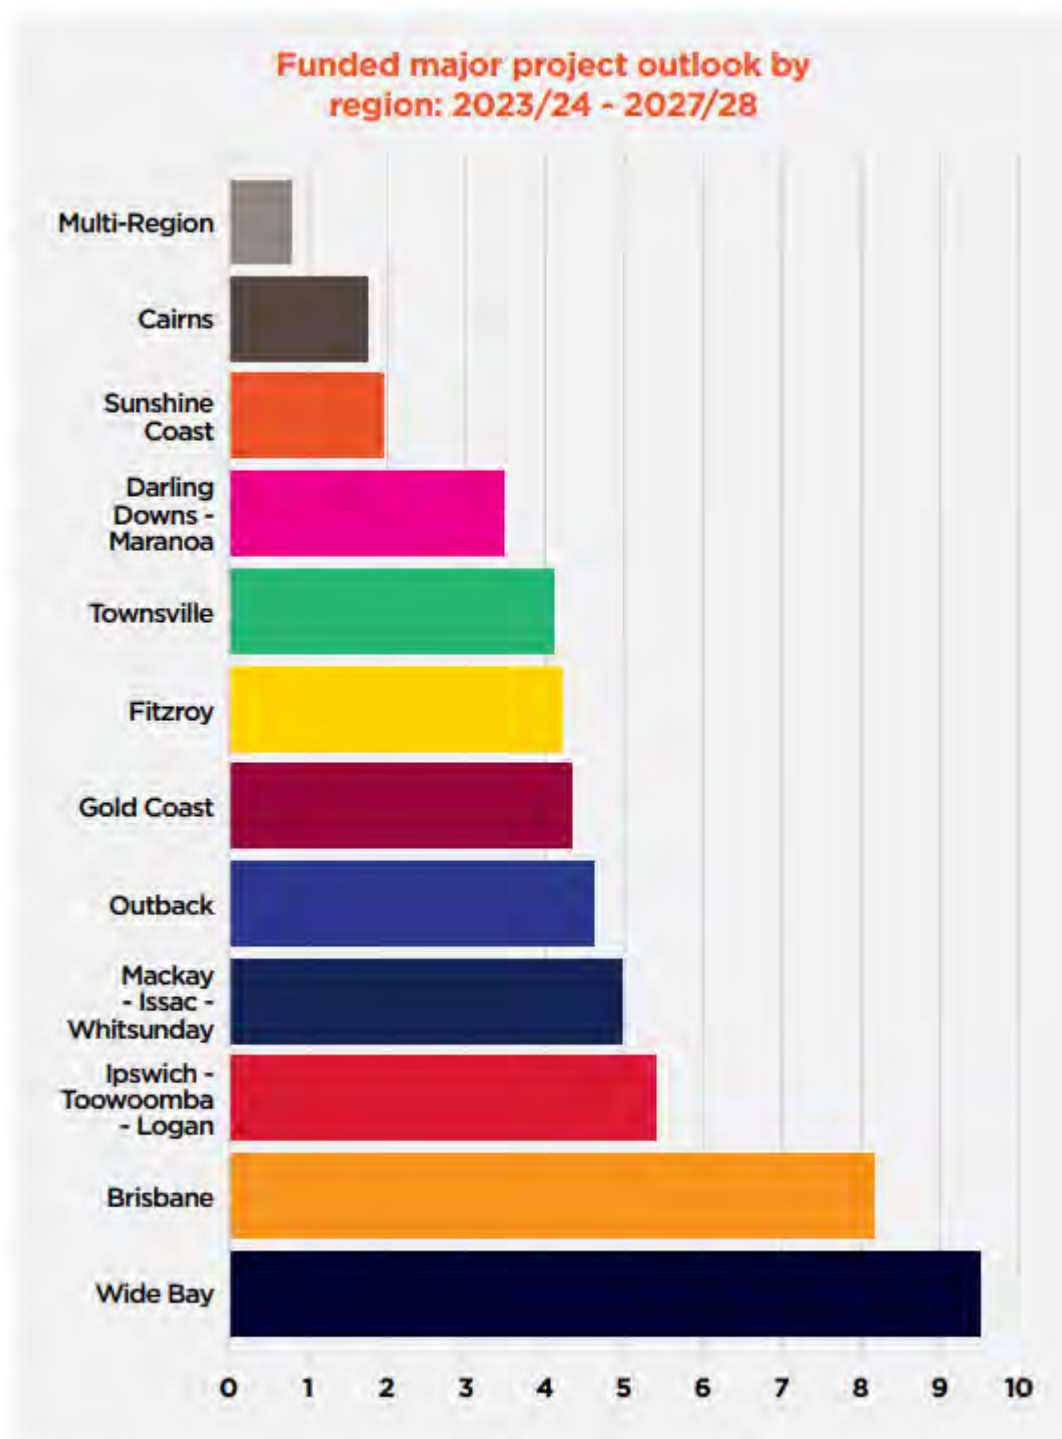

Potholes and Pitfalls: How to fix local roads by Mr Dominic Jones of the Grattan Institute

- Report - <https://grattan.edu.au/report/potholes-and-pitfalls-how-to-fix-local-roads/>
- Grants have not kept up with costs
- Maintenance expenditure on roads has grown more slowly than road use
- Local government spending on transport has grown much more slowly than other areas
- Solutions
 - o It is recommended that the Federal Government be responsible for addressing the hefty funding backlog.
 - o Greater untied grants and less tied grants
 - o Untied funding needs to be directed to where it is most needed – improved distribution
 - o Councils need to be able to improve there processes in order to be

Big Projects and Big Trucks: is our road network equipped to carry the load? By Lauren Hewitt, CEO, Queensland Transport and Logistics Council

- Major projects pipeline is growing and the energy transition underpins it
 - o Report - <https://www.csq.org.au/wp-content/uploads/2023/11/2023-QMCA-Major-Projects-Pipeline-Projects-Report-Executive-Summary.pdf>
 - Refer p3
 - o Majority of projects, in outer years, is in western and northern Queensland

Source: Oxford Economics Australia, QMCA member knowledge

- Risks
 - o Labour demand
 - o Wage and productivity growth
 - o Lack of people (headcount required)
- Opportunities
 - o Queensland Energy and Transition Plan
 - o Queensland Energy and Jobs Plan

- https://www.energyandclimate.qld.gov.au/energy/energy-jobs-plan?gad_source=1&gclid=EAlalQobChMlo4n9-LCoiAMVEYy5BR0htQTQEAAAYASAAEqJUXfD_BwE
- Challenges
 - Review of Oversize Overmass Wind Farm Arrangements
 - Report - <https://www.qtlc.com.au/wp-content/uploads/2024/01/Pastin-Report-OSOM-Windfarm.pdf>
 - Greater need for more public awareness to address safety risks
- QTLC website
 - <https://www.qtlc.com.au/>

The Outback Way

- Commenced 27 years ago
- A book has been released – From Bull Dust to Bitumen, to celebrate 25 years
- 2,700 km through the heart of Australia from Winton, Queensland to Laverton, Western Australia
- Website link - <https://www.outbackway.org.au/>

Local Government Mutual Services (LGMS)

- New three year arrange entered into with underwriters
- LGM Cyber Initiatives
 - Cyber Threat Detection Service – Critical Infrastructure Information Sharing Analysis Centre (CI-ISAC)
 - Key control reports process
 - Cyber/Information Security Management System Policy Guideline
 - Cyber Incident Response Policy Guideline

Decarbonising Regional Development – Creating an Investment Pipeline for WQAC's Future by Professor Allan Dale, James Cook University

- Decarbonisation must facilitate regional development while protecting key natural and cultural assets
 - Queensland's regions are committed to a decarbonised economy, but it needs to deliver genuine regional development
 - Effective (bilateral) planning and support for this at all scales (ie what is needed and where) would create a stronger investment pipeline
 - Integrated bio-regional planning is needed to avoid conflict between investment in the community, environment and Traditional Owners
 - This also has major implications of REZ/water planning, regional land use and infrastructure plans and current reform of the Commonwealth EPBC Act
- Transition support is needed at different levels
 - Business and household
 - Business and household scale transitions
 - Community
 - Local Government, Towns and Traditional Owner support for transitions
 - Neighbourhood-scale transitions
 - Regions
 - Land use and infrastructure planning

- Energy and water development planning aligned to REZ's
 - Regional research needs to underpin all of this as units anchored in regions
- o Industry
 - Industry sector support, eg tourism, agriculture, mining
- o Workforce
 - Preparing new workforces and institutional capacities
- Copperstring 2032
 - o 19 different aboriginal parties involved across network from Mount Isa to Townsville
- Emerging priorities for WQAC
 - o Getting the foundations for regional/bioregional planning right
 - o Coordination of project-based social and economic impacts
 - o Post-Bradfield – integration of energy and water planning
 - o ROC/Local Government support for community scale transition
 - o Long term support for business and household transition
 - o Technologies for rural and remote transitions
 - o Cross-regional integration and resilient transport network
- Emerging next steps for cooperation
 - o Post Forum completion of the coming Decarbonisation Hub Policy Paper on these issues through direct feedback from DEC
 - o Working with DEC/NZA to explore cross-agency needs and implications arising from recommendations at each level
 - o Growing the RECoE/WQAC relationship for advocacy/research
 - o Exploring the opportunities for genuine regional partnerships between the Decarb units, the State and the Commonwealth to support decarbonised regional development
- Website - <https://www.decarb-hub.org/>

LGAQ Update by Mayor Cr Matt Burnett, Acting President, LGAQ

- Cr Burnett spoke about the LGAQ advocacy effort being pursued to support every community to be a liveable one
- Priorities - <https://www.lgaq.asn.au/news/article/1507/state-political-leaders-put-on-notice-with-community-priorities-report-card>

The Patchwork Quilt of Connectivity in Western Queensland by Mr Darrin Bond, General Manager, Customer and Digital Strategy, Queensland Government Customer and Digital Group – Queensland Department of Transport and Main Roads and Mr Jay Sindorff, Executive Director – Strategic Policy and Digital Economy, Queensland Government Customer and Digital Group

- Our Thriving Digital Future – 2023 to 2026
 - o <https://www.qld.gov.au/about/how-government-works/strategies-and-initiatives/digital-economy-strategy/action-plan>
- Drivers for change
 - o Absence of data
 - o Accountability
 - o Affordability
 - o Lack of strategic coordination
 - o Performance
 - o Reliability

- Western Queensland Alliance of Councils Digital Plan
 - o https://treasury.gov.au/sites/default/files/2022-03/258735_western_queensland_alliance_of_councils_supporting_document_2.pdf
- Australian Energy Market Operator
 - o <https://aemo.com.au/energy-systems/major-publications/integrated-system-plan-isp>
- Next steps
 - o Pilot plan will be advanced
 - o Partnership meeting between QGCDG and WQAC late September, 2024
 - Co-design scope
 - Create shared ambitions and objectives
 - Discuss contributions and timing
 - Discuss funding opportunities

How the Australian Government will enable Western Queensland to be future ready – Senator the Hon Anthony Chisholm, Assistant Minister for Education, Assistant Minister for Regional Development and Assistant Minister for Agriculture, Fisheries and Forestry

- General and overall update
- Aviation White Paper
 - o <https://www.infrastructure.gov.au/infrastructure-transport-vehicles/aviation/aviation-white-paper>
 - o 56 recommendations
- Senator Chisolm offered to speak with Minister Tanya Plibersek in relation to disallowing carbon capture in the Great Artesian Basin

Future proofing Western Queensland Health

WQAC Health Review by Mr David Arnold, CEO, RAPAD

- Review publication - <https://wqac.com.au/regional-health-review>
- Where do the findings point?
 - o Chronic diseases are a leading cause of illness, disability, and death in Australia
 - o Coronary heart disease is the leading cause of death in Western Queensland
 - o Diabetes is most prevalent in the North West region
 - o Multimorbidity rates (one or more chronic conditions) are higher in Western Queensland
 - o Modifiable risk factors
 - o Cancer is a leading cause of illness in Australia
 - o Mental Health
 - o Australia's health workforce working across and range of settings, is critical to health and wellbeing
 - o Maternal Health
 - o Disability Care
- Advocacy
 - o Establishment of a regional Health Equity Forum
 - o Increased investment
 - o Medicare changes
 - o Aged care service innovation to help keep older people in their communities
 - o Community, social, emotional and mental well-being

- o Leadership and coordination between care providers to improve regional disability services
- o Dementia-Friendly Communities program
- o New models for rural and remote medical training
- o Increase certainty on health provider funding
- o Expansion of virtual care to improve outcomes
- o National Agreement on Closing the Gap
- o Opportunities for partnerships between health service providers and WQAC, ROC's and council attraction
- o Establishment of more Country University Centres
- o Development of resources to raise local government health literacy
- o Social prescribing
- o Development of quality metrics to capture data
- o Support and promote community ownership and participation in individual health care journeys
- Local Government and its ability to influence positive outcomes
 - o Liveability
 - o Community health
 - o Welcoming communities
 - o Healthy workforce
- Recommendations
 - o Establish a Health Equity Forum
 - o Improved data collection, coordination, innovative options, greater efficiency in spending
 - o Set a target for the reduction of the current disease burden faced by residents of Western Queensland

Office of Rural and Remote Health, Queensland Health update by Ms Elisha McGuiness

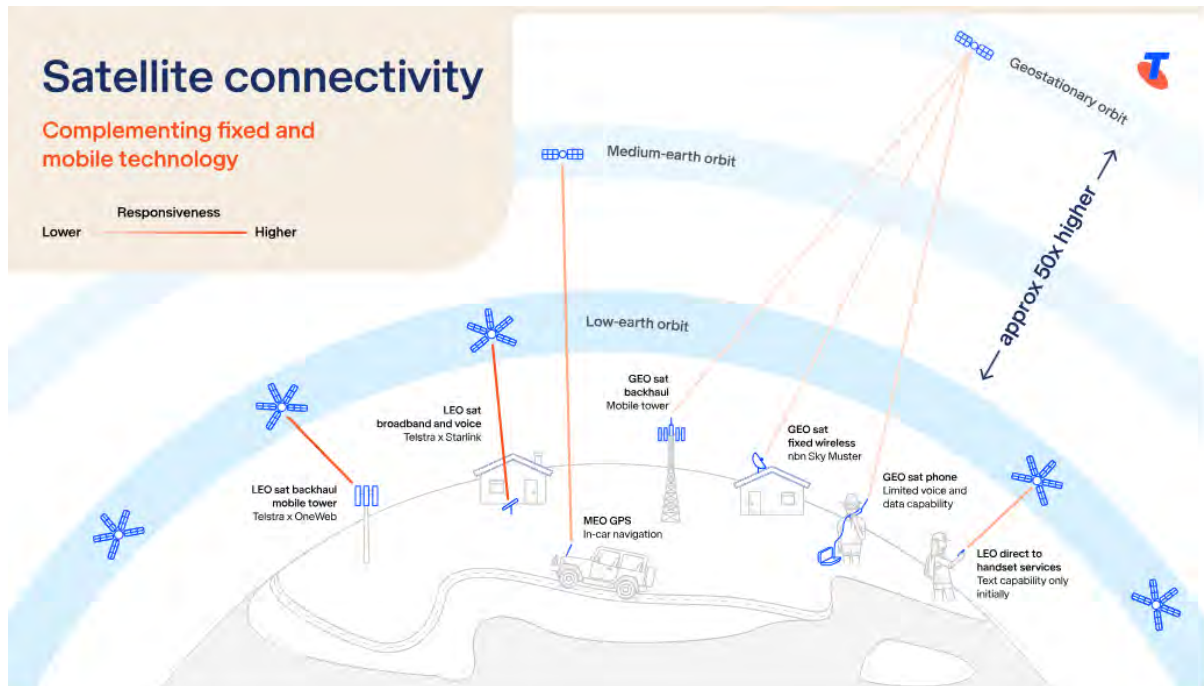

- The Queensland-Commonwealth Partnership
 - o The Queensland-Commonwealth Partnership (QCP) brings together partners from across Queensland's health system to tackle system challenges that cannot be overcome by any one organisation.
 - o The partnership includes partners from:
 - Queensland Primary Health Networks
 - the Queensland Aboriginal and Islander Health Council,
 - Aboriginal and Torres Strait Islander Community-Controlled Health Organisations,
 - the Commonwealth Department of Health and Aged Care,
 - the Queensland Department of Health,
 - Hospital and Health Services,
 - Health Consumers Queensland, and
 - health consumers.

Sandy Gillies, CEO, Western Queensland PHN

- Healthy Outback Communities model was promoted
 - o Commences with a Pit Stop model
 - o Virtual Wellbeing Hub assessment
 - o Western corridor region chosen as a pilot
 - Trying to prove the case for change as being the HOC
- Believes a new funding model is required

Telstra update by Rachel Cliffe

- For iPhone 14 or later models, you can text 000 if in a non-coverage area
- Text '3' to 3498 to check the status of your mobile device and the 3G planned cessation
- For information about Low Earth Orbit (LEO) -
<https://www.telstra.com.au/exchange/what-are-leo-satellites-and-how-do-they-work-->

Is our Water Infrastructure future ready?

Mr David Wiskar, Director of the Queensland Water Regional Alliance Program, Queensland Water

- Do we have effective funding arrangement in place to support essential services?
- Do we understand urban water risks and our pathway to manage them?
- How close is the infrastructure cliff and are we risking tipping over the edge?
- Energy Transition – can we manage our energy transition and water security (The Hydrogen and Pumped Hydro Q)?
- Is the current organisational structure if how we manage water infrastructure optimal to create thriving regions?
- How do we provide water security for our regions and our mining and agricultural industries?

Initiatives

- Mount Isa City Council
 - Pursuit of the formation of NW Water -
- Longreach Regional Council
 - Unlocking western Queensland's water resources will enable transformative growth
 - 60% of water plans remain unallocated surface and ground water
 - 2,527 additional FTE jobs in the region (45% increase)
 - \$91M additional tax revenue generated every year
 - 0.3% of water in Lake Eyre catchments is allocated, developed catchments are 20%+

- \$368M potential growth in regional economy (36% GRP increase)
 - 37% increase in regions population (10,721 to 14,581)
- South West Queensland Water and Sewerage Alliance
 - o Infrastructure Strategy Project
 - Aims to understand and improve water and sewerage networks in its member councils. This includes assessing water and sewerage quality and infrastructure. The main goal is to create a regional strategy to address ageing infrastructure issues, maintain compliance and forward plan based on asset criticality, condition and risk.
 - Enhance the sustainability of water and wastewater services and assets in the SWQWSA communities
 - Inform and address current and future infra need of all member councils
 - Facilitate collaborative regional initiatives and joint projects among local government bodies, enabling cost-sharing and cost-saving measures
 - o A copy of this presentation will be sourced

Housing Current and Future Communities by Mr Shayne Jessiman, Director and General Manager, Contour 3D

- Three-dimensional printing of houses is possible
- The cost is approximately 25-30% of the cost of a conventional dwelling

Department of Housing, Local Government, Planning and Public Works by Mr Josh Hannan, Deputy Director-General

- Culture of the WQAC is that of being solutions focussed, which is not common
- Funding announcements will be made soon for the Local Government Grants and Subsidies Program

Housing presentations

- Mr Greg Hoffman PSM

A Net Zero Future – Will Western Queensland Perish or Prosper?

Queensland Government's approach to co-existence by growing both resources and renewables by Mr Warwick Agnew, Director-General, Queensland Department of Resources

- \$315M Queensland Critical Minerals Strategy - <https://www.industry.gov.au/publications/critical-minerals-strategy-2023-2030>
 - o Move faster, smarter
 - o Maximise investment
 - A common user facility will be constructed at Townsville
 - o Build value chains
 - Pit to product
 - o Foster research and environmental social and governance (ESG) excellence
- A common user facility will be constructed at Townsville
- \$75 M Critical Minerals Zones
 - o Julia Creek/Richmond
 - o Mount Isa/Cloncurry
- National Reconstruction Fund

- o <https://www.nrf.gov.au/>
- o \$15BN fund to support resources, transport, medical science, defence capability, renewables and low emission technologies, agriculture, forestry and fisheries and enabling capabilities

RAPAD US Mission 2024

- Purpose
 - o Better understand and investigate returns for rural communities
 - o Strengthen social and economic engagement between regions
 - o Connect and exchange international best practice knowledge
- Learnings
 - o Real economic benefit is being returned to rural and remote communities
 - o Texas offers a model for development which will allow RAPAD to emulate and learn from
 - o Such developments do diversify rural and remote communities economies away from the weather by developing additional economic income streams
 - o Landholders and communities need to proactively ensure the best outcomes when dealing with developers, especially regarding issues like decommissioning of sites
 - o Communities and councils must ensure they are ready for development. Be prepared to maximise this opportunity by ensuring residential and industrial planning is well underway to make best use of the opportunity
 - o Whilst such investment in energy infrastructure will assist rural communities diversify their economies it is not a silver bullet to long-term issues like depopulation
 - o It can help by providing a 'third leg' to the stool by adding to, not replacing, existing industries (agriculture and tourism)
- Success looks like
 - o Economic uplift for the region long term, not just a 'sugar hit' of construction
 - o A more diversified economy that builds on our existing industries
 - o Genuine community benefit from developed 'rules of engagement' with developers
 - o A reinforced grid delivering more reliable power
- An MoU has been signed between Sweetwater Enterprise for Economic Development, Texas and RAPAD
- RAPAD Power Grid - <https://www.rapadpowergrid.com.au/>
