Lismore City Council

Quarterly Budget Review Statement
for the period 01/10/2021 to 31/12/2021

Responsible Accounting Officer's Statement

The following statement is made in accordance with Clause 203(2) of the Local Government (General) Regulations 2005: 31 December 2021.

The Quarterly Budget Review Statement for Lismore City Council for the quarter ended 31/12/2021 indicates that Council's projected financial position at 30/06/2022 will be satisfactory at year end, having regard to the projected estimates of income and expenditure as contained in the original adopted budget forecast.

Council's Net Operating Result before Capital Grants and Contributions indicates that Council is using more resources than it is generating in income. The Operating Deficit before Capital Grants & Contributions is considered unsustainable and action should be taken to correct as part of the development of Council's Long Term Financial Plan.

Long-Term Financial Plan

Consistent with the requirements of the Integrated Planning and Reporting Framework, Council has been working to finalise a Long Term Financial Plan setting out Council's projected income and expenditure across a 10 year time horizon.

In response to this, a number of immediate remediation actions, together with a series of longer-term strategic options, have been proposed and are being reviewed for viability and prioritisation in order to address this funding gap. This work is ongoing, with the intention to finalise a viable Long Term Financial Plan for adoption with the 2022/23 Operational Plan in June.

In regards to the statement on Contracts and Consultancy, the content is based on information provided at the time of preparing the December 2021 Quarterly Budget Review Statement. No assessment of the accuracy of this information was undertaken.

Signed: _____

	Current Projection Indicator 21/22	Original Indicator 21/22	Prior Period 20/21
--	---	--------------------------------	-----------------------

(\$000's)

The Council monitors the following Key Performance Indicators:

1. Operating Performance Ratio

Total continuing Operating revenue (excl Capital Grants & Contributions) - Operating Expenses (excluding loss on sale of assets and associates)

Total continuing Operating revenues

-14.37 %

-14.30 %

-9.93 %

This ratio measures a Council's achievement of containing operating expenditure within operating revenue.

Benchmark is greater than 0%

December 2021 - Unfavourable

2. Own Source Operating Revenue Ratio

Total continuing operating revenue (excl all Grants & Cont.)

Total continuing operating revenue

58.6 %

66.3 %

64.4 %

This ratio measures Council's fiscal flexibility. It measures a council's reliance on external funding sources such as operating grants and contributions. Council's financial flexibility improves the higher the level of its own source of revenue.

Benchmark is greater than 60%

December 2021 - Unfavourable

3. Unrestricted current ratio*Estimated*

Current assets less all external restrictions

Current liabilities less specific purpose liabilities

1.45

1.45

1.84

The 'unrestricted current ratio' represents a council's ability to meet short-term obligations as they fall due. Restrictions placed on various funding sources (e.g. Section 7.11 developer contributions) exclude these funds from being used in day to day operations.

Benchmark is greater than 1.5x

December 2021 - Unfavourable

Budget review for the quarter ended 31 December 2021

(\$000's)	Current Projection Indicator 21/22	Original Indicator 21/22	Prior Period 20/21
4. Debt Service Cover Ratio			
Operating Result before capital excluding int & depn	2.35 : 1	2.37 : 1	3.04 : 1
Principal Repayments and Borrowing Costs			
This ratio measures the availability of operating cash to service debt including interest, principal and lease payments.			
Benchmark is greater than 2. December 2021 - Favourable			
5. Rates, Annual Charges, Interest & Extra Charges Outstanding Percentage			
Rates, Annual and Extra Charges Outstanding	9.69 %	9.69 %	9.36 %
Rates, Annual and Extra Charges Collectible			
This ratio is to assess the impact of uncollected rates and annual charges on liquidity and the adequacy of recovery efforts. This percentage is based on the amount outstanding as a percentage of the amount to be collected for rates and annual charges for the current year and outstanding from previous years.			
The ratio will decline as Council moves towards the financial year end and rates instalments are due and paid.			
Benchmark is less than 10%. December 2021 - Favourable			
6. Cash Expense Ratio			
Current year's cash and cash equivalent plus all term deposits	5.58	5.58	13.33
Payments form cashflow of operating and financing activities			
The liquidity ratio indicates the number of months a council can continue paying for its immediate expenses without additional cash inflow.			
The ratio is reported on a consolidated basis and does not separate between restricted and unrestricted funds.			
Benchmark is greater than 3x December 2021 - Favourable

7. Building & Infrastructure Renewals Ratio			
Asset Renewals (Building and Infrastructure)			
Depreciation, Amortisation & Impairment	89.4 %	89.4 %	76.9 %

Benchmark is greater than 100%. December 2021 - Unfavourable

This ratio is being reviewed as there is more work required to classify expenses between renewals and additions. To assess the rate at which these assets are being renewed against the rate at which they are depreciated. The ratio is a snap shot of what is expected to be spent on renewals for the 2019/209 year only. The final ratio may be impacted due to delays in completion of budgeted works as a result of weather or realignment of priorities as a result of additional grant funding from the RMS.
