Pricing Policy

The intent of the Pricing Policy is to disclose to all stakeholders the rationale behind the fee established for any Council product or service including:

- the true cost of providing a product or service;
- the extent to which the user or person benefits from the product or service and therefore the extent that the cost of the product or service will be subsidised from rate revenue. i.e. the public component or community service obligation;
- the extent to which the user or person benefiting from the product or service, will be asked to contribute to the cost or its provision. i.e. the user contribution; and
- strategies for moving the current fee to the position determined by the policy, i.e. the target cost recovery.

The underlying principle of the Pricing Policy is that the role of property rates and general purpose income will be to finance the public good component of services and attend community service obligations, and the users will be called upon to finance the cost of producing goods and services from which they derive a benefit.

The Pricing Policy, details the above elements for every product or service supplied by Council, and can be viewed on Council's website.

In accordance with the Pricing Policy, a review of the current level of pricing for fees and charges has determined that all base Fees and Charges will not increase for 2022/23.

Goods & Services Tax (GST)

The following schedule of fees and charges has been prepared using the most current GST information. Fees and charges with GST included are shown where appropriate.

Y = Deemed to be taxable and fees/charges include GST

N = Deemed to be non-taxable and fees/charges exclude GST

Pricing Categories

Council has classified the Fees and Charges in this booklet under the following categories.

(Z) - Zero Cost Recovery

This good/service is provided at no cost. The costs are met entirely from property rates and general purpose income.

(M) - Minimal Cost Recovery

The price for this good/service is set to make a small (less than 50%) contribution towards the operating costs, both direct and indirect, or providing the good/service. The remainder of the costs are met from property rates and general purpose income.

(P) - Partial Cost Recovery

The price for this good/service is set to make a significant (more than 50%) contribution towards the operating costs, both direct and indirect, or providing the good/service. The remainder of the costs are met from property rates and general purpose income.

(F) - Full Cost Recovery

The price for this good/service is set to recover the total operating costs, both direct and indirect, or providing the good/service. Indirect costs are to include taxation equivalent payments, where applicable, in accordance with the principles of National Competition Policy.

(L) - Regulatory

The price for this good/service is a statutory charge set by government regulations. These charges may change during the year as legislation is updated. The amounts in this document are indicative of the legislation at the time of printing.

(R) - Reference Price

The price for this good/service is set by reference to prices charged for similar goods/services by like councils or competitors.

Factors taken into account in determining fees and charges include:

- the cost of providing the service or good;
- Local Government Regulations;
- Market conditions and prices; and
- Whether or not there is a community service obligation.

DISCLAIMER

a) The General Manager and Executive Directors reserve the right to alter fees and charges included in this booklet where that person is of the opinion that it is reasonable to do so.

b) While all care is taken to reflect current regulatory charges, they are subject to change by Legislation. The timing of legislative changes is outside the control of Council.

Tier 3 – Lismore CBD (modest Capital Improvements on Footpath or Road Reserve)	M	N	To be negotiated on application with regard to investment, scale, impact and maintenance obligations	
Tier 4 – Lismore CBD (Significant Capital Improvements and/or Impact on Carparking or Footpath)	M	N	To be negotiated on application with regard to investment, scale, impact and maintenance obligations	

Road Closing/Transfer

Note: This is not to be used for Crown road closure as Councils cannot close non-Council roads. Applications to close Crown roads are to be lodged directly with the NSW Department of Industry – Land & Water.

Stage 1 – Council public road closure application: undertake preliminary investigations (non-refundable)	F	Y	\$432.00	\$432.00
--	---	---	----------	----------

Note: Site investigation may be required by various Council officers at hourly rate or listed inspection fee.

Stage 2 – Council public road closure application: statutory advertising, dealing with submissions and report to Council (non-refundable)	F	Y	\$858.00	\$858.00
---	---	---	----------	----------

Note: There is no guarantee road closures will be approved.

Stage 3 – Council public road closure application: finalising survey, legal documents and preparing road closure notice for Government Gazette	F	Y	\$322.00	\$322.00
--	---	---	----------	----------

Note: Applicant will be required to pay all of Council's costs including Council, legal, survey and statutory advertising fees in order to have the Council public road closed.

Note: When an unconstructed Council public road is closed, it becomes vested in the Crown as Crown land. Council's dealing with the now Crown land ends as Councils are not able to facilitate the sale of Crown land. In this scenario, the Applicant should discuss compensation matters directly with the NSW Department of Industry – Lands & Water.

Note: When a constructed Council public road is closed, it remains vested in Council as Council land. The Applicant will be required to pay all of Council's costs including legal and valuation costs as well as the agreed compensation. The Applicant will also be required to pay survey costs to consolidate the closed road with their own land upon transfer.

Crown Road transfer to Council administration	F	Y	\$385.00	\$385.00
---	---	---	----------	----------

Road Naming/Locality Boundary Changes/Address Changes

Application / Assessment / Administration Fee	P	N	\$634.00	\$634.00
Street Sign (sign, bracket and post) and Installation	F	Y	\$432.00 + labour costs

Notice published in newspaper (Local Matters/Northern Star) or NSW Government Gazette	F	Y		At cost
As required under the Roads Act 1993, Crown Land Management Act 2016 or Local Government Act 1993				

Name	Code	GST	Year 21/22 Fee (incl. GST)	Year 22/23 Fee (incl. GST)
------	------	-----	----------------------------------	----------------------------------

Partnerships, Planning & Engagement

Built Environment

The fees and charges for Development & Compliance applications are composed of statutory fees, or fees that are charged in an effort to recover the cost of providing the actual service. With the introduction of electronic lodgement processes in 2017, Council will prepare an invoice for your application once it is received electronically. Applications are deemed to be lodged when the invoiced fee is paid. Where the cost of processing an individual application significantly exceeds the original application fee paid, Council reserves the right to recover the additional costs incurred by Council (including additional inspections that have been required) through the issue of a further invoice for the extra work at the adopted rate below for professional services.

In the schedule below, the 'base rate' has been calculated to include components of administration, record keeping, site inspection/verification, professional review and final sign off.

Professional Service Fee

(e.g confirming compliance with approved plans or conditions or consent, Section 7.11 Levy quotes, compliance cost recovery/notices) (requiring search of records, analysis of information, written response): e.g existing/continuing use, zoning or consent history, permissible uses explanation, purchase information, fire safety advice and upgrade reports, food safety reports, on-site reports, review of vegetation management plans and reports, access reports and advice and the like

\$274.00 base rate (initial minimum charge) then additional \$274 per hour plus any costs incurred for full cost recovery per hour	F	Y	\$274.00+
Note: any fees for services not specifically identified in these Fees and Charges will be charged consistent with the Development/Compliance advice rate and may be subject to quote or invoice.			

Transfer of PCA Responsibility

Transfer of the PCA Responsibility from a Private Certifier to Council + Inspection fee based on urban/rural inspection fees	F	N	\$274.00+

How a Refund will be Determined

1. Development Applications and IT Levy

A Where an application is withdrawn after the notification and assessment processes have commenced and prior to the determination, a refund of 25% of the fee may be given.

B Where an application is withdrawn prior to notification and assessment processes commencing, a refund of 75% of the fee may be given.

C Where an application has been determined, no refund of the fee will be given.

The Executive Director may vary the above where in that person's opinion a variation is warranted due to the special circumstances of the case.

Note: Compliance Levy to be fully refunded.

2. Applications for Building Certificates, On-Site Sewage Management Applications, Food and Health Applications and Other Applications including Section 138's and Section 68, Authorisation and the like.

A Where an application is withdrawn or cancelled prior to site inspection, or prior to the matter being investigated, Council retains an administration refund fee of \$35.00 to cover its administrative costs in the matter.

B Where a site inspection has been carried out or the matter has been investigated then no refund shall apply.

3. Construction Certificate

A Where an application is withdrawn prior to commencement of assessment, the full construction fee will be refunded.

B Where an application is withdrawn after assessment has commenced, 25% of the construction fee will be refunded.

The Manger – Built Environment (or their delegate) may vary the above where in that person's opinion a variation is warranted due to the special circumstances of the case.

Reduced Application Fees

Reduced application fees for development on Council-owned Land

In respect of development provided by community based non-profit making organisations on Council-owned land, the following concessions apply for all development application, construction certificate, archive and compliance and occupation certificate and ancillary approval fees:

- a) Where the facility is for the exclusive use of the community based non-profit organisation – 40% concession.
- b) Where the facility is available for general public use – 80% concession.

Reduced application fees for development by Community Based Non-Profit Organisations

In respect of development provided by community based non-profit making organisations on private land, the following concessions apply for all development application, construction certificate, archive and compliance and occupation certificate and ancillary approval fees:

- a) Where the facility is for the exclusive use of the community based non-profit organisation – 24% concession.
- b) Where the facility is a Council Bush Fire shed – 80% concession.

Evidence required to satisfy the above criteria for a "non-profit making organisation" comprises a Certificate of Incorporation or other documentation accepted at the sole discretion of Council.

Reduced application fees for improving accessibility to buildings

The General Manager may agree in writing to waive or refund development application, construction certificate, archive and compliance and occupation certificate and ancillary approval fees following a written request, where he/she is satisfied that the proposal is being made for the primary purpose of improving accessibility to, and within, buildings.

Note 1. The above concession will not apply to access improvements that are triggered by compliance with the Building Code of Australia for other works.

Note 2. Any request for a fee to be reduced or waived in accordance with the above provisions must be received within 12 months of the date of lodgement of the application.

Reduced application fees for events on Council land

Council Policy 8.11.3 "APPROVALS AND USE OF LAND OWNED OR MANAGED BY COUNCIL" states: Fees in accordance with Council's adopted fees and charges will apply as referred to in the relevant guidelines. Exemptions from these lease/hire/licence fees will apply in the following circumstances only:

- a) where the applicant is a registered charity or a non-profit organisation; or
- b) where the footpath trading is conducted as part of a Council sponsored event relating to the promotion of the area in general;
- c) At the discretion of the General Manager (or their delegate)

Note 1. Application fees associated with the cost incurred by Council of assessing statutory requirements under the Local Government Act and Roads Act are not covered by the above exemptions, and adopted fees and charges unless waived in accordance with delegated authority.

Note 2. At the Council meeting on 13/12/16 it was resolved that application fees for minor events currently charged for local not for profit charities to conduct fundraising activities on Council land be waived. "Minor events" are not defined, but would include footpath trading/fundraising or other small scale/low impact activity that does not involve more than a few people at any one time and is deemed low risk in relation to s.68 and s.138 approvals and assessment required.

	Urban Roads - General	\$ 7,906,100
Workshop & Fleet Operations	General Plant Purchases	\$ 3,231,900
Total		\$ 51,887,000

Revenue Policy & Borrowings 2022/23

Revenue Policy & Borrowings

Ordinary Rates:

Council has applied a 0.00% increase in rates for 2022/23.

The maximum rating increases allowable to Lismore City Council for 2022/23 was 0.07% as advised by the Independent Pricing and Regulatory Tribunal (IPART).

Council policy is to levy ordinary rates to all rateable properties using a combination of a base amount and land valuation.

The base amount is Council's assessment of costs that could reasonably be said to be common to all ratepayers regardless of property use or location. The base amount for 2022/23 will remain at \$423.00.

The balance of each rate assessment will be levied using an ad valorem rate i.e., the land valuation multiplied by a rate in the dollar. Rates will be levied on three categories of property: - Business, Residential and Farmland.

The proposed rate in the dollar and base amount for each of the rating category options for 2022/23 detailed below will apply:

The following resolution of Council has been included in the Ordinary rate calculation for 2022/23:

121/20 **RESOLVED** that:

"3. the Business - Inner CBD total income be subject to no increase in the years 2021/22 and 2022/23, and that the amount foregone by not increasing by the rate peg be offset by proportional increases to all other categories apart from Farmland.

2022/23 Ordinary Rate Base Amount plus Ad Valorem Rate

Category	Rate in \$ (cents)	Base Amount (\$)	Yield (\$'000s)	Proportional Contribution (%)
Rates				
Business – Inner CBD	4.4591	423.00	1,647	5.0
Business – Urban	1.6313	423.00	4,342	13.1
Business – Other	0.8012	423.00	156	0.5
Business – Nimbin	0.9785	423.00	106	0.3
Residential – Urban/Village	0.5412	423.00	16,895	51.2
Residential – Rural	0.4227	423.00	5,084	15.4
Farmland	0.4214	423.00	4,794	14.5
Total			33,024	100.00

To calculate your ordinary rates for 2022/23, you will need your land valuation as at the 1/7/2019 base date. Multiply the land value by the rate in dollar of the rating category applicable to your property and then add the base amount of \$423.00. For example: -

A Residential – Urban/Village property with a land value of \$100,000, the ordinary rates would be = \$100,000 X 0.5412 (of a cent in the dollar, the urban/village rate) = \$541.20 plus \$423.00 (base amount) = \$964.20

Waste Management Charges:

Council has reviewed the various services that it offers with particular emphasis on landfill reduction. A range of options that encourage recycling and introduces choice in the size of bins collected is now available at various prices. Maps of the areas covered by these services are available for viewing at Council's Corporate Centre: -

a) Waste Collection Charges

These charges are levied for the actual collection and removal of waste from a property, where Council makes the service available. Council must approve the type and size of bins used.

All waste collection charges are an annual charge, either under Section 496 or 501 of the Local Government Act 1993. This in effect means that the charge will apply for the whole year regardless of the number of times the service is utilised.

If a service is no longer required and Council is notified to that effect, the charge will still apply in the rating year in which it was levied but will not be charged in future years. The exception to this is where a charge has been wrongly applied such as where the charge was for two services but only one was received.

When a service or additional service is requested during a rating year, the cost of the service will be calculated on a quarterly pro-rata basis and levied from the next rate instalment period after the service is commenced.

For Domestic Services: -

- Integrated Waste Collection: This charge is applicable to all urban domestic properties receiving the service within the defined collection area. The service is a weekly 240 litre organic bin and a fortnightly 240 or 360 litre recycling bins plus a fortnightly 140 litre waste bin collection service.
- Integrated Waste Collection – Urban Half: This charge is applicable to all urban domestic properties receiving the service within the defined collection area. The service is a fortnightly 240 litre organic bin and a monthly 240 or 360 litre recycling bin and a monthly 140 litre waste bin collection service.
- Integrated Waste Collection – Waste Plus: This charge is applicable to all urban domestic properties receiving the service within the defined collection area. The service is a weekly 240 litre organic bin, a fortnightly 240 or 360 litre recycling bin and a fortnightly 240 litre waste bin collection service.
- Integrated Waste Collection – Premium: This charge is applicable to all urban domestic properties receiving the service within the defined collection area. The service is a weekly 240 litre organic bin, a fortnightly 240 or 360 litre recycling bin and a weekly 240 litre waste bin collection service.
- Integrated Waste Collection – Discount: This charge is applicable to all urban domestic properties receiving the service within the defined collection area. The service is a weekly 240 litre organic bin, a fortnightly 240 or 360 litre recycling bin and a fortnightly 80 litre waste bin collection service. The provision of the 80-litre bin is at the customers cost.
- Waste Collection – Special Needs: This service is available on application and requires approval by the Manager – Commercial Services. It is available for customers with health or mobility problems and will be assessed on a 'case by case' basis. The service is available to domestic properties only. The service consists of a fortnightly 240 litre waste bin collection service collected from and returned to the property by the waste truck driver or a variation on this depending on assessment by the assessment team.

- **Waste Collection – Rural:** This charge is applicable to all domestic properties within the service areas as defined, outside the urban area of Lismore and receiving the collection service. The service is a weekly 240 litre waste bin and a fortnightly 240 or 360 litre recycling bin collection service.
- **Waste Collection – Rural Half:** This charge is applicable to all domestic properties within the service areas as defined, outside the urban area of Lismore and receiving the collection service. The service is a fortnightly 240 litre waste bin and a monthly 240 or 360 litre recycling bin collection service.
- **Waste Collection – Rural Village:** This charge is applicable to all domestic properties within the rural village service areas as defined, outside the urban area of Lismore and receiving the collection service. The service is a weekly 240 litre organic bin and a fortnightly 240 or 360 litre recycling bin plus a fortnightly 240 litre waste bin collection service.
- **Waste Collection – Rural Village Half:** This charge is applicable to all domestic properties within the rural village service areas as defined, outside the urban area of Lismore and receiving the collection service. The service is a fortnightly 240 litre organic bin and a monthly 240 or 360 litre recycling bin plus a monthly 240 litre waste bin collection service.

For Non-Domestic Services: -

- **Waste Collection – Urban Business:** This charge is applicable to all non-domestic properties receiving the service within the defined collection area. This service is a weekly 240 litre waste bin and a weekly 240 litre resource recovery (recyclable, organics) bin collection service.
- **Waste Collection – Rural Business:** This charge is applicable to all non-domestic properties within the service areas as defined, outside the urban area of Lismore and receiving the collection service. The service is a weekly 240 litre waste bin and a fortnightly 240 or 360 litre recycling bin collection service.
- **Waste Collection – Rural Half Business:** This charge is applicable to all non-domestic properties within the service areas as defined, outside the urban area of Lismore and receiving the collection service. The service is a fortnightly 240 litre waste bin and a monthly 240 or 360 litre recycling bin collection service.

b) Other Waste Management Charges

In addition to collection charges, Council also levies a few other charges, which are used to implement waste management and reduction programs.

Waste Availability: This charge applies to all rateable properties where the waste collection service is available, but not being utilised, excluding those properties paying the Nimbin Transfer Station charge.

Waste Minimisation: This charge is applicable to all rateable properties except for those rateable properties paying the Nimbin Transfer Station charge. This charge is for the provision of recycling services, waste strategy and policy development, other waste reduction programs, waste education services and an allocation of one (1) waste voucher per rateable property (capped at 5,000 vouchers per annum). This charge attracts GST.

Nimbin Transfer Station: This charge is applicable to all rateable properties within the Nimbin and District service area map, not receiving a waste collection service, and is charged on a per dwelling basis. A copy of the map is available at Council's Corporate Centre.

A summary of all waste management charges follows: -

Services	Annual Charge (\$)	Yield (\$'000)
<u>Waste Collection</u>		
Domestic – Urban		
Integrated Waste Collection	\$327.30	\$3,498
Integrated Waste Collection – Urban Half	\$180.00	\$64
Integrated Waste Collection – Waste Plus	\$540.00	\$168
Integrated Waste Collection – Premium	\$621.00	\$121
Integrated Waste Collection – Discount	\$245.00	\$2
Waste Collection – Special Needs	\$377.00	\$13
Rural		
Waste Collection – Rural	\$409.40	\$933
Waste Collection – Rural Half	\$246.00	\$115
Waste Collection – Rural Village	\$409.40	\$606
Waste Collection – Rural Village Half	\$246.00	\$28
Non-Domestic		
Waste Collection – Urban Business	\$434.20	\$552
Waste Collection – Rural Non-Domestic	\$405.25	\$92
<u>Waste Management</u>		
Waste Availability	\$11.40	\$9
Waste Minimisation	\$65.00	\$1,227
Nimbin Transfer Station	\$157.80	\$52

Wastewater Charges:

A copy of Council's "Wastewater Charging Policy", which sets out the methodology used to arrive at the wastewater charges, is available from Council's Corporate Centre. In summary, wastewater charges are determined by the following formula:

Annual Wastewater Charge = No. of Equivalent Tenements (ET) x Charge per Equivalent Tenement

An Equivalent Tenement refers to an assumed discharge to the wastewater system which is equivalent to that discharged by a 'standard' detached dwelling house. Under this charging regime a detached dwelling house, (having an ET value of 1.0) is charged \$977.00. All other forms of development are charged based on their calculated ET value, with the method of calculating ET values being specified within Council's "Wastewater Charging Policy". Under this policy, calculated ET values are rounded to the nearest one tenth of an ET and a minimum value of 1.0 ET is applied to all assessments.

For properties with multiple tenements or more than one equivalent tenement, a schedule of charges is also available from Council's Corporate Centre.

A summary of wastewater charges follows: -

Services	Annual Charge (\$)	Yield (\$'000)
<u>Wastewater</u>		
Lismore – (Includes Nimbin, Perradenya & North Woodburn)		
For single unit dwelling houses	\$977.00	\$10,438
For residential flats for each unit of occupancy	\$683.90	\$987
For non-domestic properties (excluding properties within the established strength category), per equivalent tenement or part thereof as indicated within the Wastewater Charging Policy	\$977.00	\$2,289
For properties not connected to a wastewater scheme and able to do so and located within 75 metres of a wastewater main	\$586.20	\$332
North Woodburn Connection Charge – For properties connected to the North Woodburn Wastewater Scheme as at 1/7/13	\$476.04	\$24
Sewer Rebate 1 - For occupied properties with stand-alone systems of wastewater management not connected to the sewerage system	\$293.10	\$0
Sewer Rebate 2 - For occupied properties with dry composting toilets and no toilets connected to the sewerage system	\$488.50	\$0

Stormwater Management Services Charges:

The Stormwater Management Services charge is applied to rateable land within the Lismore urban area. There are exemptions to the charge with vacant and crown land (including Department of Housing) most prominent.

For residential lots the charge will be \$25.00. For residential strata and company titled land, the charge will be \$12.50 per unit.

For business properties the charge will be area based with a minimum charge of \$25.00 for properties up to 350m² and an additional \$25.00 for each unit of 350m² or part thereof. For a property of 850m² the charge would be \$75.00 (850m² ÷ 350m² = 2.42 units, rounded up to 3 = 3 x \$25.00 = \$75.00).

Business properties over 4,200 m², dependent upon the outcome of an assessment of the property to determine the proportion of the property that is impervious, will be charged a minimum \$300.00 with an additional charge of \$25.00 per 350m² or part thereof that is declared impervious. For owners of business properties over 4,200m², an appeals process against the level of the charge is in place and a copy is available from the Council Corporate Office.

Business strata units and company titled units will be charged by determining the actual charge for the whole of the property and then dividing that charge by the total unit entitlement, either strata or company, and then multiplying that product by each strata or company title entitlement to determine the charge for each strata. The minimum charge per unit entitlement is \$5.00.

The total yield from Stormwater Management Services charges is \$393,000.

The following is a summary of stormwater management service charge related works to be provided in 2022/23. Any under expenditure of the charges revenue will be accumulated and applied to future maintenance and major projects, and any over expenditure of the charges revenue will be funded by accumulated or future charges revenues: -

Stormwater Management Services	Budget
Stormwater Infrastructure - (enhancing current infrastructure and constructing new treatment infrastructure)	\$153,000
Infrastructure services (new treatments) – repayments	\$30,000
Maintenance and monitoring of treatment devices	\$80,600
Business, staff, and community education	\$15,000
Information gathering / administration	\$91,300
Totals	\$369,900

Water Charges:

Council's water charging structure is made up of two tiers, a 'consumption charge' based on actual water consumed and a 'fixed service charge' dependent on the size of the water service. In addition, a small amount of revenue is generated from fire services.

a) Consumption Charge

Water consumed through the meter will be charged at \$4.56 per kilolitre. The estimated income from consumption is \$10,744,000 (2.356 megalitres at \$4.56 per kilolitre).

b) Fixed Service Charges

A summary of the fixed service charges follows: -

Service	Annual Charge (\$)	Yield (\$'000)
20mm service	\$334.83	\$4,336
25mm service	\$523.16	\$260
32mm service	\$857.13	\$183
40mm service	\$1,339.28	\$214
50mm service	\$2,092.61	\$306
65mm service	\$3,536.52	\$25
80mm service	\$5,357.10	\$54
100mm service	\$8,370.46	\$193
150mm service	\$18,833.54	\$94
Unconnected properties*	\$334.83	\$48
Fire service*	\$334.83	\$20
Water Rebate Services* - Occupied properties with stand-alone water supply systems not connected to the reticulated water supply	\$167.42	\$0

*Conditions apply

Pension Rebates:

Rebates are available to eligible pensioners who are solely or jointly liable for the payment of rates and charges. The rebates are as follows: -

- 50% of combined general rates and waste management charges up to a \$250.00 maximum.
- 50% of water consumption and fixed service charges up to an \$87.50 maximum; and
- 50% of sewer charges up to an \$87.50 maximum.

Pricing Policy for Goods and Services:

A review of resources required to provide all goods and services and the corresponding pricing category is undertaken every year. This includes the cost of delivery of the service and anticipated impacts of inflation. Inflation is forecast to be in the range of 2.5-% for 2022/23.

Council has applied a 0.00% increase to its fees and charges for 2022/23*.

**Excluding: - Statutory Fees & Charges, Commercial Operations and Water charges. These are all subject to external factors that cannot be absorbed by Council.*

The intent of a pricing policy is to disclose to all stakeholders the rationale behind the fee established for any Council product or service including:

- the true cost of providing a product or service.
- the extent to which the general community benefits from the product or service, and therefore the extent that the cost of the product or service will be subsidised from rate revenue. i.e., the public-good component or community service obligation.
- the extent to which the user or person benefiting from the product or service, will be asked to contribute to the cost of its provision, i.e., the user contribution; and
- the strategies for moving the current fee to the position determined by the policy, i.e., the target cost recovery.

The underlying principle of pricing policy is that the role of property rates and general-purpose income will be to finance the public-good component of services and attendant community service obligations, and that users will be called upon to finance the cost of producing goods and services from which they derive a benefit.

Council's Pricing Policy (Policy 1.5.9 - Pricing Policy – Fees and Charges) details the above elements for every product or service supplied by Council and can be reviewed at Council's Corporate Centre or on Council's website.

National Competition Policy and Competitive Neutrality:

Competitive neutrality is one of the principles of National Competition Policy which is applied to all levels of government in Australia including local government. The principle is based on the concept of a "level playing field" for competitors in a market, including both public and private sector competitors. Business operations or activities run by local government should operate without net competitive advantages over businesses because of their public ownership.

The New South Wales Policy Statement on the Application of Competitive Neutrality Principles to local government are non-prescriptive. The policy statement recognises that for competition policy to be effective, there is a need to have an effective system in place to manage relevant business activities, their pricing and costing and the handling of complaints relating to competitive neutrality.

To assist local government in implementing competitive neutrality, the New South Wales Government issued the Competitive Neutrality Guidelines for Local Government (1997). After considering the guidelines, Council has determined that the following business activities will comply with the competitive neutrality principle: -

Category One (Turnover > \$2 million) Category Two (Turnover < \$2 million)

- | | |
|-------------------------------------|--|
| 1. Water Supplies Services | 1. Lismore Memorial Gardens – Crematorium. |
| 2. Wastewater Services | 2. Goonellabah Sports & Aquatic Centre – Gym & Swim School |
| 3. Northern Rivers Quarry & Asphalt | |
| 4. Northern Rivers Waste – Disposal | |

Category One:

As part of application of cost attribution, Council includes all direct and indirect costs that a private sector competitor would incur. The guidelines mandate the inclusion of costs for Taxation Equivalent Regime Payments, Debt guarantee fees and a Return on capital invested.

After considering full cost recovery pricing, where not costs are not fully recovered the following community service obligation subsidies are made:

1. Water Supplies Services – \$2,765,300
2. Wastewater Services – \$5,121,200
3. Northern Rivers Quarry & Asphalt – \$98,300
4. Northern Rivers Waste – Disposal – \$ -

Category Two:

As part of application of cost attribution, Council includes all direct and indirect costs that a private sector competitor would incur. While the guidelines don't mandate the inclusion of Taxation Equivalent Regime Payments, Debt guarantee fees and a Return on capital invested, Council is required to abide by the broad principle and intent of competitive neutrality. As the impact of Taxation Equivalent Regime Payments, Debt guarantee fees and a Return on capital invested is not considered material, they have been excluded.

After considering full cost recovery pricing, where costs are not fully recovered the following community service obligation subsidies are made:

1. Lismore Memorial Gardens – Crematorium – \$25,800
2. Goonellabah Sports & Aquatic Centre Gym –\$356,300
3. Swim School (GSAC & Baths) – \$182,400

Borrowings

Council is required to submit a program of new borrowings seeking approval from the Office of Local Government on an annual basis.

Council does not propose to borrow in 2022/23.

Lismore City Council DRAFT Disability Inclusion Action Plan 2022 - 2026

Acknowledgement of Country

We acknowledge the Widjabal/ Wia-bal people of the Bundjalung nation, Traditional Owners of the lands and waters on which we operate our business. We honour their unique cultural and spiritual relationship to the land and waters, their continuing and rich contribution to Lismore City Council and the community. We pay our respects to their culture, their Elders and community leaders both past and present. Additionally, we acknowledge the vibrant contribution that young Aboriginal people make as emerging leaders of the community.

Mayor's Message

I am pleased to present Lismore City Council's Disability Inclusion Action Plan 2022-2025. Council has worked hard over the past five years to create a region that is accessible and inclusive. As leaders in the community, Council has improved physical access to community buildings and improved inclusive practices at Council facilities. Council is proud of the role it plays as an advocate for an inclusive community, recognising the responsibility to support people living with disabilities to access the same human rights as everyone else.

Through the DIAP 2017-2020, Council was able to complete a number of actions to create an inclusive community, recognising that this work is ongoing, and that Council is committed to continuous improvement in disability inclusion. The DIAP 2022-2025 builds on the work completed by Council in the DIAP 2017-2020. The creation of the DIAP was guided by thorough community consultation and Council's values. The creation of the Access and Inclusion Advisory Group has proved to be an invaluable asset to the community, and I would like to thank the Group for their work with Council over the past five years.

Council will continue to advocate for the rights of people with a disability through breaking down discrimination barriers, enabling people with a disability to live and participate fully in the community. The implementation of the plan cannot happen without the support and involvement from the community, and I look forward to working with community members, groups and agencies to ensure its success.

Councillor Steve Krieg
Mayor

General Manager's Message

Council is committed to ensuring accessibility and inclusion for our staff and customers. The DIAP 2022-2025 will guide the improvement of inclusive practices across our facilities, our approaches to recruitment and training and the future development of Lismore and surrounding villages. Council has achieved many milestones in increasing the liveability of our city and advocating for an inclusive community. The DIAP will help to build on our achievements so far, encouraging fair and equitable access to services by people living with disability. Working through the DIAP involves a cross section of Council teams and departments including media and communications, community engagement, people and safety, open spaces, tourism, events, economic development, assets, GSAC and the Lismore Regional Gallery. This demonstrates that a whole of Council approach is required to promote equal rights for our community.

The DIAP is underpinned by Council's policies, legislative and regulatory requirements. The DIAP will be incorporated into Council's Delivery Program and annual Operational Plan and responsibilities allocated throughout the organisation structure. Council cannot do this alone and will work with community to respond to the access and inclusion needs of the community.

John Walker
General Manager

Executive Summary

Lismore City Council recognises its social responsibility to break down the barriers to inclusive participation in our communities, to protect the rights of people living with disability, and to promote diversity in the community.

Lismore City Council's Disability Inclusion Action Plan (DIAP) is a four-year framework outlining the key strategies and actions to be delivered by Council in its commitment to disability access and inclusion within the Lismore Local Government Area (LGA).

The DIAP is Council's way of defining how the organisation will make targeted and continual effort to reduce the barriers that people face when living, working and visiting the Lismore LGA. It documents the steps Council will take in working towards access and inclusion for all.

This Plan sets out a series of principles, strategies and actions that will guide Council operations over the next four years. These align with the principles of the NSW Disability Inclusion Act 2014, as well as the NSW Government's Disability Inclusion Plan that specifies four focus areas "aimed at creating long term change and require consistent efforts from government and the wider community" (NSW Disability Inclusion Plan).

These are:

1. Positive Community Attitudes and Behaviour
2. Liveable Communities
3. Supporting Access to Meaningful Employment
4. Accessible to Systems and Processes.

Lismore Floods 2022

The Lismore Local Government Area, together with large parts of northern NSW and southern QLD, were impacted by unprecedented flooding events during February and March 2022. These floods have had devastating impacts across the community, with lives lost, homes and businesses destroyed and critical infrastructure sustaining major damage.

Lismore City Council's Disability Inclusion Action Plan was prepared prior to this event.

Lismore City Council is required to have a new DIAP in place by July 2022, consequently there is insufficient time to undertake a new consultation process and prepare a new Plan to reflect the impact of that event on our community.

Lismore City Council is committed to achieving the actions set out in the DIAP, however there may be occurrences where actions Council had planned to undertake are no longer able to be achieved as a direct result of the Natural Disaster the region has experienced. Further consultation will take place during the course of recovery planning, and this document will be updated accordingly.

Community Profile

Lismore is known as the heart of the Northern Rivers. As a regional city and services hub, Lismore supports a large urban population as well as providing vital services for many outlying villages, hamlets and rural areas.

Lismore's population of around 44,000 encompasses a diverse range of colourful people from all walks of life. Lismore is a city where difference is embraced, and community is strong. Our population is predicted to increase to 51,750 by 2036.

Disability Facts and Figures

The 2018 Survey of Disability, Ageing and Carers (SDAC) identified that:

- In 2018, there were 4.4 million Australians living with disability.
- 3.9 million people had a limitation with the core activities of communication, mobility or self-care and/or a schooling or employment restriction.
- Of all people with disability, 1.9 million were aged 65 years and over.
- Disability prevalence was similar for males (17.6%) and females (17.8%).
- 5.7% of all Australians had a profound or severe disability.
- Almost one-quarter (23.2%) of all people with disability reported a mental or behavioural disorder as their main condition, up from 21.5% in 2015.
- The prevalence of disability increased with age; one in nine (11.6%) people aged 0-64 years and one in two (49.6%) people aged 65 years and over had disability.

Policy and Legislative Framework

The definition of disability in the Disability Inclusion Act 2014 is what guides our understanding and approach to the DIAP.

It describes disability as: *“the long-term physical, mental, intellectual, or sensory impairment which, in interaction with various barriers, may hinder the full and effective participation in society on an equal basis with others.”*

The Disability Inclusion Act 2014 requires all NSW Government agencies and councils to develop Disability Action Inclusion Plans that will ensure their services, infrastructure and community facilities are more accessible to people with disability.

The Lismore DIAP 2022 - 2026 has been developed after a range of consultations and has been prepared in accordance with the following Australian and international legislations:

- United Nations Convention on the Rights of Persons with Disabilities
- National Disability Strategy 2010-2020
- Commonwealth Disability Discrimination Act 1993
- Disability Discrimination Act 1992
- NSW Anti-Discrimination Act 1977
- NSW Disability Inclusion Act 2014
- NSW Disability Inclusion Plan 2021-2025
- NSW Government Sector Employment Act 2013
- NSW Anti-Discrimination Act 1977

Key Achievements of DIAP 2017-2021

Positive Attitudes and Behaviours

- Appointment of a broadly representative Access and Inclusion Advisory Group which holds quarterly meetings aimed at providing advice to Council on disability access and inclusion.
- An exhibition held at the Lismore Regional Gallery in partnership with RED Inc. to showcase the artwork of 14 contemporary local artists living with disability and ongoing work with artists living with disabilities.
- Launched Unconscious Bias training for staff.

Liveable Communities

- AUSLAN-led tours at Lismore Regional Gallery to allow members of the deaf community to form a deeper understanding and connection with the artworks.
- Installation of an adult change facility at the Goonellabah Sports and Aquatic Centre.
- Provided and maintained hoists at the Lismore Memorial Baths and Goonellabah Sports and Aquatic Centre.
- The Lismore Library was upgraded with adjustable shelves and hydraulic desks making the library more accessible for wheelchair users, mobility impaired and the elderly.
- The Richmond Tweed Regional Library further developed the large print, talking books, ebooks, eaudio books and periodicals collections.

Employment Opportunities

- Completion of code of conduct training required to participate on a selection panel as part of a recruitment process.
- Transition of a person with a disability into a permanent full-time position.

Systems and Processes

- Provision of a hearing loop in Council Chambers.
- Installation of a lift at the old Council Chambers to improve access for the Richmond River Historical Society and members of the community.
- Live streaming of Council's ordinary meetings commenced, and introduction of closed captioning of meetings.
- Provision of funding for AUSLAN interpreters for meetings upon request.
- Actively seeking grant funding to undertake infrastructure projects to improve accessibility of Council-owned assets.
- Installation of ReadSpeaker technology on Council's website, which provides text to speech services. Enabling people who are vision impaired to have website content read aloud at the click of a button.
- Waiving of fees for development applications for accessibility improvements.
- Completion of a community wide survey between March and June 2021 to inform the development of the DIAP 2022- 2025.

Community Consultation

Our Council recognises its social responsibility to break down the barriers to inclusive participation in our communities, to protect the rights of people living with disability, and to promote diversity in the community.

To do this, we empowered the community to play an integral role in improving the lives of those with disability and determining the goals, strategies, and actions we take. This involved extensive community engagement, including:

- 91 Online surveys completed.
- Council's Your Say Lismore Page was visited 686 times.
- 4,000+ eNewsletters distributed.
- 2 Consultation meetings with disability organisations.
- Hosted 3 community workshops with 40 participants.
- Completed 5 community interviews.
- Contacted 55 service providers and community organisations.
- Reached 14,000 people through social media.

To really understand what it's like to live with a disability in the Lismore region, we focussed our community engagement on four key areas. From there, we engaged with the community and undertook research to identify how we can make improvements in these areas and improve the lives of those living with disability in our community.

Positive community attitudes and behaviour: The attitudes and behaviour of the general community towards people living with disability has been described as the single greatest barrier to full access and inclusion. Our engagement identified that attitudes towards people living with disability are often determined by ignorance, fear, or lack of opportunity to interact. Developing positive attitudes will involve increasing awareness and changing negative perceptions over time.

Liveable communities: Creating liveable communities for people living with disability requires that they are included and considered in the decision-making process. It is much more than simply modifying the physical environment. A liveable community must feature accessible housing, reliable public transport, accessible recreation and community facilities and events, social engagement, and universal design.

Supporting access to meaningful employment: Employment rates for people living with disability are significantly lower than those without disability across all sectors. People living with disability experience multiple barriers at all stages of the employment process, ranging from inaccessible interview venues, lack of reasonable adjustments to the work environment, poor career planning opportunities, rigid role descriptions and online testing that may place applicants at a disadvantage.

Accessible systems and processes: A common issue for people living with disability is the difficulty they have in accessing the services and support they need in the community. Some of these difficulties stem from the systems and processes required to access services, quality of service and training of frontline personnel, and the lack of accessible options for communicating, accessing information, or providing input or feedback.

DRAFT DIAP Actions

1. Positive Attitudes and Behaviour

1.1. Responsible Department: Liveable & Active Communities

- 1.1.1. Lismore Regional Gallery will have a budget line allocation for accessibility initiatives.
- 1.1.2. Host one exhibition per year with an artist/s living with disability at Lismore Regional Gallery.
- 1.1.3. Develop accessibility checklist for Lismore Regional Gallery exhibitions and ensure best practice.
- 1.1.4. Provide accessible community engagement programs for people living with disability, and the Deaf and Hard of Hearing community at Lismore Regional Gallery.
- 1.1.5. All exhibition openings will be Auslan interpreted, and all public programs will have Auslan interpretation available on request.
- 1.1.6. All current and new gallery staff and volunteers to undertake accessibility training with Art Access Australia.

1.2. Responsible Department: People & Safety

- 1.2.1. Managers and recruitment panel members enrolled in iLearn courses focused on inclusion. Include specific training for locations and roles e.g., GSAC and Libraries.
- 1.2.2. Promote support that is available for all (especially relevant to those living with disability).
- 1.2.3. Identify types of disability – long term, short term, etc. and include references in staff newsletter around working with a disability.
- 1.2.4. Locate and distribute guides on inclusive language.
- 1.2.5. Specifically retrain two Contact Officers to support employees living with disability.
- 1.2.6. Collect diversity data on current employees annually through a survey, asking how employees want and need to be supported by the organisation.

2. Liveable Communities

2.1. Responsible Department: Liveable & Active Communities

- 2.1.1. Review the suitability of disabled car spaces, pathways, and access at the Lismore Memorial Gardens with the aim of improving accessibility.
- 2.1.2. Upgrade a park to include multiple accessible facilities and investigate funding opportunities to create an accessible recreation area for those living with disability.
- 2.1.3. Seek feedback from Access and Inclusion Advisory Group to identify key spaces for accessibility.
- 2.1.4. Collect feedback from the Access and Inclusion Advisory Group on accessibility at existing parks and facilities.
- 2.1.5. Improve accessibility and connectivity through Heritage Park.
- 2.1.6. Where available, major events to be accessible for the whole community, e.g., inclusion of Auslan interpreters, disability parking spaces, disability seating and spaces.
- 2.1.7. Develop and implement a promotional campaign and a usage agreement for better awareness and use of the beach wheelchair.
- 2.1.8. Develop and implement a promotional campaign to increase awareness and use of the accessible facilities and equipment at GSAC and Lismore Memorial Baths.
- 2.1.9. Re-evaluate the process to supply and purchase Master Locksmiths Access Key (MLAK) keys and audit where MLAK keys can be used in the Lismore LGA.
- 2.1.10. Include a list of accessible attractions on LCC Visit Lismore website.

2.2. Responsible Department: Economic Development

- 2.2.1. Promote the benefit to business owners of accessible businesses and employment of those living with disability.

2.3. Responsible Department: Richmond Tweed Regional Library

- 2.3.1. Introduction of dyslexia reading collection at Richmond Tweed Regional Library.
- 2.3.2. Investigate opportunities for an adult changing place facility in Lismore Library.
- 2.3.3. Increase the amount of home library delivery services.

2.4. Responsible Department: Assets

- 2.4.1. Ensuring that accessibility improvements are considered and incorporated into designs for new capital works and renewals wherever possible to ensure connectivity of accessible paths of travel across the transport network.

3. Meaningful Employment

3.1. Responsible Department: People & Safety

- 3.1.1. Ensure the recruitment process accommodates different access needs and demonstrate that LCC is proud to be an inclusive and diverse workforce.
- 3.1.2. Ensure the positions vacant page is compatible with screen readers.
- 3.1.3. Include assessment and provision of accessible workplace equipment/modifications for each individual employee at onboarding/induction.
- 3.1.4. Update the recruitment process to include unconscious bias training for all panel members.
- 3.1.5. Ensure application and interview questions include themes around attitude towards diversity and inclusion.
- 3.1.6. Recruit for attitude towards diversity and inclusion (in application and interview questions).

3.2. Responsible Department: Assets

- 3.2.1. Undertake an accessibility audit on Lismore City Council corporate centre and at least one accessible Council building each year.

4. Equitable access to systems and processes

4.1. Responsible Department: Technology & Innovation

4.1.1. Ensure that our websites are accessible and comply with accessibility guidelines.

4.1.2. Achieve Pro Plain English – Gold standard certification for Council's websites.

Delivering the Plan & Reporting

Lismore City Council Senior Leadership team are committed to supporting the implementation of this plan.

The Lismore City Council Access and Inclusion Advisory Group (AIAG) will monitor the progress of the actions listed in the Plan as a standard agenda item and provide advice on the implementation of Council's Disability Inclusion Action Plan 2022-2025.

Council will report on the Disability Inclusion Action Plan action items as part of its Annual Report.

In accordance with the DIA, an annual report on the outcomes against the actions of the plan will be submitted to the Minister for Families, Communities and Disability Services. The Disability Council NSW assists the Minister to review the plans and provides advice on their success.

Council will talk with the community on a regular basis to check that the priorities in the Plan haven't changed and make updates when needed. In the final year of the Plan, Council will measure community satisfaction through a community survey.

Lismore City Council

Quarterly Budget Review Statement
for the period 01/01/2022 to 31/03/2022

Responsible Accounting Officer's Statement

The following statement is made in accordance with Clause 203(2) of the Local Government (General) Regulations 2005: 31 March 2022.

The Quarterly Budget Review Statement for Lismore City Council for the quarter ended 31/03/2022 indicates that Council's projected financial position at 30/06/2022 will be satisfactory at year end, having regard to the projected estimates of income and expenditure as contained in the original adopted budget forecast.

Council's Net Operating Result before Capital Grants and Contributions indicates that Council is using more resources than it is generating in income. The Operating Deficit before Capital Grants & Contributions is considered unsustainable and action should be taken to correct as part of the development of Council's Long Term Financial Plan.

Lismore LGA was hit by catastrophic floods and storms across February, March and April 2022. Extensive damage was sustained by Council assets staff, suppliers, tenants and contractors and Council facilities were closed due to staff shortages, change of use (such as the evacuation centre at GSAC) and damage to facilities. While the cash position at 31 March 2022 appears favourable, it is recommended that all surplus is reserved for flood recovery works in anticipation of funding delays and to cover assets not otherwise insured or grant-funded.

Long-Term Financial Plan

Consistent with the requirements of the Integrated Planning and Reporting Framework, Council has been working to finalise a Long Term Financial Plan setting out Council's projected income and expenditure across a 10 year time horizon.

Flood recovery works are expected to take several years to complete and will need to be included in the Long Term Financial Plan. State and Federal Government organisations have pledged to support large portions of the recovery work and insurance will cover some of the damage to property however rebuilding is expected to take several years and will be hampered by lack of access to contractors and materials.

In regards to the statement on Contracts and Consultancy, the content is based on information provided at the time of preparing the March 2022 Quarterly Budget Review Statement. No assessment of the accuracy of this information was undertaken.

Signed: _____

Lismore City Council

Quarterly Budget Review Statement

for the period 01/01/2022 to 31/03/2022

Capital Budget Review Statement**Detailed changes recommended**

Budget Variations being recommended include the following material items:

Funded Variations - variations of \$10,000 or greater have been commented on in the QBRS.

Unfunded Variations - variations of \$10,000 or greater have been commented on in the QBRS.

No impact on Council's Delivery Program is anticipated as a result of these variations.

Notes Details	Variation - Funded	Variation -Unfunded
1 - Plant & Equipment	New Assets	
There have been no reportable changes to budget during the period		
	Renewal	
2 - Roads, Bridges, Footpath, Cycleways	New Assets	
	Renewal	
Lismore Employment Lands Project - balance of project deferred to future period	9,233,700	
Transfer Regional Block Grant from capital to operational works.	485,400	
Transfer roads capital funding to reserve for 22/23 to fund delayed projects due to flood	321,000	
Fixing Local Roads - balance of project deferred to future period	87,500	
Black Spot Program - balance of project deferred to future period	2,046,300	
Safer Roads - balance of project deferred to future period	511,000	
3 - Stormwater Drainage	New Assets	
	Renewal	
Transfer drainage capital funding to reserve for 22/23 to fund delayed projects due to flood	180,900	
4 - Land & Buildings	New Assets	
	Renewal	
Waste Disposal capital funding to reserve for 22/23 to fund delayed projects due to flood. Includes; Phytocapping and Leachate Dam	473,300

Note:

Council accurately determines its investments portfolio on a externally/internally restricted basis annually

Estimates are provided as part of the monthly Investments Report.

As such the breakdown provided for YTD are estimates only and are based on the ratios reported in the 2020/21 Financial Reports.

Investments with various financial institutions have been made in accordance with the Local Government Act 1993, Local Government (General) Regulation 2005 and Council's Investment Policy.

Lismore City Council**Quarterly Budget Review Statement**
for the period 01/01/2022 to 31/03/2022**Cash & Investments Budget Review Statement****Comment on Cash & Investments Position**

A detailed commentary is provided as part of the monthly report to Council on Investments. The latest report to Council is for 31 March 2022.

Cash

The Cash at Bank has been reconciled to Council's Bank Accounts.
The date of completion of the latest bank account reconciliation is 31/03/22

Investments

Investments have been invested in accordance with Council's Investment Policy.

The value of Investments is \$118,162,000 as at 31/03/2022.

Lismore City Council

Quarterly Budget Review Statement
for the period 01/01/2022 to 31/03/2022

Key Performance Indicators (KPI) Budget Review Statement

Budget review for the quarter ended 31 March 2022

(\$000's)	Current Projection Indicator 21/22	Original Indicator 21/22	Prior Period 20/21
-----------	---	--------------------------------	-----------------------

The Council monitors the following Key Performance Indicators:

1. Operating Performance Ratio

Total continuing Operating revenue (excl Capital Grants & Contributions) - Operating Expenses (excluding loss on sale of assets and associates)

Total continuing Operating revenues

-9.70 %

-14.30 %

-9.93 %

This ratio measures a Council's achievement of containing operating expenditure within operating revenue.

Benchmark is greater than 0%

March 2022 - Unfavourable

2. Own Source Operating Revenue Ratio

Total continuing operating revenue (excl all Grants & Cont.)

Total continuing operating revenue

58.6 %

66.3 %

64.4 %

This ratio measures Council's fiscal flexibility. It measures a council's reliance on external funding sources such as operating grants and contributions. Council's financial flexibility improves the higher the level of its own source of revenue.

Benchmark is greater than 60%

March 2022 - Unfavourable

3. Unrestricted current ratio

Estimated

Current assets less all external restrictions

Current liabilities less specific purpose liabilities

2.67

1.45

1.84

The 'unrestricted current ratio' represents a council's ability to meet short-term obligations as they fall due. Restrictions placed on various funding sources (e.g. Section 7.11 developer contributions) exclude these funds from being used in day to day operations.

Benchmark is greater than 1.5x

March 2022 - Unfavourable

Lismore City Council

Quarterly Budget Review Statement
for the period 01/01/2022 to 31/03/2022

Key Performance Indicators (KPI) Budget Review Statement

Budget review for the quarter ended 31 March 2022

	Current Projection Indicator 21/22	Original Indicator 21/22	Prior Period 20/21
(\$000's)			
4. Debt Service Cover Ratio			
Operating Result before capital excluding int & depn	3.01 : 1	2.37 : 1	3.04 : 1
Principal Repayments and Borrowing Costs			
This ratio measures the availability of operating cash to service debt including interest, principal and lease payments.			
Benchmark is greater than 2. March 2022 - Favourable			
5. Rates, Annual Charges, Interest & Extra Charges Outstanding Percentage			
Rates, Annual and Extra Charges Outstanding	9.50 %	9.69 %	9.36 %
Rates, Annual and Extra Charges Collectible			
This ratio is to assess the impact of uncollected rates and annual charges on liquidity and the adequacy of recovery efforts. This percentage is based on the amount outstanding as a percentage of the amount to be collected for rates and annual charges for the current year and outstanding from previous years.			
The ratio will decline as Council moves towards the financial year end and rates instalments are due and paid.			
Benchmark is less than 10%. March 2022 - Favourable			
6. Cash Expense Ratio			
Current year's cash and cash equivalent plus all term deposits	10.39	5.58	13.33
Payments form cashflow of operating and financing activities			
The liquidity ratio indicates the number of months a council can continue paying for its immediate expenses without additional cash inflow.			
The ratio is reported on a consolidated basis and does not separate between restricted and unrestricted funds.			
Benchmark is greater than 3x March 2022 - Favourable			

Lismore City Council

Quarterly Budget Review Statement
for the period 01/01/2022 to 31/03/2022

Key Performance Indicators (KPI) Budget Review Statement

Budget review for the quarter ended 31 March 2022

(\$000's)	Current Projection Indicator 21/22	Original Indicator 21/22	Prior Period 20/21
7. Building & Infrastructure Renewals Ratio			
Asset Renewals (Building and Infrastructure)			
Depreciation, Amortisation & Impairment	81.3 %	89.4 %	76.9 %

Benchmark is greater than 100%. March 2022 - Unfavourable

This ratio is being reviewed as there is more work required to classify expenses between renewals and additions. To assess the rate at which these assets are being renewed against the rate at which they are depreciated. The ratio is a snap shot of what is expected to be spent on renewals for the 2019/209 year only. The final ratio may be impacted due to delays in completion of budgeted works as a result of weather or realignment of priorities as a result of additional grant funding from the RMS.

Lismore City Council

Quarterly Budget Review Statement

for the period 01/01/2022 to 31/03/2022

Contracts Budget Review Statement

Budget review for the quarter ended 31 March 2022

Part A - Contracts Listing - contracts entered into during the quarter

Contractor	Contract detail & purpose	Contract Value	Start Date	Duration of Contract	Budgeted (Y/N)	Notes
No contracts have been advised						

Information contained in the reports is based on the information supplied by Program Managers.

Notes:

1. Minimum reporting level is 1% of estimated income from continuing operations of Council or \$50,000 - whatever is the lesser.
2. Contracts listed are those entered into during the quarter being reported and exclude contractors on Council's Preferred Supplier list.
3. Contracts for employment are not required to be included.

Quarterly Budget Review Statement
for the period 01/01/2022 to 31/03/2022

Consultancy & Legal Expenses Budget Review Statement

Consultancy & Legal Expenses Overview

Expense	YTD Expenditure	Budgeted (Y/N)
Consultancy	231,941	Y*
Legal Expenses	471,700	Y**

Consultants*

A consultant is a person or organisation engaged under contract on a temporary basis to provide recommendations or high level specialist or professional advice to assist decision making by management. Generally it is the advisory nature of the work that differentiates a consultant from other contractors. Amounts previously categorised and reported as consultancy expenses have been reviewed and expenditure that does not fit within the definition of a consultant removed from the report.

This amount represents the net costs incurred as at 31 March 2022

Legal Expenses**

This amount represents the net costs incurred as at 31 March 2022

Imagine Lismore Delivery Program 2017 – 2021

PROGRESS REPORT

Quarter 3 - January to March 2022

Theme A: An inclusive and healthy community

A1: Our community is safe, happy and healthy

A1.1: Support community members to participate in healthy eating and active living.

Code	Action	Measure	Annual Target	Progress Year to Date	Quarterly Update	Responsibility	Status
A1.1.1	Provide a safe inclusive environment for our senior population and encourage increased attendance to Aqua and Gentle Moves Sessions through promotion and marketing	Attendance figures	Increase session attendance by 10% over next 6 months		Since reopening with reduced COVID restrictions our gentle moves and aqua classes have again been very well frequented. We have seen an increase in attendance for both classes. Further marketing and promotion of the classes will encourage new members of the community to attend and keep us on track to reach our target.	Manager Liveable & Active Communities	
A1.1.2	Provide Swimsations Program for children aged 6 to 18 months, introducing them to new life skills	Attendance figures	Maintain Bubbling Babies and Tadpole numbers over Term 2		Our bubbling babies and tadpole Swimsations programs have been an invaluable development step for children aged 6 to 18 months. Since the easing of vaccination	Manager Liveable & Active Communities

					requirements. These programs have seen an increased in participation and enrolment numbers. However, due to unforeseen circumstances we were unable to continue to run these programs for the remainder of term 1. These programs will recommence in May 2022.		
A1.1.3	Increase participation in a broad range of Group Fitness classes to suit age levels 14 - 80+ encouraging social interaction and good health	Attendance figures	Increase attendance overall by 5%		Our diverse range of group fitness classes have been made available since the easing of COVID restrictions. However, our attendance numbers have been affected due to the increase of positive COVID cases amongst our group fitness instructors and gym members. Through promotion, advertising and new instructors we anticipate this to increase overall	Manager Liveable & Active Communities
